# AEROSPACE DIVISION

The objectives of the Aerospace Division are to encourage the free exchange of ideas and information between libraries and librarians who are directly concerned with aerospace technology and related sciences; and to maintain a dialog with NASA and other governmental agencies upon whom we rely as sources of technical data and bibliographic sources.

## FROM THE CHAIR

## PHYLLIS A. FISCHER

Greetings! This past summer was a very hectic one for myself and many others in the aerospace industry. All of us are seeing the effects of peace in Europe and the unrest in the Middle East.

Whether you are downsizing, changing, or expanding your business base, remember to call on your colleagues in the Aerospace Division. I've spoken to several of you this summer, and our conversations have helped me through several difficult times.

You, the membership, are what makes this Division "special." Yes, all of you are special and one of you will become the first recipient of the GMMA—George Mandel Memorial Award. Please contact me if you are interested in applying for the GMMA.

Start thinking about San Antonio in June 1991. Be ready to have fun at the Monday night fund raiser scheduled for the Annual Conference—"A Night in Old San Antonio."

**\$500 NOW AVAILABLE**  
**Lynn Ecklund**

Sound intriguing? Are you caught in the Aerospace industry's current economic

crisis? Would you or your company appreciate some financial help for attending next year's Annual Conference in San Antonio? If the answer to any of the above is "YES," then read on.

The **George Mandel Memorial Award (GMMA)** is now in place. All Aerospace Division members in good standing are eligible. The purpose of this award is to promote a means for members to participate in Division activities by providing financial support for attending the Annual Conference.

There are several ways in which to receive this year's award. Present a paper at an Aerospace Division sponsored or co-sponsored program, or for the Division's Annual Business Meeting, chair or coordinate an Aerospace Division sponsored or co-sponsored program, or participate as a panel member or round table discussion leader at an Aerospace Division-sponsored or co-sponsored program. These are just some suggestions; you may think of other ways in which to help the Division.

If you are interested in applying for this year's award please contact Phyllis Fischer, 314-232-6136, before the end of December 1990. All applicants will receive notification of award status by February 1991.

## PUBLICATIONS REMINDER

Lynn Ecklund

The following 3 publications are now available from the Aerospace Division:

*1990 Membership Directory of the Aerospace Division*, compiled by Mitzi Rinehart, Membership Chair. 88 p.

To order, send check for \$20, payable to SLA Aerospace Division, to:

Mitzi M. Rinehart 1207-3M  
Allied Signal Aerospace Co.  
Fluid Systems Division  
P. O. Box 22200  
Tempe, AZ 85285-2200  
602-893-7162

*Criss-Cross Directory of NASA-DOD "N" and "AD" Numbers*. Vol. 2.

To order, send check for \$55, payable to SLA Aerospace Division to:

Leona T. Jarabek  
Library Branch 60-3  
NASA Lewis Research Center  
21000 Brookpark Road  
Cleveland, OH 44135  
216-433-5767

*Translations of Scientific & Technical Literature: a Guide to Their Locations*. By Kathy Wright. Sept. 1987. 30 p.

To order, send check for \$20, payable to SLA Aerospace Division, to:

Julia Keim  
Rockwell International  
Rocketdyne Division BA29  
6633 Canoga Ave.  
Canoga Park, CA 91303  
838-710-3918

## THE AIAA CONNECTION

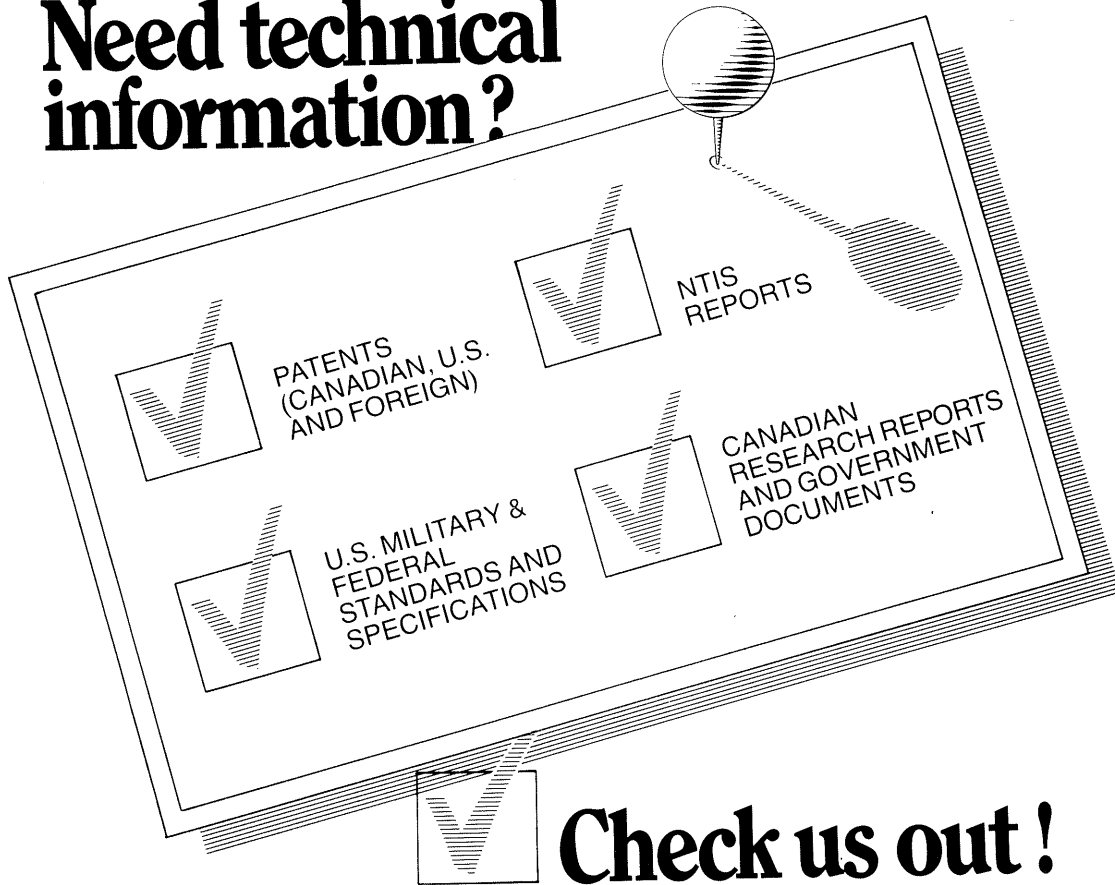

Lynn Ecklund

The AIAA Connection is a new, institute-wide system that provides AIAA members with a range of information services that can be accessed via their personal computers. The service, a joint offering by AIAA and DIALOG Information Services, Inc., will include electronic mail, bulletin boards, and access to the Aerospace Database, with additional options to be added as the service matures. The decision to offer such a service is a direct result of the AIAA Personal Computer Survey, conducted in 1989, which indicated a strong desire on behalf of AIAA members to be able to access and share information electronically. Bulletin Boards for each AIAA department and section will provide online access to the latest news, and the Aerospace Databases will be available to provide access to the latest worldwide developments in aerospace R&D. The system is built around a menu-driven approach that allows experts and beginners alike easy access to the services offered, and it is projected to be available by the end of 1990. For more information about the AIAA Connection call the AIAA Technical Information Service at 212-247-6500 Ext. 244.

# Need technical information?

For 15 years, the **Technical Information Centre**, a division of Micromedia Limited, has supplied customers all over the world with copies of Canadian and foreign patents and trademarks, U.S. military standards and specifications, NTIS reports, and Canadian technical and government documents.

We offer:

- excellent quality document copies

- competitive prices
- easy ordering by fax, electronic mail, phone or telex
- shipment within 24 hours by fax, mail or courier
- easy payment, including VISA, Mastercard and Deposit Account.

Isn't it time you checked us out? Write, fax or phone for a free copy of our **Technical Information Centre** catalogue of products and services.
