New Collection Alert

One of the highlights of the Gutman Library's Special Collections is its [Textile & Costume Collection](#), which contains a broad sample of design across different cultures and historical periods, including textile swatches, garments, lace, haute couture, and tools.

Among the tools are a number of printing blocks, more than 300 of which are now available in the Jefferson Digital Commons. These wooden and metal blocks were created by hand and show traditional Indian designs as well as patterns created for the Western Market. Check out all of the stunning designs at <https://jdc.jefferson.edu/textileprintingblocks/>.
