CANDIDATE FOR THE DEGREE OF ASSOCIATE IN ARTS

NORMAN WIDEMAN Philadelphia, PA

As final action cannot be taken before the program goes to press, Thomas Jefferson University reserves the right to add or withdraw names from the list of candidates for degrees.

DOCTOR OF LITERATURE — REVEREND LEON HOWARD SULLIVAN

Reverend Leon Howard Sullivan was born in Charleston, West Virginia, in 1922. A 1943 graduate of West Virginia State College with a Bachelor of Arts degree, he went on to Columbia University where he earned a Master of Arts degree in religion in 1947.

An ordained Baptist minister, Reverend Sullivan became pastor of Zion Baptist Church in Philadelphia in 1950. He continued to serve as pastor until 1988. During his 38-year tenure, church membership grew from 600 to 6000. Church activities include a day care center, federal credit union, community center program for youth and adult activities, employment agency, adult education reading classes, family counseling service, choral groups and athletic teams.

By 1955, Reverend Sullivan's accomplishments were being recognized, as he was named the Outstanding Young Man in Philadelphia and One of the Ten Outstanding Young Men in America. During the late 1950s, he became known as the architect of "selective patronage," a boycotting by blacks of businesses that would not hire blacks.

Reverend Sullivan received the Freedom Foundation Award in 1960 and was named one of Life Magazine's 100 Outstanding Young Adults in the United States in 1963.

Recognizing that people without job skills could not achieve economic independence, Reverend Sullivan founded the Opportunities Industrialization Center (OIC) in Philadelphia in 1964. Sponsoring job training and retraining on a massive scale, OIC was the first program of its kind in the United States. The program, which currently operates in more than 130 U.S. cities and eight foreign countries, has trained more than one million men and women since its beginning. Reverend Sullivan's account of the history of OIC and of "selective patronage" is detailed in his book *Build, Brother, Build: From Poverty to Economic Power* (1969).

Reverend Sullivan also founded Progress Investment Associates, which has built apartment complexes and shopping centers, including Progress Plaza, the largest shopping center in the U.S. built, owned and operated by black people. In addition, Reverend Sullivan founded the Progress Non-Profit Charitable Trust, a community development corporation, and Opportunities I and II, two \$8 million housing complexes for senior citizens.

In 1971, Reverend Sullivan became the first black member of the board of directors at General Motors Corporation. He was instrumental in garnering support from General Motors and other companies operating in South Africa to adhere to standards of social responsibility in providing for equal opportunity for blacks in that country. Formulated in 1977, the Sullivan Principles, as this code of conduct is known, has been widely acknowledged as one of the most effective efforts toward the end of discrimination in South Africa.

In 1988, Reverend Sullivan became pastor emeritus of Zion Baptist Church in order to devote more of his time to expanding the work of the OIC, particularly in developing nations. He is also president of the International Foundation for Education and Self-Help, established in Africa to focus on issues of literacy, training and health care.

Among Reverend Sullivan's many other awards and honors are the U.S. Public Service Award, for outstanding service to the disadvantaged in America (1975); the Alexis de Tocqueville Society Award from United Way of America, for outstanding voluntary service to the nation (1982), and numerous honorary degrees.

Reverend Sullivan is married to the former Miss Grace Banks. They have a son and daughter-in-law, Howard and Debbie; two daughters, Julie and Hope; and one grandson, Charles Solomon Sullivan.

THE UNIVERSITY MACE

The Thomas Jefferson University Mace was designed by Howard Serlick, member of the Guild of Mastercraftsmen, Winterthur Scholar, and Chief Conservator (Gilding) of the Historical Society of Pennsylvania. It was crafted by silversmith Eugene Zweigle and woodturner Michael Copeland.

The four-foot long, fourteen-pound Mace is made of ebony highlighted with lapis lazuli to reflect Jefferson's colors (black and blue). It features a miniature of Henry Mitchell's sculpture, The Winged Ox, symbol of Saint Luke the Physician, the original of which stands beside the Scott Building on Walnut Street. The miniature was cast in silver by Mister Zweigle, who also fabricated the University seal, the profile of Thomas Jefferson, mounted at the base of the staff. The J. E. Caldwell Company coordinated the project.

Mister Mitchell's original statue of The Winged Ox, adopted by the University in 1976 as its symbol of clinical excellence, is mounted on a column containing the names of fifty medical scientists who have most advanced the art of healing. It also reflects the historical evolution of Thomas Jefferson University from its beginnings as Jefferson Medical College in 1824 to its current status as an academic health center comprising the Medical College, the College of Allied Health Sciences, the College of Graduate Studies, and the Jefferson Hospital.

The Mace, a grand emblem of the University's heritage, was carried for the first time in the 1986 Commencement Ceremonies by Grand Marshall Robert J. Mandle, Ph.D., Professor of Microbiology, and is carried at the head of all formal academic processions.

THE ACADEMIC COSTUME

The wearing of academic dress dates back to the early days of the oldest universities in the world. In the American Council on Education's book entitled "American University and Colleges" it is suggested that "gowns may have been counted necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head . . ."

Throughout the years European universities have continued to show great diversity in their academic dress. American universities, on the other hand, when they decided to adopt academic dress in 1895, immediately established a code of regulations which today is followed by almost all American institutions. The establishment of this code has made it possible to distinguish the Associates, Bachelors, Masters, and Doctors and at the same time recognize the university which has given them the degree. Revisions to the code have occurred from time to time.

The Associate in Arts and Bachelor's gowns have pointed sleeves and are worn closed. The Master's gown has oblong sleeves, open at the wrist. The rear part of its oblong shape is square cut and the front part has an arc cut away, and is worn open or closed. The Doctor's gown has bell-shaped sleeves. It is worn opened or closed. Cotton poplin or similar material is used for the Associate's, Bachelor's and Master's degrees, and rayon or silk ribbed material is used for the Doctor's degree. The majority of gowns are black but a number of institutions have adopted other colors to identify special programs or groups within the institution.

The hoods vary in length: 48 inches for the Doctor's degree, 42 inches for the Master's, and 36 inches for the Bachelor's and Associate's. All hoods are lined in silk in the academic color or colors of the institution conferring the degree. If the institution has more than one color, the colors are shown in divisions using chevrons. The binding or edge of the Doctor's, Master's and Bachelor's hoods are usually made of velvet in the color designating the subject in which the degree was granted. The Associate of Arts hood has no velvet border. The outside is black.

Black mortarboards are most commonly worn; six-sided tams of various colors may be used.

Some of the colors in the bindings of the hoods are:

white	Arts and Letters	green	Medicine
tan	Business	apricot	Nursing
lilac	Dentistry	dark blue	Philosophy
light blue	Education	salmon pink	Public Health
purple	Law	golden yellow	Science

The colors of the linings of the hoods for some Philadelphia academic health institutions are:

black and blue	Thomas Jefferson University	silver gray and scarlet	The Medical College of Pennsylvania
red and blue	University of Pennsylvania		
blue and gold	Hahnemann University	white and cherry	Temple University

THE JEFFERSON PROCESSIONAL

The Jefferson Processional was commissioned by the Alumni Association of Jefferson Medical College and played for the first time on November 15, 1974, at the Sesquicentennial Celebration of Jefferson Medical College of Thomas Jefferson University. This piece was presented to Thomas Jefferson University by the President of the Alumni Association of Jefferson Medical College, Doctor John J. Gartland. The composition was composed by Burle Marx.

THE PRESIDENTIAL BADGE OF THOMAS JEFFERSON UNIVERSITY

The President's Badge was created for the Inauguration of Lewis W. Bluemle, Jr., M.D., the third President of Thomas Jefferson University, on September 7, 1977. It consists of four official corporate seals of Thomas Jefferson University and the predecessor corporation, The Jefferson Medical College of Philadelphia. These seals were used to mark diplomas, certificates, and other official documents and have been gold-plated to form the Presidential Badge.

The medallion on the President's right is the corporate seal of Thomas Jefferson University today and was created in 1969 when Jefferson Medical College became Thomas Jefferson University. It carries a contemporary likeness of Thomas Jefferson.

The other three medallions are the various seals that were used in Jefferson Medical College for many years. The oldest marked every diploma that was issued by the College from 1839 to 1967. This seal carries a traditional likeness of a young Thomas Jefferson and the founding date of the College as 1826. Prior to 1839 the diploma of Jefferson Medical College carried the seal of the Jefferson College in Canonsburg, Pennsylvania — the parent institution.

Another seal was developed in 1967 as a result of research done by the late Edward L. Bauer, Emeritus Professor of Pediatrics, who determined that the founding year of Jefferson Medical College was 1824 rather than 1826. This seal is identical to the present corporate seal except the words "Thomas Jefferson University" replace "Jefferson Medical College". It was used for only two years — from 1967 to 1969.

The Presidential Badge is on permanent display in the Scott Library and is used at all convocations of the University.
