Mead Johnson Award

The Mead Johnson Award has been established to honor the best paper submitted to *The Jefferson Journal of Psychiatry: A Resident Publication* during each calendar year. An award of one thousand dollars is given to the chosen author, with an additional one thousand dollars to be given to the residency program or fellowship in which the author is enrolled. The winning submission will be selected by the Journal's editorial board from manuscripts submitted on any subject related to psychiatric practice and/or research. We invite authors to review the Information for Contributors section of this issue. The board will announce the 1990 recipient in Vol. 9, No. 1, Spring of 1991.

The editorial board of the Journal is proud to announce the recipient of the 1989 Mead Johnson Award: Peter Novalis, M.D., Ph.D. for his article entitled "What Supports Supportive Therapy?". Dr. Novalis completed his residency in psychiatry at the District of Columbia Commission on Mental Health Services. He received his M.D. from the University of Maryland School of Medicine and his Ph.D. in philosophy from Johns Hopkins University.
