FIFTY-FIRST
ANNUAL ANNOUNCEMENT
OF THE
JEFFERSON MEDICAL COLLEGE
OF
PHILADELPHIA.

The Session of 1875-76
will begin on Monday, October 4th.

BOARD OF TRUSTEES.

E. B. GARDETTE, M.D.,
GEN. CHARLES M. PREVOST,
HON. HENRY M. PHILLIPS,
HON. JAMES R. LUDLOW,
HON. JAMES CAMPBELL,
GEORGE W. FAIRMAN,
JOSEPH PATTERSON,
HON. JOSEPH ALLISON, LL.D.,

JOSHUA B. LIPPINCOTT,
HON. ASA PACKER,
HON. WILLIAM A. PORTER,
HON. FURMAN SHEPPARD.

E. B. GARDETTE, M.D., *President.*
GEORGE W. FAIRMAN, *Secretary.*

PROFESSORS.

JOSEPH PANCOAST, M.D.,
GENERAL, DESCRIPTIVE, AND SURGICAL ANATOMY (*Emeritus*),
No. 1030 Chestnut Street.

SAMUEL D. GROSS, M.D., LL.D., D.C.L. OXON.,
INSTITUTES AND PRACTICE OF SURGERY,
S. E. corner Eleventh and Walnut Streets.

ELLERSLIE WALLACE, M.D.,
OBSTETRICS AND DISEASES OF WOMEN AND CHILDREN,
No. 1130 Spruce Street.

B. HOWARD RAND, M.D.,
CHEMISTRY,
No. 1615 Summer Street.

JOHN B. BIDDLE, M.D.,
MATERIA MEDICA AND GENERAL THERAPEUTICS,
No. 331 S. Seventeenth Street.

J. AITKEN MEIGS, M.D.,
INSTITUTES OF MEDICINE AND MEDICAL JURISPRUDENCE,
No. 423 South Broad Street.

J. M. DA COSTA, M.D.,
PRACTICE OF MEDICINE,
No. 1609 Walnut Street.

WILLIAM H. PANCOAST, M.D.,
GENERAL, DESCRIPTIVE, AND SURGICAL ANATOMY,
No. 1100 Walnut Street.

J. B. BIDDLE, M.D.,
DEAN, AT THE COLLEGE.

THOMAS H. ANDREWS, M.D.,
DEMONSTRATOR OF ANATOMY.

J. EWING MEARS, M.D.,
DEMONSTRATOR OF SURGERY.

WILLIAM H. GREENE, M.D.,
DEMONSTRATOR OF CHEMISTRY.

HENRY LEAMAN, M.D.,
PROSECTOR TO THE PROFESSOR OF ANATOMY.

FRANKLIN WEST, M.D.,
PROSECTOR TO THE PROFESSOR OF SURGERY, AND CURATOR OF THE MUSEUM.

WM. S. LEFFMAN, *Janitor,*
at the College, Tenth Street, between Chestnut and Walnut.

ANNOUNCEMENT.

In issuing the ANNOUNCEMENT of the FIFTY-FIRST COURSE OF LECTURES, the Faculty of the JEFFERSON MEDICAL COLLEGE congratulate its Alumni and friends upon the continued prosperity of the school.

The Class of the last Session numbered 483 Matriculates, the largest assembled in Philadelphia since the war, and represented the States of Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, District of Columbia, Virginia, W. Virginia, N. Carolina, S. Carolina, Georgia, Florida, Mississippi, Louisiana, Texas, California, Nevada, Kansas, Wisconsin, Missouri, Iowa, Minnesota, Illinois, Indiana, Michigan, Ohio, Kentucky, Tennessee, besides England, France, Canada, New Brunswick, Germany, West Indies, Cuba, Mexico, Central America, Costa Rica, India, and British Birmah.

The Graduating Class of March, 1875, numbered 170. The whole number of Graduates to date is 6522.

The course of instruction in the Jefferson Medical College includes a carefully considered combination of didactic and clinical teaching.

For the didactic lectures, ample means of illustration are employed, and every care is taken to treat the subjects with direct reference to practical results.

Such special courses, as the recent progress of medical science has appeared to render necessary, are provided for, chiefly during the *Preliminary Course*, which extends through the month of September, and until the opening of the regular course, on the 4th of October.

Special Instruction will be given on the following subjects:—

THE PHYSIOLOGY OF THE SPECIAL SENSES, by PROFESSOR MEIGS.

DERMATOLOGY and SYPHILITIC DISEASES, by DR. F. F. MAURY, one of the Surgeons to the Philadelphia Hospital, who is enabled to provide ample clinical illustration.

PATHOLOGICAL ANATOMY, by DR. W. W. KEEN, one of the Surgeons to the St. Mary's Hospital.

OPERATIVE SURGERY, with Operations on the Cadaver, by DR. JOHN H. BRINTON, one of the Surgeons to the Philadelphia Hospital.

OPHTHALMOLOGY and OTOLOGY are treated both clinically and didactically during the entire course, by DR. WILLIAM THOMSON, one of the Surgeons to the Wills Ophthalmic Hospital.

LARYNGOSCOPY, with DISEASES OF THE THROAT, by DR. J. SOLIS-COHEN.

TOXICOLOGY, by DR. HENRY LEFFMANN.

THE DEMONSTRATOR OF SURGERY, DR. J. EWING MEARS, delivers a distinct course of Demonstrations of Surgery, with illustrations on the Cadaver, during the entire session.

PRACTICAL CHEMISTRY, with *Qualitative and Quantitative Analysis*, the *Examination of Normal and Abnormal Products*, and *Manipulation* by the Student himself, is taught by the DEMONSTRATOR of Chemistry, under the supervision of the Professor of Chemistry.

EXAMINATIONS. In connection with the various courses of instruction, systematic examinations are held upon the subjects of study.

PRACTICAL ANATOMY and MORBID ANATOMY. For the study of Practical Anatomy, a full supply of material is furnished, *free of charge*. The Anatomical Rooms are spacious and provided with every convenience, and not only are subjects for dissection to be had without expense, but there are no incidental or extra charges of any kind.

CLINICAL INSTRUCTION. The union of clinical with didactic teaching is carried out to the fullest possible extent in the curriculum of the Jefferson Medical College.

The College Hospital, together with the College Dispensaries (where an immense number and almost endless variety of cases are annually presented), furnishes patients for *daily Clinics* at the College. The *SURGICAL CLINIC* is held on Wednesdays and Saturdays, for two hours on each of those days, by Professor GROSS, during the first half of the session, and by Professor JOSEPH PANCOAST and Professor W. H. PANCOAST, during the remaining period. The *MEDICAL CLINIC*, on Mondays and Thursdays, by Professors DA COSTA, BIDDLE, and MEIGS. The *Clinic of Diseases of Women and Children*, on Tuesdays, by Professor WALLACE. The *Clinic of Diseases of the Eye and Ear*, by DR. THOMSON, on Fridays. During the year, about six thousand cases are treated at the College Hospital and Clinics, and at least one thousand surgical operations are performed.

PENNSYLVANIA HOSPITAL. This large hospital is in the immediate neighborhood of the Jefferson College, and clinical instruction and lectures are here given by an able corps of lecturers, including Professors DA COSTA and MEIGS.

PHILADELPHIA HOSPITAL. This Hospital is probably second to no hospital in the world, in the number and variety of cases collected in its wards. Cases of Smallpox and of other contagious diseases are treated at the Municipal Hospital, a separate institution. But, with this exception, all the Departments of an hospital, including a separate Lying-in Department, a Children's Hospital, and Syphilitic Wards, are here collected. Professor PANCOAST and Drs. MAURY and BRINTON are connected with the Staff of this Hospital.

WILLS OPHTHALMIC HOSPITAL. This old and extensive hospital, undoubtedly the most complete Ophthalmic Hospital in the United States, is within a short distance of the College. Daily Clinics are held here, and the Staff of Surgeons includes Dr. THOMSON, clinical lecturer on this subject in the College.

In all, Philadelphia has nineteen hospitals, nine dispensaries, and thirty-eight other charitable institutions, with which infirmaries are connected. Almost every special branch of medicine and surgery has its distinct institution, as the Orthopædic Hospital and Hospital for Nervous Diseases, Hospital for Diseases of the Skin, Children's Hospital, etc. etc. etc.

The clinical instruction and admission to the wards in all the Hospitals of Philadelphia are FREE to the Matriculates of the Jefferson Medical College.

Cases in Midwifery, in large numbers, are supplied to advanced students of the College, with supervision and assistance whenever needed.

There are openings for graduates in the hospitals and charitable institutions of the city, where they may spend a year or more, without expense for board, as "Internes." The Assistants to the Clinical Professors at the COLLEGE are appointed from among the graduates of the school annually in April.

THE NEW HOSPITAL OF THE JEFFERSON MEDICAL COLLEGE. A spacious lot, immediately west of the College, has been purchased by the Board of Trustees, for the erection of a new Hospital. After mature deliberation, the authorities of the College decided not to remove it from the present central and convenient location, but to connect the contemplated new Hospital with the existing college buildings. These will be enlarged and improved, and, together with a large and commodious Hospital, constructed according to the most approved principles of hospital architecture, and equipped with every necessary appliance, will furnish a Medical Institution nowhere surpassed in eligibility of situation as well as facilities of instruction.

A SUMMER COURSE of Supplementary Lectures is given, beginning 27th March, 1876, and extending through the months of April, May, and June. There is no additional charge for this Course to matriculates of the College, except a registration fee of five dollars; non-matriculates pay thirty-five dollars, which is, however, credited on the amount of fees paid for the ensuing winter course.

These Lectureships are at present constituted as follows:—

Clinical Surgery	By Professor GROSS.
Materia Medica and Therapeutics	" Professor BIDDLE.
Clinical Lectures at the Pennsylvania Hospital	" Professor MEIGS.
Clinical Medicine	" Professor DA COSTA.
Operative Surgery	" Dr. J. H. BRINTON.
Ophthalmic and Aural Surgery	" Dr. WM. THOMSON.
Venereal and Cutaneous Diseases	" Dr. F. F. MAURY.
Pathological Anatomy	" Dr. W. W. KEEN.
Laryngoscopy and Diseases of the Throat	" Dr. J. SOLIS-COHEN.
Clinical Midwifery with Cases	" Dr. F. H. GETCHELL.
Chemistry and Pathology of the Urine and Blood	" Dr. J. ENEU LOUGHLIN.
Anatomy	" Dr. T. H. ANDREWS.
Toxicology	" Dr. HENRY LEFFMANN.
Physical Diagnosis, including Auscultation and	
Percussion	" Dr. STANLEY SMITH.
The Microscope	" Dr. H. OSGOOD.

During the summer months, the student has the opportunity of going through the wards of the hospitals, and of gaining much additional information, which want of time during the winter renders difficult of attainment.

Attendance upon the summer course is allowed as office instruction, but does not count as a "Session" of lectures.

The following PRIZES are offered to the graduates of the Jefferson Medical College, at the annual Commencement, March, 1876:—

1. A prize of \$100, by Henry C. Lea, Esq., for the best Thesis, founded upon original experiments, clinical observation, or superior excellence in scholarship.
2. A prize of \$100, by Hon. H. M. Phillips, of the Board of Trustees, for the best Essay upon the Influence of Diseases of the Nervous System on the Mind.
3. A prize of \$100, by Hon. H. M. Phillips, for the best Preparation of the Cranial Nerves, contributed to the Museum.
4. A gold medal, by J. M. Toner, M.D., of Washington, D. C., for the best Thesis, based on original investigation.
5. A prize of \$50, by the Professor of Surgery, for the best Preparation of the Surgical Anatomy of the Head and Neck, contributed to the Museum.
6. A prize of \$50, by the Professor of Obstetrics, for the best paper on the Descriptive and Relative Anatomy of the Gravid Uterus.
7. A prize of \$50, by the Professor of Practice, for the best report of Clinical Cases, or for any original inquiry into Practical Medicine.
8. A prize of \$50, by the Professor of Anatomy, for the best Preparation of a Corroded Spleen, contributed to the Museum.

9. A prize of a pocket operating case, of the value of \$25, by the Demonstrator of Anatomy, for the best dissection in the Anatomical Room.

No Prize will be conferred unless the papers or preparations submitted shall be considered to reach a certain standard of merit.

The course of PRELIMINARY LECTURES will open on Monday, 6th September, four weeks before the beginning of the regular course.

During this course, lectures, clinical and didactic, will be given in the mornings, leaving the afternoons for dissecting, thus lightening considerably the winter labors of the student.

The REGULAR WINTER SESSION will begin on Monday, 4th October, 1875, and will continue until 1st March, 1876. The Examinations for the Degree of M.D. (except in special cases) do not begin until *after the close of the Session*, but the Commencement for the conferring of Degrees is held early in March.

The personal expenses of the student are at least as low in Philadelphia as in any other large city. Students can board comfortably for from four and a half to six dollars per week, fire and light included; and those, who are willing to live at some distance from the COLLEGE, or to club together in lodging-rooms, at even less rates. Board during the summer is lower than in winter.

Students will save time and expense by going directly to the College, Tenth Street, above Walnut, on their arrival in the city. The Janitor will at once see them provided with board. The Dean will (if required) attend to the collection of the drafts and checks of the student, and the safe deposit of his money.

Those who wish can reach the COLLEGE by the street cars. From the West-Philadelphia depot take the Market or Chestnut Street lines to Tenth Street. From the Baltimore depot take the Union line to Ninth and Walnut. Baggage may be left at the depot until board is secured, and then sent for by local express. The COLLEGE is about one square west of the Continental and Girard hotels.

A list of all the Graduates to 1875, inclusive, will be sent to any Alumnus on the receipt of a return stamp; to others, on the receipt of twelve cents in stamps.

A list of the residences of the Alumni (as far as ascertained) is kept at the COLLEGE. Any information on this subject will be gratefully received. The Corresponding Secretary of the Alumni Association is Dr. RICHARD J. DUNGLISON, Box 2386, Philadelphia.

At a Public Commencement, held at the American Academy of Music on the 11th of March, 1875, the Degree of DOCTOR OF MEDICINE was conferred on the following gentlemen, by the Hon. J. R. BURDEN, M.D., President of the Institution, after which a Valedictory Address to the Graduates was delivered by Professor Gross.

NAME.	STATE OR COUNTRY.	SUBJECT OF THESIS.
Abell, Amacey B. (D.D.S.)	Pennsylvania.	Rheumatism.
Agnew, John	Pennsylvania.	Variola.

Kentucky 4	Illinois 2	Wisconsin 1	Total 170
South Carolina . 4	West Virginia . . 2	Georgia 1	

REGULATIONS.

The Session commences on the first Monday of October.

The candidate for the Degree of M.D. must be of good moral character, and at least twenty-one years of age. He must have attended at least two full Winter sessions of lectures, one of which, the last, shall have been in this COLLEGE; and must exhibit his tickets, or other adequate evidence of attendance, to the Dean of the Faculty.

He must have studied medicine for not less than three years, and have attended at least one course of clinical instruction in an institution approved by the Faculty. He must present to the Dean of the Faculty a thesis of his own composition, correctly written and in his own handwriting, on some medical subject; and exhibit to the Faculty, at his examination, satisfactory evidence of his professional attainments.

Students who have attended one complete course in a respectable Medical School, where attendance on two complete courses is necessary to a degree, and where the same branches are taught as in this, are permitted to become candidates by an attendance here on one full course; the rules of graduation being in other respects observed. They are also exempted from the payment of fees upon attending a second term.

Students, who have attended two full courses on Anatomy, Chemistry, Materia Medica, or Institutes, may be examined on any three of these branches, at the end of their second course. They are thus enabled to devote their last (3d) course to the didactic lectures in the remaining branches, and to clinical study.

No *honorary* degrees in medicine are granted.

The degree will not be conferred upon any candidate, who absents himself from the public Commencement, without the special permission of the Faculty.

FEES to each Professor, \$20—in all \$140. Matriculation Fee, \$5, to be paid once only. Graduation Fee, \$30. Students who have paid for two full courses are entitled thereafter to attend free of all charges.

Students, who have attended two full courses of lectures in other accredited medical colleges, are entitled to the tickets of a full course in the Jefferson Medical College for \$70. Graduates of three years' standing, of other accredited medical colleges, are required to pay the matriculation fee only: to graduates of less than three years' standing, the fee for a general ticket is \$50. To graduates of accredited Dental Colleges and Colleges of Pharmacy, the fee for a general ticket is \$100.

BOOKS OF REFERENCE.

- I. INSTITUTES AND PRACTICE OF SURGERY.—Gross's System of Surgery.
- II. OBSTETRICS AND DISEASES OF WOMEN AND CHILDREN.—Meigs' or Cazeaux's Midwifery; Bennett on the Uterus; West on Women; Meigs and Pepper on the Diseases of Children.
