Dear Brother

I now to take my pen to write you a short note, as I am very tired having been very hard at work putting up cloths, which is the most tedious work that ever I did that I remember except picking up stones in the clover lot which you remember no doubt. I can assure you that it will be very short. You sent for some books which I have not procured for you yet but if you will send the edition name and all the particulars I will do my best to get them for you. You say that you are to go to Amherst in the fall, which I am very happy to hear and wish you success. I am situated in the store of Lee Savage & Co on the corner of Liberty & William Sts and No. 77 William. My work is very tedious I think, but I do not know as I have tried it fairly as I have been at it only one week we do as large a business as any one in the city & it is a business which pays a very good profit. Please write me ^{about} the affairs of the farm and all other affairs as soon as you can conveniently. I must now close my short note to you with an affectionate farewell from your brother
