New CREATE Day Presentations in the JDC

Collaborative Research and Evidence Among Therapists and Educators (CREATE) Day is a clinical education program presented by occupational therapy graduate students in partial fulfillment of the Master of Science degree in Occupational Therapy at Thomas Jefferson University. The latest CREATE DAY presentations have been loaded in the Jefferson Digital Commons and this round includes the following topics:

- Reach for the Stars: Improving Upper Extremity Function After Spinal Cord Injury
- I Think Therefore I Can. A Systematic Review of Metacognitive Strategies and their Impact on Occupational Performance in Adults Following Stroke
- PromOTing Quality of Life for Individuals with Huntington’s Disease
- Risky Business: A Systematic Review of Strategies to Promote Healthy Sexual Activity in Adults Over Age 50
- Early Mobilization in the Intensive Care Unit (ICU): A Systematic Review
- Using Interprofessional Education & Simulation-based Learning in Health Profession Curricula to Improve Competence & Confidence: A Systematic Review
- Staying in School: A Systematic Review of Interventions for Individuals with Mental Illness
- A World of Opportunities: Community Reintegration for Individuals with Brain Injury
- Making It Work: Individuals with Autism Spectrum Disorder and Adaptations for Successful Employment
- Back in the Saddle: A Systematic Review of Occupational Therapy Interventions that Facilitate Return-to-Work
- Interventions for Improving Occupational Performance Post-Concussion in Children and Adolescents: A Scoping Review

If you would like to record capstone presentations for your program, contact dan.kipnis@jefferson.edu.
