#### American DanceWheels Demonstration

American DanceWheels has developed the first American Style Wheelchair Dance Program in the world. This developing curriculum allows disabled participants the ability to partner with anyone who can ballroom dance, because its structure is synonymous with the able-bodied syllabus. Thus, wheelchair dancers will have the experience of learning to dance socially and competitively along with their able-bodied partners. Enjoy this demonstration by two of the American DanceWheels founders, Melinda Kremer and Ray Leight.

Friday, October 20

12:00 noon – 1:00 p.m.

#### The Role of Service Dogs

Canine Partners for Life (CPL) works to increase the independence and quality of life of individuals with mobility impairments by providing professionally trained service dogs and support services.

CPL has become one of the most desirable programs in the country based on its commitment to excellence in training the canine partner and providing the most complete postgraduate support. CPL has evolved to include service dogs; seizure alert dogs; home companion dogs; and residential companion dogs.
