The President's Message

Dear Fellow Alumni,

On May 7th when I assumed office from Flossie Roche, I felt elated and honored as I looked across the sea of faces enjoying the annual luncheon and renewing friendships. I also realized at that time, that this was only a small gathering of the graduates of Jefferson Hospital School of Nursing. Generally speaking, these were mostly the reunion classes.

So how many members of the alumnae? Are there? It was a real shock to learn that over 3000 living Alumnae, only 779 are dues-paying members. There are also 235 life members (those who have belonged to the association for 40 consecutive years.)

Because not all of the members live in the Philadelphia area, the work of running the organization, planning and executing the work falls on the shoulders of a few loyal and devoted members. To them we give thanks.

The annual meeting moved ahead smoothly and efficiently, and those alumnae who attended heard of the work which is being carried out in the name of all of the alumnae. There were 62 at the meeting. Many appeared pleased and pleased with the work which had been done, and that which was being planned.

The Satellite Group in New Jersey met several times last year and are continuing to plan for the future. A second group will be meeting in the Harrisburg area in August to develop an on-going group, which will renew friendships and keep up with the Philadelphia group. Interest is astir in the Baltimore area, but it needs a little more nurturing to arrive as a viable group.

All these activities make for an exciting and interesting future for the alumnae of the School of Nursing of Jefferson Hospital. It also means that we need to expand the membership in the organization.

The younger members can seek funds for educational purposes. Nursing as a profession will only grow and evolve as we have prepared leaders who can move forward. As a past recipient of alumni scholarship fund, I am most grateful for the help I received while engaged in doctoral study.

More and more of our members are representative of the national population — getting older. Some of them will be in need of financial assistance from the relief fund. Fortunately, previous presidents and boards of directors have had sound financial advice, and both the Relief Fund Trust and the Scholarship Fund are secure at this time. However, we have no crystal ball, so do not know what the future will bring.

We do know that in 1992, the Alumni Association of Jefferson Hospital School of Nursing (we have changed our name several times) will celebrate its 100th anniversary. The last class to graduate (1982) will celebrate its 10th anniversary. My class will celebrate its 50th anniversary. Will there be members to celebrate the 150th anniversary? Membership is not a big expense but it is a source of real pleasure to meet with friends and classmates several times a year, and have a voice in the progress of the nurses who shared the organly cap, and black, blue and gold pin.

Warmest wishes to all,

Alice C. Boehret, Class of '42
President
The Jefferson Hospital School of Nursing Roll of Honor

The School of Nursing may be closed but many of its graduates have distinguished themselves and their school by their contributions to the field of nursing. It is a given fact that they worked without complaint or rest. The bedside nurses who gave full measure in caring for those committed to their care. We are interested in compiling a record of those who gave and continue to give to the growth and development of Jefferson University and give the graduates of the School of Nursing Roll of Honor.

Our successors, the graduates of the baccalaureate program, have no direct ties with the School of Nursing, so do not know of these contributions to nursing. Indeed, many of our alumnae sisters have no knowledge of the many contributions made by Jeff nurses. So, it is proposed that greater recognition be given to our contributions to nursing.

The major contribution made by the graduates was gratifying, however, it is believed that those who were and are Jeff graduates and their friends and acquaintances who know of our contributions to nursing.

Indeed, many of our alumnae sisters have no knowledge of the many contributions made by Jeff nurses. So, it is proposed that greater recognition be given to our contributions to nursing.

The criteria identified are as follows:

1. Established a nursing education program
2. Served on state, regional, national or international committees
3. Wrote or edited books on nursing (articles)
4. Received honors or awards (nurse of the year)
5. Service to Government (not military)
6. Missionary in a foreign country
7. Served as officer in Nursing Organization(s) (Local, State, National)
8. Invented, designed or improved equipment

At the back of this Bulletin is a form for you to nominate any one who will meet one or more of the criteria. Please indicate in the space below the criterion how your candidate meets it. You may nominate any number of graduates. Please use a separate sheet of paper for each nurse you wish to nominate. Remember, we also wish to identify those nurses who are no longer with us. It is not necessary for you to sign your name if you do not wish to.

When complete, please return to Dr. Alco C. Boenhet, RN

Caroline Masuda Treasurer

In 1931 the members of the class of '32 were completing their training at the Training School for Nurses of the Jefferson Medical College Hospital. Yes, it was called a "Training School" in those days. Now, we say we train nurses — we educate women.

We were in the midst of the Great Depression, but it didn't mean a whole lot to us. We had been well protected during our student days—clean, warm shelter, adequate nutritious food, and in addition a stipend of $6.00 a month our first year, $7.00 the second, and $8.00 the third. (But we paid no tuition.) If we didn't like the menu of the day, there was always plenty of bread, malasses and milk. We stayed healthy. We saw people selling apples on the street for 5 cents, and some of our families were having a rough time, but none of us lost any money on the stock market—we didn't have any to lose.

As we completed our program in September and October of 1931, some went back to their hometowns. Many of us elected to stay in Philadelphia where we felt comfortable, particularly in our own hospital.

By and large, the hospital was staffed by student nurses. But private duty nurses were common among the private patients. Many opted for that. Ruth Ush (Mencz) 1931, reports that after working for 13 months in O.B.R. she resigned to do private duty nursing. She had one case 12 hours, duty for $66.00 ($90.00 a day). She received $75.00 a month in O.B. the first 4 months, then $80.00 the next 9 months.

When I completed the program, I went on the registry. I had one case, a D & C on third Corridor. All I remember of that is the patient slept all day, for which I was paid a dollar. I had on my first pair of white duty shoes, and they hurt my feet. I also had a blister on my heel. I can't call back the days when I never knew whether I needed a nurse or if I wasn't satisfactory. However, I was glad. That one case convinced me I wasn't cut out for private duty nursing.

A few months later, the word was around that Miss Melville was calling to her many young nurses. We found out that the new Curtis Clinic was opening, and she was calling nurses to staff it.

Probably the first one to be appointed was Miss Margarette Barnett, '14, as supervisor of the clinic. Barney, as we all called her supervisor, but our friends called her a professional and personal advisor.

I remember when we became 21 years old, she handled us all together, and marched us to Lombard Street to register to vote. She felt strongly about that. When Election Day came, the same procedure prevailed, and we were given time to go vote. Not given time — mandated that we go. To this day my conscience makes me vote at every primary and general election.

Each morning we congregated in her office on sixth floor of the clinic to get our supplies, tell her our problems, and get directions for the day. It made a close bond between those of us who took advantage of it.

It was during those morning conferences that we also planned get-togethers. Our most remembered was the pic-
Calling for a patient's history
made wooden skirts, and milk workers brought silk stockings, etc.
I've already told you something about Ruth Utah. To continue,
when the clinic was being staffed, Dr. Scherberg ( whom Ruth had worked in OB ) asked Miss Melville to assign
Ruth to Gyne clinic, fifth floor. Ruth was happy to accept the
assignment, even though it was a cut in pay from O.B. At the
time she was engaged to Nick Mencino. Miss Melville stopped
her one day in the hall, and asked her if she was married.
"No, Miss Melvilia." She was telling the truth. But shortly
thereafter she did marry, and kept it a secret from administra-
tion until she resigned to join Nick who was a captain in the
army. We girls knew about it, but our lips were sealed. She
was in Gyne from November 1931 until April 1934. During
her first week in the clinic, she heard two painters talking
about the new building. "This is a white Elephant." We cer-
tainly refuted that statement over the next 40-odd years.
Also on the fifth floor was Surgical clinic. Gay Arnold (Blue),
32, was the nurse here. There was the general surgical clinic,
Varicose Vein and Proctology clinics. Dr. Haskell was "her
proctology chief; Drs. Willauer and Walking, surgeons. Those
of you who knew Dr. Willauer will appreciate this story. The
older Italian women would come to have their varicose veins
reated with injections to sclorose the vein. Some of the women
would drive Dr. Willauer to distraction by wearing round elas-
tic garters. He would take the garters, stretch them like sling-
shots, grab scissors and cut them to shreds. The women
would come to Gay crying, not knowing how to get home with
the stockings falling below their knees. Gay would make a
knot on the top, fasten it with adhesive tape and admonish
her to take it off the minute she got home, and not to come
back until she had a garter belt.
On Sundays, when we were on duty, but the clinics were
closed, we would congregate in one of the surgical clinic
treatment rooms, and prepare supplies for the following week.
Gay would have the new supplies ready. Bolts of gauze
would be cut to the proper sizes the day before in Central
Supply. We would fold and wrap the dressings for sterilization.
We made applicators. We sharpened needles. There were no disposables then. No disposables that I can remember. Needles and sy-
nores were sterilized. We didn't worry about Aids, nor even hepatitis. I know of no case of infection being transmitted.
During this time we discussed love and life! Was it better
to have loved and lost than to have loved at all? The problem
was never solved. Gay led the singalong making the choir less boring. Gay was (and is) a good vocalist. Gay Poor, even though I would
sit next to her, she never was able to keep me in tune!
Sometimes we would be assigned to relieve in accident
ward, or perhaps to sit with a patient recovering from emer-
gency surgery, coming out of ether. I don't remember that
time as being any recovery room. We didn't much care
for these assignments — only because we felt inade-
quately in strange surroundings.
Before patients came to the clinic they stopped on first
floor, registered, told their complaint so the registrar could
assign them to the appropriate clinic. They had to pay 50
cents, 25 cents more as determined. During clinic hours an operator ran the elevator. One day, a patient handed her a slip of paper that read "Rain in R.E."
Mistakenly, the patient was directed to proctology clinic instead of ear clinic. Imagine being told to take your pants down to have your ear
looked at.
The clinic was officially opened with appropriate dedication
 ceremonies on December 17, 1931, and the portrait of Cyrus
Curts was unveiled. Of course, you realize that by this time we
had all settled in, and were functioning well. I hope you
also realize by now that I have not mentioned Children's
Clinic.
I was one of the lucky ones to receive the order to report
to Miss Melville. I felt particularly grateful when she asked
me to try my hand at taking Clinic's Clinic. It is the one I would
have chosen had I been given a choice.
The chief of the clinic was Dr. Norman MacNeill, affection-
ately known as "Norm." I don't remember knowing him before
that time, but it didn't take long to realize how fortunate I was. He
was very easy to get to know and I knew in short order that he
was a kind and caring man. This borne out in the eight years
I was in the clinic. He sailed in, in a hue of colors, red hair
complementing his green suit, pink shirt, and tie of the "baby B.M." (his words.) This doesn't sound so bizarre today as it was in the conservative era of the 30's.
The clinics were open 11 AM to 1 PM, except on Saturday
when it was open from 10 to 12. Even if we had to return
earlier, as we often did, the nurses came on some days.
They were scheduled. Endless procedures were performed.
I remember it as being in the conservative era of gauze and
rubber. Many of the various procedures were performed
by the students, as well as the medical students, the various
procedures.
Caroline's time was taken up very often in the cast room
of Orthopedic clinic with Drs. Ruth, Martin, and Hand, Neu-
rology doctors were Drs. Burns and Gilpin, whom she helped
with spinal drainings every Friday.
Caroline eloped, and Miss Melville left to work in a doctor's office.
I think Etta left to marry. Remember, married nurses were not
permitted to continue working at the hospital.
Jo Fink, secretary in surgical clinic, recalls the special treat-
ment clinic for syphilis. I do not remember which clinic this
was. Dr. Gilpin or was it Dermatology? or was it O.U.? Anyway,
secretaries and nurses from other clinics helped.
The lines ran from the treatment room to the elevator, all
waiting for their weekly injections of Bismuth or Neosaph-
mine. The young secretaries were fretting about those
"horrible" diseases. But the patients were treated well, and
appreciated the care. Many times they brought gifts — tailor
Marguerite Barnett, '14
she entered nursing. A college degree was a rarity for nurses
in those days, so Miss Melville soon tapped her for the nurs-
ing school office. However, not before Dottie made friends
with all her co-workers. One such was Fred, the orderly
in "her" clinic. Fred was quite a fisherman, and arranged deep
sea fishing expeditions for us. Most of us never had been
at sea, and we reacted violently. We were told to eat strawberry
jam on the boat because it would taste as good coming up as
going down. Those of us who were the sickest, caught the
most fish, so apparently the fish liked it, too. Those who didn't
get seasick got sunburned. But we sure had fun! Other class-
mates were always happy to go along.
Missie Smith (O'Connor), '32, was called for G.I. clinic on
6th floor, and Carolyn Jones (Transeau), '32, for Orthopedic
and Neurology. Millie worked with giants like Drs. McClain,
Beardsley, Griffen, and Rhefuss. The nurses here learned to
do many procedures pertaining to the G.I. tract. Three times
a week gall bladder drainages were scheduled. Endless shots
were given to arthritic patients for Dr. Cohen. Diabetic clinic
was Saturday A.M. with Dr. Duncan. Ellis Hale (Baker), '37,
replaced Millie, and adds memories of Dr. Duncan. He was
all tall and handsome, and in his English twang told us how to
give the patients H-... and tell them not to come back again unless
they "brought their blood sugar down before next week!"
Millie and Etta both speak of the wonderful experience
of working with such outstanding doctors. Students nurses
came to these clinics too, so Etta and Millie were able to teach
them, as well as the medical students, the various proce-
dures.

"Weighing In"
five, sometimes six doctors. Each one would be supervising
the medical students.
In the hall, which was the waiting room, there were booths
which were supposed to keep the mothers and their children
separate from other families in order to prevent cross contam-
nation of the so-called childhood diseases, which are prac-
tically non-existent now. But can you imagine trying to keep
them separated? They ran all over the place. So we tried to
screen them as soon as possible.
We did have a holding room for diagnosed or suspected
communicable disease patients. If so diagnosed, they were
kept here until private transportation could be arranged by
parent or social worker, or they could be transferred to the
Philadelphia Hospital for Contagous Diseases, no longer in
existence.)
Dr. MacNeill filled all over. Students and staff alike sought
his advice. Sometimes there weren't enough patients for each
two students. Sometimes there were too many. Mac would say
we were a weather clinic. "Whether they (the children) came or
whether they didn't, depended on the weather." So true. So
the students prodded, thumped, listened, looked and con-
ferred with each other. Dr. MacNeill would stand at the door
of the examining room, 10 feet from the patient, and make
an accurate diagnosis before the student had an inkling.
He needed only his five senses, not the armada and sometimes
inaccurate laboratory results which we often see today.
He didn't cotton to birth control. If the rest of us were
went to berate a poor struggling mother for having 10 children, his
answer was: "God will take care of them. " Most of us knew
that God's initials were frequently "NMM."
Again, he would be instructing a mother in infant feeding.
She would ask if her three month old baby should have sold
food. "Mother, if God wanted him to eat meat and vegetables

Since my last article, some bad luck occurred. I asked myself, "Why would my fellow alumni be interested?" But since so many people continue to give me encouragement, I once again send along a report. I've had people say, "Hang in there." "Things could always be worse." "Keep your chin up." And when kids today hear of problems, they'll ask "Is this 'Tha keep'?" The phrase that helps me most is, "One day at a time." Now for an update on the bad luck.

In July 1987, during a pilot transfer (necessary because I have multiple sclerosis), I was dropped. An X-ray showed that the right femur snapped, and I was sent to surgery for insertion of plates. No weight bearing allowed; therefore, no transfer.

However, thanks to Dr. Hoyer, who invented a canvas with hooks, chains and pump — the Hoyer Lift — I have been transported from bed to wheelchair and from wheelchair to bed via this transportation.

The Hoyer was used in the hospital in July 1987. And in July 1988, I am still swinging in this remarkable contraption because the fracture has not healed, although there has been considerable progress in the healing process.

The rattle of the chain takes me back to high school literature when we studied Victor Hugo's Les Miserables. Jean Val Jean was in chains in prison for 19 years. So my one year must be accepted.

Recently I went for my "every second month" X-ray of the femur. Although the orthopedic surgeon is anxious to have me "restart" weight bearing and pivot, he hastens to add, "You have had to be remiss for one year, so physical therapy must come first." Although I hope to get back to where I was one year ago (and even hope to start tutoring again) I am told I now have corporeosis because of no weight bearing. It looks as though I am sitting duck for another fracture.

Another obstacle that has cropped up at the worst time is a problem I am having with my left shoulder, relating to an arthrotomy eight years ago. It's slow going, and always gets back to "Hay day at a time." A happy note, I am still able to "go places" by a Septa Paratransit van. To be picked up and returned home. I must call and reserve it weekly, because it is a limited service (allowed only within city limits). These outings allow me to keep doctors' appointments as well as enjoy trips to the grocery store or shopping malls, always with a Home Health aide by my side. Several times a year, I make trips to my nieces' home in Naperville and my sister's home in Wymere-wood, ordering vans that provide services to the suburbs.

Every August, my sister, her daughters, sons-in-law, and the grandchildren spend a week at the New Jersey shore. There are five little ones now, ranging in age from three months to seven years — three boys and two girls. For my day's visit with them, I will often leave friends who have multiple sclerosis who drive his own specially-equipped van with his wheelchair. My Home Health aide accompanies me, and she and my friend "do the boardwalk" while I spend time with my family.

My family and I meet for a festive lunch in the lovely dining room of The Flinders Hotel in Ocean City. Then we walk the boardwalk, giving me a chance to enjoy a look at the ocean. At the end of the day when I'm being put to bed with the help of (you guessed it) the Hoyer Lift, I'm happy to have the memory of a day at the shore.

My older niece's two little boys, age 7 and 4, come to my apartment for a weekly visit, making a bee-line to an A&P box covered with gift-wrap paper and filled with toys. We have a glorious play session.

I have been in the wheelchair for 12 years now, and "no bed sores." Jeffrey teaching — take a bow!

Note: Miss Moyer was graduated from Jefferson Hospital School of Nursing in 1943. Her clinical experience from 1945 to 1953 was wide and varied. In addition, she served in the Army Nurse Corps, World War II, and spent 16 months in a General Hospital in England. In 1953 she received a B.S. in Nursing Education from the University of Pennsylvania, after which her teaching career began. Miss Moyer was president of the Jefferson Nurses Alumni Association, 1959, 1960, 1961.

July 26, 1988

W hat is a friend? Quite a number of things —
A welcome hello when the telephone rings —
A person who borrows — but who lend —
Who bears all your waves from beginning to end —
A friend is a comfortable afternoon shared —
A note sent to say that somebody cared —
A friend is the magic that brightens your day —
And a friend is what you are in every way.

Geraldine Richardson
As far back as I can remember (and that’s a very long time) I wanted to be a nurse. I was inspired by a great-aunt, who lived in a rural area and spent her life-time accompanying the local doctors to deliver babies in their homes, and caring for them and the mothers for two weeks, or until she received a call for another delivery. But in those days our parents guided our lives, and even until my graduation from high school, my parents never wavered from their decision that my major vocation was that of slavery, and no child of theirs should choose that profession. Therefore I trained in clerical work until I was twenty-one, and in the following year, in March 1924, I was accepted into Jefferson Hospital as a “probe,” determined to earn the respect and obedience that Miss Meville demanded of us. This was not difficult as I was accustomed to the hard work of my elders.

There were twelve of us in that class. After we completed our six months of study at 1012 Spruce Street, with Miss Virginia McClayless presenting us with more rules and regulations. Our first encounter with the awesome hospital was to have our "shocks," a minor detail. OH YES! There had been just one operation before we entered the operating room, and the bloody spigots hadn’t been removed from the floor, a gruesome site. As we lined up and received our "needles," one by one we turned white and four of us, including me, slowly eased to the floor. The nurses were dismayed and hastily reviving. I expected to be sent home that night, but ethics demanded of us. This was not SISTER Rose’s philosophy; her nurse training was inspired by a great-aunt, who had been a school nurse, medical assistant in the Kennett Square Hospital, and a nurse in the Kennett Square Rural School. Even though she had been a school nurse, she never sought the respect and obedience I was to have our class, including me.

My first assignment was to give sponge baths, and thirty years later, I still do not understand why? They didn’t even make good mirrors like they used to.

**Reaching a Cherished Goal**

This year’s Alumni Achievement Award Winner, Sister Rose Kersthauber, a member of the Medical Mission Sisters, has worked in developing African countries for the past 34 years. The Medical Mission Sisters are an order of Catholic nuns who provide medical care in developing countries around the world. The primary focus of the order is on caring for women and children. The Alumni Special Achievement Award is given each year to recognize the outstanding achievement of an alumna in the areas of education, research, or community service.

Sister Rose Kersthauber has attended Columbia University, University of Pennsylvania, and the Catholic Mater­ nity Institute since graduating from Jefferson School of Nursing in 1944, but ask her where she went to school and she will proudly respond “Thomas Jefferson University”! Sister Rose says “I have always identified myself with Jefferson. Jefferson taught me at an early age to be responsible, and always be my best. I believe that what I learned at Jefferson was the basis for my future education and involvement in nursing.”

Sister Rose says she joined the Mission Sisters because, “It was something I was considering for some time. I felt it was a good way for me to achieve my goal of service. I have always been interested in other parts of the world, so I suppose I was more aware of the problems in developing countries than here in the United States.”

Sister Rose was sent to Africa, where she worked at a 100-bed hospital and nursing school in Berekuma, Ghana, in West Africa. Her responsibilities included teaching and general staff nursing duties. From there she was sent to Tachawan Ghana, and then to Uganda in 1964 as the matron of nursing for Vinika Hospital. Vinika had been in existence for some time, but was poorly staffed. A full team of professionals was brought in, including Sister Rose who served as matron of nursing for four years. She reorganized the nursing service, established outreach clinics, and began a school of nursing.

When Sister Rose was assigned to Africa, Mission Sisters’ assignments were for life, but in 1957 the decision was made to allow sisters to return home every seven years to ten years. Today, sisters return every three to five years, often for continuing education.

In 1969, Sister Rose returned to the United States to complete her Bachelor of Science Degree in Nursing and her Master’s Degree in Nursing from Jefferson University in Pennsylvania. “I received a $500 scholarship from Jefferson’s Nurses Alumni Association, at that time $500 was a lot of money and it enabled me to continue my studies.”

Sister Rose was in Malawi for several years, where she has been since 1980. Sister Rose has worked for the World Health Organization, the United States Peace Corps, the Malawi Ministry of Health, and several major African universities.

Sister Rose says “Medical care has come a long way during my years in Africa. Today the Mission Sisters is to work our way out of a job, to teach locals to do what we do. In almost all of the places I have worked that has been accomplished. In 1964 we had some doctors and a few registered nurses, and no other allied health professionals. There were only a few nursing schools and they were staffed by volunteers, mostly Americans. The students I taught in Nairobi in the late 1970s are now running that school, and I have worked with many of my former students as colleagues in the nursing service of Africa. It’s a very rewarding feeling.”

In the early 1980s Sister Rose was working for the World Health Organization, where she was the director and coordinator of their efforts to develop a school of nursing. Today the President and Dean of the University’s Kamuzu College of Nursing are Malawians. Many of the teachers are also Malawians. Other changes include a new school of allied health which has been opened in Malawi, offering several programs including pharmacology and ophthalmology.

Sister Rose, who was in the United States for a brief visit in August, is back in Africa continuing her work with the Mission Sisters. Sister Rose says that working in developing countries is extraordinary, as is her dedication to Jefferson.
Archives and the Nursing Experience

by Judith A. Robins, University Archivist

When was the first nurse hired to work at Jefferson Medical College? Who was she? Where did she get her training? What were her duties? And knowing that, why did she choose to become a nurse? These are the classic five W's, the questions which the University Archives strives to answer, or at least to explore. Our daily challenge is to answer hundreds of questions such as these about the University, its people, and its past. Sometimes, finding the answer is as easy as checking a catalog or an index. Sometimes, after every possible resource has been exhausted, the mystery remains.

The Archives, a department of the Library, has a five-fold mission. We identify, collect, organize and describe, preserve, and make accessible those materials that have archival value to the University, its staff, students and alumni. To determine whether an item should be kept in our permanent collections, we consider administrative, legal, fiscal, and historical values. Perhaps the item explains a policy decision, describes events from a special perspective, records operating costs and equipment purchases, or illustrates campus life. A walk through the Archives reveals Jefferson's many facets.

If we are to provide answers, we must know where to look, so our first charge is to identify and collect those materials that hold the answers. The official records and publications of the University are our most important source of information. In recognition of this fact, the College of Allied Health Sciences has embarked on a systematic program to transfer its inactive records to the Archives. The official records, of course, are only a beginning. The Archives also collects the personal papers and memorabilia of our faculty, staff and alumni. Textbooks and class notes, letters and diaries, programs of commencements and commencements and cap-gings, pins, invitations and souvenirs of events are all part of Jefferson's history. One of the Archives' top goals for the coming year is to increase its documentation of nursing staff and student life through adding the personal papers of alumni. Once materials are acquired, our next task is to put them in order, arranging them in a way that accurately reflects why they were created and how they were used. As we organize collections, we also describe their contents, so that answers can be readily found. These descriptions may be in the form of an index or an inventory, called a finding aid, that can be used to assist researchers. In addition to printed finding aids, the Archives will soon be adding holdings data to the Library's automated catalog, Jeffline. We will also be reporting our holdings of personal papers to the National Union Catalog of Manuscript Collections, maintained by the Library of Congress.

Because only those materials that have enduring worth are chosen for inclusion in the Archives, our next concern is to ensure their permanent preservation. This would be easy if no one ever used them, but of course, we want to preserve them so that they can be used. This can be quite a dilemma! Simply by storing materials in protective containers made of acid-free paper, and keeping them in a climate controlled area, their useful lifespan is greatly increased. We also require all visitors to handle them with loving care. In rare instances, we must restrict access to fragile items. Stringent controls are also placed on access to confidential information.

While our primary clientele are University administrators, we serve the entire staff, affiliates, alumni and students. The Archives is also open to the public; we receive many telephone calls and letters each month, requesting information about the University and its alumni. Often, these questions come from people searching for their own family history. Academic scholars, too, find answers in the archives, as well as authors of fact and fiction. These collections support research in such fields as the history of nursing, social history, minority and women's studies, history of education, health policy and hospital administration.

The Archives is a relative newcomer to Jefferson, having gotten its start in 1975. Who kept the institution's archival records, dating from as early as 1924, before us? We are very fortunate that so many offices and individuals recognized the importance of Jefferson's historical records over the years, carefully keeping them for posterity until the Archives could take up its charge. The Alumni Association of the School of Nursing is responsible for preserving much of that heritage. Since its beginnings in 1885, the Alumni Association has been a forward-looking organization, firmly rooted in the past and its traditions.

I began this brief excursion through the Archives with five W's. There are five more important questions which should now be answered. Who does the Archives serve? You! What does it have that might interest you? A cape, a rose, a candle, a pillow, a ribbon, a cap; these and many more await you. Where can you find them? In Room 310, Scott Library Building. When can you see them? The Archives welcomes visitors from 9:00 a.m. to 5:00 p.m., Monday through Friday. Why visit the Archives? Perhaps, if you are like me, to look for answers to the first five questions. Come, satisfy your curiosity!
We're looking for a few good memories.

The University Archives would like to hear from alumni of the School of Nursing. Every archive collects the publications and inactives of its parent institution. The Thomas Jefferson University Archives has more. Lots more! In addition to the dry-as-dust reports and memos, we collect art works, medical and academic memorabilia, and most importantly of all, the personal papers and reminiscences of Jefferson personnel and alumni.

Please let us know if you have class notes, photographs, and other memories that you would like to donate to the Archives, or just some good memories to share. We're looking for contributions to the ongoing effort to document our history.

Alumni Office News

It seems we continue to do the same things over and over. Such as making address changes, and trying to find missing addresses. You would be surprised all the ways we pursue to find the correct address of those who have moved and in the hassle forgot to notify us. Thanks to all of you who have sent the address of a missing classmate, we do appreciate it.

To our faithful volunteers, we say many, many thanks. Without your help it would be almost impossible to get our big mailings out on time.

In the Alumni Office continues to be a pleasure. Our office, as in the past works closely with the CAHS Alumni Office. Lisa and Gayle Dryden are so very kind and helpful. They are our resource when we need to know who to call for a particular service, or where some department is located within the university (departments have a habit of making frequent moves.)

Our address: Nurses’ Alumni Association, Thomas Jefferson University, 11th and Tabor Philadelphia, Pennsylvania 19107. M-6 Jefferson Alumni Hall. The telephone number is 215-955-8855. We are in the office on Tuesdays from 9:30 a.m. to 5:30 p.m. When we are not in the office our phone calls are answered and messages taken by the CAHS Alumni Office.

If you are in the vicinity, we would be happy to have you stop by for a visit. Make it on a Tuesday, call first so we are sure you will find us.

HELP!!! WANTED!!!

For our Alumni Office files, copies of the following By-Laws books—1908, 1919, 1936. We appreciate your help.

Relief Fund Committee Report

During 1987 the Nurses Relief Fund Trust was able to give financial assistance to 10 of our graduates.

As stated in the 1984 revised By-Laws, “Any graduate of the Diploma School of Nursing and the White Haven School of Nursing will receive consideration for benefits from the Relief Fund Trust to help meet expenses incurred due to illness or other expenses for necessities.” All things being equal first conideration will be given to Life and Active members. However, all applications received will be reviewed and given consideration.

All or a portion of the amount of money distributed to a recipient from the Relief Fund may have to be reported to the Internal Revenue Service as taxable income. Each recipient will receive a statement at the end of the year showing what portion of the distribution to her/him should be reported.

An application for Relief Fund benefits can be found in the back of the bulletin.

The Satellite Committee

At the June meeting, your Board of Directors approved the following guidelines for Satellite Committees. These are:

Purpose: To promote fellowship among members.

Goals:
1. To provide assistance to sick members if needed, through the Relief Fund Trust.
2. To promote professional and educational ad­

vancement throughout the Scholarship Fund.
3. To stimulate interest in the administration of the Association, and to stimulate active involvement in the Association by sharing suggestions for the Nurses’ Alumni Association with the Board of Directors.

During the first year of the Southern New Jersey Committee, the first satellite group has met four times. With Alice Bohrert and Nancy Thompson Powell acting as advisors, they have elected officers and have had both business and program meetings.

A second satellite group will meet this month in Harrisburg, Pennsylvania to situate themselves in Thomas Jefferson Nurses’ Association Building. Dorothy Ranck and Gladys Keeper are advisors for this group. One hundred and seventy-seven letters with questionnaires as to their interest in forming a satellite group was mailed to graduates living in the Harrisburg-Ephrata area. To date thirty-one answers have been received. The majority of these plans to attend the meeting and others have expressed an interest in meeting at another time.

Thus far we have a meeting of a third satellite which Jefferson diploma nurses are well underway. We are now mailing letters and questionnaires to thirty-one members in the Baltimore, Maryland area who are traveling time to Ro­

wood, Maryland where Anita Harbison Karpeltys lives. She has volunteered to host an initial meeting.

It is encouraging that so much interest has been generated, and we are hopeful that this report may stimulate graduates who live in other locales where there may be a group of members nearby, to start their own satellite group.

The Satellite Committee at Jefferson is happy to offer as­

tistance to anyone interested.

Mabel C. Prevost

Do Something

Help someone to carry his burden, and lighten your own. Do something for somebody glad; Twill sweeten every care; Cheer up with a song. And the way seems easy, when the way seems hard. So much as a little song has charm. Do something for somebody lonesome, To help your neighbor. Do something for somebody sad, To make his pain end. Do something, try to be kind. To someone in need. Your own or a neighbor’s.

Social Committee Report

On Saturday May 7, 1988 the Annual Luncheon was held at Jefferson Alumni Hall, 1200 Locust Street, Philadelphia, PA 19107. 326 members attended.

The Annual Alumni meeting proceeded the luncheon at 12:00 A.M., in the Solo-Cohen Auditorium. A cocktail hour followed the meeting, and was held in the court yard, thanks to the pleasant weather.

The oldest class member to attend was Mildred Kroupa Olesinski class of '25. She was presented with a corsage from the Alumni Association.

Celebrating their 40th Anniversary, the class of '1948 had the largest attendance with 43 members present.

The class of '1938 celebrated their 50th Anniversary with 17 members present. Each member of the 50th anniversary was presented with a red carnation from the Alumni Association. Other anniversary classes attending were: 1943-45th anniversary (12); 1950-50th anniversary (25); 1956-55th anniversary (34); 1968-20th anniversary (20); 1973-15th anniversary (15); 1978-10th anniversary (17).

The following states were represented: Arizona, California, Connecticut, Delaware, Florida, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, Virginia, and West Virginia.

Glass mugs, with the Jefferson logo and Jefferson Nurses' Alumni Association in blue, and Jefferson note pads were given to each one present as souvenirs. The floral basket center piece on each table was given to the oldest member at each table. As usual the day was a wonderful opportunity to renew the very special relationships. Jefferson Nurses have developed over the years. If you could not attend, we missed you and hope to see as many as possible next year. Please mark your calendar for our next luncheon, Saturday May 6, 1989. See you then.

(After Flossie Roche gave the Grace before the luncheon some of those present asked her for a copy because it was so touching. With Flossie's permission the following is the Grace given before the 1988 Annual Luncheon.)

"GRACE"

Lord, we thank you for this day and for letting each of us be a part of it. We thank you for the food we are about to partake. We thank you for the bringing together of our friends, some here for the first time in many years, for those who come every year, for allowing us to share our life experiences with our buddies from another time in our lives, a time of hard work, study, and a time of sharing and giving, a time of fun and joy, and, yes, some sadness. Three years of growing in the best atmosphere, to be proud of saying we are "Jeff Nurses". Lord—"Thanks for the Memories."

Amen.
Enjoy your lunch!

Scholarship Committee Report

The Clara Melville-Adèle Lewis Scholarship Fund continues to provide scholarships to diploma and White Haven graduates. In May 1985 the scholarship committee took action to grant scholarships to part time, as well as full time applicants provided the applicant is enrolled in a program leading to a degree in nursing and enrolled for a minimum of six (6) credits. Scholarships will be available for summer, fall and spring semesters.

Each application received will be reviewed by the scholarship committee; preference will be given to the applicant who has been a member, who is most active in the Alumni Association, and who has most nearly completed requirements for a degree. A scholarship application can be found in the back of the bulletin.

Bequests

We have received a number of questions concerning bequests to the Nurses Alumni Association. If you are thinking about such bequests, we would suggest the following sample paragraph for your consideration:

I give to the Nurses Alumni Association of the School of Nursing, Diploma Program, College of Allied Health Sciences, Thomas Jefferson University, located in Philadelphia, Pennsylvania, or its successors, the sum of dollars (or identify the property, such as stock, or indicate a percentage of the estate, if appropriate), to be used for its general purposes.

This suggested clause is exclusively for the information of our alumni and friends. You should, of course, consult your own attorney as to the applicability of any item to your own situation.

Bulletin Committee

It is so interesting to get articles for the bulletin from graduates who remember what it was like when? They are all different and very interesting. How about someone writing an article for the 1989 bulletin from the 50's, 60's, 70's and yes, the 80's? "Tell us what you remember about your time at 'Jeff'" if we have missed your name, we ask your forgiveness, sometimes it is difficult to read your writing.

Has anything interesting or exciting happened to you or your family? Don't be shy, share the news with the alumni. Believe it or not, we are interested in what our graduates are doing.

Margaret Summers
Chairman, Bulletin Committee

Volunteers Needed

Volunteering can be a fulfilling and pleasurable way of using some of your "spare" time.

What better place to do volunteer work than at your own alma mater. You might be surprised at the number of people you meet who will remember you; there really are some old-timers still around.

Other departments in the University besides the hospital can use and would welcome volunteers.

If you are interested in being a Jefferson volunteer contact Ms. Linda Sauerwein, 215-982-6222 and tell her your interests or write to her at Thomas Jefferson University, Patient and Volunteer Services, Room 2020 New Hospital, 11th and Walnut Streets, Philadelphia, PA 19107.

The Original Coal Miners Daughter Remembers!

I am the original coal miners daughter, the show that was given on TV. I don't know much about it. Why remembers the 1918 Asian flu? When five young girls from the spring class at Jefferson died. They sent me for my mother who sat by my bed for three weeks while I was unconscious. Then I was sent home for six months to recuperate.

When I got home to the coal mine region, I found the flu still existed, and the nurse with only six months experience, sent home to recuperate, was called on to help care for the sick. I delivered a baby with the mother telling me what to do.

When we were student nurses we would hang out windows and watch race riots on Sansom Street. We would run over the fire escape to go on duty in the hospital. My life was always exciting, and it still is.

My family are mostly gone during the day, I have the company of two dogs and two cats, and they run my life, they are so much company for me and keep me busy. I do not have time to be lonely.

No use to mention the health side of my life. I have a doctor who manages to keep me active. So what will be will be, its not ours to see.

Katharine Flickinger Aegaard, Class of 1921

Have we changed?

The above photo was taken of four "Jeff" graduates at a recent high school reunion, let to right; Anna Alexander Kaull, '42, Mary K. Poole Britt, '44, Helen Swon Joslin, '41, Mary Lou Gaston Stewart, '44.
You're terrific.

Marie and her staff of six nurses have been friends ever since.

They've been friends ever since.

Mrs. Pangburn gave a surprise birthday luncheon by Alan Swann and his parents Peggie and Carl Swan in the Chicago Restaurant in the Pennsauken Country Club.

They've been friends ever since.

Alan had not seen Mrs. Pangburn for nearly two decades, but they quickly recognized each other. Swann considers her to be his "second" mother. Mrs. Pangburn said she always considered Alan part of her family. She has three daughters of her own and recently became a great-great grandmother.

"A nurse who cares"

Congratulations to Marie Mengel MacKenzie, '82, 280 Hudson Court, Holland, PA 19016. Marie was recognized by Hospital News/Philadelphia August 1988 under P.R.O.F.I.L.E. as a nurse, who cares. Marie is assistant head nurse at Holy Redeemer Hospital, Philadelphia, PA. She has worked on Medical Center's 3 Central Nursing Station for two years.

As a medical surgical nurse, working the 7 a.m. to 3 p.m. shift also sees it all. The unit gets its share of patients undergoing chemotherapy as well as those recovering from heart attacks. Marie and her staff of six nurses also care for a variety of surgical patients.

When Marie goes home at the end of her shift knowing she has helped someone, then she feels rewarded. In spite of the mounds of paper work involved, her greatest satisfaction comes from direct patient care, which she considers the most essential part of her position.

Although time away from her job is short, she enjoys cooking. Marie and her husband Kevin are busy preparing to move into an old stone farm house in Warminster, PA. The MacKenzie family have antique collectors and consider this a dream come true.

Nominee for the President's Volunteer Action Award

The following article appeared in the Richfield Life, Spring 1988 edition

Miss Emma Bahner, a resident at Ridgecrest Apartments, was recognized Friday, April 22 at the annual Volunteer Awards Luncheon at Hotel Roanoke. All nominees of the President's Volunteer Action Award and/or the Governor's Award for Volunteer Excellence were invited and presented with a plaque. The awards luncheon was hosted by the Council of Community Services in conjunction with the Junior League of the Roanoke Valley.

Miss Bahner was nominated for the President's Volunteer Action Award by the Volunteer Department at Richfield Nursing Center. She was very instrumental in the success of the Christmas Laprobe Project in 1987. Miss Bahner was the dominant factor behind the formation of a crochet club at Ridgecrest called "Stitch and Chat." Their hard work and dedication inspired many other church and civic groups to become involved.

Richfield Nursing Center has received over 400 laprobes since the project began last fall. CONGRATULATIONS EMMA - YOU'RE TERRIFIC.

Miss Bahner also received congratulations from President and Nancy Reagan, The White House, Washington, D.C.

Centenarian enjoys birthday

Mrs. Godfrey lives in Ligonier, PA with her daughter. Mary is an interesting and avid conversationalist and has many fond memories of her career in nursing. Mary is proud of her memoirs and loves to show them to anyone who is interested.

Her health is good, she uses a walker and can do most of the things she wants to do. Mrs. Godfrey remembers with great satisfaction her career as a U.S. Navy nurse.

In 1918 The S.S. Leivithan, a former German cruise ship was converted into a troop ship to transport American "doughboys" to France. It carried 100,000 men to the battlefields of Europe and returned almost as many to the United States in 1919. Mary Robinson Godfrey, '09, served as Chief Nurse, U.S.N. on several of these great ship's voyages. Listed among her many accomplishments is the important role she played in assisting navy nurses attain the ranks of Commissioned Officers.

Class of 1928

Margaret E. Martin Lauseh, 5099 Grand Avenue, Downers Grove, IL. 60516. It doesn’t seem possible that this is the 60th anniversary class. In 1918 I was a high school class of Williamstown. We had our 65th reunion on a boat with 46 of the original class present, but a class of 1933, which I think is very good, for so long a time. My great grandson Brandon, in a letter from the 4th of July, 1987 they were in California but I haven’t seen him yet. I have two other great grandchildren here in Illinois, and I would like to attend the annual luncheon, but I just can’t do it. I live in Penfield, Illinois. I always enjoy all the news that is in the bulletin. Best wishes to everyone.

Lauren A. Carleton Short, 892 Broad Street, Apt. 15A, Salisbury, MD. 21801. My oldest grandson Mark Hinckley, graduated from Philadelphia law school in May 2013. He is in law school in Charlotte, NC.

Mildred E. Hively, 10824 Carson Drive, Sun City, AZ 85271. Two weeks before I was to leave for China, I got up and couldn’t walk—arthritis. It renews me of the story of the woman who had four boys. She got up in the morning with a cane and by afternoon she was able to take a walk from San Francisco through the Panama Canal to Florida. Then we spent three weeks on the Costa Del Sol Spain followed by a Christmas trip to New York. If one is able to visit the friends in that city, I would thoroughly recommend it.

In December we took care of a brother-in-law’s farm in Texas while he was hospitalized for appendicitis. We had a lovely time. My husband is very happy.

Anna R. Scallan Scanlan, 1536 Montgomery Street #1-C, Highland Park, IL 60035. I send my best wishes to my classmates and hope they are enjoying retirement. I manage to keep very busy doing volunteer work. I am working in a small flower shop in Highland Park, Ill.

Thelma Showers Morris, 1406 Elmira Street, Williamson, PA 17701. In 1987 I spent 5 weeks touring China, including Tibet, Bhutan, Nepal and Kashmir. Fortunately we were in and out of Tibet before all the trouble. It was a fabulous experience.

I talk on the phone to an average of 80 to 90 calls a day. Many times I can solve their problems quickly and other times I just can't. I am retired and I enjoy my job. This service is a real plus for our members, especially our new Mom just homesick with a newborn or a recent post-op who thinks he is in trouble.
