Milestone: Over 100 MPH Capstones Archived in the Jefferson Digital Commons

Since 2009 the Jefferson School of Population Health (JSPH) has archived all capstone presentations in the Jefferson Digital Commons.

The latest round of presentations brought the total inventory to over 100 capstone presentations in the MPH degree track. In addition, JSPH is also archiving capstone presentations from the Master of Science in Health Policy, and Healthcare Quality and Safety (MS-HQS) capstone presentations.

Currently, the three most popular capstones in the MPH degree track include:

1. Assessing Nutrition Knowledge, Skill and Attitudes in Adolescent Girls
2. The Need for a Sugar-Sweetened Beverage Tax in Philadelphia – Policy Analysis
3. Home is where the Health Is: Housing, Health and Wellness in a Chronically Homeless Population

In addition, the capstone presentations are being discovered by a global community.
