THE 1940

ANALYSIS

Published by the members of the Senior Class

PHILADELPHIA TEXTILE SCHOOL

FOREWORD

IN COMPILING this year book, the staff has endeavored to form a permanent record of the events and hi-lights of the school year. Among the illustrations in this annual are the individual pictures of the Class of 1940. While this is being written, it is too early for us to predict, but we sincerely hope that each and every one ends his school year successfully. Our year book will be more valuable to us in the future when we have become men engaged in the pursuits of life. The ANALYSIS will then serve its purpose in binding together memories and helping to recall days of the past—school days—happy days.

RICHARD S. COX

DEDICATION

THE MAN TO WHOM THE STAFF IS DEEPLY INDEBTED FOR BOTH ADVICE AND ENCOURAGEMENT, AND TO WHOM BELONGS A MAJOR SHARE OF THE CREDIT FOR ANY SUCCESS THIS PUBLICATION MAY ACHIEVE . . . THE CLASS OF 1940 DEDICATES THE "ANALYSIS."

D. E. W. FRANCE

*Director of Philadelphia Textile School
for fifty-six years*

We salute the man who has probably done more for the advancement of the textile educational system in the United States than any other man alive.

We, the Class of 1940, are more than proud to be the last graduating class under his tutelage.

EDWARD W. FRANCE

An Appreciation

By HOWARD P. GALLOWAY

NO ORDINARY man is Edward W. France. He can bore through you with cold gray eyes, steeled by eighty-one years of life. Or he can listen with sympathetic understanding, as you tell him of hopes and aspirations gone wrong. He can be as tough as a top-sergeant when he knows it will do you good. Or as steady as a rock when he sees you need a friend to lean on. He can be as hard-hearted as an income-tax collector, when you try to put one over on him. Or as helpful as a dozen employment agencies, when you need a job.

His nickname—E. Willie—is a sort of trade-mark, registered in the heart and mind of every former and present student at Philadelphia Textile School. To be sure, it is used when speaking of, rather than to him. As a matter of fact, it is his boys' way of expressing those emotions which are hard to put into words—mingled feelings of friendship, respect, loyalty, and a comradeship few men are privileged to enjoy.

It would be difficult to imagine Dr. France in any business other than textiles. His environment, all through his life, has been on the side of a textile career. He was born in Lawrence, Mass., an important city in the heart of the New England States' textile industry. The first twenty years of his life were spent there, virtually every minute of them within sound of the hum of whirling spindles and the clickety-clack of speeding shuttles. And the next sixty-one years found him in even closer contact with the industry, in another busy and important textile center—Philadelphia.

But if it would be difficult to imagine Dr. France in any industry other than our own, it would be equally difficult, for those who have watched or come under his influence during his fifty-six years at Philadelphia Textile, to imagine the industry *without him*. He has been a sincere and indefatigable worker, both on the front lines and behind the scenes. His efforts on behalf of improved textile training have brought him general recognition as the dean of textile educators. His willingness to cooperate with the industry in answering questions and solving problems has earned both him and the School the reputation of having a fund of textile information perhaps second to none.

The true significance of the work to which Edward W. France has devoted his life will be found not in the pages of biography, but in the lives and accomplishments of the thousands of Philadelphia Textile School graduates who daily labor in every division and subdivision of a great industry.

DR. E. W. FRANCE

THE rôle Dr. France has played in textile engineering training is well known in the industry. From its earliest beginning, he fostered the establishment and growth of the Philadelphia Textile School, which has long been a monument to his ideals of textile progress and a vindication of his concepts of the real motive for higher education.

It is not, by far, within the scope of such an article as this to appraise the methods and achievements of Dr. France.

Students of his now occupy pivotal positions in many lines and the worth of their training can be judged from the fact that no matter how high they rise, they invariably are glad to describe themselves as "graduates of the Philadelphia Textile School."

On the occasion of his Golden Anniversary and Testimonial Dinner in Philadelphia on April 26, 1934, in which the entire textile industry joined to honor him, it was stated that the affair was given:

"With the hope that it may gladden the heart of the man who has so well and so freely served the best interests of a great industry."

It is safe to say that nowhere during the last two decades has a meeting of any consequence been held, of Government officials connected with textiles, or of textile educators, that Dr. France has not been present and has not been a potent factor in the proceedings.

In recent years, Dr. France himself has "majored" in the quality and quantity of advice he has passed along to textile firms and others lodging their inquiries and problems with his school. It is an eminent and authoritative consultant that he probably will finish his long career in this industry.

APPRECIATION

COOPERATION is the keynote in every successful project. The 1940 ANALYSIS had a staff which did their utmost to achieve complete cooperation. I wish to extend my sincere appreciation to:

Gilbert R. Bassin and Alexander Rosenberg for the wonderful job they did as Business and Advertising Managers. The financial success is due to their efforts.

Morton O. Stafford and A. Harold Zayotti, the Associate Editors, for the student write-ups, editorials and valuable constructive suggestions.

Henry Rotters for the complete work he did in compiling informal pictures of the professors and graduates.

Fred Winter for his complete and accurate records of all sports.

To Fred Urweider, Melvin Glass, Professor Byler, Miss Polly Spooner, Miss Madelon Nilon, and all others for their able assistance and information.

To Professor Richard Cox for his invaluable guidance to the staff by making our big problems small ones.

HARRY R. NELSON, Editor.

Faculty Adviser RICHARD S. COX

M. E. HEARD

Mr. Heard has been head of the Textile Engineering Department of the Texas Technological College, Lubbock, Texas. His early textile training began with his employment at the Lanett Mill of the West Point Manufacturing Company at Lanett, Alabama, followed by a course at a high school. He then entered Georgia Tech, of which institution he is a graduate. Since leaving Georgia Tech he has passed through the ranks of assistant professor, associate professor, and finally full professor and head of his department. These positions have brought him in close contact with various manufacturers and others in the textile field, and he brings to the Philadelphia Textile School a very wide and valuable experience which promises to maintain the high standards of the School and carry it forward to future achievements.

Mr. Heard's title will be—Dean of the Philadelphia Textile School of the Philadelphia Museum of Art.

THE FACULTY

WE, THE members of the Senior Class, have had the good fortune of having as our instructors and leaders, men who are well qualified for their particular line of work. A number of the Professors have been engaged in the pioneer work of the school which gives them an even more personal interest in us as students, and our interests in the future.

We have men on our faculty who are not only excellent instructors, but are recognized by the industry as experts in their particular field. There is probably no other institution in the country whose faculty has in mind the requirements desired of a graduate, as that of the Philadelphia Textile School.

ELMER C. BERTOLET

Professor in Charge of Chemistry, Dyeing and Printing

BRADLEY C. ALGEO

Assistant Director in Charge of Weave Formation and Fabric Analysis

WILLIAM C. PFEIFFER

Instructor in Power Weaving

JOHN F. NAAB

Instructor in Cotton, Silk and
Hosiery Manufacturing

PERCIVAL THEEL, B.S.

Instructor in Chemistry
and Dyeing

L. DA COSTA WARD

Instructor in Chemistry
and Textile Fibers

JOSEPH E. GOODAVAGE

Instructor in Dyeing, Bleaching and Printing

THE CLASS AS FRESHMEN—A1 SECTION

SENIOR CLASS RAMBLINGS

AS OUR History was made, so let us review the three years that have made so many fond memories and friendships. May we hope that our paths will cross in the world beyond school. For many of us this year has gone too fast. Our last Thanksgiving Holidays are over; The Textile Club dance, Christmas and Easter vacations, Conventions and the Crowfoot banquet, will soon be just memories. Verily, "time does fly."

It was only this year that . . . We planned for the trip to New York and incidentally the Cotton Exchange . . . The annual petition for extended Christmas vacation was willingly signed . . . We complained about the lack of beams in Power Weaving that gave us too many days off . . . They built the new wing to the school . . . Dorfman asked "just one more question" . . . Classic of football games between C1 and C2, and why C2 lost by *only* 4 points . . . We were told about "Marge" . . . We found the name of the weaver from a 14-oz. Cashmere fabric . . . The mule that took us for a ride or did the tucks keep you in stitches . . . Mr. Geise looked sad because he couldn't sell us \$26.00 worth of supplies this year . . . Terris appeared for the first day of school and announced "For another year" . . . Faces beamed when the Art School girls returned and the Peirce Apts. were again occupied . . . The return of Urweider to finish school . . . The resignation of E. W. France . . . The "busting" a certain student took at the Alumni Banquet . . . The splitting up of C2 . . . Thus did our last year at Olde P. T. S. begin. Though it must be admitted that all of our activities could not be contained beneath that one roof.

Some of us ought to remember last year; it ended just four months

before our Senior year began. If you recall that last baseball game . . . That ended our Junior year. Those were the days when we had a great basketball team. We won the intramural championship. That is to say, those stars: Kapanjie, Cohen, Bill Thomas, Zayotti, Protz, Klein, and Ridgway, did the playing for the rest of us and also helped the varsity to greater fame. Lo, we were in our prime.

Our second year closed in a rush of extra-curricular activity. Remember . . . The Crowfoot Banquet and the much-needed gifts the teachers got . . . The second great Textile Club dance . . . Those educational trips to points of interest . . . American Card Clothing, Proctor & Schwartz, and the wool pullery and oh, that smell from across the street . . . The baseball games we saw by Cutisey of Power Weaving . . . The Long grind before Spring vacation revived us . . . The sweetheart of P. T. S., Ruthie Chartner, and the calming influence she brought to the dye house . . . The extra day and a-half Christmas vacation we got, so Fields and his friends wouldn't have to celebrate New Year's on the train . . . And the First Textile Club dance where everybody was SOOOOO happy . . . The little man who kept the wolves away from the front steps . . . The right way to do your Power Weave exams . . . "It must be held to width," quoted from any of Dr. France's lectures . . . Those *close* class elections in which H. (handsome and political) Nelson, was chosen president; Stan Gary, vice-president; Tom Fields, secretary; John Perin, treasurer; Harold Zayotti, historian. . . . That due to the amount of snow thrown in the Art School windows and the art treasures we ruined, it was no more passage through the center court . . . The water fights in Doc. Byler's chem. class . . . Or the way the trash in the wastebaskets caught fire . . . And the first day of school when we once again tripped up

THE CLASS AS FRESHMEN—A2 SECTION

THE CLASS AS JUNIORS

those valleyed front steps to walk beneath the pillars that led to the treasurer's office . . . We were known as Juniors that year and were worthy of the "Title" Ah, it was a good year, there can be no doubt.

It was not so long ago that we were Freshmen, and in the ways of textile fibres very, very ignorant (that is most of us). We had much to learn and looking back, let us hope we have learned much. That year fades to memories. Recall . . . The color harmony classes where the Civil War was fought again . . . How fellows found themselves reading red hot news . . . The first time we heard Cohen's skyrocket Sneeze . . . The way Johnny Naab used to hop up on the table and give the Hitler salute . . . How we learned to piece up ends on the cotton frame . . . The first day of school when we were married to partners . . . Our introduction to Dr. France's lecturing ability . . . Flash-light Brand banging an extra pick in after hours . . . Loosing the intramural cup by just one basket . . . And the first Textile Club dance . . . The things we went through to join fraternities . . . The good times we had over at "Jack's" . . . Registration day when Philly greeted all sixty-one of us with buckets of rain.

So we have spent the three years at Philadelphia Textile. Though "them thar days are gone forever" may their memories linger on. If these words have recalled experiences of the days gone by, their writing has been well worth the work. **Keep some of these memories alive . . .** The things you did at school . . . Your partner . . . Your classmates. This need not be the end, our graduation. Though we travel by different roads, they are bound to cross in the distant, may it not be too far. When you go down the front steps for the last time, and turn for a last glance at those tuff columns, say "So-long, not good-bye."

C. TREVOR DUNHAM, JR.

JOSEPH G. STAUFFER

Pickering College, Ontario, Canada

Textile Club, '39
Interfraternity Council, '39
Phi Psi, Secretary, '40
President of Class, '40

"Grac'd with polished manners and fine sense."

Joe has been chosen as the most gentlemanly student in the school, an honor he is most worthy of. He is also a diligent and ambitious student, which we predict will enable him, in a few years, to become one of the outstanding textile men in the Dominion of Canada.

J. GARRE GARRETSON, JR.

Abington High School

Interfraternity Council, '38-'39

Delta Kappa Phi

Vice-President of Senior Class, '40

"The only way to have a friend is to be one."

This is Garre's philosophy, and it is a good one. Because of his quiet and dignified manner, Garre may not be known to everyone; but he is everybody's friend.

HENRY JOHN ROTTERS

“HANK”

Shelton High, Yale University, Shelton, Conn.

A. A. T. C. C., '39, '40

Photography Editor of ANALYSIS, '40

Delta Kappa Phi, Annotator, '39, '40

*“When we are standing quite near a bar,
And sipping slowly a brew—or two—
Man, do things begin to happen!
Flash-bulbs go off—people laugh.”*

Hank is as good a student as he is a candid photographer and is sure to be in the “picture.”

C. TREVOR DUNHAM, Jr.

“BULL”

George School, Philadelphia, Pa.

Delta Kappa Phi, Custodian, '39, '40

Senior Class Historian, '40

*“Be good says the proverb, and happy you'll be,
But fun, on the other hand, satisfies me.”*

Bull will be on hand whenever there is any fun or trickery.
He is not all nonsense though, not by a long shot!

GEORGE KAPANJIE

"CHIMP"

Paterson Central High, Paterson, N. J.

Basketball, '38, '39, '40

Baseball, '38, '39, '40

Phi Psi

Secretary of Senior Class, '40

Honorable Mention Hand Weaving, '38

Power Weaving Prize, '39

"I came, I saw, SHE conquered."

This is very true of Chimp's social side of life, but his mind is not always on his girl friends. Chimp has a brilliant mind when it comes to practically any problem in textiles—especially Jacquard.

HARRY R. NELSON

Utica Free Academy, Utica, N. Y.

Baseball, '38, '39, '40
Hand Weaving Prize, '38
Honorable Mention Power Weaving, '39
Highest Rating, '39
ANALYSIS Staff, '39
Interfraternity Council, '40
Treasurer of Class, '38
President of Class, '39
Delta Kappa Phi
Honorable Mention Weave Formation Prize, '38
Crowfoot, '39; Treasurer, '40
Editor-in-Chief of ANALYSIS, '40

*"Into these portals, I was sent,
Overflowing with knowledge, out I went."*

This quotation is very true of Harry's attendance in P. T. S. With a brilliant mind, a pleasing personality, and a keen aptitude for grasping things, Harry will be a credit to our school and the textile industry.

THOMAS AUGUSTUS FIELDS

“MISSISSIPPI”

Mississippi State College, Tupelo, Miss.

Phi Psi, Senior Warden, '40
Baseball, '39
Textile Club, '38; President, '40
Secretary of Class, '39
Second Highest Rating, '39

*“Was sent up here but aim not to stay,
Must get on back down Jo'ja way.”*

Tom is a strong southerner and will always uphold all of their principles. Tom is not one to forget his teachings at the Textile School, but will carry them far into the south.

FRED E. URWEIDER

Paterson Central High, Bloomfield College and Seminary

Phi Psi
Crowfoot, '38
Basketball, '38, '40

*"Thou com'st from Jersey meadows, fresh and green,
The offspring of the gods, though born on earth."*

Yes, Freddie comes from Jersey, but this is not to be held against him. He is a brilliant student whose loyal services will be appreciated by the company for whom he expects to work.

MORTON ODGEN STAFFORD, Jr.

"MO"

William Penn Charter, Philadelphia, Pa.

Delta Kappa Phi, Consul, '39, '40

Color Harmony Prize, '38

Textile Club, '40

*"Few things are impossible
To diligence and skill."*

Mort has been indispensable to our Editor in the publication of this book. Without his aid, it would be like trying to make a three-legged stool stand. Mort is also a very good student, whose leadership and amiability should enable him to become a leader in the textile industry.

A. HAROLD ZAYOTTI, Jr.

“HAL”

Drexel Institute of Technology, Palmyra, N. J.

Phi Psi Fraternity
Vice-President, '40
Class Historian, '39
Associate Editor of ANALYSIS, '40
Interfraternity Council, '40
Textile Club, '40

When you think of a good man, you think of Zayotti; and when you think of a good politician, you naturally think of a Republican. Here we see this happy combination. You have our votes, Harold!

GILBERT R. BASSIN

"GIL"

City College, Baltimore, Md.

Sigma Phi Tau

Editor of *Whiproll*, '39, '40; Staff Editor, '38

Business Manager of *ANALYSIS*, '40

Secretary Interfraternity Council, '40; Member, '38, '39

*"The 'Whiproll's' run by our boy Gill
In which he shows his writing skill."*

We salute the class' most proficient notetaker and we're sure that he will always be able to sell his "line."

ALEXANDER ROSENBERG

“ROSIE”

Brooklyn College, Albright College, Brooklyn, N. Y.

Sigma Phi Tau Exchequer, '39; Councillor, '40
Advertising Manager of ANALYSIS, '40
Whiproll Staff, '40

Debatable questions are Al's specialty, especially those in Economics. No matter how trivial the topic, there must be some discussion. In expressing his opinions he has always amused and occasionally impressed his companions.

THOMAS BAYARD BALDRIDGE, Jr.

"TOM"

Lower Merion Senior High, Wynnewood, Pa.

Delta Kappa Phi

*"Here's to Tom, a most worthy friend,
And on his word you can depend.
He's always ready with a helping hand.
His goodness and virtue will always stand."*

PERCY PHILIP BRAND

Runnymede High, Toronto, Canada

*"No questionable topics for Percy Brand,
He's always ready to take a stand."*

Perce is not one to straddle the fence. He will take one side or the other, even if he is wrong sometimes.

MAX ROBERT COHEN

“IRISH”

Dickinson, New York University, Jersey City, N. J.

Basketball, '38, '39, '40

Baseball, '39

Sigma Phi Tau

Whiproll Staff, '40

*“A little work, a little play,
To keep us going another day.”*

Max is one of our stellar athletes. He is outstanding on both the basketball and the baseball diamond. Max also has a personality that we believe will enable him to be successful in his chosen line of textiles.

SIDNEY DORFMAN

“DORF”

West Philadelphia High School, Philadelphia, Pa.

*“I was sitting with my pick glass
Trying to get a weave;
But closed my book and waited for class,
And there continued to grieve.*”

JACK HERBERT EINIGER

De Witt Clinton High School, New York University
New York City, N. Y.

Jack will always take points on some favorite football game.
We wonder if he will play the cotton futures in the same manner?

MELVIN D. GLASS

Erasmus Hall High School, Brooklyn, N. Y.

*"No dull one is our friend, this Glass,
For he has handed many a brilliant idea to our class."*

Ben's interests do not stop with textiles, but they are varied and reach into many fields and industries.

THOMAS BYRON GOLD, Jr.

University of North Carolina, North Carolina

Vice-President of Class, '38

ANALYSIS Staff, '38

Crowfoot, '39; Vice-President, '40

Honorable Mention Jacquard Prize, '39

Textile Club, '38, '40; Treasurer, '39

Phi Psi, '38; President, '40

"None but himself can be his parallel."

Tom is the business man of our class. Many a social and academic function has been the result of Tom's efforts. With these same efforts, we feel sure that Tom will be successful in the textile field.

MURRAY GRAND

Gratz High School, Philadelphia, Pa.

"Presenting Murray Grand and his Baby—Grand!"

Besides being a Connoisseur of Modern American Music, we have in our midst a composer of original dance rhythms. Good Luck, Benny!

MARTIN O. HAHN

“MARTY”

James Madison High, New York University, Brooklyn, N. Y.

Sigma Phi Tau

“Manhood, not scholarship, is the first aim of education.”

Marty mixes sense and nonsense. He knows how to look serious at times, and we know that his sense of humor will win him lots of friends.

MANNING HALPERT

"MANNIE"

New York University, Bronx, N. Y.

Sigma Phi Tau House Treasurer, '39, '40

*" 'Round about our school you'll find
A boy, who has a brilliant mind;
Who, always wondering, looks about
For a way he may get out
Of some weaves that should be done,
Giving him time for lots more fun.*

FRANKLIN J. HIRSCHBEIN

“FRANKIE”

James Madison High, Brooklyn College, New York City, N. Y.

Sigma Phi Tau

*“A woman is only a woman,
But a good cigarette is a smoke.”*

Frankie is one of the most genial men in our class and we feel sure that this characteristic will aid him well in the future.

MARTIN SEYMOUR KLEIN

“MARTY”

De Witt Clinton High, Massachusetts Institute of Technology,
New York City, N. Y.

Sigma Phi Tau

*“Marty is the best of friend,
A willing hand ready to lend.”*

Marty is always ready to help no matter what the occasion may be. Incidentally, he is one of Cohen's most ardent supporters.

KENNETH A. LATIMER

“KEN”

Baltimore Business College, Sykesville, Md.

Delta Kappa Phi
Baseball, '38, '39, '40

As a fabric analyser, Ken spends a lot of time at the balances in 303. As a pipe smoker, he gets a lot of enjoyment out of good old Edgeworth. As a pool player, he frequents the clubroom. But when he is out of tobacco, and the clubroom is closed, Ken goes back to more analysis and weave formation.

JACK L. LIPSHUTZ, Jr.

"J"

Brown College Prep, Philadelphia, Pa.

Baseball, '39

*"My life is like a stroll upon the beach;
As near the ocean's edge as I can go."*

Jack takes a lot of chances, especially in Mr. Bertolet's lectures, but he always seems to come through on the right side.

FREDERICK G. MILLIKEN

"FRED"

Camden, Me.

Fred was a little late in returning to class, because of illness. However, we were glad to have him back with us because he always has and always will be a credit to the Class of 1940.

DEWITT HERBERT MORTON

"HERB"

Mohnton High, N. C. State College, Mohnton, Pa.

Delta Kappa Phi, Vice-President, '40
Textile Club, '39
Jacquard Prize, '39
Interfraternity Council, '39, '40

*"God bless the man who first invented sleep!
So Sancho Panza said, and so said I."*

Herb does, however, other things but sleep. He's a good student and never allows a hazy topic to go unquestioned.

MALVIN LESLIE NEWMAN

"MAL"

University of Minnesota, Carleton College, Brainerd, Minn.

Sigma Phi Tau Scribe, '38, '39; Vice-Councillor, '39, '40
Whiproll Staff, '39, '40

*"The Old Man of the Mountain is silent
The Newman of our year is, too,
May the future ring loud with his praise
May the future be bright as the NEW!"*

JOHN WARREN PRIFOLD

Richboro High School, Newtown, Pa.

Delta Kappa Phi, Scribe, '39, '40

*"Quiet appearing, disclosing no clue
Of merry nature known only to few."*

Warren is "quiet appearing" as the quotation states, but his "merry nature" is disclosed when he sits down to play the piano!

WILLIAM F. PROTZ

“BILL”

St. John's M. A., Manitowoc, Wis.

Phi Psi
Basketball, '40
Historian, '38

“The world knows nothing of its greatest men.”

Bill is the tallest member of our class, and a flashy center on the P. T. S. basketball team. Bill is no dull one when it comes to textiles either; we believe he will make a name in the industry for himself.

THOMAS C. RIDGWAY

“RIDGE”

High School of Commerce, Philadelphia, Pa.

Phi Psi
Interfraternity Council, '40
Textile Club, '40

*“I do not know beneath what sky
Nor on what seas shall be my fate;
I only know it shall be high,
I only know it shall be great.*”

SAMUEL RUBIN

"RED"

New Utrecht High School, Brooklyn, N. Y.

*"Friend 'Red' from over the state line came
From New York far away
To live and learn
In Penn-syl-van-i-a."*

Others say he came just to break "Glass," but on the contrary he is a good laboratory man.

ALVIN VICTOR

“VIC”

Germantown High School, Germantown, Pa.

*“Happy am I, from care I am free,
Why can't everybody be content like me?”*

Al is always laughing, and certainly makes the most out of what life has to offer.

RUTH CHARTENER

Sweet Briar College, Monessen, Pa.

A. A. T. C. C., Secretary, '40

*"A friendly word, a sunny smile,
A cheery nature all the while."*

Our class has the honor of having one of the few coeds that have ever attended P. T. S. Ruth enjoys the social and academic life as much as any of the fellows. She has also been an aid to some of her classmates in their work.

EDWARD HUNGERFORD

“ED”

Wenonah Military Academy, Wenonah, N. J.

A. A. T. C. C.
Delta Kappa Phi

*“In the lab I very often do additional work,
And there are certain things from which I never shirk.”*

True, Ed is an experimental whiz, but we feel sure that the C. & D. would have missed him greatly had he not joined their ranks.

FREDERICK DAVID JONES

"FRED"

Faribault High School, Philadelphia, Pa.

A. A. T. C. C.
Delta Kappa Phi

*"Fred comes from out Wisconsin way
To Philly town, but not just to play."*

Fred is a conscientious worker and will doubtless make a useful employee to any dye plant.

WILBERT L. KRATZ

“WILBUR”

Cheltenham High, Glenside, Pa.

A. A. T. C. C.
Delta Kappa Phi

*“Last year a monkey suit he wore,
This year a coat as those before.”*

His originality fell off on the home stretch and he joined the ranks of the multi-colored coat wearers. Keep getting ideas, Will.

MENIN BERNARD

“DOC”

Gratz High School, Philadelphia, Pa.

A. A. T. C. C. Secretary, '39; Chairman, '40
Highest Rating, C. & D., '39, '40

“Confucius say, ‘He who works hard sure to be tough customer.’”

The entire C. & D. department puts all confidence in “Doc’s” future in the textile trade.

*“Basketball is right down my line,
Only sometimes I think it is a lot of dribble.”*

The above wit is well known for his efficient managing of the basketball team and a large part of their success is due to Fred's efforts.

CLASS OF 1940

Tune to "The Palisades"

'Tis time for us to bid fond farewell,
We leave the dear old Textile School.
Our passing carries with us memories,
Of teacher, friend, and mule.

No longer will we trod red brick walks,
Or stand 'neath pillar of dusty tan.
To you, we owe our treasured knowledge
The school for the Textile man.

It's pain to leave our favorite studies,
Let's drink a toast of sparkling wine,
We'll ne'er forget the fond memories
Of days at Broad and Pine.

So now let's stand and we salute thee,
The class of forty bids adieu;
Our spirits will forever linger
Ever loyal sons to you.

Words by MAX COHEN.

SILK CLASS OF 1940

THE first year's work was in conjunction with the regular class. This basic work served as a perfect stepping stone for the more specialized subjects offered in the second year.

Our first problem was the producing of a silk fabric on the power looms set aside for our class. These looms were under the supervision of the students who operated them and who were responsible for their continuous operation.

Much appreciation must be expressed to Professor Naab for his undying interest which so greatly contributed to our successful year.

Under the capable direction of Professor Cox we created appropriate designs for dress fabrics, neckties, brocades, etc., using silk and rayon yarns to carry out our thoughts.

Of no less importance were our studies of weave formation and fabric analysis taught by Professors Algeo and Giese.

The chemistry subjects—dyeing and qualitative analysis taught respectively by Professors Goodavage and Byler, are by no means forgotten.

We cannot completely express our thoughts in words for the cooperation and help rendered by all connected with the school. It is with deep regret that we cannot enjoy more of these days, for not only did we obtain a knowledge of textiles, but we made acquaintances which will prove invaluable to us in the future.

ENRIQUE GUERARD

“HENRY”

Instituto De Ciemcias, Guad, Guadalajara: Jal., Mexico

Treasurer of Class, '38
Phi Psi

“Here today and gone tomorrow—to the hospital.”

This may appear to be his motto, but we know that Henry is going to be holding down a good job in the near future.

Penn State, University of Pennsylvania, Philadelphia, Pa.

Baseball, '39

Honorable Mention for First Year Highest Rating, '39

*“I'm rounding up my credentials
While from Naab I learn the fundamentals.”*

We rest assured that the narrow silkloom industry will have an ardent student and a capable man in Bill.

IRWIN TERRIS

Boys' High School, Brooklyn, N. Y.

*"We question, 'Who pitched for the Spaniards in the 1492
World Series?'"*

Terry quirps, 'Christy Columbus.'"

Even if the Dodgers don't win in 1942, we will still be glad to have met and known Terry, the "free-lance student."

A. A. T. C. C.

A STUDENT section of the American Association of Textile Chemists and Colorists was organized at Philadelphia Textile School on December 11, 1936. The purpose of this organization is to supplement the regular class work with discussion and lectures on subjects pertaining to the textile industry. By having their own section, students can choose subjects in which they are particularly interested and also can take advantage of the meetings of the regular Philadelphia section.

Speakers during 1939 were Mr. Smith of Eavenson and Levering Company, and Mr. William Wilson, a former student of the school, who gave an interesting lecture on the Sanforizing process. Mr. Wilson represented the Delta Finishing Company. Mr. Ben Verity of the Cabric Color and Chemical Company, spoke on "Indigosols."

At the first meeting of the 1939-40 school year, Messrs. Frederick Jones and Henry J. Rotters told of their experiences during the past summer at the Ciba Company's school. At the second meeting Mr. L. D. Ward spoke on the "Textile Purchaser's Problem."

In 1939 there was almost 100 per cent membership of the Chemistry and Dyeing men. The chairman during the year was Bernard Menin.

This organization is fortunate to have the advice and assistance of Mr. E. C. Bertolet and the professors of the Chemistry and Dyeing department.

SECOND YEAR REGULARS

JUNIOR CLASS HISTORY

TRUE to form and repetition of past history, Gil Rodman came in late for the first day of the school year, followed by his selzer twin, Alkie Halvorson. After everyone settled down to continue our study of throwing the shuttle, we discovered that two of our classmates, Irving Davis and Randy Stedman, did not return to add their flavor to the atmosphere.

For the sake of those who were otherwise too busily engaged in their scholastic work (if any), I pause briefly to mention that the Junior Class team won the championship of intramural basketball.

"Jack's," the unofficial clubhouse, still seems to be the favorite stopping-off place. All seem to mingle with our neighboring students, from the Peirce and Art Schools, and find much of academic interest to discuss (World War No. 2, Chinese Problem, and etc.). Jack's is so crowded at lunchtime that the boys cannot help but associate with our neighbors, or should I say it's a good excuse.

The first quarter seemed to go quite fast this year and suddenly everyone was anxious to return home for the Thanksgiving vacation. Ray Springer and Ed Andreas left early and took a plane home from Camden. Personally, I believe there was an added attraction in Detroit for both

SECOND YEAR CHEMISTRY AND DYEING CLASS

of them. When they returned Ed was a married man. We expected Ray to do the same, but to our surprise and dismay, he was still with us and very much single (we think). Since then, Ray has talked long distance for seventy-two minutes.

Varsity basketball started and the Junior class contributed much to its successful season. The following juniors played: Karp, Ruff, W. Bertolet, Tapper, and Lewis. Callan worked very nicely as publicity manager.

After the Christmas vacation most everyone returned on time with a few exceptions. Ray Springer, who bought a car while home, lost his way in the mountains on the return trip. In the case of Dave Tulcin, who lives in New York, a rumor claims he was lost by getting on the wrong subway. George Jubrias left Cuba on an ocean liner, and came to Philadelphia by way of China to avoid German battleships in the Atlantic. Whether this is true or not, no one will ever know. This is his story and he is determined to stick to it.

After Christmas came mid-year exams, and with these over and gone the rest of the year seemed to pass by quickly.

FRESHMAN CLASS—REGULARS

FRESHMEN CLASS HISTORY

THE year 1939 brought into the Philadelphia Textile School a new regime of men that in later years, with their knowledge of textiles in its many phases, will invade the large and ever expanding textile industry.

Upon entering the exhibition room for the first time, we were somewhat amazed at the quality and quantity of the fabrics made by those who have preceded us. During our three-year course of study we, of the Freshman Class, hope to make commendable contributions to this room.

Early in the first week of school, we were given our welcoming by Dr. France, and soon after married to our partners by Mr. Algeo.

Class elections were held and the following were judged the victors: President, Robert Nirenberg of Brooklyn, N. Y.; Vice-President, Richard Bergman of Brooklyn, N. Y.; Secretary, Marvin Simkins of Philadelphia, Pa.; Treasurer, Bernard Harvey of Philadelphia, Pa., and Historian, Sanford Josephson of New York City.

In early October the school's attention was turned to basket-

FRESHMAN CLASS—CHEMISTRY AND DYEING

ball. In the intramurals, the Freshman Class was well represented. They made a good bid for the championship before bowing to the powerful Juniors. Soon after intramurals the varsity started practice and the Freshmen on the team played a big part in a successful season. Bob Pickens, Ray Feinstein, Jay Littlegood, Jerry Feuer, and Bob Nirenberg were the first year men on the squad.

Soon after the Christmas holidays, the dreaded mid-year exams crept upon us. They were, however, conquered after many sleepless nights of burning the midnight oil.

As the days went by, the time seemed to fly faster and faster and before we knew it the Easter holidays were over and final exams loomed suddenly in the near future. So ended the first year. It is with great anxiety that we look toward our second year at the Philadelphia Textile School.

ORGANIZATIONS

DELTA KAPPA PHI

ALPHA CHAPTER

IN THE year 1899 four students of the Philadelphia Textile School founded the Alpha Chapter of the Delta Kappa Phi Fraternity, which was incorporated in 1905 and now stands as the oldest incorporated Textile Fraternity in America. Our present membership is now about 1200, all of whose interests fall in the field of textiles and allied professions. Since its very beginning, many men have pledged themselves to uphold the ideals and further the cause of the Fraternity.

Possibly no other single factor in schools and colleges is so important as that of group association, this probably being more true at the Philadelphia Textile School than elsewhere, and in Delta Kappa Phi we have a very closely associated group. The Fraternity has enjoyed a steady growth, and as it will continue to do in the future, holds a worthy position among allied groups.

The ideals of the Fraternity have held together its old members, developed comradeship, and new connections throughout the Textile world. May Future Brothers uphold this tradition in the years to come!

PHI PSI FRATERNITY

ALPHA CHAPTER

PHI PSI FRATERNITY was first founded at The Philadelphia Textile School on March 18, 1903. Today, some thirty-seven years later, we find it has grown into an organization with a membership totaling over twenty-three hundred active and alumni members. But even today with our large organization we find that the aims and objects, under which the fraternity was founded, to be more strongly embedded in the minds of our members than ever before. Those aims being: First, to promote good fellowship among congenial men of the textile schools and colleges with textile departments; second, to encourage a high standard in textile work; third, to assist, by every honorable means, the advancement of its members.

In 1905, the fraternity was incorporated under the laws of the commonwealth of Pennsylvania, and since that time nine active chapters have been given charters in the leading textile schools and colleges of the United States. To still further this, nine Alumni Chapters have been established in various sections of the country. These Alumni Chapters provide natural and pleasing contacts for graduates, from any active chapter, located in their vicinity to quickly and easily meet older members already established in business. Here lies our great strength in offering unequalled opportunities for worthwhile contacts in later years.

Ever since the founding of Phi Psi Fraternity it has steadily and rapidly grown until it has attained a position of respect in every branch of the textile field. This position it will continue to hold, for an organization based on such sound principles and high standards as Phi Psi, can never fall.

SIGMA PHI TAU

ALPHA CHAPTER

TWENTY-FIVE years ago, a group of young men desiring to improve the social and living conditions of the Jewish students at the Philadelphia Textile School, formed the Sigma Phi Tau Fraternity. Founded in 1915, the Fraternity was granted its charter, and incorporated in the State of Pennsylvania in 1918.

Today, after a quarter century of progress, the names and faces of twenty-five years ago are vague, and in some cases have been forgotten, but the spirit and ideals they have created are being upheld. From the small group of founders, Sigma Phi Tau has developed, until at present we have three chapters. Alpha at P. T. S. Beta, founded in 1923, at the New Bedford Textile School, and Gamma founded at the Bradford Durfee Textile School in 1925.

As we enter a new quarter of a century, we hope the spirit that has prevailed will continue. Our fraternity house marks the culmination of years of hopes and desires. Things that are taken for granted today were only obtained after years of hardships, and the inconvenience that we suffer will some day reward our future brothers with happiness.

INTERFRATERNITY COUNCIL

THE Interfraternity Council as other organizations established for harmony, has been built on its accomplishments. In reaching its goal of better fraternities and solving various problems the fraternities have in common, it has been a difficult task for all concerned.

For the first time a mutual date has been drafted by the council as a tri-fraternities convention date. This is a great accomplishment, showing a council practicing harmony.

Many thanks are extended to B. C. Algeo for his patience and guidance, which has made the council a most successful project.

This year, once again the Interfraternity Council will have their annual luncheon as in the past, giving the fraternities an opportunity to get together and discuss things for the future.

THE CROWFOOT SOCIETY

THE Crowfoot Honorary Society was founded in 1925 to meet a growing need for a group of conscientious young men around which might revolve a means of stimulating undergraduate opinion and action advantageous to both the student body and the Philadelphia Textile School. Its success has often been realized by the interest taken in the society and the participation of the whole student body in Crowfoot activities.

The key of membership pictures a crow's foot clutching a scroll upon which it engraved Greek letters conveying the meaning "EXCELSIOR."

Membership to the society requires that a student maintain an average of eighty-five or better for the year previous to admittance. Prospective members names are submitted by professors and students to the society, then checked for eligibility before final selection. A few of the other factors considered are attitude toward work, his activities in and out of school, and good fellowship.

Each class is allowed two members making a total of six students each year, two freshmen, two juniors, and two seniors. These men are informed of membership at the annual banquet held in the spring of each year. The final selection is kept veiled until the closing of the banquet. Exception is made in the case of the following seniors who may become members provided, they meet the qualifications: president of the Senior Class, president of Textile Club, and editor-in-chief of the ANALYSIS. It is also provided that honorary members may be taken in every other year, from alumni or faculty.

Professor Richard S. Cox, Assistant Director of the school, is our faculty adviser and an honorary member of the society.

THE TEXTILE CLUB

THE Textile Club is a body formed some years ago to promote and stimulate much-needed social life at the Philadelphia Textile School. Besides holding one or two student dances during the year, it acts in conjunction with the Crowfoot Society in arranging the Crowfoot Banquet, the social highlight of the school.

The membership is limited to ten students. The Freshman and Junior Classes elect two members each during their yearly elections. The Senior Class elect two members and the president. These seven hold a meeting and appoint the remaining officers. The existing club then selects the number necessary to fill up the directory staff of two from each class.

The club does not have regular meetings. The president has the power to call for them whenever necessary.

Our honorary chairman and faculty adviser is Professor R. S. Cox, Assistant Director of the school.

S P O R T S

INTRAMURAL BASKETBALL

THE Juniors, runners-up in last year's championship, smashed their way through to win the coveted intramural award. By playing heads-up ball, and by taking advantage of every break, they succeeded in winning five out of six games. Their success was undoubtedly due in part, to the fact that the boys were used to each other. Having three regulars from last year's varsity, Karp, Bertolet, and Ruff, the Juniors averaged $25\frac{1}{6}$ points a game, while their opponents averaged $17\frac{2}{3}$ points a game against them.

The second place Freshmen played excellent basketball. Not being familiar with each other's style of play handicapped them and thus they were not as successful as they could have been.

Perhaps the most interesting game of the series was the lone defeat of the Juniors by a very impressive and hard fighting Senior team. Their victory was snatched at the final whistle by a long shot tossed by Max Cohen. The final score was 12 to 11.

The fight and determination of the Seniors reached a new high in their game with the C. & D. The Seniors, playing with four men on the floor, defeated the C. & D.'s full team 37 to 35. George Kapanjie scored a total of twenty points, setting a new record for high scoring in the intramural games.

Every game of the series was well played and all players displayed the spirit that makes intramural sports a success. Thirty-three men saw action during the games. The leading ten scorers were:

Kapanjie, senior.....	45	Pickens, freshman.....	31
Cohen, senior.....	39	Ruff, junior.....	29
Karp, junior.....	34	Protz, senior.....	21
Littlewood, C. & D.....	34	Bertolet, junior.....	19
Feinstein, freshman.....	33	Tapper, junior.....	17

At this time, it is opportune to publicly thank Terry Giffen and Tom Ruggiero for their handling of the games, and Johnny Callan for his publicity.

FREDERIC H. WINTER.

BASKETBALL

SUCCESS is the best way to describe the 1939-40 basketball season. Although the season record showed eight victories in fourteen games, success also came in the form of student interest. Large numbers of students consistently came to both the home and away games.

It would be difficult to really pick an outstanding player on the team because teamwork was the keynote during the entire campaign. Leading the team, however, were the two forwards "Whitey" Karp and "Bob" Pickens. The former was the playmaker and high scorer and the latter, who incidentally, was playing the Eastern brand of basketball for the first time, was the runner-up in scoring and played a bang-up, all-around game. At center was a man who continually improved during the season and proved to be a valuable asset. He was "Norm" Ruff, a Junior of whom big things are expected this coming season. At the guard posts were, usually, two Seniors, namely, George Kapanjie and Max Cohen. "Kap" was always in there fighting and scored most of his points by coming up with the ball from under the basket and then putting in a lay-up shot. "Max" was the man who always seemed to come through with a long set shot just at the moment that it was needed. Always on hand to steady the team were "Bill" Bertolet and "Ray"

Feinstein. "Bill" was known for his superb defensive play and "Ray" for his uncanny one-handed shots from the foul line. Among the rest of the squad were two Juniors and three Freshmen. All of these boys saw action at some time and they included "Howie" Tapper, "Norm" Lewis, "Jay" Littlewood, "Bob" Feuer, and "Bob" Nirenberg.

The highlight of the season was a three-point victory over Drexel Tech. Other features were the splitting of the annual series with Philadelphia Pharmacy, Temple Pharmacy, and Eastern Baptist Theological Seminary, and also a none too disgraceful defeat by Pennsylvania Military College.

A brief summary of each game follows:

PHILADELPHIA TEXTILE, 44; MT. AIRY THEOLOGICAL SEMINARY, 29

The entire squad saw action in the game that started them off on the right foot. "Whitey" Karp was high scorer with 17 points, followed by "Bob" Pickens with 7 points. Three freshmen, "Bob" Pickens, "Ray" Feinstein, and "Jay" Littlewood showed great promise.

PHILADELPHIA TEXTILE, 42; TEMPLE COLLEGE OF PHARMACY, 36

Our boys won their second straight game before a banner crowd of two hundred. After trailing at halftime by 1 point, "Bob" Pickens and "Norm" Ruff paced a second-half attack that spelled victory. They scored 16 and 13 points respectively.

PHILADELPHIA TEXTILE, 31; PENNSYLVANIA MILITARY COLLEGE, 49

Although "Bob" Pickens and "Whitey" Karp scored 13 and 11 points respectively, it wasn't enough to overcome the cadets. The victors built up a 22-6 lead early in the second period and then matched our team point for point the rest of the way. Even P. M. C.'s swell band concert couldn't help get the Christmas holiday stiffness out of the team.

PHILADELPHIA TEXTILE, 35; DREXEL TECH, 30

Victory was sweet in this case because it was against a major opponent. Despite the fact that "Bob" Karp was playing with a very bad knee he sparked the team on to a win that more than made up for the previous defeat. Also high in the scoring column were "Bob" Pickens, "Max" Cohen, and "Norm" Ruff.

PHILADELPHIA TEXTILE, 28; HAHNEMANN MEDICAL COLLEGE, 25

The team exhibited an unbelievable second-half rally that took defeat right out of its hands. After trailing by 8 points at half-time, their defense stiffened and held the future doctors to 4 points during the entire second half. Special notice should be made of the work of "Jay" Littlewood, who replaced "Norm" Ruff early in the game when the latter went out on personal fouls.

PHILADELPHIA TEXTILE, 36; EASTERN BAPTIST THEOLOGICAL SEMINARY, 42

In a thrilling overtime contest the future preachers finally defeated a Textile team that came from behind late in the last quarter to tie the contest. It was one of those nights when the ball just rolled out of the basket. Our high scorer was "Bob" Pickens with 15 points.

PHILADELPHIA TEXTILE, 31; GLASSBORO STATE TEACHERS, 33

A hundred and one things led to our second straight defeat. It seemed that we received every bad break imaginable, and although we outscored our victors 13-5 in the last quarter, it just missed being enough. The cheers of our fifty rooters were more than drowned out by the terrific screaming of the Glassboro lassies who caught the eyes of quite a few of our boys.

PHILADELPHIA TEXTILE, 35; PEIRCE, 28

Textile snapped its two-game losing streak at the expense of our neighbors from across the street. It was a comparatively easy triumph with scoring honors very evenly divided among Pickens, Cohen, and Karp.

PHILADELPHIA TEXTILE, 45; PHILADELPHIA COLLEGE OF PHARMACY, 35

Fireworks in the form of "Whitey" Karp broke loose in the second half of this game.

39-40

VARSITY BASKETBALL TEAM

Publicity Manager, CALLAN

Athletic Director, E. KAISEY

He scored 17 points during this time and more than set the pace for a well earned victory over our arch rivals. "Bob" Pickens was runner-up with 11 points.

PHILADELPHIA TEXTILE, 26; TEMPLE COLLEGE OF PHARMACY, 27

It seems that the team plays its game by halves instead of full games because during the first half they were invincible and came out with a 5-point lead. This was increased to nine points within thirty seconds of the next half. Then something went wrong and with only twenty seconds remaining to play Pharmacy took a one-point lead that meant defeat. Just one of those games to get out of the system.

PHILADELPHIA TEXTILE, 35; UNIVERSITY OF PENNSYLVANIA J. V., 36

That one point told the story again. It was a nip and tuck battle all of the way. The main feature of the game was the Penn football team actually playing football on the basketball floor and two of them being tossed out via the personal foul route.

PHILADELPHIA TEXTILE, 34; HAHNEMANN MEDICAL COLLEGE, 31

A clean sweep of our series with the future doctors was the reward for this victory. "Norm" Ruff with 16 points led the way to victory. This game was just the reverse of the last one though, because this time it was Hahnemann who put up a swell second-half rally.

PHILADELPHIA TEXTILE, 29; PHILADELPHIA COLLEGE OF PHARMACY, 37

After building up a 5-point lead midway in the third quarter, our boys suddenly forgot what teamwork meant. The results were terrible as the score indicates. We were defeated by the same number of points that we had previously defeated our opponents.

PHILADELPHIA TEXTILE, 41; EASTERN BAPTIST THEOLOGICAL SEMINARY, 15

The season came to an end just as it opened. Every man on the squad played at least ten minutes after the first team had built up a 28-5 half-time lead. It was hard to believe that we were playing against a team that had previously defeated us. The offense worked perfectly during the entire game with the second team doing their share of the scoring.

In the annual interfraternity game, Sigma Phi Tau came out victorious for the first time since the series started. They defeated Phi Psi by a score of 39-38 in one of the most thrilling games ever played at the "Y" court.

1940 BASEBALL TEAM

ALTHOUGH handicapped by bad weather and numerous injuries the P. T. S. baseball team has hopes for a highly successful season. They are further hindered by the fact that they have no home diamond and so all games must be played on opponents' territory.

The holdovers from last year's team are bolstered by Freshmen and a smooth working nine should result. The veterans include Karp, Kapanjie, the two Bertolets, Tapper, Nelson, Lewis, and Latimer. The Freshmen and newcomers are Pickens, Feinstein, Simkins, Rixon, Key, Schroeder, Frey, and Bernstein.

Once again our coach is Prof. Theel who does a first-rate job of handling the boys during the games. Baseball is a "baby" at P. T. S. and Prof. has spent a lot of time trying to make it a fixture. The results of the past two or three years have been very encouraging and if the same type of cooperation is given him in the future, he will succeed in putting P. T. S. on the schedule of regular college teams.

Time prevents us from printing a picture of this year's team. The 1940 schedule is as follows:

1940 SCHEDULE

April 7.....	Collingdale
April 13.....	Drexel
April 20.....	Marine Corp.
April 27.....	Aldan
May 4.....	Marine Corp.
May 8.....	P. M. C.
May 11.....	P. C. P.
May 15.....	Penn Fresh
May 18.....	Marine Corp.

C1-C2 FOOTBALL GAME

LINE-UP

Protz.....	left end.....	Lipshutz
Zayotti.....	left tackle.....	Latimer
Morton.....	left guard.....	Halpert
Stauffer.....	center.....	Rubin
Newman.....	right guard.....	Dunham
Gold.....	right tackle.....	Brand
Kapanjie.....	right end.....	Stafford
Garretson.....	quarterback.....	Cohen
Urweider.....	left halfback.....	Einiger
Nelson.....	right halfback.....	Rosenberg
Fields.....	fullback.....	Victor

The final score:

C1.....	4	C2.....	0
---------	---	---------	---

The annual C1-C2 football game ended with a 4-0 victory for the C1 team. It was a hard but clean game with the better organized team winning. The offensive tactics of Kapanjie and Urweider along with the capable blocking of Fields featured for C1. Stafford and Cohen stood out for C2 who were on the defensive most of the game. The fine line play of both teams prevented a higher score. The margin of victory was two safeties, both scored in the third quarter.

IN DU PONT DYESTUFFS

1916 . . . The Du Pont Company recognized the indispensability of the dyestuffs industry to the industrial system of the country and engaged in research leading toward manufacture.

1917 . . . Initial production of indigo and sulfur black.

1919 . . . Successful manufacture of anthraquinone vat colors, marketed under the name of Ponsol*.

1920 . . . Thioindigoid colors first produced in the U. S., marketed under the name of Sulfanthrene*.

1920 TO 1930 . . . A decade of rapid growth exemplified by the introduction of a complete line of direct, developed, sulfur and acid colors, marketed under the names Pontamine*, Pontamine Diazo, Sulfogene* and Pontacyl*.

1931 TO 1939 . . . During this period considerable expansion in the field of fast vat colors occurred. It also witnessed the first commercial production of copper phthalocyanine blue in the United States, marketed under the name of Monastral*. This product represents an outstanding development in the pigment color field.

1940 . . . A firmly established, well-rounded dyestuffs organization, manufacturing over 1200 products, now serves the diverse color requirements of the textile, paper, leather, dry color and other consuming industries.

LOOKING BEYOND THE OBVIOUS TO LEARN THE "WHY" OF DYES AT WORK

Learning just how dyes do their work is mighty important to both the makers and users of dyestuffs.

Important enough for our research staff to devote long hours and considerable ingenuity to the problem of taking full color movies of the action of dyes on individual fibers of various kinds.

Original research of this kind—under the guidance of men with long practical dyehouse experience—is but one of many aspects of what is a full time job here at Calco, making Calco dyes give consistently better results for their users.

For Want of a Lamp A Fibre Was Found

DURING the latter part of the nineteenth century scientists were busily seeking a filament for use in Edison's recent invention—the incandescent electric lamp. In the long series of trials and errors, several methods were developed for reducing cellulose to a liquid and then to resolidify it in the form of a filament. This filament was carbonized and used in the well known carbon lamps until tungsten replaced it.

In these attempts to find a lamp filament, was born the world's second largest textile industry! Man's ingenuity and the wonders of chemistry combined to make this rejected lamp filament the most versatile fibre known to man—rayon.

American Viscose Corporation, pioneer producer of rayon yarn in the United States, has always been the leader in this industry. Since the first American rayon plant opened in 1911 American Viscose Corporation has consistently applied itself to the task of making Crown Rayon the best rayon possible, whether it be viscose rayon, acetate rayon or rayon staple fibre; since Crown Tested Quality came into existence ten years ago American Viscose Corporation has consistently sponsored the manufacture of tested rayon merchandise; and in the years to come American Viscose Corporation's policy will be based upon its slogan:

*"The First Name in Rayon—
The First in Tested Quality."*

TROUBLE SHOOTERS

In National Textile Service Laboratories chemists and colorists anticipate and prevent dye house troubles by subjecting fabrics to tests far more rigorous than conditions encountered in actual use. These men, all with years of practical dye house experience, will welcome your dyeing or finishing problems with a warmth of intelligent interest as genuine as their technical skill.

Attached to each principal National sales office is a National Textile Service Laboratory having an unequalled accumulation of test work and technical data. We invite you to use this nearby technical service.
