EDITORIAL

How we celebrate Thanksgiving in the 20th century is essentially the same as it was during the Pilgrim days. Perhaps we eat in a heated, electrical home with glass windows in comparison to the fire-place heated log cabins of that era but the essential meaning of thanks for what we have on Thanksgiving Day has not changed.

Even now, as in the early days when the Pilgrims landed in Massachusetts in search of a free land where man could be free to live as he wished, we continue to strive for freedom and the right to live as an individual.

On Thanksgiving Day when you sit down for dinner whether it be at home, in a restaurant, or a cafeteria, think for a few moments of what you have and your Thanks-giving Day will be more meaning-ful.

FUTURES IN NURSING

What to do after graduation?
This is the big question which most of the senior students must face. It is a question which will face each girl as she nears the completion of her training.

There are many fields into which a graduate nurse can go.

Some of them include the following: General Duty Nursing, Private Duty, Armed Forces, Public Health Nursing, Industrial Nursing, Operating Room Nurse, and Nursing Education. These are just a few of the fields into which nurses may go. In the coming issues of the paper we will present information concerning the different aspects of Nursing. In this issue we will discuss Private Duty Nursing.

As a private duty nurse you have a wonderful opportunity to teach your patient and his family by clear explanations and demon-The private duty nurse strations. is devoted to good bedside nursing and has the advantage of coming in close contact with not only the patient but his family and friends as well. In this type of nursing you are your own boss and can plan the day to best meet the patient's needs. When doing private duty nursing you stay with one case until your patient is released. In this way you are able to see the total progress of your patient. There are two avenues by which you can enter private duty nursing. One is the Local Professional Registries, maintained by the hospitals, cities, and states. The other is by direct calls from physicians or previous contacts.

Private Duty Nursing is a good field for those of you who are interested in doing total bedside nursing as well as nursing education.

THANKSGIVING

"November Turkey-time has come Make the stuffing, beat the drum Sing the songs of thanks and praise With food-atuffed bellies and eyes a-blaze.

Don't forget the nearby masses Sleeping with their stomachs aching Dirty scraps of clothing warm them Street filth clinging to them, caking.

"So this paints an ugly picture
To think of on a day of daring
Thanksgiving could be truly
joyous
If we joined in heartfelt
sharing"

"PAGING An ORDERLY"

Have you ever been to the accident ward? Most likely you have, but did you ever notice the orderly standing by the elevator.

By shear misfortune his name is unfamilar to us; however, what he has done and many like him, is not forgotten and never shall be.

Mr. Anonymous has been here with us at Jefferson for thirty years and has set aside, for his own personal use, ten dollars per year, from his hard earned salary. When news was spread about the building of our new residence, he willingly and out of the goodness of his heart, contributed the grand sum of three hundred dollars toward what you and I know to be a worthy cause.

At this time it is our pleasure to show him our deepest and sincere gratitude and wish to thank all who helped this spectacular dream come true.

IAIFOTICE

How we celebrate Thankelity in the 20th century is essentially the sale sale as it was during the Pillips and days. Formand we est in a feathful home with glass windows in compartson to the first place heated log cabins of that era but the cesential seening of thanks for what we have on Thanksgiving Day has not changed,

Even now, so in the early days when the Filgrine landed in impossing the filgrine land of a free to land where man could be free to live as he whated, we combinue to strive for freedom and the right to live as so individual.

On Themissiving Day when you all to be at the down for diamer viction it be at bound, or a few mounts of what you have and your Thanks-giving Day will be sore meaning-

CITY GIRL IN A BIG CITY

Ever since I can remember, I have lived in a big city. When I came to Jefferson I was surprised to find that there weren't as many people in the entire training school as were in my high school graduating class. However, this factor didn't make any less difference. The second thing I noticed was the friendliness of all with whom I came in contact. I can truthfully say that I was made to feel at nome in this strunge, new, and wonderful world of nursing.

most of the girls in our class are from small towns. Their different manner of speaking, and general characteristics revealed to me that all nurses are not fused out of one mold. It is also quite amusing to near them talk of the biggest of our city, since to me it is my "small town".

The large, bustling hospital makes me feel right at home, since Jefferson is a city within a city. Although Jeff is a big hospital, I was a ain surprised to find friendliness everywhere. This is usually missing from a well run organization.

Girls of different races, religions, and backgrounds have come to Jefferson for one purpose; to be nurses. Accomplishing this purpose will be a difficult task purpose will be a difficult task Mursing is the career you chose; for some and an easy one for others be happy, the well adjusted nurse some will fall by the wardide Some will fall by the wayside, others will succeed, but to all, their life here will be an experlence they shall never forget. These, are the most outstanding impressions that Jefferson has given to me.

YTINUTAM

many are the steps up the ladder of life to plateaus of temporary placidity. Some are easily accessible, others present an obstacle which must be overcome. Ruman reactions to these or difficulties of life vary. is possible that a person with little ambition or desire to learn may remain stationary on the plateau that requires the least amount of physical effort or mental activity. This is not so with you wno have come to Jefferson pursuing a nursing career. You have many obstacles to overcome and among the first is the panicy felling of a young bird being pushed from its mothers nest. Frightened and novice at this game of life you face the world. There is one difference, the fleagling struggles and they were very, very pleased. alone; the human does not.

you have severed the home ties but you are one of the many girls. Now is the time to grow up. There is no longer the kindly voice of a mother to wake you from sleep, only the brassy shrill of the alarm. This is so with life. You have been awakened by maturity to meet the world. Throw away the rose colored glasses and form your pattern of life.

This pattern is formed at the start with the individual, feeling independence. Ahl-yes, it's good to be here with no parental nagging. This attitude is short lived. Through the days that pass you realize that your thoughts more often than not refer to home. The city is big, the studies hard, the comfort sparce and suddenly you are aware of a condition diagnosed as homesickness. Physically you participate in studies but mentally you're yearning for home. Yet ask yourself is it really home or is it something else. Examine your mind extensively and clearly map out your problem. If it is not homesickness that constitutes your depression, speak to your counselor. If you desire for home cooking, familiar surroundings, old friends, maybe a pet dog, your mood of nostalgia is real. In tais case also there is much to consider to bring about a mood. is a good one.

TOURS

In these past few weeks we have been very proud to show our beautiful home to all those people connected with the hospital and with the building of the spacious residence.

Those attending the open house were taken on conducted tours and shown the conveniences and modern facilitites that compose our home. All visitors seemed pleased and remarked constantly concerning the the trememdous imporovement in the living conditions as compared with residences in the past.

The whole residence on exhibit -- students' rooms, laundries, lavatories, solarium and recreation room stood 'spic and span' illuminating the achievements of all those who built it. Gathered here were all those people who had finally seen the contents of the ultramodern structure at the corner of 11th and Walnut Streets----

The thought of going on psychiatric affiliation always seemed a long overdue class meeting.

At this meeting we chose Joan dim future. Going to Byberry was somehow tied-up with being a serior and well could we live to the serior and well could be live to the serior and the se somehow tied-up with being a senior and well, could we live so long?! Of course we had heard the stories of those who had gone before us but to say the least, there's nothing like first-hand experience.

No one could describe that certain feeling each of us had that first Sunday night. Believe me, each had it no matter how composed they appeared. The "voodoo" music of a certain student gave more than one girl a scare as she lay in bed and heard its weird theme.

Classes were somewhat of a prelude before the storm. In addition to presenting factual material, classes that first week gave us a chance to get used to the grounds, become acquainted with others and catch wide-eyed glimpses of patients. Yes, we stared but didn't realize until even more severely by them.

Nothing short of ten years confinement on a battleship could have prepared us for that first day actually spent on the wards! Bless the hearts of those instruc- CLASS NEWS - SEPT. '62' tors who recognized our general attitude of panic and tactfully oriented us in small doses. These days included -- never having the right key for the right door, getting up at 5:30 A.M. (well, maybe that was only the first morning), and searching for answers to questions such as "Nurse, am I crazy?", and "When can I go home?".

What did we gain from our three months? That list could be topped with a better understanding of both ourselves and others. This particularly is so of our previous attitude toward the mentally ill. The basis for this lies in the experiences we had of meeting a boy of 16 years with an I.J. of 146, the elderly woman of 83 who called you a young snip and cried the day you left, and all those whom you came to know as individual beings. Yes, we gained a lot from our three months. Hope you do! all tapes was built it. datacred apres were all trops people and had finally seen the contents of the dema-

graduating class. Incher didn't .aks resentative.

Polly Anna names were chosen for Christmas gifts and plans were made on how we are going to celebrate Christmas as a group.

CLASS NEWS - SEIT. '61

Barbara Greenwalt represented our hospital as a delegate to the annual state SNAP convention held in Pittsburgh on November tenth through the thirteenth. This convention is held for the purpose of electing state officers and to amend the bylaws of SNAP. It provides a chance for members to meet informally and to really learn and appreciate the functions and usefullness of the SNAP organization.

The sale of "Candy Cupboard" later that we were scrutinized Christmas candies is now under way. There are nineteen varieties to choose from. Hake sure to get your order in before we're all sold out.

The class of 1962 held its first election on Londay, November 16. Miss MacLean officiated at the election. The results are as follows: 100 Leading

. on es meyin Class Advisor - Mrs. Walton President - Janet Hufford Vice President - Shirley Sutthill Secretary - Marion Choinska Secretary Treasurer - Louise Baxter Student Council- Ruth Glancy Marty McCartney Judiciary Council-Corrine Kurzen SNAT Representative-Joanne Faul SMAP Alternate -Joan Campbell

you thee the world. There is one difference, the flaughing struggles alone; the human does not. Yes,

What student has the pleasure of wearing a nametag all her own? You guessed it. I'ts Mrs. Levengood, (more commonly known as Mary Frey).

We have chosen Mary because of the help and support she has given to the student body. She has served as Treasurer of Student Council, President of her class, and was one of the organizers of "Caps and Capes". At the present time she is helping with the year book and is a member of Judicial Board. By contributing in these various activities, she has done much to promote interest and further participation of other stuedents.

Mary is known for her versitality and cheerfulness. She is always helping those with problems, as students value her nature advice. She is also known for her ability to do good work and her thoughtfulness. It has been said that if you want something done give it to a busy person. This is so true of Mary. Where she finds the time is a mystery to us.

As a nurse, she has a sincere interest in each of her patients. She is aware of their needs and tries to provide them whenever possible. All in all, Mary is an excellent nurse, a good student, and a sincere friend.

THE NEW UNIFORMS

"Aren't they pretty?" "They make me look fatter than I am."
"I wish they had aprons." "I love the color." These are just a few of the varied reactions to the new student uniforms. Many eyes were fixed upon us as, for the first time, we proudly wore our uniform—the symbol of our next three years at Jeff. The comments heard in the hospital from the staff, other personnel, patients, and older students, were for the most part, quite favorable. The new uniform, which consists of only one piece, will relieve the hospital laundry of much extra work. Being made of a drip—dry material, they require no starch and little ironing. This is one factor that we students really appreciate.

The Student Council meetings are held the first and third Wednesday of each month at 7 P.M. in the recreation room. All students are welcome to attend.

Jefferson was host for the monthly meeting of S.N.A.P. representatives. After the meeting in McClellan Hall, refreshments were served in the recreation room of the nurses home, and Christmas packages were wrapped for distribution to various hospitals. All who attended had a very enjoyable time.

All students are busily preparing for the Christmas activities. A basket will be prepared by each floor for a needy family in the neighborhood. Another big event is the semi-formal dance. It has been decided that it will be held about two weeks after Christmas. Representatives of Student Council are planning for the dance, sponsored semi-annually by the hospital.

We had our first mass meeting of this school year, Friday, Nov. 13. A welcome was extended to the September, 1962, class. We hope they, too, will take an active interest in Student Council activities.

CHORUS

What is the reason for the merriment of the pre-clinical students on Monday nights? Could be they've just come from chorus?

Many of the girls have found that a singing session with Miss Rhiele and her accompanist, Mrs. Bartels, is just the ting to subdue the tired, "blue Monday" feeling and initiate one with a "ready-to-tackle anything" nature.

Our chorus is now preparing for a Christmas program, which will be presented at the Arch St. Methodist Church. The variety of songs to be presented will surely be enjoyed by all.

NEWSPAPER CLUB

Newspaper Club elected Louise Baxter, '62, to be news editor.

The Club has adopted the constitution drawn up by the Activity Fund Committee. This committee will sponsor profit making events in the school. These funds will be used by the various clubs.

The S.N.A.P. convention held in Pittsburgh, Penna., November 10-13, meetings as of November first. was a great success!! The wonderful was a great success!! The wonderful speeches made by Barbara Schutt, Editor The regular monthly meetin of the American Journal of Nursing, of the Jefferson Nurses Alumnae Miss Kathryn T. Groove, Executive Association was held September Secretary of P.N.A., The Very Rev. eighth, 1959, on the fifteenth floor library of the hospital. dent of Parochial Schools in At this business meeting, reports were given from the of Earl Wheeler Finishing School. various committees. of Earl Wheeler Finishing School, made the convention very interesting to us.

The air of politics before the convention with the posters, pins, and other propaganda, made the election of officers a lot of fun.

There was a talent show with our own girls of Pennsylvania. Also participating in the enter-tainment were the Dentones of the University of Pittsburgh Dental School. Adding to the excitement were the Miss S.N.A.P. Contest, a fashion show by Jonassons, and, best of all, - Uniform Day, when everybody were the uniform of her school. This was a spectacular sight.

The events of the S.N.A.P. Convention were scmething I wish all could have shared. Since this w was not possible, the enthusiasm and spirit present there can be enjoyed by all students when attending he S.N.A.P. Area # 1 meetings. Everyone is welcome and the dates and times will be posted on the bulletin board.

The theme of the convention
