ACKNOWLEDGEMENTS

This bibliography is an attempt to list, in so far as possible, the writings of a giant in the field of surgery in the past century, Samuel David Gross, M.D., LL.D., D.C.L. Included here are books and monographs, periodical articles, biographical sketches, and case reports from his clinics.

This has been a collaborative venture. In addition to his affiliation with Jefferson, Dr. Gross was on the faculties of the Universities of Cincinnati and Louisville. We acknowledge the cooperation of Ms. Billie Broaddus, Director, Historical Archives and Museum Services of the University of Cincinnati, and, Mr. Leonard Eddy, Director, Kornhauser Health Sciences Library, University of Louisville, who provided references to articles by Dr. Gross in journals published in their respective cities.

Many staff members of the Scott Memorial Library, Thomas Jefferson University, provided technical assistance with this publication including Diane Chronister, Chris DiTunno, JoAnne Sparks, and Kevin Johnson. Also to be acknowledged is the urging of my wife, Arlene, to see the project completed.

The compilation of this bibliography would not have been possible without the unstinting assistance of the resources and staff of the Library of the College of Physicians of Philadelphia, especially Mr. Thomas Horrocks, Ms. Jean Carr and the library pages who cheerfully and promptly brought the needed material from the stacks.
