[New CWIC-PH Posters in JDC](#)

Twenty four new **College within the College** posters have been added to the [Jefferson Digital Commons](#).

College within the College (CwiC) is a four year academic area of concentration designed to enrich the Jefferson Medical College curriculum for those students who seek additional training in Population Health. This program aims to step beyond the individual-level focus of mainstream medicine by addressing a broad range of factors that impact health, such as environment, literacy, ethnicity, social structure, resource distribution, health systems and health education/promotion.

This collection consists of posters and presentations developed by Jefferson CwiC-PH medical students in their exploration of service, research/evaluation, and policy analysis in local, regional and international settings.

To date, **58 posters** have been archived and the collection has been downloaded **2,208 times**. Countries that have downloaded posters include (in order from most downloads):

Australia, India, Canada, Pakistan, United Kingdom, Germany, Ethiopia, Hong Kong, New Zealand, Bhutan, Taiwan, Thailand, France, Russia, Argentina, South Africa, Burma, Sweden, Malta, Japan, Brazil, Indonesia, Singapore, Mexico, Malaysia, Bangladesh, Iraq, Slovakia, Sri Lanka, Estonia, Ghana, Nepal, Puerto Rico, Croatia, Finland, Kuwait, Columbia, Trinidad and Tobago, Uganda, Norway, South Korea, Spain, Philippines, Egypt, and Turkey.

If you would like student posters or capstones archived in the Jefferson Digital Commons, contact dan.kipnis@jefferson.edu
