News from the Science-Technology Division

Science-Technology Division Cheryl Hansen, Chair

The objectives of the Science-Technology Division shall be to draw together those members of the Special Libraries Association having an interest in the role of library and information science as applied to the recording, retrieval and dissemination of knowledge and information in all areas of science and technology, and to promote and improve the communication, dissemination and use of such knowledge for the benefit of libraries and their users.'

Fall greetings to Sci-Tech members. This is my last column as Chair of the Sci-Tech Division.

2012 has gone by quickly and now I am looking forward to handing my duties over to our incoming chair, Helen Josephine. Now that I have figured out what the chair does I get to learn about the things that the past chair handles. It is a continuum that reminds us that everything has a time and place and that the world does not stay the same.

My year as chair has been a good one; I have gotten to know and work with more members than I knew before. I have learned more of how our Association works for us and with us.

SLA is a fantastic resource for all of us, it brings us together through an ever broadening variety of ways to learn, to share and to meet each other and support each other.

Please consider volunteering a bit of time to help make the Sci-Tech Division and SLA strong.

It is for as much time as you want it to be, but whatever you do it will be a good experience. We are always looking for new people to come forward and share themselves and their time. This is really one of the greatest benefits that we can get for being a member of SLA.

This will be a short column as the year is winding down and the Chicago conference is past history at this point. But now, it all begins again as Helen is hard at work planning the 2013 Conference programs for the division and even as Helen is preparing San Diego, the new Chair-Elect will be starting to plan for Vancouver in 2014.

Congratulations go to Nevenka Zdravkovska who you recently elected Chair for 2014. Nevenka has been our treasurer for the last three years and will make a great chair. Congratulations are also in order for Thea Allen who will be Treasurer. Thea has been doing a great job heading our Student Relations committee.

I am also happy to announce that Ben Wedge, Vivienne Houghton, Jeremy Cusker and Simon Barron all won Amazon gift cards for participating in the program surveys. One winner was randomly chosen from those who had answered the survey questions for each of the four programs Sci-Tech was lead on.

Lastly, many thanks go to all those who have helped me this past year. I couldn't have done it without you. THANKS!! ❖

2012 Chair, Sci-Tech Division
