Clinical & Drug Information

UpToDate (anonymous on-campus version)

UPTODATE (CME AND OFF-CAMPUS VERSION)

Evidence-based, physician-authored clinical decision support resource for clinicians making point-of-care decisions.

Access UpToDate

The first time you connect to UpToDate using this link, you will be asked to provide your campus key and pass-word. Once you log in you can create a personal account for future use of the UpToDate system. Creating an account only takes a few seconds, you won't have to re-enter all of the information each time you connect through Scott Library, and it provides off-campus access and CME credit.

LEXICOMP

Comprehensive pharmacology content applicable at the point-of-care across all patient ages and many areas of specialization.

Access Lexicomp

- Quick Reference Guide
- Training Videos (view on the Lexicomp home page)

THE MEDICAL LETTER

Critical appraisals of new prescription drugs and comparative reviews of drugs for common diseases. Includes the Handbook of Antimicrobial Therapy, an adverse drug interaction program, and a mobile app.

Access The Medical Letter

ACP SMART MEDICINE

American College of Physicians' decision-support tool designed for rapid point-of-care delivery of up-to-date, evidence-based guidance for clinicians.

Access ACP Smart Medicine (via STAT!Ref)

NATURAL MEDICINES

Evidence-based databases, tools and continuing education about dietary supplements, natural medicines, and complementary alternative and integrative therapies.

Access Natural Medicines

DRUG INFORMATION GUIDE

Reference guide highlighting selected resources provided by the Scott Memorial Library, Thomas Jefferson community and the Web.
