JEFFERSON NURSES' ALUMNI ASSOCIATION
MEETING CALENDAR

Regular meetings of the Alumni Association will be held on the following dates:

- September 9, 1986
- November 11, 1986
- January 13, 1987
- March 30, 1987
- May 2, 1987 (Annual Meeting)

The meetings will be held at Jefferson Alumni Hall, 10th and Locust Streets, Philadelphia. Meetings will begin at 4:30 P.M., except the Annual Meeting which will begin at 10:00 A.M. Room number will be posted in the lobby.

A MESSAGE FROM THE PRESIDENT

Dear Fellow Alumni,

Well, another year has flown by and I would like to tell you — your Alumni is alive and well. Although the number attending our Alumni Day luncheons each May varies only slightly, (350 plus or minus), our anniversary class attendance remains rather high. I personally feel, the older we get, the more memories we treasure and the more we want to share them and ourselves with our friends — Try it—you'll like it!

Your Board of Directors, Committee Chairpersons, and those who actively participate in our meetings, do hear and respond to your suggestions. You may be happy to know that we are planning a change in our By-Laws. This proposed change is for your benefit — the annual meeting would be held on the day of the luncheon rather than on the second Tuesday in May. At this, the annual business meeting, you will have the opportunity to make yourself heard as well as find out the results of the election. You get the news on the spot!

Our Scholarship Fund and Relief Fund Committees have been more active this past year. We would be happy to hear from or about anyone who needs assistance.

I wish to thank my Board of Directors, Committee Chairpersons, their Committee members, and the active members of the Alumni, for all the help and support they have shown this past year. It is a privilege and an honor to serve you for a second term.

Fondest wishes,
Flossie Roche, R.N., CNOR

NURSES’ RELIEF FUND

The Nurses’ Relief Fund is available to all Diploma and White Haven graduates. The purpose of the Relief Fund is to provide financial assistance annually toward hospital bills and/or bills incurred at home due to an extended illness requiring the services of a physician.

The fund is also available for use in cases of adversity. Nursing Home cases will be given special consideration. All things being equal, first consideration will be given to Life and Active members. However, all applications received will be reviewed and given consideration.

All or a portion of the amount distributed to a recipient from the Relief Fund may have to be reported to the Internal Revenue Service as taxable income. Each recipient will receive a statement at the end of the year showing what portion of the distribution to her/him should be reported.

During 1985 we have been able to assist fifteen of our graduates from the Relief Fund. IF YOU KNOW OF ANY JEFFERSON OR WHITE HAVEN GRADUATE IN NEED OF ASSISTANCE, PLEASE LET US KNOW AS SOON AS POSSIBLE.

An application for Relief Fund benefits can be found in the back of the bulletin.

NURSES’ SCHOLARSHIP FUND

The Clara Melville-Adole Lewis Scholarship Fund continues to provide scholarships to Diploma and White Haven graduates.

May 1985, the Scholarship Committee took action to grant scholarships to part time, as well as full time applicants. Provided the applicant is enrolled in a program leading to a degree in nursing and enrolled for a minimum of six (6) credits.

Scholarships will be available for summer, fall and spring semesters.

Each application received will be reviewed by the Scholarship Committee. Preference will be given to the applicant who has been a member, who is most active in the Alumni Association, and who has most nearly completed requirements for a degree.

A Scholarship application can be found in the back of the bulletin.

On January 9, 1982, Patricia Dunn, RN, was admitted to Philadelphia’s Pennsylvania Hospital in premature labor. She was 26.5 weeks pregnant. Doctors controlled her contractions with uterine relaxants. But 3 days later, ultrasonography showed that the fetus had hydronephrosis and hydroureter of the left kidney.

A cystic mass in the fetal kidney was causing fluid to accumulate, putting pressure on the fetus’s abdomen and chest. If this pressure increased, it could cause severe lung and kidney damage. Dunn knew this could be fatal to the fetus. And even if the fetus lived, the damage was likely to be irreparable.

On January 19, another ultrasound study showed that the renal mass, now measuring 6 x 8 cm, was creating pressure on the fetal thorax, elevating the diaphragm and causing hydronephrosis in the right kidney, too.

Pennsylvania Hospital obstetrician Stewart Weir, MD, laid out three possibilities: First, if doctors didn’t intervene surgically, the fetus probably would be born with severe anomalies and die shortly after birth. Second, they might induce labor and deliver the 28-week-old fetus, who would have the expected problems of prematurity as well as life-threatening kidney problem. Third, they might perform percutaneous aspiration of the cystic mass, an experimental technique for treating fetal urinary-tract obstructions. By decompressing the mass with a needle, doctors hoped the fetus’s lungs and right kidney would develop normally and lead to a full-term pregnancy.

Here’s what Patricia Dunn decided and what happened afterward.

It wasn’t an easy choice. I didn’t want to lose the baby that could feel moving around inside of me. But I didn’t know if I could devote my life to a disabled child. My husband and I also had to consider the needs of our two other children.

The type of fetal surgery suggested by Dr. Weiner offered hope. But as an obstetric nurse, I knew the procedure was risky. Blood vessels or fetal organs might be ruptured accidentally. Also, there could be a premature rupture of the amniotic sac, as well as infection or premature delivery.

My husband and I talked late into the night about what we should do. But I never felt so isolated in my life. Only I could feel the baby’s movements. And somehow I thought the decision was more mine than anyone else’s. Mixed up by the fast-moving confusion, I felt deeply guilty, bitter, and angry. It didn’t seem fair. Both of us love children so much. Why did we have to make such a critical decision? What if we made the wrong decision? For the rest of that night, we got very little sleep.

The next morning, we told Dr. Weiner: We wanted him to try in utero corrective surgery. That afternoon, he performed the needle aspiration of the cystic mass. It took about 30 minutes.

The initial procedure decompressed the mass, giving the fetal lungs and right kidney more space to develop. Ultrasound studies revealed that the mass continued to grow, however. Pressure on the lungs and right kidney from the cystic mass determined when the procedure must be repeated. During the next 6 weeks, the procedure was performed three times.

Each time, I went into premature labor and was given uterine relaxants. Because I was sedated during the procedures, I grew more and more concerned about the baby’s well-being. Afterward, I would anxiously listen for normal fetal heartbeats and wait for fetal movement to resume. I was also afraid of delivering the baby during that time because he might have respiratory depression from being sedated.

With time on my hands, my feelings of guilt, bitterness, and anger surfaced again. I kept wondering if I’d done something wrong to precipitate the fetal problems, although I’d been careful with medication, caffeine, and so on. I wondered if a genetic factor was involved. I kept looking for answers, but I found none. And because I was hospitalized more than I was home, I was torn between who needed me more—the
HOW YOU CAN HELP AS A NURSE

If you're caring for a woman who's undergoing fetal treatment, here are some helpful things to remember:

Before the procedure
- Examine your own attitude about fetal treatment —your active support of her decision is vital. If you can't join her, then ask your head nurse to reassign the patient to a nurse who can.
- Don't assign her to the same room as a mother whose baby rooms in or visits for feedings. Because the outcome of your pregnancy's uncertain, she may feel even more isolated and depressed at seeing another patient's baby.
- Offer yourself — be there and listen. Realize that her feelings of guilt, bitterness, anger, or denial are normal and similar to those experienced during the grieving process. Encourage her to express those feelings to you or to a psychiatric nurse-consultant.
- Help her explain the procedure to her children, using words, drawings, or teaching aids (such as dolls) appropriate to their ages.
- Avoid using such expressions as "God (or Nature) will take care of it" — the outcome of this patient's pregnancy is uncertain.

During the procedure
- Reach out. Holding her hand helps her cope with pain and keep still. It also shows that someone cares and is there for her.
- Keep her informed of the health of the fetus by checking the fetal monitor continually. She may fear the worst if she's not sure.

After the procedure
- Understand that she may feel isolated and alone. Putting her in touch with other mothers who experienced fetal treatment may help.
- Allow her husband or another supportive person to stay with her if she desires.
- Let her know that mothers with high-risk pregnancies usually suffer more severe postpartum depressions.

A Pandora's Box Of Ethical Problems

From an ethical perspective, fetal treatment poses complex questions about when life begins and raises the issues of abortion and right to life.

If a fetus can be treated like any patient, does that make it a "person"? If so, can a doctor who neglects to insert a drainage catheter into the head of a hydrocephalic fetus be sued for medical negligence (malpractice)? Can a mother who refuses fetal treatment be compelled by the courts to have it done? 

And, finally, if a mother refuses treatment and decides on an abortion — what are the legal and moral implications?

Bioethicists are pondering these questions — and raising some more. In an article in the Journal of the American Medical Association, Dr. John Fletcher of the National Institute of Health pointed out "the apparent inconsistency of encouraging fetal therapy on the one hand and respecting parental choice about abortion on the other. Should the moral status of the wanted fetus with a treatable defect outweigh that of an unwanted fetus with the same treatable defect?"

And in an article in life magazine, ethicist, Richard McCormick of Georgetown University posed the hypothetical case of a woman who refuses a blood transfusion because her religion forbids it. Most courts would probably support her decision, even if she dies. But what if her unborn child needs the transfusion?

Today, doctors can determine if a fetus has any of more than 100 birth defects by using techniques such as ultra- sound, fetoscopy, amniocentesis, amniography, and fluid collection from the fetus. Which fetuses should be treated and which shouldn't?

As the brave new world of fetal treatment unfolds, the debate will intensify.

The surgery performed on Patrick Dunn is one of four techniques used to treat fetal abnormalities. These formerly untreatable medical advances can be done today for two reasons: Doctors can detect fetal disorders earlier in the pregnancy using their sophisticated arsenal of techniques for prenatal diagnosis. And urine relaxants introduced during the last 10 years keep the traumatized uterus from contracting during fetal treatments. Here's a short description of each of these techniques:

1. Intrauterine blood transfusions. The first human intrauterine procedures were done in New Zealand in 1963. Fetuses with severe anemia because of Rh blood incompatibility were given transfusions directly through the abdomen. Since 1974, drugs have been administered to fetuses with vitamin deficiencies, dystrophies, respiratory distress syn- drome, and thyroid malfunction.

2. Intrauterine aspiration. The earliest attempts at surgical treatment were called "needlings"—draining fluid-filled areas of the fetal brain or thorax by inserting a needle. First performed in 1978 when doctors at Harvard University, Cambridge, Mass., drained cerebrospinal fluid from the fetal brain because of hydrocephalus, the procedure is also used to treat urinary tract obstructions such as Patrick Dunn's, when insertion of a drainage catheter isn't required.

3. Intrauterine catheterization (drainage tube insertion into bladder). More invasive than needling, this form of intrauterine catheterization requires implanting a plastic catheter in the fetal bladder to drain excess fluid. The drainage catheter usually stays in place until birth, when more permanent surgical treatment is possible.

This procedure was first performed successfully in April, 1981, at the University of California, San Francisco, on a fetus (a twin) diagnosed with hydropsphrosis. A catheter was inserted into the fetal bladder, preventing a life-threatening urine build-up. The procedure worked: The twins are now 3 years old.

4. Intrauterine catheterization (brain shunt insertion). Another form of intrauterine catheterization is being used to treat hydrocephalus, in which a buildup of fluid in the fetal brain causes developmental delay of nerve cells, causing retardation or death. In this procedure, a "prenatal brain shunt"—developed by doctors at the University of Colorado, Denver—drains fluid into the amniotic sac.

At the National Institutes of Health in Bethesda, Md., current experiments are paving the way for treating major birth defects such as congenital diaphragmatic hernia, spina bifida, and limb deformities. Someday, performing bone and organ transplants in utero may also be possible.
Further Remembrances

Last year when I wrote “Tempos Fidgetis” I hoped others would remember their “pink” days at Jeff and record them for a growing history of “Training at Jeff.” But, it was not to be. Many of you wrote, called and said the article evoked memories—good and bad, many of which are funny in ret­rospect. I must say that it was a difficult paper to write be­cause so much was put to paper. But, I worked it all out and now see the real humor and the results of the experiment because I have done it all on paper. As one of my classmates once said, “he was the last one they ever expected to remain in nursing and earn a doctorate.”

Because of your responses to last year’s article, I have been asked to continue with my memories. I doubt they will be as amusing, second attempts rarely are. So here goes. …

Our days as a Probie were busy. Each day began on the ward, sweeping the floors, counting the face towels and serv­ ing Jell-O dishes to the patients. Some patients got a bowl (really a crock) of hot tea with lots of sugar in it. We did not serve milk or cream because this produced gas which led to troubles for both the patient and nurse. Prostigmine was introduced while we were students. Now, they are rarely, if ever, used. They were the miracle drugs of the day.

Maternity Ward was a happy—really so—place to be. For some reason, never explained, it was 12 hour duty until Dr. Vaux said the patients needed time off too. Night duty was 7 to 7. I spent that time on Eleventh Floor—private. I don’t remember how long it was, one or two weeks, but it was an interesting time. If there was to be a delivery, the patient had to be transported to the 14th or 15th and the freight elevator. The regular elevators didn’t stop at 3, 4, 5 or 6.

‘I really remember about night duty were those thou­ sands of gladioli. It must have been August and everyone’s garden was loaded with gladioli. It was the night nurse’s job to carry all bouquets out into the hall at night, and change the water and pluck off the dead flowers in the morning. I dislike gladioli to this day!’

It was also on 11th Floor that I had the happy chore of catheterizing a lady and took out 1500 cc. She had been in the delivery room by her obstetrician and he evidently hurt her because she did not want it done again. But she had to be emptied. When I returned on duty the next evening, I was greeted with ‘An! at least!’ And had to cath her then and again before I left at 7 A.M.

But who can forget the ‘Jesse’ card on Mat? We really had that down to a routine and patients who had to go in between were told to come in schedule. It is hard to believe today how many mothers are out of bed almost immediately and able to use the bathroom. We really have come a long way in this area. Probably my most embarrassing time was when I had to be taken from Mat isolation because I was sick. I ate a raw carrot one of my friends in Diet Kitchen gave me. I was on 11th Floor that day and stood with the patient’s room. There, you were supposed to be an assistant to the anesthetist. Sometimes you were asked to address the nurse so her body would prevent heat from getting to the patient. FROM THE Tju Historian

The 1907 Hospital ("Old Main")
The southwest corner of Tenth and Sansom Streets may be considered a "tough old spot" as far as the physical endurance of its buildings is concerned and as "holy ground" in terms of its benevolent minute. Only two buildings have been located there. The first was "New Medical Hall" of Jefferson Medical College, erected on this corner in 1829 through the benefaction of the Reverend Ezra Giles Elly, a member of the board of trustees. The original college building, from 1825 to 1826, was the renovated Twelfth Theater at 518-20 Prune Street (now Locust). Enlargements and modifications of the Tenth Street Jefferson Medical College in 1839, 1849, 1859 and 1861 changed its appearance from that of a church, to that of a Greek temple, and finally to a facade of florid Victorian style. In the renovation of 1870, two stories on the corner in which the upper floors had served as a connected mini-ward for 15 post-surgical patients were converted into a laboratory building.

About 1895, it became evident that a building program was necessary to provide Jefferson with a new medical school and a new hospital. In 1898, after 70 fruitful years at Tenth and Sansom, a new Jefferson Medical College was erected at the corner of Tenth and Walnut, where now stands the Curtis Building. The old hodgepodge of Jefferson Medical College was now ready for demolition to accommodate the new Jefferson Medical College Hospital (the present "Old Main").

Was "Old Main (1907)" the first Jefferson Hospital? Taking back to May 1825, dispensary were available to the public at the old Twelfth Theater site. (See Directions, October 1985). The first full-scale hospital was built in 1877 on the corner of Tenth and Eleventh, where now stands the Thompson Building. It was the second teaching hospital in the country to be connected with a medical school, the first being the Harvard Medical School in Boston, in 1829. It was in this hospital that Jefferson became established as a great medical institution.

New Uses for "Old Main"

After becoming unsuitable for inpatient care, it functioned for a variety of outpatient, research and educational activities, housing the department of radiation therapy and nuclear medicine, the Hemophilia Center, the Clinical Pharmacology Unit, educational facilities for the College of Allied Health Sciences and psychiatric outpatient care. A decision has been made to preserve this old but structurally sound building. Among other things, the building will house an imaging center with the latest equipment for diagnosis by ultrasound, CT scanning and nuclear magnetic resonance. There is a certain nostalgia for the preservation of the English style English-lish style achieved by the architects, James Whiteman and Son. The new look restored by the outside cleaning process unveils the salmon bricks from their previous black, accentuates the pediments and pilasters, while attracting the admiring gaze of many passers-by. "Old Main" is starting a second life in keeping what was best of the old and adding the best of the new.

Fall Cleaning Revitalizes "Old Main"
The facade performed on the Main Building this fall represented a dream-come-true for Gene E. Proud, director of physical plant.

"It was just a very dirty building," said Mr. Proud, explaining why he proposed that "Old Main" be cleaned by a special process. Michael J. Bradley, executive director, agreed that the building was in dire need of a cleanup, and the project went forward.

The process, which involved the application of a special cleanser, then rinsing with high-pressure water, took only about eight weeks. During this time, some needed patching of the exterior and bird-proofing were also done.

In addition to revealing the original colors of the bricks and its interesting architectural features, the cleaning has unmissed the words, "Jefferson Medical College Hospital," on the front of the building and "Jefferson College Dispensary" on a side.

By Frederick B. Wagner Jr., M.D.

During the cleaning of "Old Main," a dramatic line of demarcation could be seen. Here, project manager William Morris, left, and Gene E. Proud, director of physical plant, view the progress of the work.

JEFFERSON SURGICAL CENTER OPENS

The third floor. Among the procedures offered on this floor are: Ear, Nose and Throat Surgery; Hand Surgery; Hernia Repair; Breast biopsy and Minor Gynecological Surgery. Ambulatory surgery enables the patient to arrive, undergo surgery and return home on the same day. Those patients are reunited more quickly with family members; lose less time from work; and enjoy financial savings because hospitalization is not necessary. The center also features special facilities for children, including a playroom for pediatric patients awaiting surgery. Parents can accompany their children throughout the experiences, except while in the Operating Room. Last year, 38 percent of the surgical operations performed were ambulatory cases. By 1985, 50 percent of all surgical cases in the nation will be ambulatory in nature. Jefferson is ready.

The newly reconstructed both and 8th floors of the Thompson and Main Buildings will house the new Ultra Sound Department opened in early July with the most modern Diagnostically equipment available.

The construction of the Bodine Center for Radiation Therapy is proceeding on schedule, and is expected to be opened early in 1987. This Department is newly constructed where the parking area was located on the Street Level of the New Hospital, and was fully described in our Alumni Bulletin last year.

Jefferson is still "On The Move"

Construction on the new Medical Office Building at 1100 Wolfs Street was completed this year, and was officially opened in July. The building is to be the new facility for the preservation oncology care center, and will house the Jefferson Surgical Center on the

From Vivian L. Moyer
Phone: 215-477-6981

(A previous article was published in 1979 Bulletin)
It has occurred to me that my fellow Alumni may wonder whatever happened to Vivian Moyer. Unfortunately I cannot report I am hopping in and out of cabs, with the help of a doorman, as before. Now I am an active user of Septa Paratransit, which on short order sends a van with a lift for my wheelchair.

My home health aide and I go to various and sundry places via this blessed transportation. We are picked up at 9 a.m. and the van returns for us at 1 p.m. I can assure you the greatest amount of energy for people with multiple sclerosis comes in the morning, hence these hours. It gives me an opportunity to get my shopping chores accomplished in various malls throughout the city of Philadelphia.

I also have a friend who owns a van with a wheelchair lift. He takes me to Avalon, New Jersey in the summertime when my sister, nieces and their children, age 2, 2 and 6 months are there. These same children visit me once a week and we have a glorious play session.

In my last report I was tutoring RN's who failed State Boards. My nursing and teaching experience helped. All those tutored passed the next Board exam.

I discontinued tutoring because I finally needed an aide to transfer me from bed to wheelchair, etc. This is accomplished by aides boosting me, then we hold each other as if to dance. In this manner I can stand on my feet and then pivot whenever I plan to sit. I have three efficient home health aids—one from 7:30 a.m. to 12:30 p.m. during the week; another one during those same hours over the weekend; and one from 4 to 6 p.m. to transfer me into bed.

The Bionic Woman — In my bedroom is a hospital bed (brown, not white) with electric controls — head and feet up or down; bed up or down. Several feet below the bed is a t.v. and of course remote control. On the wall I arranged for switches—one turns the air conditioner on or off; the other turns a heater on or off. Beside the bed is a wide bedside cabinet with a formica top. It contains three drawers and a cabinet. I arranged for the carpenter to put wheels on this cabinet and affixed a platform to the side. This holds extra large waste basket lined with "Hefty" bags. The wheels help me to restojd the table when necessary. Used Pampers are tossed into the waste basket. My evening aide prepares a light supper. She proceeds with back care and passive exercises to legs. Then on my left aide beside the wall, she places Pampers, Kleenex box, towel, and the current book I am reading. (Pampers were a great discovery since I am an active user of Septa Public Transportation.) We are picked up at 9 a.m. to 12 noon to 3 p.m. free time and in an effort to try to contribute to society, I have begun tutoring again.

So you see, "Jeff" training has helped me in many ways.

Note: Miss Moyer was graduated from Jefferson Hospital School of Nursing in 1943. Her clinical experience from 1945 to 1953 was wide and varied. In addition, she served in the Army Nurse Corps, WWII, and spent 18 months in a General Hospital in England. In 1953 she received a BS in Nursing Education from the University of Pennsylvania, after which her teaching career began. She was president of the Jefferson Nurses' Alumni Association—1959, 1960, 1961.

Bulletin Committee

The Bulletin Committee wishes to thank everyone who helped in any way with the publication of the 1986 Bulletin.

We have endeavored to be as accurate as we could, so if any names are misspelled please forgive us, it was not intentional.

You will note in the treasurer's report for 1985 which appears in this bulletin, we are always on the lookout for ideas.

Alumni Office News

In September 1985, Betty Pieriol and I were appointed by the president of the Alumni Association as the Alumni Office Coordinators. This was done at the recommendation of Martha Rilind — who held this position since January of 1969. Although Betty and I had frequently helped Martha, it was quite different when we assumed the full responsibility for the office. Quite frankly, I don’t know how Martha did it by herself. The Alumni Office owns her a big thank you for her commitment to her Alumni and to this office.

In 1985, 2,944 copies of the alumni bulletin were mailed, this included the 11 overseas mailings. A great deal of our time is spent in checking names, addresses and trying to track down graduates who give us insufficient information.

January 29, 1986 the alumni office moved from room 105 Edison to M-32 Jefferson Alumni Hall (this is only a temporary move). We like it much better being in Jeff Hall. During 1985 we undertook the tremendous task of getting the mailing lists of our graduates on the computer run. This information is a big help in identifying people. This year we are working on including the telephone numbers of our graduates.

Our older graduates, whose birthday we know and who are over eighty, are sent a floral luncheon letter. Our older graduates, whose birthday we know and who are over eighty, are sent a floral luncheon letter.

In April a business meeting was held at the Alumni Hall, 1020 Locust Street, Philadelphia, PA 19107. This was held to get the alumni to know the year, month, day, address and telephone number. To share with you excerpts from the committee was a great help to us, it gave us an increased awareness of the Alumni Office, its staff, Elisa Lang and Carolyn Robinson have been a great help to us, we value their friendship and the good working relations between the two offices.

Thanks to your help we now have a copy of the commencement programs starting with the class of 1919 through the class of 1982.

Social Chairman Report

The Annual Luncheon was held May 3rd, 1986 at Jefferson Alumni Hall, 1020 Locust Street, Philadelphia, PA 19107. There were 314 members in attendance. A business meeting was held in the Solis-Cohen Auditorium prior to the luncheon. The anniversary class of 1961 had the largest membership present for the luncheon. The class of 1936 celebrated their 50th anniversary and were guests of the Alumni Association, 15 members attended.

Frances Butler Pangburn was the headmaster of the class of 1916. The oldest member present and celebrated her 75th anniversary, the Alumni Association presented her with a corsage. Twenty-three states were represented at the luncheon and one member came from Hong Kong for her 30th anniversary.

The Annual Luncheon for 1987 will be Saturday May 2nd, at Jefferson Alumni Hall, 1020 Locust Street, Philadelphia, Pennsylvania.

Bequests

We have received a number of questions concerning bequests to the Nurses Alumni Association. If you are thinking about such a bequest, we would suggest the following sample paragraph for your consideration:

I give to the Nurses Alumni Association of the School of Nursing, Diploma Program, College of Allied Health Sciences, Thomas Jefferson University, located in Philadelphia, Pennsylvania, or its successors, the sum of dollars (or identify the property, such as stock, or indicate a percentage of the estate, if appropriate), to be used for its general purposes.

This suggested clause is exclusively for the information of our alumni and friends. You should, of course, consult your own attorney as to the applicability of any item to your own situation.

Graduates Appreciate Alumni Scholarships

As we begin 1986, I would like to take the opportunity to thank you, and the scholarship committee, and the Alumni Association for the scholarship that I was granted for the summer of 1985. In August I graduated with my BSN from Gwynedd Mercy College. Thank you again for the scholarship.

Corrine R. Kurzen, ‘62 writes — I again thank the committee for the scholarship which made this past semester possible, and will appreciate any consideration for the Fall, 1986 semester.

I continue to be pleased with the caliber of the program at the University of Washington. This past quarter has been the most challenging. Due to the scholarship committee’s generosity I will be able to complete my degree on schedule. YOU CAN BE SURE THAT WITH MY Master’s degree, I will do all that is in my power to support the rights of nurses and assure our patients of quality nursing care.

Again, thank you for all your efforts on my behalf, Kate G. Felix, ’70.

Words cannot express my gratitude to you and the Alumni Association for the generous scholarship that has been awarded to me. This money has already helped to defray tuition expenses this semester. It is because of this money that I have been able to devote my full attention to my studies and not to have to work at my job in order to pay tuition costs. Again, my deepest thanks, Betty Michael, ’76.

I want to thank both you and the committee for awarding me this scholarship to continue education. I have been looking forward to continuing my education for some time and now with the Alumni’s help I can realize my goal. Thank you again for your assistance.

Norma Z. Smith

May 17, 1985 was proclaimed as Norma Z. Smith Day by County Executive Donald P. Hutchinson, recognizing her outstanding service in the care of handicapped children. The commendation was presented to Mrs. Smith by Mr. Sherrard.

Mrs. Smith, a registered nurse for 45 years has been employed by the Health Department for the past 28 years. During that time she contributed greatly to advancements made in the public school system to accommodate physically and mentally handicapped children. In March 1979, she was chosen for the March of Dimes Nurse of the Year Award for the State of Maryland, in recognition of her service and dedication in this area.

In 1985 Mrs. Smith retired and on May 17, 1985, by a retirement dinner, given by friends and co-workers from the Baltimore County Health Department. Since her retirement both she and her husband Woodward "Red", have started a Bed and Breakfast and have enjoyed a bicycle trip to Nantucket, the Everglades in Florida, and that May they went to Savannah.

Norma's Jefferson friends will remember her as Norma Ziegler, class of 1940.

DISSINGUISHED PROFESSOR

Harriet H. Werley, PhD, Distinguished Professor School of Nursing, The University of Wisconsin-Milwaukee and a 1941 graduate of Jefferson's School of Nursing, Diploma Program, is a retired Army lieutenant colonel. As a young lieutenant, she was one of the nurses taken into captivity when the Philippines fell to the Japanese in World War II. In 1985, Madeline Ullom received a salute and a Bronze Star from Col. Edward Frey.

The Alumni Association is proud of the accomplishments of our graduates, we extend to you our congratulations!

HUMANITARIAN AWARD

Jane Black Guerin, class of 1947 Jefferson Hospital School of Nursing, has been awarded the Dr. Frist Humanitarian Award by the Hospital Corporation of America.

Jane has been employed at the J. C. Blair Hospital in Huntington, PA since 1947 in various positions and will retire in 1987 as head nurse in the recovery room.

Miss Werley is in demand to make presentations on the Nursing Minimum Data Set Conference at various professional and research conferences, and leads a very busy professional life.

Receives Master of Science Degree

Sandra Fox Wendel of Downingtown, Pa., received a Master of Science degree specializing in Group Process and Group Psychotherapy from the Graduate School of Hahnmann University, Philadelphia. Ms. Wendel plans to enter private psychotherapy practice where she will be a business consultant. While a student at Hahnemann, she was a member of Who's Who Among Students in American Colleges and Universities. In 1983 Ms. Wendel graduated with a Bachelor of Arts degree in Psychology from West Chester State University, West Chester, Pa., where she was selected to Psi Chi. She is a 1989 graduate of Thomas Jefferson University, where she received a diploma as a Registered Nurse. She is a 1966 graduate of Middle Township High School of Cape May Court House, N.J. She has two children, Julie and Laura.

Special Achievement Award

Barbara Schneider, Ph.D., R.N., a 1965 graduate of the Thomas Jefferson University Diploma Program and a member of the University's College of Allied Health Sciences nursing faculty, was the recipient of the 1996 College of Allied Health Sciences' Alumni Special Achievement Award for her demonstrated dedication to nursing education, research, and to professional excellence.

Jeffersons Advanced Placement Program for BSN and Masters Program in Rehabilitation Nursing

Dear Prospective Student,

As the new Nurse Recruiter for the College of Allied Health Sciences of Thomas Jefferson University, I would like to take this opportunity to tell you about some of our new and exciting programs.

For people who are already an RN, we offer an advanced placement program that will lead to your BSN. You can obtain your BSN either on a full or part-time basis. We offer our classes at convenient times—day or evening. The program can be completed in one year; a year and a half or two years.

We try to be as flexible as possible to accommodate every student's needs. We think our program is exciting with many of the clinical rotations designed especially for the experienced professional.

Beginning in September, we will be starting a Masters program in Rehabilitation Nursing. This is the first masters program in the College. The admissions requirements include a BSN from an NLN accredited school or Registered Nurses who are graduate of NLN accredited associate degree or diploma programs. We provide a direct route to the masters program for the registered nurse. You can be admitted to the advanced placement program and earn your BSN and then continue right on for your masters. The classes will be offered in the late afternoon and the program can be completed either on a full or part-time basis.

If you would like to obtain more information about our programs you can call the Admissions Office at (215) 928-8880 or write:

Office of Admissions
Jefferson Alumni Hall Room 230
1125 Chestnut St.
Philadelphia, Pa. 19107

I hope you find our programs as exciting as we do.

Sincerely,

Lisa A. Ryan

Jefferson Graduate Celebrates Her 100th
On January 25, 1986 Mary Robinson Godfrey, class of 1909 celebrated her 100th birthday. Mrs. Godfrey resides at 22 McColl Street, Ligonier, PA 15658. In 1910 she was appointed a member of the U.S. Navy Nurse Corps, at that time in existence for only two years, and during World War I served at a naval hospital in Philadelphia. November 1918, at the end of the war, Mary became the first nurse ever appointed to sea duty, and served aboard the U.S.S. Leviathan until September 1919, aiding troops being transported home from the war. Mrs. Godfrey remembers that among the 100,000 brought back on the Leviathan were Gen. George Pershing and Gen. Douglas MacArthur. Mary resides with her daughter Patricia Gerard, she has a granddaughter Pandora McCartney of Panama. Congratulations Mary, from the Alumni Association.

Class Notes

Class of 1916
Evelyn Baker Pangborn, 39 South Fourth Street, Lewistown, PA 17043. I am glad to say I feel very well. I spent the winter with my daughter in Cherry Hill, NJ and managed to get around quite a lot. I was able to attend the Alumni Luncheon, its 70th anniversary. It was just beautiful to be with all of you.

Florences (Brownie) Browning, 2531 S.W. Spring Garden, Portland, OR 97219. I am enjoying being in the West, people live out of doors so much more than they do in the East. Most of all, I love my own car and am still enjoying good health. I'm still loving good health. I'm grateful to the Almighty for two daughters.

Class of 1921
Jennie E. Kutz, 5869 Springfield Avenue, Philadelphia, PA 19143. In my retirement years I like to look back to when "Jeff" was a hospital with wide open wards and nurses in caps and uniforms instead of jewelry and makeup. I still love my alma matter very much.

Class of 1925
Marline Robison Briggs, 15 S Terrance Drive, Lancaster, PA 17601. A few of our class still keep in touch with each other. I am working at a computer punch machine. I am in good health.

Class of 1930
Anotto Maffit Whitehead (Walter), 166 Chepsey Lane, Philadelphia, PA 19118. I gave to be at the Alumni Luncheon in May. I was the 4th luncheon I have missed since 1930. Ella Engle Kisch, #2, Box 363, Delsira, AL 36530. I would love to hear from any and all my friends. My MD keeps me in writing. Best wishes to all of you.

Ruth Sellers Johnson (Carol), P.O. Box 8269, Sarasota City Mobile Park, Sarasota, FL 34276. My husband passed away February 2nd, after a long illness. Perhaps next May I will be able to attend the Alumni Luncheon.

Class of 1931
Elizabeth Youngblood Gail, 2148 Cherry Street, Philadelphia, PA 19103. My first grandson was married in January 1966.

Emma M. Bahner, Ridgecrest Apartment 617, 28 Northridge Road, Salem, VA 24153. Greetings to all alumni members. Sorry to miss our 55th anniversary luncheon at the Alumni. I am enjoying the Retired Patient Cohort.

Dorothy T. Peterson, Paul's Est Apts, 4235, 3996 Buxton Avenue, Philadelphia, PA 19115. I was sorry I could not attend our 55th anniversary this year. I am not physically able to cope with transportation problems.

Helen Walp Hubbard, 126 Montgomery Street, Highland Park, NJ 08804. I am busy doing volunteer work for our church in New Brunswick. Preparing dinner for 48 children every Thursday.

Julie Tyler McCracken, 106 South Avenue, Westport, CT 06881. I will continue to enjoy life here in my own home.
Laura Zukowski Johnson, 131 Union Street, ML 06600. I am anticipating our 50th reunion in 1987, it has been an enjoyable time corresponding with classmates. I hope to see many of you there.

Class of 1939

Kathryn B. Estes, 4200 Ford Road, Lawton, OK 73501. Greetings to all Why not visit Oklahoma, you’ll be surprised.

Elinor Miller Wentzel, P.O. Box 894, Sun City Center, FL 33570. My husband died on March 20, 1986. I will be staying here in Sun City Center as I have my friends and my dog.

Witna Bamber Overton, 1808 W. 10th, Abilene, TX 79601. My husband died September 13, 1985. I will be spending the summer months in McFarland, AZ, and returning in October.

Sara Kitty Little (Lustenberger), 6124 North Shore Drive, York, PA 17404. Class of 1938! I am looking forward to our 50th in 1987. My husband and I are both retired. We have a home in New Jersey and also were in Arizona 6 months ago. We are both well and have lots for which we are thankful.

Virginia Kiler Hutton, 3490 East Avenue, Colorado Springs, CO 80904. I am proud to report that my 8 grandchildren and 1 great granddaughter are all healthy, attractive and talented children, ranging in age from 1 to 22. The parents are also healthy and attractive in spite of the fact that there is not a nurse or doctor in the group. Should any of you take a camping trip to the mountains, I can tell you what a delightful experience it was for my grandson to see a smoke and sneezing instructor assigned to the ship.

Class of 1939

Charlotte Davenport, P.O. Box 622, Blue Ridge, VA 24064. After 7 years in Jackson, MS, I have now moved to the mountains of Virginia. I am teaching 3rd grade. I have 2 wonderful grandsons, two sons, and six grandchildren. My time is spent visiting the local nursing homes.

Rebecca Thornton Ingling (France), 1523 Custom Road, Virginia Beach, VA 23454. It’s good to have news of you all and I am so glad. Emily and I have been traveling since before Christmas and hope to spend 6 months at each home. We are both happy and feel we are making the best of it.

Oda Dygen Mitchell, B-1220 Park Drive Manor, Philadelphia, PA 19119. I’m still doing a little physical therapy and the great game I enjoy is playing cards. 2 grandsons, 1 grandson. I’m looking forward to attending our 50th in 1987.

Barrie Keeler O’Connor (John), 8775 20th Street #310, Vero Beach, FL 32960. I am in fairly good health and am on the ‘Bicide Team’.

Class of 1940

Margaret Farr Miller (Dartell), 155 Mt. Vernon Street, Dedham, MA 02026. We are both retired and still have lots to keep us busy.

Harriet Kellner O’Connor (Don), 2530 20th Street, Minneapolis, Minnesota 55404. I have traveled throughout the United States, and have lots for which I am thankful.

Class of 1940

Kathleen O’Connor Miller, 510 East Avenue, Seattle, WA 98108. I am long over due retirement and I am going to plan on attending our 50th reunion in 1987.

Sara L. Weisler, 614 Lancaster Avenue, Apt. 4, Bryn Mawr, PA 19010. Nothing new to report. I continue to enjoy my retirement. I would like to say “hello” to all my classmates. I was happy to see so many at the 1995 luncheon to celebrate our 45th anniversary. I will be looking forward to seeing them in our 50th in 1995.

Marion Kustay Sobiesiak, 113 East Avenue, Colonial Heights, VA 23834. One of the fact that there is not a nurse or doctor in the group.

Rhoda A. M. Burg Weale (Buell) (John H.), 3 Delaware Rim Drive, Yardley, PA 19067. I am 19064. I am still traveling and I am looking forward to seeing them at our 50th anniversary.

Marilyn Z. Johnson, 19015 East Avenue, Colonial Heights, VA 23834. In December, 1991 we returned home March 1st after an extended visit. I have been traveling with my husband, Bob, and we have been to Germany for the next 3 years. Kathy Naugle Painter, Gerry Keesey, and Loretta Johnson are still traveling.

Bonnie E. Sandt (William E.), 1885 Delaware, Beaverton, TX 77070. Fons is here and I am busy “digging and planting” at our county home. I am greatly pleased and surprised at receiving a Life Membership in our Alumni Association.

Mary Smokowksi, 30 Hedgeport Drive, Apt. 7, Hampton, N.J. 08079. I continue to enjoy good health, my crafts and all my grand children.

Class of 1945

Eliza B. Hill Baker (Andrew), 119 Harwicke Road, Springfield, PA 19064. Ella has retired after 48 years and is really enjoying it. I am glad to hear that you are all living a good life.

Swimming at the Y. bowling twice a week, tennis twice a week. Fishing (deep sea). Florida in April and the Canadian Rockies in October 1995.

Alice W. Lehman Faller (James L.), 323 N. Oak Avenue, Clifton Heights, PA 19018. My spouse and I are both as well as possible at this time.

Mildred W. Woodhead Hawkrath (Norman O.), P.O. Box 263, Gettysburg, PA 17327. I am married to a wonderful 98 year old mother. We had a long hard winter with snow on the ground since before Thanksgiving, until March 19th.
Evelyn W. Colette (Mike J.) 29 East 60 St. South Dakota University of South Dakota, Sioux Falls, 1941. I’ve been working back surgery in 1941. Best wishes to my classmates from Fall 1941! I am a graduate nurse and farmer mate.

Charlotte Cooper Phillips (Emmet), 201 South Miami Way, Eden, NC 28346. Emmett and I are thankful to be have been “High and dry” during this spring’s flooding. Our old Austin was built over the flooding where gold was discovered in 1849 and parts of this area were flooded badly. We enjoy our grandchildren, Lisel and Marion (10). My husband retired to make this area. We are a retired dental surgeon and own the only hardware store in the area.

Jane E. Bells Mack (William), R.D. #1, Box 2640, Chestertown, MD 21620. We have been married June, 1986, and moved into our new home Chestertown, MD.

Ruth L. Colefte (Ralph), 1931 South Michigan Way, Denver, CO 80211. My husband and I have been married for 40 years and have 3 children. We are living in Denver, Colorado where we have been living for 40 years.

Ruth Lange Wettig (Samuel), 6250 S.W. 8th Street, Miami, FL 33156. My husband and I have been married for 40 years and have 3 children. We are living in Miami, Florida where we have been living for 40 years.

Shirley Forty years doesn’t seem too long, but long enough to complete our education. My husband, a psychiatrist is looking forward to retirement. Our youngest, Scott graduated from Lehigh University in 2019.

John Potter, (Leo J.) 559 Brookwood Road, Wayne, PA 19087. I have been married for 40 years and have 3 children. We are living in Wayne, Pennsylvania where we have been living for 40 years.

Marten Thary Williams (Arthur R.), 5812 Sau Street, Philadelphia, PA 19149. This past 40 years I have been a wonderful trip to the Canadian Rockies and Alaska.

Mary Anne Saunders (George), 950 Belleair Lane, Rockledge, FL 32955. Everyone here was devasted when the “Challenger” exploded in 1986. My husband was a pilot on the shuttle and thought the booster rockets were falling away too soon and then the fuel of the fire. The neighborhood is静电 and parked when it is not so close to the street.

Marilyn Burton Gold (Allan), 1449 Woodland Drive, S.W., Rochester, MN 55902. After by-pass surgery 3 years ago, Allan is going strong and enjoying his retirement in Rochester, MN. Our kids are all grown and away from home—until last year, and we thoroughly enjoy our 3 grandchildren (Carla’s). I’m still keeping busy with my roadwork, babysitting, and traveling.

Mary Louise Moore Brumbaugh (Simon C. Jr.), 737 Central Avenue, Lexington, KY 40502. I am very happy and healthy. I am our daughter’s 2nd year at Jefferson Medical College, and was married in June, I enjoyed our 30th marriage last year. We plan to come back in June for my husband’s 30th reunion from Jefferson Medical College.

SPOUSE’S

Susan Albrecht Curcio

I’m going to be a nurse (or at least try to be) for the remainder of my life. If I’m not a nurse, then I’ll be an RN or go to work in a hospital as a nurse. I finished my B.S.N. first.

Mary Ann

I’m still working as a nurse, but I’m thinking about going to school to get my M.S.N. in OB.

Lisa A.

I’m enjoying my new job as a nurse manager at a local hospital. I’m also working on a research project with some other nurses on jaundice and breast feeding.

Mary Ann Mullin Rogo (Liver). I was pleased to be able to work on a project related to jaundice and breast feeding. It was a little girl (finally) July 31st. Now we are a happy family of three.

JACKSON

Margaret M. Jackson, age 89, died April 18, 1986. She was a native Philadelphian who was born and raised in the Roxborough area, and lived in the city most of her life.

Miss Jackson had a distinguished nursing career that spanned nearly 50 years, and more than 4000 young women graduated to become nurses under her supervision.

She was a member of the original committee to develop Blue Cross and Blue Shield, initiated the ward clerk program for nurses, and developed the concept of operating room technicians.

In her 60’s she learned to drive a car, and at 60 she took up golf, and the pride of her life was a hole in one at the age of 64.

Miss Jackson was assistant director of nurses from 1943-1945, and director of nursing at Jefferson from 1945-1947. After her retirement in 1963 she had been living in Camden, Maine, until last year when she moved to Bedford, Pennsylvania.

Many of our graduates will remember Margaret Jackson as a gentle woman in the true sense of the word, she stimulated those she came in contact with to go the extra mile.
