Accreditation Update

The Council on Education for Public Health submitted a draft report of the site visit team that reviewed our MSPH program in January. We are now taking the opportunity to respond to the report and put some suggested changes in place by May, 2006. Our response will be sent to the CEPH Board of Councilors. Consideration of our response and implementation of suggested changes will be considered by the Board of Councilors during their meeting in June. At that time, CEPH will determine the length of our accreditation. Thank you again to all who participated and helped contribute to a positive site visit experience! Please stay tuned and we will keep you informed.....

The Annual Sigma Xi Student Research Day-Tuesday March 21st

Bluemle Building Rooms 105-107

Potter-Wear Lecture: Room 101 (Speaker is Dr. Phillip Zamore)

NATIONAL PUBLIC HEALTH WEEK IS COMING!

April 3-9, 2006

Theme: Designing Healthy Communities,
Raising Healthy Kids

<http://www.apha.org/nphw/2006>

The student group Jeff SAPHE (saphe.org) has organized certain events during the celebration to educate and service the students, staff, faculty and community at large. This year they are planning to hold a one day event in Jeff Alumni Hall that includes lectures/seminars, health screening booths (cholesterol, BP, BMI, etc) and the Annual SAPHE Award Luncheon. Students will be contacted with award descriptions and they will be given the opportunity to vote on the recipient of one of the awards.

Sack lunches catered by Nutrition & Dietetics

Volunteers Needed

Please sign-up via e-mail (Ahmad.Naim@Jefferson.edu) and ask your friends & fellow classmates to volunteer for the above events.

Award Descriptions

The “Excellence in Community Service Award” is awarded to the leader of a local community-based organization for their efforts to improve the lives and health of Philadelphians.

Starting this year we have also started a new award called the “Georganne Buescher Memorial Faculty Recognition Award” to recognize the efforts and services of a faculty member.

Student Objectives

Graduates of the MSPH program are expected to be able to:

- Articulate the principles that are basic to public health, including methods for assessing the determinants of the population’s health;
- Communicate effectively with colleagues, in and out of public health, and the lay public, about the scientific principles that form the basis of the discipline;
- Analyze published literature in public health, including the application of relevant aspects of epidemiology and biostatistics;
- Explain the variability in access to care and public health resources, including the workforce in the United States and abroad;
- Articulate the role of psychosocial factors as they relate to personal behavior, public health communications, education and impact;
- Describe the major environmental health hazards, their effects on individuals, their assessment and development of policies for protection of the public’s health;
- Serve as a resource for information on health services, including aspects of healthcare financing and outcomes measurement;
- Delineate the legal and ethical principles that inform public health practice.
