FIFTY-THIRD
ANNUAL ANNOUNCEMENT
OF THE
JEFFERSON MEDICAL COLLEGE
OF
PHILADELPHIA.

The Session of 1877-78
will begin on Monday, October 1st.

BOARD OF TRUSTEES.

E. B. GARDETTE, M.D.,
GEN. CHARLES M. PREVOST,
HON. HENRY M. PHILLIPS,
HON. JAMES R. LUDLOW,
HON. JAMES CAMPBELL,
GEORGE W. FAIRMAN,
JOSEPH PATTERSON,
HON. JOSEPH ALLISON, LL.D.,
HON. ASA PACKER,

HON. FURMAN SHEPPARD,
B. B. COMEGYS,
ELLWOOD WILSON, M.D.,
THOMAS A. SCOTT,
HENRY C. GIBSON.

E. B. GARDETTE, M.D., *President.*
GEORGE W. FAIRMAN, *Secretary.*

PROFESSORS.

JOSEPH PANCOAST, M.D.,
GENERAL, DESCRIPTIVE, AND SURGICAL ANATOMY (*Emeritus*),
No. 1030 Chestnut Street.

SAMUEL D. GROSS, M.D., LL.D., D.C.L. OXON.,
INSTITUTES AND PRACTICE OF SURGERY,
S. E. corner of Eleventh and Walnut Streets.

ELLERSLIE WALLACE, M.D.,
OBSTETRICS AND DISEASES OF WOMEN AND CHILDREN,
No. 1130 Spruce Street.

JOHN B. BIDDLE, M.D.,
MATERIA MEDICA AND GENERAL THERAPEUTICS,
No. 331 S. Seventeenth Street.

J. AITKEN MEIGS, M.D.,
INSTITUTES OF MEDICINE AND MEDICAL JURISPRUDENCE,
No. 1408 Spruce Street.

J. M. DA COSTA, M.D.,
PRACTICE OF MEDICINE,
No. 1700 Walnut Street.

WILLIAM H. PANCOAST, M.D.,
GENERAL, DESCRIPTIVE, AND SURGICAL ANATOMY,
No. 1100 Walnut Street.

ROBERT E. ROGERS, M.D.,
MEDICAL CHEMISTRY AND TOXICOLOGY,
No. 1004 Walnut Street.

J. B. BIDDLE, M.D.,
DEAN.

WILLIAM THOMSON, M.D.,
LECTURER ON DISEASES OF THE EYE.

THOMAS H. ANDREWS, M.D.,
DEMONSTRATOR OF ANATOMY.

J. EWING MEARS, M.D.,
DEMONSTRATOR OF SURGERY.

GEORGE H. WARD, M.D.,
DEMONSTRATOR OF CHEMISTRY.

HENRY LEAMAN, M.D.,
PROSECTOR TO THE PROFESSOR OF ANATOMY.

FRANKLIN WEST, M.D.,
PROSECTOR TO THE PROFESSOR OF SURGERY.

WM. S. LEFFMAN, *Janitor,*
at the College, Tenth Street, between Chestnut and Walnut.

ANNOUNCEMENT.

IN ISSUING the ANNOUNCEMENT of the FIFTY-THIRD COURSE OF LECTURES, the Faculty of the JEFFERSON MEDICAL COLLEGE congratulate its Alumni and friends upon the continued prosperity of the School.

The Class of the last Session was the largest in the United States, and numbered 598 Matriculates, representing the States of Maine, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, District of Columbia, Virginia, W. Virginia, N. Carolina, S. Carolina, Georgia, Alabama, Florida, Mississippi, Texas, California, Nevada, Idaho, Kansas, Wisconsin, Missouri, Nebraska, Iowa, Minnesota, Illinois, Indiana, Michigan, Ohio, Kentucky, Tennessee, New Mexico, Oregon, Colorado, Arizona, besides England, France, Sweden, Canada, New Brunswick, Prince Edward Island, Germany, West Indies, Cuba, Central America, India, and the United States Navy.

The Graduating Class of March, 1877, numbered 198. The whole number of Graduates to date is 6866.

The Faculty have to regret, since the close of the last session, the resignation of Prof. RAND, owing to failing health. The Board of Trustees has appointed to the vacant chair of Medical Chemistry and Toxicology Prof. ROBERT E. ROGERS, for twenty-five years Professor of Chemistry in the Medical Department of the University of Pennsylvania, and well known as an eminent chemist and able lecturer and teacher. The Faculty feel that they have reason to congratulate the friends of the School upon this accession of strength.

The course of instruction in the Jefferson Medical College includes a carefully considered combination of didactic and clinical teaching.

For the didactic lectures, ample means of illustration are employed, and every care is taken to treat the subjects with direct reference to practical results.

Such special courses, as the recent progress of medical science has appeared to render necessary, are provided for, chiefly during the *Preliminary Course*, which extends through the month of September, and until the opening of the regular course, on the 1st of October.

Special Instruction will be given on the following subjects:—

MEDICAL JURISPRUDENCE, by Professor MEIGS.

DERMATOLOGY and SYPHILITIC DISEASES, by Dr. F. F. MAURY, one of the Surgeons to the Philadelphia Hospital.

PATHOLOGICAL ANATOMY, by Dr. MORRIS LONGSTRETH, Pathologist to the Pennsylvania Hospital.

OPERATIVE SURGERY, with Operations on the Cadaver, by Dr. JOHN H. BRINTON, one of the Surgeons to the Philadelphia Hospital.

DISEASES OF THE URINO-GENITAL ORGANS, by Dr. S. W. GROSS, one of the Surgeons to the Philadelphia Hospital.

OPHTHALMOLOGY is treated both clinically and didactically during the entire course, by Dr. WILLIAM THOMSON, one of the Surgeons to the Wills Ophthalmic Hospital.

LARYNGOSCOPY, with DISEASES OF THE THROAT, by Dr. J. SOLIS-COHEN.

The DEMONSTRATOR of Surgery, Dr. J. EWING MEARS, delivers a distinct course of Demonstrations of Surgery, with illustrations on the Cadaver, during the entire session.

PRACTICAL CHEMISTRY, with *Qualitative and Quantitative Analysis*, the *Examination of Normal and Abnormal Products*, and *Manipulation* by the Student himself, is taught by the Professor of Chemistry, assisted by the Demonstrator.

EXAMINATIONS. In connection with the various courses of instruction, systematic examinations are held upon the subjects of study.

PRACTICAL ANATOMY and MORBID ANATOMY. For the study of Practical Anatomy, a full supply of material is furnished, *free of charge*. The Anatomical Rooms are spacious and provided with every convenience, and not only are subjects for dissection to be had without expense, but there are no incidental or extra charges of any kind. The dissecting ticket (fee \$10) is good for one year from the date of issue.

CLINICAL INSTRUCTION. The union of clinical with didactic teaching is carried out to the fullest possible extent in the curriculum of the Jefferson Medical College.

The College Hospital, together with the College Dispensaries (where an immense number and almost endless variety of cases are annually presented), furnishes patients for *daily Clinics* at the Hospital. The SURGICAL CLINIC is held on Wednesdays and Saturdays, for two hours on each of those days, by Professor GROSS, during the first half of the session, and by Professor JOSEPH PANCOAST and Professor W. H. PANCOAST, during the remaining period. The MEDICAL CLINIC, on Mondays and Thursdays, by Professors DA COSTA, BIDDLE, and MEIGS. The Clinic of Diseases of Women and Children, on Tuesdays, by Professor WALLACE. The Clinic of Diseases of the Eye, by Dr. THOMSON, on Fridays. During the year, about six thousand cases are treated at the College Hospital and Clinics, and at least one thousand surgical operations are performed.

PENNSYLVANIA HOSPITAL. This large hospital is in the immediate neighborhood of the Jefferson College, and clinical instruction and lectures are here given by an able corps of lecturers, including Professors DA COSTA and MEIGS, and Dr. R. J. LEVIS.

PHILADELPHIA HOSPITAL. This Hospital is probably second to no hospital in the world, in the number and variety of cases collected in its wards. Cases of Smallpox and of other contagious diseases are treated at the Municipal Hospital, a separate institution. But, with this exception, all the Departments of an hospital, including a separate Lying-in Department, a Children's Hospital, and Syphilitic Wards, are here collected. Professor PANCOAST and Drs. MAURY, BRINTON, and S. W. GROSS are connected with the Staff of this Hospital.

WILLS OPHTHALMIC HOSPITAL. This old and extensive hospital, undoubtedly the most complete Ophthalmic Hospital in the United States, is within a short distance of the College. Daily Clinics are held here, and the Staff of Surgeons includes Dr. THOMSON, clinical lecturer on this subject in the College.

In all, Philadelphia has twenty hospitals, nine dispensaries, and thirty-eight other charitable institutions, with which infirmaries are connected. Almost every special branch of medicine and surgery has its distinct institution, as the Orthopaedic Hospital and Hospital for Nervous Diseases, Hospital for Diseases of the Skin, Children's Hospital, etc., etc., etc.

The clinical instruction and admission to the wards in all the Hospitals of Philadelphia are FREE to the Matriculates of the Jefferson Medical College.

There are openings for graduates in the hospitals and charitable institutions of the city, where they may spend a year or more, without expense for board, as "Internes." The Assistants to the Clinical Professors and the Residents in the COLLEGE HOSPITAL are appointed from among the students and graduates of the School.

THE NEW HOSPITAL OF THE JEFFERSON MEDICAL COLLEGE, which was begun in November, 1875, is now completed and in operation. It is situated immediately west of the College, fronting on Sansom Street, and is bounded on three sides by streets, and by a wide private passage-way on the fourth side. It is 107 feet square, five stories in height, and is designed for the easy accommodation of 125 patients. In connection with the hospital is the out-door or dispensary department, which furnishes much valuable material for clinical instruction. The amphitheatre, provided for Clinical Lectures, is probably the largest and most convenient in the United States, and will seat more than six hundred students. The most approved appliances for heating, ventilation, etc., have been provided, and, in architectural construction, and all desirable conveniences, this hospital will be found at least equal to any American clinical hospital. Daily Clinical

Lectures are given at the hospital through the entire year by members of the Faculty and by the hospital staff, which is constituted as follows:—

Surgeons:

JOHN H. BRINTON, M.D.,
F. F. MAURY, M.D.,
S. W. GROSS, M.D.,
R. J. LEVIS, M.D.

Ophthalmic Surgeon:

WILLIAM THOMSON, M.D.

Aural Surgeon:

L. TURNBULL, M.D.

Physicians:

J. SOLIS-COHEN, M.D.,
JAMES C. WILSON, M.D.,
JOHN B. ROBERTS, M.D.,
OLIVER P. REX, M.D.

Gynæcologists:

F. H. GETCHELL, M.D.,
J. EWING MEARS, M.D.

Pathologist:

MORRIS LONGSTRETH, M.D.

A SUMMER COURSE of Supplementary Lectures is given, beginning 18th March, 1878, and extending through the months of April, May, and June. There is no additional charge for this course to matriculates of the College, except a registration fee of five dollars; non-matriculates pay thirty-five dollars, which is, however, credited on the amount of fees paid for the ensuing winter course.

The Lectureships of this course are at present constituted as follows:—

Clinical Surgery and Medicine	By the Hospital Staff.
Materia Medica and Therapeutics	“ Professor BIDDLE.
Clinical Lectures at the Pennsylvania Hospital	“ Professor MEIGS.
Clinical Surgery at the Philadelphia Hospital	“ Dr. S. W. GROSS.
Operative Surgery	“ Dr. J. H. BRINTON.
Ophthalmic Surgery	“ Dr. WM. THOMSON.
Veneral and Cutaneous Diseases	“ Dr. F. F. MAURY.
Laryngoscopy and Diseases of the Throat	“ Dr. J. SOLIS-COHEN.
Clinical Midwifery with Cases	“ Dr. F. H. GETCHELL.
Chemistry and Pathology of the Urine and Blood	“ Dr. J. ENEU LOUGHLIN.
Anatomy	“ Dr. H. LEAMAN.
Physical Diagnosis, including Auscultation and Percussion	“ Dr. J. C. WILSON.
General Symptomatology	“ Dr. HAMILTON OSGOOD.
Pathological Anatomy	“ Dr. MORRIS LONGSTRETH.
Diseases of Children	“ Dr. W. B. ATKINSON.

Daily Clinical Lectures are held at the Jefferson Medical College Hospital, adjoining the College.

During the summer months, the student has the opportunity of going through the wards of the hospitals, and of gaining much additional information, which want of time during the winter renders difficult of attainment.

Attendance upon the summer course is allowed as office instruction, but does not count as a “Session” of lectures.

The following PRIZES are offered to the graduates of the Jefferson Medical College, at the annual Commencement, March, 1878:—

1. A prize of \$100, by Henry C. Lea, Esq., for the best Thesis founded upon original experiments, clinical observation, or superior excellence in scholarship.
2. A prize of \$50, or gold medal of equal value, for the best Essay on a subject pertaining to the Theory and Practice of Medicine, or to Physiology.
3. A prize of \$50, or gold medal of equal value, for the best Surgical Essay, or the best Anatomical Preparation. All preparations offered in competition are to become the property of the College.
4. A prize of \$50, or gold medal of equal value, for the best Essay on a subject pertaining to Obstetrics and Diseases of Women and Children, or to Therapeutics and the Materia Medica.
5. A prize of \$50, or gold medal of equal value, for the best Original Research in the Working Chemical Laboratory, or the best Essay on some Chemical Subject.
6. A prize of a Pocket Operating Case, of the value of \$25, by the Demonstrator of Anatomy, for the best Dissection in the Anatomical Room.
7. A Gold Medal, by the Demonstrator of Surgery, for excellence in bandaging.
8. A Gold Medal, by R. J. Levis, M.D., one of the Surgeons to the Pennsylvania Hospital, for the best report of his surgical clinic, by a student of the Jefferson Medical College.

No Prize will be conferred unless the papers or preparations submitted shall be considered to reach a certain standard of merit.

The course of PRELIMINARY LECTURES will open on Monday, 3d September, four weeks before the beginning of the regular course.

During this course, lectures, clinical and didactic, will be given in the mornings, leaving the afternoons for dissecting, thus lightening considerably the winter labours of the student.

The REGULAR WINTER SESSION will begin on Monday, 1st October, 1877, and will continue until 1st March, 1878. The Examinations for the Degree of M.D. (except in

special cases) do not begin until *after the close of the Session*, but the Commencement for the conferring of Degrees is held early in March.

The personal expenses of the student are at least as low in Philadelphia as in any other large city. Students can board comfortably for from four to five dollars per week, fire and light included; and those, who are willing to live at some distance from the COLLEGE, or to club together in lodging-rooms, at even less rates. Board during the summer is lower than in winter.

Students will save time and expense by going directly to the College, Tenth Street, above Walnut, on their arrival in the city. The Janitor will at once see them provided with board. The Dean will (if required) attend to the collection of the drafts and checks of the student, and the safe deposit of his money.

A list of all the Graduates to 1877, inclusive, will be sent to any Alumnus on the receipt of a return stamp; to others, on the receipt of twelve cents in stamps.

A list of the residences of the Alumni (as far as ascertained) is kept at the COLLEGE. Any information on this subject will be gratefully received. The Corresponding Secretary of the Alumni Association is Dr. RICHARD J. DUNGLISON, Box 2386, Philadelphia.

At a Public Commencement, held at the American Academy of Music on the 10th of March, 1877, the Degree of DOCTOR OF MEDICINE was conferred on the following gentlemen, by E. B. GARDETTE, M.D., President of the Institution, after which a Valedictory Address to the Graduates was delivered by Professor J. B. BIDDLE.

The following prizes were awarded:—

1. A prize of \$100, by H. C. Lea, Esq., for the best Thesis, to Leonardo D. Judd, of Illinois, with honourable mention of the Theses of Samuel E. James, of Kentucky, and George A. Hewitt, of Pennsylvania.
2. A prize of \$100, by Hon. H. M. Phillips, for the best Preparation of the Cranial Nerves, contributed to the Museum, to Samuel E. James, of Kentucky.
3. The Toner Medal, by J. M. Toner, M.D., of Washington, D. C., for the best Thesis, based upon original investigation, to A. H. R. Guiley, of Pennsylvania, with honourable mention of the Thesis of William L. McCandliss, of Pennsylvania.

4. A prize of \$50, by the Professor of Obstetrics, for the best paper on the Obstetric Forceps, their description, and how, when, and why to use them, to Washington C. Detweiler, of Pennsylvania, with honourable mention of the papers of W. K. T. Sahn and E. W. Bing, both of Pennsylvania.

5. A prize of \$50, by the Professor of Practice, for the best Report of Clinical Cases, to George A. Hewitt, of Pennsylvania, with honourable mention of the Reports of Samuel B. Arment and Charles Wirgman, both of Pennsylvania.

6. A prize of a Pocket Operating Case, of the value of \$25, by the Demonstrator of Anatomy, for the best Dissection in the Anatomical Room, to Samuel B. Arment, of Pennsylvania.

7. A prize of a Gold Medal, by the Demonstrator of Surgery, for excellence in Bandaging, to Henry C. Fegley, of Pennsylvania, with honourable mention of T. M. Throckmorton, of Iowa.

8. A Gold Medal, by R. J. Levis, M.D., for the best Report of his Surgical Clinic at the Pennsylvania Hospital, to A. H. R. Guiley, of Pennsylvania, with honourable mention of the Reports of John A. Mitchell, of Illinois, Charles Wirgman, of Pennsylvania, George F. Souwers, of Pennsylvania, William Dinwoodie, of Rhode Island, and William Deats, of Pennsylvania.

REGULATIONS.

The Session commences on the first Monday of October.

The candidate for the Degree of M.D. must be of good moral character, and at least twenty-one years of age. He must have attended at least two full Winter sessions of lectures, one of which, the last, shall have been in this COLLEGE; and must exhibit his tickets, or other adequate evidence of attendance, to the Dean of the Faculty.

He must have studied medicine for not less than three years, and have attended at least one course of Practical Anatomy and of Clinical Instruction. He must present to the Dean of the Faculty a thesis of his own composition, correctly written and in his own handwriting, on some medical subject; and exhibit to the Faculty, at his examination, satisfactory evidence of his professional attainments.

Students who have attended one complete course in a respectable Medical School, where attendance on two complete courses is necessary to a degree, and where the same branches are taught as in this, are permitted to become candidates by an attendance here on one full course; the rules of graduation being in other respects observed. They are also exempted from the payment of fees upon attending a second term.

Students, who have attended two full courses on Anatomy, Chemistry, Materia Medica, or Institutes, may be examined on any of these branches, at the end of their second course. They are thus enabled to devote their last (3d) course to the didactic lectures on the remaining branches, and to clinical study. The Faculty record with satisfaction the large and increasing number of students who now avail themselves of these examinations, and who attend three courses of lectures before presenting themselves as candidates for graduation. The attendance upon the Summer Course of lectures has also greatly increased in numbers; and the Faculty earnestly recommend all who have it in their power to use these improved facilities for a complete medical education.

No honorary degrees in medicine are granted.

The degree will not be conferred upon any candidate, who absents himself from the public Commencement, without the special permission of the Faculty.

FEE to each Professor, \$20—in all \$140. Matriculation Fee, \$5, to be paid once only. Graduation Fee, \$30. Students who have paid for two full courses are entitled thereafter to attend free of all charge.

Students, who have attended two full courses of lectures in other accredited medical colleges, are entitled to the tickets of a full course in the Jefferson Medical College for \$70. Graduates of three years' standing, of other accredited medical colleges, are required to pay the matriculation fee only: to graduates of less than three years' standing, the fee for a general ticket is \$50. To graduates of accredited Dental Colleges and Colleges of Pharmacy, the fee for a general ticket is \$100.

BOOKS OF REFERENCE.

- I. INSTITUTES AND PRACTICE OF SURGERY.—Gross's System of Surgery.
- II. OBSTETRICS AND DISEASES OF WOMEN AND CHILDREN.—Meigs' or Cazeaux's Midwifery; Bennett on the Uterus; West on Women; Tanner on the Diseases of Infancy.
- III. MATERIA MEDICA AND GENERAL THERAPEUTICS.—Biddle's Materia Medica.
- IV. INSTITUTES OF MEDICINE.—Carpenter's Human Physiology; Dalton's Human Physiology; Dunglison's Medical Dictionary.
- V. PRACTICE OF MEDICINE.—Da Costa on Diagnosis; Dickson's Studies in Pathology and Therapeutics; Flint's Practice of Medicine.
- VI. GENERAL, DESCRIPTIVE, AND SURGICAL ANATOMY.—Pancoast's edition of Wistar's Anatomy; Gray's Anatomy; Pancoast's edition of Quain's Anatomical Plates.
- VII. CHEMISTRY.—Fowne's, Wilson's, Bloxam's, or Attfield's Chemistry; Lehmann's Physiological Chemistry, by Rogers; Taylor's Toxicology.

The Dean's office is at the College, where all business connected with the College is transacted.

Letters on business of exclusive interest to the writer must inclose a return stamp to secure attention.
