BIBLIOGRAPHY
AEROSPACE DIVISION
Compiled by Betty Tyson

Aerospace Facts and Figures 85/86.

Washington, DC: Aerospace Industries Association of America. 1985.

Published yearly, this volume provides tables summarizing the aerospace industry, aircraft production, missile and space programs as well as air transportation, foreign trade, and research and development.

Aircraft of the Soviet Union. Bill Gunston. London: Osprey, 1983. 414 p. 0-85-45-445-X.

Describes aeroplanes, rotary plane aircraft, and transport gliders produced in the Soviet Union. Covers approximately 850 types of aircraft.

Aviation/Space Dictionary. 6th ed. Ernest J. Gentle and Lawrence W. Reithmaier. Los Angeles: Aero, 1980. 272 p. 0-8168-3002-9.

Includes terms in the fields of aviation and space technology, computer technology, geophysics, nucleonics, and electronics as well as basic sciences and mathematics.

Bibliography of Aeronautics. Paul Brockett, Ed. Detroit: Gale, 1966. 940 pp. 0-8103-3320-1.

Reprint of the 1910 edition published by the Smithsonian Institution.

It contains 13,500 book and pamphlet titles, and indexes articles of nearly 200 periodicals.

Communication Satellites 1958 to 1986.

D. H. Martin. El Segundo, CA: Aerospace Corp., 1984. 649 pp. AD-A162479.

Describes the purpose and basic characteristics of each military, commercial, and experimental communication satellite that was launched before 1986. A block diagram of the communication subsystem as well as a picture of the satellite are presented.

Encyclopedia of Aviation. New York: Scribners, 1977. 218 pp. 0-684-14840-4.

Provides brief descriptions of military and civil aircraft, short airline histories, biographical data on people in aviation, and definition of technical terms.

Human Factors Design Handbook: Information and Guidelines for the Design of Systems, Facilities, Equipment, and Products for Human Use. Wesley E. Woodson. New York: McGraw-Hill, 1981. 1057 pp. 0-07-07176506.

A ready reference for engineers and designers of equipment, tools, vehicles,

instruments, and other products. It will assist in solving interface problems between users and products.

Interavia ABC. Aerospace Directory 1987. 35th ed. Geneva: Interavia S.A., 1987. 1666 pp.

Lists companies, organizations, and institutes that are related to the aeronautics industry.

International Aerospace Abstracts. Phillipsburg, NJ: American Institute of Aeronautics and Astronautics. 1961-. V. 1-. Semimonthly.

Abstracts articles and papers from periodicals, books, and conference proceedings in the fields of aeronautics and space science.

International Encyclopedia of Aviation. David Mondey, Ed. New York: Crown Publishers, 1977. 480 pp. 0-517-531577.

General encyclopedia which includes coverage of rockets, guided missiles, space exploration, rotocraft, V/STOL, airlines, and balloons.

International Countermeasures Handbook. 12th ed. Palo Alto, CA: EW Communications, 1987. 446 pp. 0-91899-14-4.

Includes reference sections on electronic warfare systems, guided missiles, Soviet weapons and electronics, and lists top EW companies worldwide.

Handbook of Geophysics and the Space Environment. 4th ed. Adolph S. Jursa. Hanscom AFB, MA: Air Force Geophysics Laboratory, 1985. 1065 pp. AD-A167000.

Includes chapters on the sun and its emissions, the earth's magnetic field, the

ionosphere and the aurora, properties of the atmosphere, the earth sciences, and infrared astronomy.

Jane's Aerospace Dictionary. 2nd ed. Bill Gunston. New York: Jane's Publishing, 1986. 565 pp. 0-7106-0365-7.

Contains brief definitions of terminology that has been used in public print without explanation. Includes acronyms, but generally excludes trade names.

Jane's All the World's Aircraft 1987-1988. 78th ed. John W. R. Taylor, Ed. New York: Jane's Publishing, 1987. 1000 pp. 0-7106-0850-0.

Guide to current products of the world's aircraft manufacturers. Includes RPVs and targets, air-launched missiles, sailplanes, airships, and Soviet combat aircraft.

Jane's Avionics 1987-88. 6th ed. Stephen R. Broadbent, Ed. New York: Jane's Publishing, 1987. 550 pp. 0-7106-0846-2.

Includes technical and commercial information on current airborne electronics such as electro-optics and radar, radio communications, data handling, and cockpit displays.

Jane's Spaceflight Directory 1987. Reginald Turnhill, Ed. New York: Jane's Publishing, 1987. 430 pp. 0-7106-0838-1.

In the second edition as a yearbook, provides updated information on the military uses of space, world space programs, launchers, and shuttle technology.

Jane's Weapon Systems 1987-88. 18th ed. Bernard Blake, Ed. New York: Jane's Publishing, 1987. 1100 pp. 0-7106-0845-4.

Covers land, sea,, and air non-infantry-portable weapon systems. Includes the system's development, specifications, and deployment.

Manned Spaceflight Log. 2nd ed. Tim Furniss. New York: Jane's Publishing, 1986. 160 pp. 0-7106-0402-5.

Includes information on past spaceflights and recent missions through March 1986. Flights are listed chronologically in the following categories: astro-flights, spaceflights, earth orbit, and moon flights.

McGraw-Hill's Compilation of Data Communications Standards: including the omnicon index of standards. 3rd ed. Harold C. Folts, Ed. New York: McGraw-Hill, 1986. 3 Vols. 0-07-606948-6.

Compilation of 171 standards in the distributed information system field. Organizations represented include the International Telegraph and Telephone Consultative Committee (CCITT), the International Organization for Standardization (ISO), the European Computer Manufacturers Association (ECMA), the American National Standards Institute (ANSI), the Electronic Industries Association (EIA), and the federal government.

RAE Table of Earth Satellites, 1957-1986. D.G. King-Hele, comp. New York. Stockton Press, 1987. 893 pp. 0-9358590-05-5.

Chronologically lists launches of satellites and space vehicles between

1957 and 1986. Gives name of satellite, its characteristics, date of launch, and associated rockets.

Report Series Codes Dictionary. 3rd ed. Eleanor J. Aronson, Ed. Detroit: Gale, 1986. 647 pp. 0-8103-2147-5.

An aid for identifying technical reports by providing a cross reference between issuing agencies and their report codes.

Scientific and Technical Aerospace Reports. Washington, DC: National Aeronautics and Space Administration. 1963-. V1-. Semimonthly.

Indexes and abstracts current scientific and technical report literature in aeronautics and space sciences. Reports include those issued by NASA and its contractors, other government agencies, corporations, and universities.

The 1987 Satellite Directory. 9th ed. A. T. Barnes, Ed. Potomac, MD: Phillips Publishing, 1987. 866 pp. 0-934960-33-x.

Published annually, this comprehensive guide includes detailed product and service descriptions, overviews of terrestrial transmission facilities, and company names, addresses, and phone numbers.

Who's Who in Space: The First 25 years. Michael Cassutt. Boston: G. K. Hall, 1987. 336 pp. 0-8161-88-1-7.

Provides bibliographic information on astronauts who have participated in the spaceflight program.

World Aviation Directory. New York: News America Publishing, 1987. 2v. Semiannual.

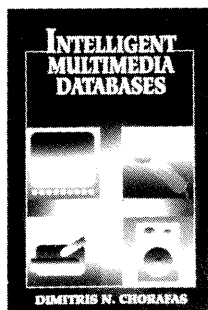

Directory of air lines, major aerospace manufacturers, and distributors as well as other organization and government agencies. Provides

company address and telephone numbers, list of key personnel, and a product/service cross index.

Betty Tyson is located at Westinghouse Electronics Corporation, Sunnyvale, California.
