### **SciTECH REFERENCE PLUS**

**The scientific and technical communities of the U.S. and Canada — at your fingertips — with SciTECH REFERENCE PLUS!**

#### **Access every corner of the scientific community**

28 search criteria, 16 browsable indexes, and database cross-searching give you fast access to detailed profiles of 124,000 U.S. and Canadian scientists and engineers from *American Men and Women of Science* ... 8,000 research facilities and independent labs active in commercial or applied research from the *Directory of American Research and Technology*, ... 25,000 leading U.S. and international technology firms from the *Directory of Corporate Affiliations* ... 314,000 books covering every aspect of the sci-tech and medical fields from *Books in Print* ... and 63,000 sci-tech and medical serials from *Ulrich's International Periodicals Directory*.

**Whether you're a librarian or researcher, marketing professional or student, you can...**

- Locate experts in all the physical, biological and related sciences. Consult **SciTECH REFERENCE PLUS**'s detailed profiles to find and contact expert witnesses, subjects for articles, and speakers for conferences.
- Discover who owns which research facilities and determine their mission. Identify candidates for cooperative research ventures.

- Develop mailing lists. Get the names and addresses of vital decision makers to market new products or take advantage of employment opportunities.
- Find virtually every sci-tech and medical publication published or distributed in the U.S. Update your collection by easily accessing and ordering the most current materials in hot fields such as plastics or genetic engineering, or quickly print bibliographies for patrons.

So when you want to research the people and companies making today's technological advances — without wasting time and effort — you need an advanced research tool — **SciTECH REFERENCE PLUS!** Call today to order or for more information!

# Get the Journals

## Medical & Biological Engineering & Computing

Since 1960 MBEC has served the scientific community associated with these exciting and vital areas of biomedical science and technology. Regarded as pre-eminent in the field of medical and biological engineering, the stature of this journal reflects the growth in the membership of the International Federation for Medical & Biological Engineering. Today there are 39 countries from whom MBEC is the official journal, and it draws its readership and authorship from all of these. MBEC is published bi-monthly. Your subscription entitles you to receive, free-of-charge: MBEC News with each issue and Clinical Engineering Update with every alternate issue.

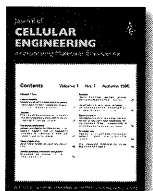

### Topics Include:

Biomechanics • Biosensors • Clinical Engineering • Computing and data processing • Electrodes and transducers • Healthcare technology assessment • Instrumentation for diagnosis and Therapy • Medical imaging • Modeling and simulation • Physiological measurement • Rehabilitation engineering

1996 annual subscription price

Non-Member ..... \$572

IFMBE and IEEE, IEEE Member Society..... \$103

## Cellular Engineering

**Cellular Engineering** is a new journal which has been designed to reflect the growth in the innovative field of cellular engineering. CELLULAR ENGINEERING is published quarterly. The first volume will consist of five issues: August 1995, February, May, August and November 1996.

### Topics Include:

Bioartificial organs • Biointeractions • Biological materials • Biomembranes • Biomimicry • Cell encapsulation • Cell-based biosensors • Cell-energy interactions • Natural neural networks • Tissue engineering

1995-96 subscription price Non-Member..... \$360

IFMBE and IEEE, IEEE Member Society..... \$ 74

These journals are published by the International Federation for Medical & Biological Engineering in partnership with Peter Peregrinus LTD (PPL). (A wholly owned subsidiary of the IEE)
