Jefferson Digital Commons Quarterly Report: October-December 2017

The Jefferson Digital Commons has **269** new deposits this quarter. Ending this quarter brings the total number of assets to **13,424** and a total of **3,433,928** downloads.

Readership distribution October-December 2017

As we move into the new year we bid a heartfelt goodbye to Dan Kipnis, who has moved to a new position outside of Jefferson. Under his care the JDC grew by nearly 10,000 assets and saw more than 2.5 million downloads. Taking his place will be Kelsey Duinkerken, the Special Collections and Digitization Librarian. Kelsey has worked on the JDC for the last four years, both with scholarly publications and the University's historical content, and is excited to be taking on a larger role in the Commons. If you have any questions or have content you would like uploaded, please contact her at kelsey.duinkerken@jefferson.edu.
