New to Health Mentors Program? Please let us know if you would like to be paired with an experienced Health Mentors Program Small Group facilitator for your first session. For more information and/or interested in co-facilitating a small group session, please contact Sokha Koeuth by email (sokha.koeuth@jefferson.edu) or phone (215-955-3757). Thank you so much for your teaching and leadership.

Health Mentors Recruitment for Fall 2011!
The Jefferson InterProfessional Education Center is now recruiting Health Mentors for Fall 2011! The Health Mentors Program is an opportunity for students from the Jefferson Medical College, Jefferson Schools of Nursing, Pharmacy, and Health Professions (Physical Therapy, Occupational Therapy and Couple and Family Therapy) to learn FIRST HAND from a patient about things that really matter to patients living with chronic health conditions or impairments.

The Health Mentors are adults of any age from the community who live with one or more chronic health conditions (i.e. diabetes, high blood pressure, asthma, arthritis, cancer or others) or impairments (i.e. spinal cord injury and cerebral palsy or others) and would like to volunteer their time to teach students the importance of patient-centered care. Students will talk to their Health Mentors about things that are important to being a good health care professional. Topics include: medication usage; patient safety; activities of daily living; and wellness care. If you would like to apply to become a Jefferson Health Mentor, or just get more information, you can contact Sokha Koeuth by email (sokha.koeuth@jefferson.edu), phone (215-955-3757) or visit us at http://jeffline.jefferson.edu/jcipe/hmp/.

Upcoming Faculty and Staff Development Programs

Interprofessional Education and Care Practicum
Application Deadline Date: September 30, 2011
This 5-session practicum is a hands-on didactic and interactive experience for faculty and staff who are interested in developing a pilot interprofessional education (IPE) or care (IPC) project in either an educational and/or practice setting. Jefferson faculty will mentor you in planning, delivering, and evaluating your interprofessional education or care project.
Participants will attend 5 sessions to gain specific skills in IPE development, finding an IPE teaching team, computer assisted technologies, learning objectives and evaluations.

Added bonus: Jefferson staff/faculty who complete the training and an IPE plan will be eligible to apply for up to $1,000.00 to their departments to assist in funding pilot projects. Unfortunately, we will not be able to offer funding to non-Jefferson participants. However, all participants who complete the training will be eligible for free registration to the Spring 2012 Interprofessional Care for the 21st Century: Redefining Education and Practice conference.
