Comments: I recently was provided with a picture and information that my great grandfather was a professor at Thomas Jefferson University (photo depicting his wife and children; one of his daughters is my grandmother). Always wanting to double-check facts, the document, "Catalog of Trustees, Professors, and Students of Jefferson Medical College of Philadelphia: Session of 1882-83" listed his name: Thomas H. Carey, M.E. I plan to continue to research more, however this document provided me a foundation to begin to learn more about my ancestors.

Comments: I am so grateful for this chapter on the history of the Division of Rheumatology at Jefferson! I found it browsing the web for some additional information I needed to complete the content of the Division's new web site. Thank you for posting it! I would like to request permission to include the photos of the past division directors on our new site.
