News from the Aerospace Section

Aerospace Section

Mary Strife, Chair

The Aerospace Section of the Engineering Division encourages communication and cooperation among information professionals concerned with aerospace, aeronautical and related technologies. In addition, it fosters dialog with entities such as NASA, the AIAA and other important sources of technical data and bibliographical services.

I hope this finds you all well and perhaps getting some time off for Thanksgiving.

I am almost done as the chair of this section. The San Diego Conference was wonderful. It was great to have so many members at breakfast and the discussion about access to NASA reports was very well received.

Edna Paulson is the in-coming chair and is working on plans for the 2014 conference in Vancouver.

So, we are in need of a chair-elect for the section. This position is a great way to ease into service for the association and work with great colleagues in the Aerospace Section and Engineering Division. I am very grateful for the experience and connections I have made during my time.
