The Department of Surgery
Presents: Mini Grand Rounds

“Should we still be doing Heart Transplants? Transplantation in the Era of the Machines”

Given by
Linda Bogar, MD
Cardiac Surgeon
Inova Fairfax Hospital

At the conclusion of this presentation the participant should be able to:

1. Understand the expected survival of patients receiving a heart transplant or VAD
2. Know the contraindications to heart transplantation or VAD
3. Compare the costs of heart transplant to VAD therapy
