Introducing Interprofessional Education (IPE) Grand Rounds:

Lessons from a New Student-led IPE Initiative
Introductions

- Lauren Collins, MD
- Tracey Vause-Earland, MS, OTR/L
  - Sarah Dallas
  - Amanda Gibson
  - Chelsea Gorman
  - Claire Sokas
  - Jessica Verzella
Learning Objectives

• Describe 2-3 benefits for enhancing student exposure to real world collaborative practice teams

• Develop an action plan for starting an IPE Interest Group at your institution

• Describe 3 practical tips for implementing an IPE Grand Rounds
Session Agenda

• Background of IPE Grand Rounds/Student Interest Group- 5 min

• Video Clip of IPE Grand Rounds - 5 min

• Description of Innovation and Evaluation Results - 10 min

• Lessons Learned/Future Directions - 5 min

• Student, Administrator and Faculty Panel discussion- 15 min
Overview: IPE Grand Rounds

- Unique extra-curricular interprofessional initiative designed to increase student exposure to real-world collaborative practice teams

- Led by a team of students from multiple healthcare professions and open to students from any profession on TJU’s campus
Background

- Early exposure to concepts of interprofessional teamwork at Jefferson led students to seek out new opportunities to further their understanding of interprofessional teamwork in real-world clinical settings.

- With support from Jefferson Center for Interprofessional Education (JCIPE), student leaders assembled a student-led IPE interest group, developed a core mission statement and overarching goals and hosted their pilot event in April 2014.
Mission Statement:

To promote excellence in healthcare education by facilitating the interaction of health care students with real-world collaborative practice teams through a unique extracurricular experience.

Goals:

1) Students will gain exposure to real world collaborative practice teams
2) Students will learn about health professional roles and expertise in specific clinical settings
3) Students will gain practical tips and advice for working as part of an interprofessional healthcare team
Video Clip:

Pilot IPE Grand Rounds Event:

Interprofessional Collaborative Practice in the ICU

April 2014
IPE Grand Rounds: Pilot Event

- 50 minute panel presentation/discussion
- Interprofessional SICU team presented a case study, discussed their respective roles, expertise and teamwork styles and engaged in an interactive question and answer session
- The case study involved the implementation of ABCDE protocol to promote early mobility and ambulation in ventilated patients.
- Student participants completed a post-survey to assess their learning and engagement
Interprofessional Collaborative Practice in the ICU: A Panel Discussion

1. Discipline (please circle): CPT Medicine Nursing OT Pharmacy PT Other _____________

2. Level of training (please circle): First year Second year Third Year Other _____________

Please indicate your level of agreement with the following items:

3. After participating in this panel discussion, I have a better understanding of interprofessional teamwork in the ICU.
   - Strongly Disagree 1 2 3 4 5

4. The panel provided me with practical information that will help me in my clinical/professional experience.
   - Strongly Disagree 1 2 3 4 5

5. I would like to attend future IPE Grand Rounds events.
   - Strongly Disagree 1 2 3 4 5

6. At what point did you feel most engaged in the discussion?

   __________________________________________________________

7. At what point did you feel most distracted or lose interest in the discussion?

   __________________________________________________________

8. What practice teams or topics would you like to see featured at future IPE Grand Round events?

   __________________________________________________________

Open Ended Responses: Positive Feedback

• “It was all very engaging and informative—will definitely help in the future!”
  - 1st year OT Student

• “I think this should be integrated into the Health Mentors Program. I learned more in this panel about interprofessional communication than I did over 2 years in health mentors.”
  - 2nd year Medical Student

• “[I felt most engaged] When the panel discussed the importance of asking questions.”
  - FACT Nursing Student
Open Ended Responses: Constructive Feedback

• “[I felt most distracted] If a speaker spoke softly, microphones next time?”
  - 1st year PT Student

• “At some point during the discussion didn't feel I heard from some disciplines.”
  - 2nd year Pharmacy Student
Future Directions

- Monthly IPE Grand Rounds sessions for the 2014-2015 academic year
- Continue to collect mixed-methods survey data after each IPE Grand Rounds session
- Use collected data to shape future IPE Grand Rounds sessions
- Apply for Student Organizations status
IPE Grand Rounds for 2014-2015

• Wednesday, October 15th-Planned presenter: Dispo Dilemma/Rehab team

• Tuesday, November 11th-Planned presenter: Falls Clinic team

• Tuesday, January 20th-Planned presenter: Senior Adult Oncology team

• Tuesday, February 10th-Planned presenter: MICU team

• Tuesday, March 10th-Planned presenter: Palliative Care team
Conclusions

• Further exploration of the efficacy of student-led IPE Grand Rounds as an extracurricular intervention is needed.

• Initial positive feedback indicates that this novel approach may help to bridge the gap between classroom-based, faculty-led IPE and real-world clinical experience.

• IPE Grand rounds is uniquely positioned to detect areas for improvement in IPE implementation and to share lessons learned with students, faculty and leaders at our home institution as well as other institutions.
