Support the Newsletter

Since 1991, the Health Policy Newsletter has served as a key communications medium for cutting-edge quality improvement and medical education-related initiatives. The newsletter is sent quarterly on a complimentary basis to professionals within diverse segments of healthcare and other industries, including physicians, managed care executives, policymakers, journalists, and those in academia and the pharmaceutical industry. We have an audience of nearly 40,000 readers, nationally and abroad.

A self-supporting publication, the Health Policy Newsletter depends partly upon private contributions to remain vital. As the content expands and our readership grows, so does the cost of production and distribution. There are several ways you can help us defray these costs to ensure the quality of the newsletter.

- **Make a Donation**: Individuals and corporations can make a tax-deductible donation to Thomas Jefferson University to support the publication of the Health Policy Newsletter. Donors will be gratefully acknowledged each year in the newsletter.

- **Become a Corporate Sponsor**: The Health Policy Newsletter is seeking corporate sponsorship, which can be made in various ways:
  - Sponsor the newsletter in exchange for your company logo on the masthead.
  - Sponsor a specific section.
  - Include your company’s message in the newsletter.
  - Place a link to your company’s web site on the online version of the newsletter.

- **Purchase Advertising**: The purchase of advertising is also a great way to support the newsletter. For advertising rates, please contact our office at (215) 955-6969.

Please consider supporting the Health Policy Newsletter so that we can continue to inform you of the critical events and trends occurring in our rapidly transforming health care delivery system. For more information, please contact Dr. David B. Nash at (215) 955-6969 or david.nash@mail.tju.edu.
