FIFTIETH  
ANNUAL ANNOUNCEMENT  
OF THE  
JEFFERSON MEDICAL COLLEGE  
OF  
PHILADELPHIA.

The Session of 1874-75  
will begin on Monday, October 5th

---

## BOARD OF TRUSTEES.

HON. JESSE R. BURDEN, M.D.,  
E. B. GARDETTE, M.D.,  
GEN. CHARLES M. PREVOST,  
HON. HENRY M. PHILLIPS,  
HON. GEORGE W. WOODWARD,  
HON. JAMES R. LUDLOW,  
HON. JAMES CAMPBELL,  
GEORGE W. FAIRMAN,  
JOSEPH PATTERSON,

HON. JOSEPH ALLISON, LL.D.,  
JOSHUA B. LIPPINCOTT,  
HON. ASA PACKER,  
HON. WILLIAM A. PORTER,  
HON. FURMAN SHEPPARD.

HON. JESSE R. BURDEN, M.D., *President.*  
GEORGE W. FAIRMAN, *Secretary.*

---

## PROFESSORS.

JOSEPH PANCOAST, M.D.,  
GENERAL, DESCRIPTIVE, AND SURGICAL ANATOMY (*Emeritus*),  
No. 1030 Chestnut Street.

SAMUEL D. GROSS, M.D., LL.D., D.C.L. OXON.,  
INSTITUTES AND PRACTICE OF SURGERY,  
S. E. corner Eleventh and Walnut Streets.

ELLERSLIE WALLACE, M.D.,  
OBSTETRICS AND DISEASES OF WOMEN AND CHILDREN,  
No. 1130 Spruce Street.

B. HOWARD RAND, M.D.,  
CHEMISTRY,  
No. 1615 Summer Street.

JOHN B. BIDDLE, M.D.,  
MATERIA MEDICA AND GENERAL THERAPEUTICS,  
No. 331 S. Seventeenth Street.

J. AITKEN MEIGS, M.D.,  
INSTITUTES OF MEDICINE AND MEDICAL JURISPRUDENCE,  
No. 423 South Broad Street.

J. M. DA COSTA, M.D.,  
PRACTICE OF MEDICINE,  
No. 1609 Walnut Street.

WILLIAM H. PANCOAST, M.D.,  
GENERAL, DESCRIPTIVE, AND SURGICAL ANATOMY,  
No. 1100 Walnut Street.

J. B. BIDDLE, M.D.,  
DEAN, AT THE COLLEGE.

THOMAS H. ANDREWS, M.D.,  
DEMONSTRATOR OF ANATOMY.

J. EWING MEARS, M.D.,  
DEMONSTRATOR OF SURGERY.

HENRY LEAMAN, M.D.,  
PROSECTOR TO THE PROFESSOR OF ANATOMY.

FRANKLIN WEST, M.D.,  
PROSECTOR TO THE PROFESSOR OF SURGERY, AND CURATOR OF THE MUSEUM.

WM. S. LEFFMAN, *Janitor,*  
*at the College, Tenth Street, between Chestnut and Walnut.*

## ANNOUNCEMENT.

---

IN ISSUING THE ANNOUNCEMENT OF THE FIFTIETH COURSE OF LECTURES, the Faculty of the JEFFERSON MEDICAL COLLEGE congratulate its Alumni and friends upon the continued prosperity of the school.

The Class of the last Session numbered 473 Matriculates, the largest assembled in Philadelphia since the war, and represented the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, W. Virginia, N. Carolina, S. Carolina, Georgia, Alabama, Florida, Mississippi, Arkansas, Texas, California, Utah, Kansas, Nebraska, Missouri, Iowa, Minnesota, Illinois, Indiana, Michigan, Ohio, Kentucky, Tennessee, besides England, Scotland, Canada, New Brunswick, Nova Scotia, Germany, Russia, Cuba, Porto Rico, Mexico, Costa Rica, and India.

The Graduating Class of March, 1874, numbered 151. The whole number of Graduates to date is 6352.

The Faculty have to regret, since the close of the last session, the resignation of Professor JOSEPH PANCOAST, who retires after a service of more than a third of a century, full of years and of honors. Dr. William H. Pancoast, for many years Demonstrator of Anatomy, an experienced and able lecturer, has been appointed to the vacant chair. Professor JOSEPH PANCOAST will still afford his valuable aid in the Surgical Clinic.

The course of instruction in the Jefferson Medical College includes a carefully considered combination of didactic and clinical teaching.

For the didactic lectures, ample means of illustration are employed, and every care is taken to treat the subjects with direct reference to practical results.

Such special courses, as the recent progress of medical science has appeared to render necessary, are provided for, chiefly during the *Preliminary Course*, which extends through the month of September, and until the opening of the regular course, on the 5th of October.

Professor RAND is thus enabled to give a very complete course on the subjects of TOXICOLOGY and MEDICAL JURISPRUDENCE.

Professor MEIGS devotes this period to the subject of the Clinical Study of DISEASES OF THE NERVOUS SYSTEM.

The subject of DERMATOLOGY and also of SYPHILITIC DISEASES is in charge of Dr. F. F. MAURY, one of the Surgeons to the Philadelphia Hospital, who is enabled to provide every variety of clinical illustration.

OPHTHALMOLOGY and OTOLOGY are treated both clinically and didactically during the entire course. Drs. R. J. LEVIS and WILLIAM THOMSON, Surgeons to the Wills Ophthalmic Hospital, lecture on these subjects.

**PATHOLOGICAL ANATOMY.** A very full course on this subject is given by Dr. W. W. KEEN, one of the Surgeons to the St. Mary's Hospital.

**OPERATIVE SURGERY**, with operations on the Cadaver, by Dr. JOHN H. BRINTON, one of the Surgeons to the Philadelphia Hospital.

The specialty of LARYNGOSCOPY, with Diseases of the THROAT and CHEST, is treated by Dr. J. SOLIS-COHEN.

**MINOR SURGERY** (with practical applications), by Dr. R. M. TOWNSEND.

The DEMONSTRATOR of Surgery, Dr. J. EWING MEARS, delivers a distinct course of Demonstrations of Surgery, with illustrations on the Cadaver, during the entire session.

**PRACTICAL ANATOMY and MORBID ANATOMY.** For the study of Practical Anatomy, an abundant supply of material is furnished, *free of charge*. The Anatomical Rooms are spacious and provided with every convenience, and not only are subjects for dissection to be had without expense, but there are no incidental or extra charges of any kind in the Dissecting-Room.

**CLINICAL INSTRUCTION.** The union of Clinical with didactic teaching is carried out to the fullest possible extent in the curriculum of the Jefferson Medical College.

The College Hospital, together with the College Dispensaries (where an immense number and almost endless variety of cases are annually presented), furnishes patients for *daily Clinics* at the College. The **SURGICAL CLINIC** is held on Wednesdays and Saturdays, for two hours on each of those days, by Professor GROSS, during the first half of the session, and by Professor JOSEPH PANCOAST and Professor W. H. PANCOAST, during the remaining period. The **MEDICAL CLINIC**, on Mondays and Thursdays, by Professors DA COSTA, MEIGS, BIDDLE, and RAND. The Clinic of Diseases of Women and Children, on Tuesdays, by Professor WALLACE. The Clinic of Diseases of the Eye and Ear, by Drs. LEVIS and THOMSON, on Fridays. During the year, about six thousand cases are treated at the College Hospital and Clinics, and at least one thousand surgical operations are performed.

**PENNSYLVANIA HOSPITAL.** This large hospital is in the immediate neighborhood of the Jefferson College, and clinical instruction and lectures are here given by an able corps of lecturers. Professors DA COSTA and MEIGS lecture clinically on Medicine, and Dr. LEVIS on Surgery, during the Session.

**PHILADELPHIA HOSPITAL.** This Hospital is probably second to no hospital in the world, in the number and variety of cases collected in its wards. Cases of Smallpox and of other contagious diseases are treated at the Municipal Hospital, a separate institution. But, with this exception, all the Departments of a hospital, including a separate Lying-in Department, a Children's Hospital, and Syphilitic Wards, are here collected. Professor PANCOAST and Drs. MAURY and BRINTON are connected with the Staff of this Hospital.

**WILLS OPHTHALMIC HOSPITAL.** This old and extensive hospital, undoubtedly the most complete Ophthalmic Hospital in the United States, is within a short distance of the College. Daily Clinics are held here, and the Staff of Surgeons includes Drs. LEVIS and THOMSON, clinical lecturers on this subject in the College.

In all, Philadelphia has nineteen hospitals, nine dispensaries, and thirty-eight other charitable institutions, with which infirmaries are connected. Almost every special branch of medicine and surgery has its distinct institution, as the Orthopædic Hospital and Hospital for Nervous Diseases, Hospital for Diseases of the Skin, Children's Hospital, etc. etc. etc.

The clinical instruction and admission to the wards in all the Hospitals of Philadelphia are FREE to the Matriculates of the Jefferson Medical College.

Cases in *Midwifery*, in large numbers, are supplied to advanced students of the College, with supervision and assistance whenever needed.

Students who desire instruction in special branches will find every facility. Private courses include the following, among other subjects:—

- Clinical Midwifery, with Cases.
- Diseases of Women and Children, with Cases.
- Ophthalmic and Aural Surgery.
- Minor and Operative Surgery.
- Laryngoscopy and Diseases of the Throat and Chest.
- Diseases of the Genito-Urinary Organs.
- Microscopy and Chemical Analysis.
- Practical Pharmacy.
- Electro-Therapeutics.

There are openings for graduates in the hospitals and charitable institutions of the city, where they may spend a year or more, without expense for board, as "Internes." The Assistants to the Clinical Professors at the COLLEGE are appointed from among the graduates of the school annually in April.

The HOSPITAL FUND is steadily increasing in amount, and it is confidently believed that the erection of new buildings, for both Collegiate and Hospital purposes, will be speedily begun.

A SUMMER COURSE of Supplementary Lectures is given, beginning 29th March, 1875, and extending through the months of April, May, and June. There is no additional charge for this Course to matriculates of the College, except a registration fee of five dollars; non-matriculates pay thirty-five dollars, which is, however, credited on the amount of fees paid for the ensuing winter course.

These Lectureships are at present constituted as follows:—

Clinical Surgery . . . . .	By Professor GROSS.
“ Obstetrics and Diseases of Women . . . . .	“ Professor WALLACE and Dr. F. H. GETCHELL.
Medical Jurisprudence and Toxicology . . . . .	“ Professor RAND.
Materia Medica and Therapeutics . . . . .	“ Professor BIDDLE.
Clinical Study of Nervous Diseases . . . . .	“ Professor MEIGS.
Clinical Medicine . . . . .	“ Professor DA COSTA.
Visceral and Surgical Anatomy . . . . .	“ Professor PANCOAST.
Operative Surgery . . . . .	“ Dr. J. H. BRINTON.
Ophthalmic and Aural Surgery . . . . .	“ Dr. R. J. LEVIS and Dr. W. THOMSON.
Venereal and Cutaneous Diseases . . . . .	“ Dr. F. F. MAURY.
Pathological Anatomy . . . . .	“ Dr. W. W. KEEN.
Laryngoscopy and Diseases of the Throat and Chest . . . . .	“ Dr. J. SOLIS-COHEN.
Chemistry and Pathology of the Blood and Urine . . . . .	“ Dr. J. ENEU LOUGHLIN.
Minor Surgery (with practical applications) . . . . .	“ Dr. R. M. TOWNSEND.

During the summer months, the student has the opportunity of going through the wards of the hospitals, and of gaining much additional information, which want of time during the winter renders difficult of attainment.

Attendance upon the summer course is allowed as office instruction, but does not count as a "Session" of lectures.

The following PRIZES are offered to the graduates of the Jefferson Medical College, at the annual Commencement, March, 1875:—

1. A prize of \$100, by a friend of the school, for the best Thesis, founded upon original experiments, clinical observation, or superior excellence in scholarship.

2. A gold medal, of the value of \$50, by the Professor of Surgery, for the best report of his Surgical Clinic.

3. A prize of \$50, by the Professor of Obstetrics, for the best paper on the Descriptive and Relative Anatomy of the Gravid Uterus.

4. A prize of \$50, by the Professor of Practice, for the best report of Clinical Cases, or for any original inquiry into Practical Medicine.

5. A prize of \$50, by the Professor of Anatomy, for the best Anatomical Preparation contributed to the Museum.

6. A prize of a pocket operating case, of the value of \$25, by the Demonstrator of Anatomy, for the best dissection in the Anatomical Room.

The course of PRELIMINARY LECTURES will open on Monday, 7th September, four weeks before the beginning of the regular course.

During this course, lectures, clinical and didactic, will be given in the mornings, leaving the afternoons for dissecting, thus lightening considerably the winter labors of the student.

The REGULAR WINTER SESSION will begin on Monday, 5th October, 1874, and will continue until 1st March, 1875. The Examinations for the Degree of M.D. (except in special cases), do not begin until *after the close of the Session*, but the Commencement for the conferring of Degrees is held early in March.

The personal expenses of the student are at least as low in Philadelphia as in any other large city. Students can board comfortably for from four and a half to six dollars per week, fire and light included; and those, who are willing to live at some distance from the COLLEGE, or to club together in lodging-rooms, at even less rates. Board during the summer is lower than in winter.

Students will save time and expense by going directly to the College, Tenth Street, above Walnut, on their arrival in the city. The Janitor will at once see them provided with board. The Dean will (if required) attend to the collection of the draughts and checks of the student, and the safe deposit of his money.

Those who wish can reach the COLLEGE by the street cars. From the West-Philadelphia depot take the Market or Chestnut Street lines to Tenth Street. From the Baltimore depot take the Union line to Ninth and Walnut. Baggage may be left at the depot until board is secured, and then sent for by local express. The COLLEGE is about one square west of the Continental and Girard hotels.

A list of all the Graduates to 1874, inclusive, will be sent to any Alumnus on the receipt of a return stamp; to others, on the receipt of twelve cents in stamps.

A list of the residences of the Alumni (as far as ascertained) is kept at the COLLEGE. Any information on this subject will be gratefully received. The Corresponding Secretary of the Alumni Association is Dr. RICHARD J. DUNGLISON, Box 2386, Philadelphia post-office.

At a Public Commencement, held at the American Academy of Music, on the 11th of March, 1874, the Degree of DOCTOR OF MEDICINE was conferred on the following gentlemen, by the Hon. J. R. BURDEN, M.D., President of the Institution, after which a Valedictory Address to the Graduates was delivered by Prof. DA COSTA.

NAME.	STATE OR COUNTRY.	SUBJECT OF THESIS.

			Total . . . . . 151

### REGULATIONS.

The Session commences on the first Monday of October.

The candidate for the Degree of M.D. must be of good moral character, and at least twenty-one years of age. He must have attended at least two full Winter sessions of lectures in some regular and respectable medical school, one of which, the last, shall have been in this COLLEGE; and must exhibit his tickets, or other adequate evidence of attendance, to the Dean of the Faculty.

He must have studied medicine for not less than three years, and have attended at least one course of clinical instruction in an institution approved by the Faculty. He must present to the Dean of the Faculty a thesis of his own composition, correctly written and in his own handwriting, on some medical subject; and exhibit to the Faculty, at his examination, satisfactory evidence of his professional attainments.

Students who have attended one complete course in a respectable Medical School, where attendance on two complete courses is necessary to a degree, and where the same branches are taught as in this, are permitted to become candidates by an attendance here on one full course; the rules of graduation being in other respects observed. They are also exempted from the payment of fees upon attending a second term.

Students, who have attended two full courses on Anatomy, Chemistry, Materia Medica, or Institutes, may be examined on any three of these branches at the end of their second course. They are thus enabled to devote their last (3d) course to the didactic lectures in the remaining branches, and to clinical study.

No *honorary* degrees in medicine are granted.

The degree will not be conferred upon any candidate, who absents himself from the public Commencement, without the special permission of the Faculty.

FEES to each Professor, \$20—in all \$140. Matriculation Fee, \$5, to be paid once only. Graduation Fee, \$30. Students who have paid for two full courses are entitled thereafter to attend free of all charge.

Students, who have attended two full courses of lectures in other accredited medical colleges, are entitled to the tickets of a full course in the Jefferson Medical College for \$70. Graduates of three years' standing, of other accredited medical colleges, are required to pay the matriculation fee only: to graduates of less than three years' standing, the fee for a general ticket is \$50. To graduates of accredited Dental Colleges and Colleges of Pharmacy, the fee for a general ticket is \$100.

### BOOKS OF REFERENCE.

I. INSTITUTES AND PRACTICE OF SURGERY.—Gross's System of Surgery; Gross's Manual of Military Surgery.

II. OBSTETRICS AND DISEASES OF WOMEN AND CHILDREN.—Meigs' or Cazeaux's Midwifery; Bennett on the Uterus; West on Women; Meigs and Pepper on the Diseases of Children.

III. CHEMISTRY.—Rand's Medical Chemistry.

IV. MATERIA MEDICA AND GENERAL THERAPEUTICS.—Biddle's Materia Medica.

V. INSTITUTES OF MEDICINE.—Dalton's Human Physiology; Carpenter's Human Physiology; Dunglison's Medical Dictionary.

VI. PRACTICE OF MEDICINE.—Da Costa on Diagnosis; Dickson's Studies in Pathology and Therapeutics; Flint's Practice of Medicine.

VII. GENERAL, DESCRIPTIVE, AND SURGICAL ANATOMY.—Pancoast's edition of Wistar's Anatomy; Gray's Anatomy; Pancoast's edition of Quain's Anatomical Plates.

The Dean's office is at the College, where all business connected with the College is transacted.

Letters should be addressed to the College, and not to the Dean's residence.

Letters on business of exclusive interest to the writer must inclose a return stamp to secure attention.
