78th Annual Announcement

Session of 1902-1903

Jefferson Medical College
of Philadelphia and Its Hospital

Register of Students for 1901-1902
BOARD OF TRUSTEES.

Hon. William Potter,
President.

Hon. Simon Gratz,
Edward H. Weil,
Secretary.

Hon. Simon Gratz,
Edward H. Weil,
Hon. Michael Arnold,
Sutherland M. Prevost,
Hon. William Potter,
Joseph de F. Junkin,
Louis C. Vanuxem,
Hon. Samuel Gustine Thompson,
Charles Hebard,
Daniel Baugh,
Edward I. Smith,
Hon. George F. Edmunds,
Hon. Mayer Sulzberger, LL.D.
Charles C. Townsend.
Daniel Moreau Barringer

TRIMS PRINTING HOUSE

June 15th
Examination for entrance by examiners appointed by superintendent of public instruction. Robt. Vaux School Building, Wood St. below Brown.

September 23d
Examination for the Shain Scholarship.

Sept. 25th and Oct. 4th

October 1st
Regular session begins. Introductory lecture, 8 p.m.

October 1st
Appointments made for entrance and grading examinations.

November 27th
Thanksgiving Day; holiday.

December 19th
Christmas recess begins, 6 p.m.

January 5th
College work resumed, 9 a.m.

January 19th
Second term begins.

February 22d
Washington's Birthday; holiday.

April 10th and 11th
Easter holidays.

April 25th
Registration for next session.

April 30th
All lectures close.

May 1st
Final examinations begin.

May 27th
Annual business meeting Alumni Association.

May 27th
Annual dinner.

May 28th
Annual commencement.

The payment of a Breakage Deposit is necessary before a seat can be reserved or admission be had to the Laboratories.
OFFICERS OF THE COLLEGE

FACULTY

ROBERTS BARTHOLOW, M.D., LL.D., Emeritus Professor of Materia Medica, General Therapeutics, and Hygiene, No. 1527 Locust Street.

WILLIAM THOMSON, M.D., Emeritus Professor of Ophthalmology, No. 1426 Walnut Street.

HENRY C. CHAPMAN, M.D., Professor of Institutes of Medicine and Medical Jurisprudence, No. 2047 Walnut Street.

JOHN H. BRINTON, M.D., LL.D., Professor of the Practice of Surgery and of Clinical Surgery, No. 1423 Spruce Street.

JAMES W. HOLLAND, M.D., Professor of Medical Chemistry and Toxicology, and Dean, Jefferson Medical College.

WILLIAM S. FORBES, M.D., Professor of General, Descriptive, and Surgical Anatomy, No. 901 Pine Street.

WILLIAM W. KEEN, M.D., LL.D., F.R.C.S. (Hon.), Professor of the Principles of Surgery and Clinical Surgery, No. 1729 Chestnut Street.

H. A. HARE, M.D., Professor of Materia Medica and Therapeutics, No. 1801 Spruce Street.

JAMES C. WILSON, M.D., Professor of Practice of Medicine and Clinical Medicine, No. 1437 Walnut Street.

E. E. MONTGOMERY, M.D., LL.D., Professor of Gynecology, No. 1703 Walnut Street.

W. M. L. COPLIN, M.D., Professor of Pathology and Bacteriology, at the College.

EDWARD P. DAVIS, M.D., Professor of Obstetrics, No. 250 South 21st Street.

F. X. DERCUM, M.D., Professor of Nervous and Mental Diseases, No. 1719 Walnut Street.

J. CHALMERS DA COSTA, M.D., Professor of Principles of Surgery and Clinical Surgery, No. 2045 Walnut Street.

J. W. HOLLAND, M.D., Dean of the Faculty, At the College Building, Tenth and Walnut Streets, Philadelphia.

HONORARY AND CLINICAL PROFESSORS

J. SOLIS-COHEN, M.D., Honorary Professor of Laryngology, No. 1824 Chestnut Street.

HENRY W. STELVAGON, M.D., Clinical Professor of Dermatology, No. 223 South 17th Street.

H. AUGUSTUS WILSON, M.D., Clinical Professor of Orthopedic Surgery, No. 1611 Spruce Street.

EDWIN E. GRAHAM, M.D., Clinical Professor of Diseases of Children, No. 1713 Spruce Street.

ORVILLE HORWITZ, M.D., Clinical Professor of Genito-Urinary Diseases, No. 1721 Walnut Street.

S. MacCUEN SMITH, M.D., Clinical Professor of Otology, No. 1700 Walnut Street.

W. JOSEPH HEARN, M.D., Clinical Professor of Surgery, No. 1120 Walnut Street.

HOWARD F. HANSELL, M.D., Clinical Professor of Ophthalmology, No. 254 South 16th Street.

WM. S. JONES, M.D., Clinical Professor of Laryngology, No. 201 Broadway, Camden, N. J.

D. BRADEN KYLE, M.D., Clinical Professor of Laryngology, No. 1517 Walnut Street.

ADJUNCT PROFESSOR

ALBERT P. BRUBAKER, M.D., Adjunct Professor of Physiology and Hygiene.

LECTURERS

S. SOLIS-COHEN, M.D., Lecturer on Clinical Medicine.

STRICKER COLES, M.D., Clinical Lecturer on Obstetrics.

DEMONSTRATORS

A. HEWSON, M.D., Demonstrator of Anatomy.

E. Q. THORNTON, M.D., Demonstrator of Therapeutics and Materia Medica.

JOHN C. DACOSTA, Jr., M.D., Demonstrator of Clinical Medicine.

FREDERICK JOHN KALTEYER, M.D., Demonstrator of Clinical Medicine.

J. P. BOLTON, M.D., Demonstrator of Chemistry.

J. M. FISHER, Demonstrator of Gynecology.

RANDLE C. ROSENBERGER, Demonstrator of Bacteriology and Curator of the Museum.

C. A. VEASEY, M.D., Demonstrator of Ophthalmology.

J. TORRANCE RUGH, M.D., Demonstrator of Orthopedics.

GEORGE W. SPENCER, M.D., Demonstrator of Surgery.

C. H. HARBAUGH, M.D., Demonstrator of Syndesmology.

WM. H. WELLS, M.D., Demonstrator of Clinical Obstetrics.

WARD BRINTON, M.D., Demonstrator of Osteology.

JAY C. KNIFE, M.D., Demonstrator of Fracture Dressings and Dislocations.
W. BRADFORD EATON, M.D., Demonstrator of Morbid Histology.
L. H. PRINCE, M.D., Demonstrator of Morbid Anatomy.
ALLER G. ELLIS, M.D., Assistant in Morbid Histology.
H. E. RADASCH, M.D., Demonstrator of Histology and Embryology.
MAX ROCHROCH, M.D., Demonstrator of Nervous Diseases.
STRICKER COLES, M.D., Demonstrator of Obstetrics.

PROSECTOR
HOWARD R. SWAYNE, M.D., Prosector and Assistant Curator.

INSTRUCTORS AND ASSISTANT DEMONSTRATORS
EMMANUEL J. STOUT, M.D., Instructor in Dermatology.
HOWARD M. SHRINER, M.D., Instructor in Diseases of Children.
E. L. KLOPP, M.D., Instructor in Otology.
C. W. HOOPES, M.D., Instructor in Otology.
W. M. SWEET, M.D., Instructor in Ophthalmology.
C. S. BARNES, M.D., Assistant Demonstrator and Instructor in Obstetrics.
B. F. ROYER, M.D., Instructor in Clinical Obstetrics.
A. B. KIRKPATRICK, M.D., Instructor in Laryngology.
G. BARINGER SLIFER, M.D., Instructor in Laryngology.
B. L. GORDON, M.D., Instructor in Obstetrics.
FREDERICK JOHN KALTBEYER, M.D., Instructor in Hematology.
WILLIAM C. PICKETT, M.D., Instructor in Insanity and Neuro-Pathology.
ALFRED GORDON, M.D., Instructor in Nervous Diseases.
GEORGE A. ULRICH, M.D., Instructor in Clinical Obstetrics.
GEORGE B. ANGLE, M.D., Instructor in Clinical Obstetrics.
L. F. APPLEMAN, M.D., Instructor in Therapeutics.
J. P. BOLTON, M.D., Assistant Demonstrator in Physiology.
HOWARD DEHONEY, M.D., Assistant Demonstrator of Anatomy.
J. KINNIER CRAWFORD, M.D., Assistant Demonstrator of Anatomy.
F. HURST MAIER, M.D., Assistant Demonstrator of Gynecology.
W. KRUSEN, M.D., Assistant Demonstrator of Gynecology.
T. J. BUCHANAN, M.D., Assistant Demonstrator of Anatomy and Morbid Anatomy.
D. GREGG METHENY, M.D., Assistant Demonstrator of Surgery.
JAMES W. MCINTOSH, M.D., Assistant Demonstrator of Surgery and Pathology and Assistant Instructor of Bandaging.
W. J. ROE, M.D., Assistant Demonstrator of Surgery.
S. A. METHENY, M.D., Assistant Demonstrator of Surgery.
G. J. SCHWABITZ, M.D., Assistant Demonstrator of Surgery.
W. P. HEARN, M.D., Assistant Demonstrator of Surgery.
E. RUSSELL KENNEDY, M.D., Assistant Demonstrator of Pharmacy and Materia Medica.

C. D. S. FRUH, M.D., Assistant Demonstrator of Anatomy.
B. F. ROYER, M.D., Assistant Demonstrator of Anatomy.
M. J. BROWN, M.D., Assistant Demonstrator of Anatomy.
W. J. ROE, M.D., Assistant Demonstrator of Anatomy.
EDWARD H. GREEN, M.D., Assistant Demonstrator of Anatomy.
CHARLES S. HIRSCH, M.D., Assistant Demonstrator of Anatomy.
H. D. FRASER, M.D., Assistant in Bandaging.
FRANK C. HAMMOND, M.D., Assistant Demonstrator in Gynecology.
J. COLES BRICK, M.D., Assistant Demonstrator of Visceral Anatomy.
C. S. BARNES, M.D., Assistant Demonstrator of Obstetrics.
L. F. APPLEMAN, M.D., Assistant Demonstrator of Materia Medica.
A. ALONZO SARGENT, M.D., Assistant Demonstrator of Histology and Embryology.
E. J. PORTEOUS, B.S., Assistant in Chemistry.
W. T. COLBERT, A.B., Assistant in Chemistry.
GEORGE VINCENT RIDLEY, Assistant in Morbid Histology and Bacteriology.
ORLANDO H. PETTY, Assistant in Morbid Histology and Bacteriology.
IRA B. WHITEHEAD, Assistant in Chemistry.
STILMAN H. CONNER, Assistant in Physiology.
SAMUEL J. BEALE, Jr., Sc.B., Assistant in Pathology.
GEORGE HITCHMAN, Assistant in Bacteriology.
J. W. KENNEY, Assistant in Physiology.
C. F. BUNTH, Assistant in Chemistry.
J. E. WHITEHILL, A.B., Assistant in Chemistry.
H. W. THOMSEN, Assistant in Chemistry.
JEFFERSON MEDICAL COLLEGE
HOSPITAL

MEDICAL DIRECTOR, JOSEPH S. NEFF, M.D.

HOSPITAL STAFF

JOHN H. BRINTON, M.D., LL.D., Professor of the Practice of
Surgery and of Clinical Surgery.
WILLIAM S. FORBES, M.D., Professor of General, Descriptive, and
Surgical Anatomy.
WILLIAM W. KEEN, M.D., LL.D., F.R.C.S. (Hon.), Professor of
the Principles of Surgery and Clinical Surgery.
H. A. HARE, M.D., Professor of Materia Medica and Therapeutics.
JAMES C. WILSON, M.D., Professor of Medicine and Clinical
Medicine.
E. E. MONTGOMERY, M.D., Professor of Clinical Gynecology.
W. M. L. COPLIN, M.D., Professor of Pathology; (Director of Hos-
pital Laboratories.)
EDWARD P. DAVIS, M.D., Professor of Ophthalmology.
F. X. DERCUM, M.D., Professor of Nervous and Mental Diseases.
J. SOLIS-COHEN, M.D., Honorary Professor of Laryngology.
HENRY M. STELWAGON, M.D., Clinical Professor of Dermatol-
ogy.
H. AUGUSTUS WILSON, M.D., Clinical Professor of Orthopedic
Surgery, and Secretary.
EDWIN F. GRAHAM, M.D., Clinical Professor of Diseases of
Children.
ORVILLE HORWITZ, M.D., Clinical Professor of Genito-Urinary
Diseases.
S. MACCUEN SMITH, M.D., Clinical Professor of Otology.
W. JOSEPH HEARN, M.D., Clinical Professor of Surgery.
HOWARD F. HANSELL, M.D., Clinical Professor of Ophthalm-
ology.
D. BRADEN KYLE, M.D., Clinical Professor of Laryngology.
W. S. JONES, M.D., Clinical Professor of Laryngology.
J. CHALMERS DA COSTA, M.D., Professor of Surgery.
JOHN C. DA COSTA, M.D., Gynecologist.
HENRY LEFFMAN, M.D., Pathological Chemist.
RANDLE C. ROSENBERGER, M.D., Bacteriologist.
T. G. ASHTON, M.D., Assistant Physician.
J. SALINGER, M.D., Assistant Physician.
J. H. GIBBON, M.D., Assistant Surgeon.
G. W. SPENCER, M.D., Assistant Surgeon.
M. H. BOCHROCH, M.D., Assistant Neurologist.
STRICKER COLES, M.D., Assistant Obstetrician.
J. M. FISHER, M.D., Assistant Gynecologist.
C. W. HOOPES, M.D., Assistant Aurist.
A. B. KIRKPATRICK, M.D., Assistant Laryngologist.
E. C. KLOPP, M.D., Assistant Aurist.
H. M. LOUX, M.D., Assistant Genito-Urinary Surgeon.
J. T. RUGH, M.D., Assistant Orthopedist.
H. M. SHRINER, M.D., Assistant Pediatrist.
E. J. STOUT, M.D., Assistant Dermatologist.
W. M. SWEET, M.D., Assistant Ophthalmologist.
C. A. VEASEY, M.D., Assistant Ophthalmologist.
CHAS. W. COBURN, M.D., Assistant Laryngologist.
L. H. PRINCE, M.D., Assistant Pathologist.
T. J. BUCHANAN, M.D., Skiagraphist.

RESIDENT PHYSICIANS

Drs. PASCAL BROOK BLAND, ALBERT CRAIG, HENRY L. BASSETT,
J. LINTON HARKNESS, JAMES DE HEYSINGER.

Superintendent of the Hospital, GEORGE BAILEY, Jr.
Directress of Training School, Miss SUSAN C. HEARLE.
Matron, Mrs. SCHLECHT.

OUT-PATIENT STAFF

MEDICAL

THOMAS G. ASHTON, M.D., JULIUS L. SALINGER, M.D., Chief
Clinical Assistants.
Assistants.—JOHN C. DA COSTA, Jr., M.D., H. R. M. LANDIS,
M.D., ARCHIBALD H. GRAHAM, M.D., J. FREDERICK KALTEYER, M.D.,
ARTHUR DARE, M.D., WARD BRINTON, M.D.

SURGICAL

GEORGE W. SPENCER, M.D., JOHN H. GIBBON, M.D., Chief Clinical
Assistants.
Assistants.—E. HARVEY WIGGINS, M.D., J. W. MACINTOSH, Etherizers;
S. A. S. METHENY, M.D., Skiagrapher.
Assistants.—J. COLES BRICK, M.D., W. J. ROE, M.D., CHARLES
H. BARNES, M.D., ALONZO SARGENT, M.D., C. KEEFER, M.D., J. C.
BOYER, M.D., F. T. STEWART, M.D., W. P. HEARN, M.D., GEORGE
J. SCHWARTZ, M.D.

OBSTETRICAL

STRICKER COLES, M.D., Chief Clinical Assistant.
Assistants.—C. S. BARNES, M.D., B. F. ROYER, M.D., B. L.
GORDON, M.D., G. A. ULRICH, M.D.

GYNECOLOGICAL

JOHN M. FISHER, M.D., Chief Clinical Assistant.
Assistants.—F. HURST MAIER, M.D., WILMER KRUSEN, M.D.,
ALPHEUS McKINNEN, M.D., FRANK C. HAMMOND, M.D.
OPHTHALMOLOGICAL

Wm. M. Sweet, M.D., Clarence A. Veasey, M.D., Chief Clinical Assistants.

Assistants.—Wendell Reber, M.D., C. W. Le Fevre, M.D., Robert Watt, M.D., Robert Casperson, Jr., M.D., E. H. Wiggins, M.D., H. D. Fraser, M.D., J. W. McIntosh, M.D.

LARYNGOLOGICAL

Andrew B. Kirkpatrick, M.D., G. Baringer Slifer, M.D., Chief Clinical Assistants.

Assistants.—Nathan G. Ward, M.D., Charles Clifton Royce, M.D., Justus Sinekox, M.D., C. F. W. Plass, M.D., A. A. Weaver, M.D., Warren J. Miller, M.D., B. Franklin Royer, M.D., G. R. S. Corson, M.D., H. D. Fraser, M.D., J. Clarence Keeler, M.D.

OTOLOGICAL

E. L. Klopp, M.D., Charles W. Hoopes, M.D., Chief Clinical Assistants.

Assistants.—J. W. Michener, M.D., G. B. Slifer, M.D.

ORTHOPEDICAL

J. T. Rush, M.D., Chief Clinical Assistant.

Assistants.—J. P. Bolton, M. D., A. A. Brown, M.D., Geo. Schwartz, M.D., Anaesthetiser. A. Gustav Gevert, Mechanician; Miss Mary McFarland, Registrar.

DISEASES OF CHILDREN

Howard M. Shrinier, M.D., Chief Clinical Assistant.

Assistants.—Charles Lefcowitch, M.D., J. V. Heller, M.D., G. Van Tassel Hamilton, M.D.

DERMATOLOGICAL

Emanuel J. Stout, M.D., Chief Clinical Assistant.

Assistants.—Franklin Machette, M.D., Thomas D. Taggart, M. D., J. V. Sullivan, Undergraduate.

NEUROLOGICAL

Max H. Bochroch, M.D., Chief Clinical Assistant.

Assistants.—Joseph P. Bolton, M.D., Alfred Gordon, M.D., S. F. Gilpin, M.D., William Pickett, M.D., Jesse O. Arnold, M.D.

Mary Louisa Pope, Masseuse.

GENITO-URINARY

Hiram R. Loux, M.D., Chief Clinical Assistant.

E. Russell Kennedy, M.D., Etherizer.

SEVENTY-EIGHTH ANNUAL ANNOUNCEMENT

OF THE

JEFFERSON MEDICAL COLLEGE

THE COLLEGE BUILDINGS.

The College buildings are situated on the corner of Walnut and Tenth Streets, and on Sansom Street between Tenth and Eleventh. They consist of the Medical Hall, the Laboratory Building, and the Jefferson Medical College Hospital. The Jefferson Maternity is situated on Washington Square, at 224 South Seventh Street.

THE NEW MEDICAL HALL.

The inauguration of the graded four years' course created a requirement for new buildings. Therefore the new Medical Hall has been erected, providing four lecture rooms, beside recitation rooms and laboratories.

The new hall is fireproof and modern in construction. It is at the corner of Walnut and Tenth Streets, with a front on Walnut of one hundred and eighteen feet. This situation has been chosen as the best for the purpose, because its central location insures a constant supply of clinical material at the dispensaries and at the hospital, besides having the advantage of nearness to the Pennsylvania Hospital. The side is joined to the new laboratory building, thus extending one hundred and eight feet on Tenth and one hundred and eighteen feet on Moravian Street. Between the two buildings is a large light well, and along the entire length of the building stretches a wide skylight, which, with the three surrounding streets, gives an abundance of light. The entrance on Walnut Street admits to a tiled floored vestibule hall, lobby for the main stairs and passenger elevator. The basement is occupied mainly by rooms devoted to the recess hours of the student, i. e., a large, well-equipped gymnasium, with lockers and shower bath; a lavatory, rooms for billiards, for reading and smoking and for storage of bicycles. The first floor contains a reception room for visitors, the clerk's room, with telephone communication to the public wires and to different floors; the dean's office, trustees' room, library fully supplied with the newest medical books and periodicals, kitchen and pantry for receptions, recitation rooms, professors' private rooms, first story of the lower amphitheatre, and a room for students' lockers. The second floor has a large museum room, newly equipped by the donation of a warm friend of the College. It stores in the best manner for study the great collection of the late Professor Samuel D. Gross, of the late Professor Parvin, of the late Professor Da Costa, and a large collection of models, preparations and specimens. On the second floor also is a lab-
oratory for the study of Morbid Anatomy and the second story of the lower amphitheater. The third floor is occupied by a large lecture hall, brilliantly lighted, connecting with a chemical apparatus room; a small lecture hall, with large windows and having communication with the private room of the Professor of Physiology, the apparatus room and the laboratory of Physiology. The fourth floor completes the upper part of the two lecture halls and provides a laboratory for instruction in bandaging and obstetric manipulations and a storage room. The fifth floor is occupied by the first story of a dissection room, two stories high, unusually well lighted by two tiers of windows and a skylight, extending the whole length of the room; the laboratory for operative surgery, four private rooms for professors and prospector, and a locker room for students. The sixth floor is occupied by the upper story of the amphitheater and dissecting room, and incinerating furnace and bones library. Almost every floor has a lavatory.

The system for heating and ventilation embodies the latest principles and is entirely adequate. By means of filtration plant of the latest construction and of large capacity the entire water supply of the College and of the Hospital is filtered.

THE NEW LABORATORY BUILDING.

The College has ten large laboratories for students and seventeen smaller private rooms for individual research. Most of these are provided for in the structure which adjoins the medical hall, and is directly connected with it. In the basement are the boilers, engines and two dynamos for the heating and ventilation plant, for the two elevators and for the refrigerating apparatus which keeps the cold storage room at a low temperature for preserving subjects without immersion in brine. The first floor is occupied by a large laboratory of pharmacy, and a room used for recitations and for the students' societies. The second floor is occupied by a large laboratory of medical chemistry and toxicology, a pharmacy storage room and two private rooms for research by professors. The third floor provides a large laboratory for physiology, a chemical storage room, a chemical preparation and weighing room. The fourth floor has a large laboratory for normal histology, a room for storage and two private rooms for pathological research. The fifth floor has a large laboratory for pathological histology, a room for storage and one for the demonstrator of anatomy. On the sixth floor are the laboratory of bacteriology, the operating room and the private research room of pathology.

All the students' laboratories are lighted by windows on three sides, besides incandescent electric lights; have individual desks and outfits entirely under the control of the student while working. This equipment was provided in part by funds subscribed by the Alumni. It has, among other notable features, one hundred and fifty microscopes of the most recent make, a complete outfit for electric lantern projection, and one for photography, besides the microtomes, models and other apparatus required for thorough study.

THE HOSPITAL.

The Hospital of the Jefferson Medical College provides a wealth of clinical material unequaled in America and seldom equaled in Europe. It contains beds of 140 patients, which are constantly filled, and in the out-patient departments over 300 cases are treated daily. In the out-patient service there were treated in 1901: Surgical Diseases, including cases in the special clinics, Gynecological, Ophthalmological, Laryngological, Aural, Genito-urinary and Orthopedic, 70,175 patients; Medical Diseases, including cases in the special clinics, Neurological, Dermatological, and for children, 18,624 patients. These, and 645 obstetric cases, added to the 2233 patients treated in the wards, and the accident cases, make in all 94,169 patients treated in 1901. The grand total of the work for twenty-three years is 1,476,755 consultations.

During the last year 2720 accident cases were treated.

In addition to the rooms in which the classes are taught in sections, and in which they have the opportunity of examining cases and are instructed in clinical medicine and other practical branches, there is a large amphitheater capable of seating nearly 800 students.

THE MATERNITY DEPARTMENT.

The Maternity Department is in a separate building at 224 South Seventh Street. Here, bedside instruction in Midwifery is given to each member of the graduating class. During 1901 there were 449 new obstetric cases and 316 children under treatment.

TRAINING SCHOOL FOR NURSES.

In connection with the Hospital a Training School for Nurses is maintained, from which pupil nurses can be had at $10 per week by application at the Hospital.

A Nurses' Home has been established at 226 South Seventh Street, where the nurses have commodious lodgings.

THE WOMEN'S AUXILIARY OF JEFFERSON MEDICAL COLLEGE.

This organization has charge of the Library and Reading Room. It investigates and prepares a list of boarding houses desirable as to price and location for the convenience of new students. During the past year the number of volumes in the Library has increased to 4000. These books and a large list of medical journals are at the disposal of the students for reference and study. A librarian is in daily attendance.

COURSE OF INSTRUCTION.

THE REGULAR LECTURES.

The regular lectures begin with an introductory on the evening of October 1st by Professor Chapman.

The regular course is a graded four years' curriculum at college. It is so arranged that the student is trained in both the fundamental and practical branches of medicine. The instruc-
tion consists of didactic lectures and recitation, laboratory work, clinical lecture, ward classes and practical demonstrations by the professors and instructors in each branch.

Didactic Lectures and Recitations are given in the Medical Hall, on Practice of Medicine, Surgery, Obstetrics, Gynecology, Materia Medica and Therapeutics, Ophthalmology, Neurology, Chemistry, Physiology, Pathology, including Post-mortem Examinations, Bacteriology, Anatomy, Medical Jurisprudence and Hygiene. Recitations are also held on Pediatrics, Genito-urinary Diseases and Orthopedic Surgery. In the laboratories special instruction is given in Physiology, Chemistry, Pharmacy, Pathology, Morbid Anatomy, Bacteriology, Histology and Embryology, Dissections and Major and Minor Surgery, with Bandaging.

Work in the Hospital consists in Clinics on Medicine, Surgery, Obstetrics, Gynecology, Ophthalmology, Dermatology, Diseases of Children, Orthopedics, Neurology, Genito-urinary Diseases and Otology, and in small ward classes taken to the bedside or to various special dispensaries and the private operating rooms.

Requirements for Admission.

To be matriculated, the student must first exhibit to the Dean, (by mail or otherwise) his diploma or certificate upon which he expects to be accredited for admission to the Freshman Class or to advanced standing. If these are approved by the Dean, the student pays the fee of $5.00, his name is registered as a student and he receives a matriculation ticket.

To be admitted to the Freshman Class, the applicant must show a diploma, or certificate, from a reputable college granting the degree of A. B., B. S., or equivalent degree; a diploma from a normal school established by State authority or a high school of the first grade; a medical student's certificate issued after an equivalent examination by a State Board; a student's certificate from a reputable literary or scientific college; or a certificate of his having passed an examination conducted by certified examiners appointed by the State Superintendent of Public Instruction, or by members of the Faculty of a college none of whom shall be connected with this medical college, or by the College Examination Board of the Middle States.

This examination will include:

(a) English Composition, Grammar, Rhetoric.
(b) Mathematics, including Arithmetic, Algebra and plane Geometry.
(c) Latin, the equivalent of one year's study, covering one book of Caesar's Commentaries or an equivalent thereof.
(d) Elementary Physics.
(e) United States History.

The examinations by the State Examiners of Pennsylvania are held at Philadelphia and Pittsburg in June, September and October. A schedule stating the amount of knowledge expected and the times and places of examinations can be obtained by writing to James W. Latta, Secretary, Medical Council, Harrisburg, Pa.

In place of any part of this examination, official certificates will be accepted from the above described schools. If the student should fail to pass in two-fifths of the branches of the examination, he will be admitted with the condition that he make up his deficiencies in those two before entering the Sophomore Class.

Rule for Admission to Advanced Standing.

College graduates in Arts or Science, who during their college course have devoted the stated number of hours to the study of the following branches, or equivalent subjects bearing upon the science of medicine, and have passed examinations in them: General Biology, 90 hours; Mammalian Anatomy, 144 hours; Chemistry, 216 hours; Physics, 72 hours; Histology, 72 hours; Human Anatomy, 144 hours; Physiology, 48 hours; Zoology, 96 hours; Embryology, 72 hours, are admitted to the Sophomore Class under the following conditions: During this year they must take Materia Medica and Pharmacy (including the laboratory work) and at the end of this year be examined in them. At the end of the sophomore year they must also have completed the dissection of the entire human body and be examined in the entire subjects of Anatomy and Physiology. They have the option of taking freshman Anatomy and Physiology at the end of their sophomore year, and their sophomore-year Anatomy and Physiology at the end of their junior year. There will be no charge for dissections in their junior year.

From Other Medical Colleges.

Every applicant for advanced standing, including graduates of medicine, will be required to present credentials from an accredited medical college, showing "passed cards" and satisfactory attendance upon courses equivalent to those already attended by the class to which he seeks admission. If he has passed in the majority of branches he may make up his deficiencies on admission, or be received under "conditions," in the minority of branches, which he must be clear of when the session closes.

Medical Post-Graduates.

Graduates in Medicine desiring to take the senior course, without being candidates for the degree, and therefore without examination, may receive a certificate of attendance.
GRADUATES OF PHARMACY.

Graduates of recognized Colleges of Pharmacy will be given credit for the work which they have done in inorganic Chemistry, Materia Medica and Pharmacy, and will be excused from the lectures, laboratory work and recitations upon these subjects in the freshman year. The fee for the freshman year to Graduates of Pharmacy will be $100.

CLASS PROMOTIONS AND CONDITIONS.

In order to advance with his class to a higher grade, or be eligible for the October examination on conditioned branches a student must have passed the majority of the required examinations of the year when the session closes. If he does not pass the remainder at the examination in October he may continue with his class as a conditioned student for that one session only, and must be free of conditions when the session closes. If he does not get clear of these conditions by the end of the session, he must repeat the year's work.

No student may become a conditioned or unconditioned member of the sophomore class unless he has passed at least the majority of the required examinations of the freshman year when that year closes; nor of the junior class unless he has passed all the freshman examinations and in addition a majority of those of the sophomore year when that year closes, and of the senior class unless he has passed all of the freshman and sophomore branches and a majority of the junior year when that year closes.

EXAMINATION FOR THE DOCTORATE.*

The examination for the Degree of Doctor of Medicine is held at the close of the term of lectures. It will be conducted by the Faculty—each Professor in his own branch—and will be written, oral and written. Students failing to reach, in all the branches, the standard required for the degree, may be credited with having passed on those branches in which they have acquired the requisite average, and will not be required to stand an examination on these branches at a second examination, should they re-enter the college. They are required to repeat the studies in which they have failed to pass. Candidates for the Degree of Doctor of Medicine who have failed to pass all the branches required at two annual examinations will be required, if they stand for a third, to take an examination in all the branches of the entire course. The presentation of a Thesis is not required, unless in competition for a prize. The candidates are examined in turn upon the subjects of the final year, given on page 29.

The candidate for the Degree of Doctor of Medicine must present a certificate of good moral character, and be at least twenty-one years of age. He must show that he has attended four courses of medical lectures. The degrees of Bachelors of Arts and Science obtained after preparatory medical studies, will be accepted as the first year of medical study, under conditions stated on page 12. He must have attended at least the final year in this College as a graded student of that year.

Students who fail in the required final examinations in not more than two branches may be re-examined Wednesday, November 5th, 1902. The successful candidates will receive their diplomas at the Commencement in May, 1903. Meantime they will receive certificates stating that they have passed their examinations and that their diplomas will be conferred at the time stated. This will enable them to come before the State Board of Medical Examiners of Pennsylvania, and if successful to enter upon practice immediately.

ANNUAL LIMITATION OF RULES AND FEES.

All the above rules, as well as the fees stated below, relate to the year ending June 1, 1903, only. The right is reserved to make changes in the curriculum, rules of examination, the corps of instructors and all the regulations whenever the College authorities deem it expedient.

Students will be entitled to receive the instruction of the College at the current rates in force at the time of their first course of lectures in this institution for the four consecutive years immediately following:

<table>
<thead>
<tr>
<th>FEES</th>
</tr>
</thead>
<tbody>
<tr>
<td>Matriculation, paid once</td>
</tr>
</tbody>
</table>

**Freshman Year.**

| Full Course, including Laboratory Work and Dissection | $150 00 |
| Dissecting Material, per part                      | 1 00  |

**Sophomore Year.**

| Full Course of Lectures, including Laboratories, Dissection and Clinics | $150 00 |
| Dissecting Material, per part                      | 1 00  |

**Junior Year.**

| Full Course, including Laboratory Work and Clinics | $150 00 |
| Operative Surgery Material                        | 1 00  |

If dissections are taken in this year a fee of $10 is required.

**Senior Year.**

| Full Course                                      | $150 00 |

---

*To secure recognition by the Examining Boards of the Royal College of Physicians and Surgeons of Edinburgh and the Faculty of Physicians and Surgeons of Glasgow, the graduate of Jefferson Medical College must have passed a recognized examination in Arts before commencing his professional studies. He must show certificates of preliminary education, of five years of professional study, four of which must have been in this College, or one of equal rank, and exhibit his diploma from this College.
If dissections are taken in this year a fee of $10 is required. The annual fee is payable in advance. To secure the tuition at this rate the whole amount, $150, must be paid before November 1st. If the whole fee is not paid by November 1st, the annual fee paid on or after that date will be $155 for that year. Of this $155, at least $50 must be paid before November 1st, and the $75 additional before February 1st. The entire indebtedness of a student must be paid before any examination can be taken.

These are not returnable or transferable: promissory notes are under no circumstances accepted as payment; and no ticket is issued until full payment for the same has been made. Students are advised to pay fees by check for the exact amount. Remittances for other expenses are best made by postal money orders, or notes sent by express. The College will not endorse checks for private expenses.

A deposit of $10 is required of all students before their names are entered on the official lists for laboratory work at the College or section work at the hospital. This deposit will be returned at the close of the session, less the amount charged against it for breakage, for cost of materials, delinquent fees and locker. This deposit must be made before October 5th.

**DISCIPLINE AND GOOD ORDER.**

The Faculty will, as heretofore, expect all students to observe the principles of good conduct and order in the course of their connection with the College; and the Faculty will deal with infractions of these requirements by such penalties, including expulsion, as they may, subject to the general power of the Trustees, deem just.

**THE TRUSTEES' SCHOLARSHIPS.**

The Trustees of the Jefferson Medical College have given to the Board of Education of Philadelphia two free scholarships in that College during each period of four years.

These scholarships are open to members of the graduating classes in the year of graduation in the Boys' Central High School or the Manual Training Schools of Philadelphia who shall have the requisite qualifications for admission.

One of these scholarships was awarded in October, 1901, and the next will be in October, 1904. The award is to be made by the committee on scholarships of the Board of Public Education, subject to confirmation by the Board.

**THE FRANCIS W. SHAIN SCHOLARSHIPS.**

By a bequest of Francis W. Shain, M. D., two scholarships have been created, open to white male graduates of the Boys' Central High School or any of the Manual Training Schools of Philadelphia. Applicants must register with the Dean their names, addresses and certificates of graduation on or before September 10th of the year of graduation.

One of these scholarships will be awarded by competitive examination in 1902, on September 23rd, at 10 o'clock a.m.; the other in 1903. The examination will be on the following-named branches of study, viz.: English Composition (an essay of about three hundred words on a given subject), Higher Grammar, English Literature, Arithmetic, Algebra, Physics and Chemistry; any two of the three following named languages at the election of the applicants, viz., Latin, French, German.

The examination may be oral or written; the character and scope of the questions shall be such as will cover the respective branches of study to the extent to which they are taught in the best class of high schools having a four years' course of study.

**CLINICAL INSTRUCTION.**

Clinical teaching has always been an important feature of this College, in which, indeed, systematic clinical methods were first inaugurated in this country.

**CLINICAL MEDICINE.**

The Medical Clinics are held by Professors Wilson or Hare twice a week. Bedside instruction in Clinical Medicine is also given by Professors Wilson and Hare or their assistants daily at the Hospital to small sections of the class. The course is illustrated by the ample material of the wards and daily clinic. Each student is thus made familiar with practical medicine. The success attending this method of instruction at previous sessions encourages the hope of the best results from its continuance. Practical instruction in Physical Diagnosis is given to the class in sections by the Demonstrators of Clinical Medicine.

**CLINICAL SURGERY.**

The General Surgical Clinic of the Jefferson Hospital is held by Professors Keen, Hearn or Da Costa twice a week. Professor Forbes will give from time to time special clinics upon the surgery of the bladder and prostate gland and the removal of vesical calculi. Instruction is also given in the Surgical Dispensary and in the ward classes by Professors Hearn and Da Costa and by Drs. George W. Spencer, John H. Gibbon, Francis W. Stewart, Joseph Coles Brick and William J. Roe. Professors Horwitz, Hearn and J. Chalmers Da Costa also give instruction in Clinical Surgery in the clinics of the Philadelphia Hospital.

**CLINICAL OBSTETRICS.**

Obstetric clinics are given to the class in sections at the Maternity Department of the Jefferson Hospital, 224 South Seventh Street, by Professor Davis and the Clinical Lecturer, Dr. Stricker Coles. In addition, members of the Graduating Class are summoned to witness confinements, and are given practical instruc-
tion in obstetrics. Students are also taken to out-patient con-
finements by the Staff of the Maternity. Professor Davis gives
an Obstetric Clinic at the Philadelphia Hospital once weekly
during a portion of the term. The Out-Patient Department,
under the charge of Dr. W. H. Wells, Demonstrator of Clinical
Obstetrics, enables the graduating class to obtain practical ex-
perience in the houses of patients.

CLINICAL GYNECOLOGY.
The course in Clinical Gynecology consists in the General
Gynecological Clinic by Professor Montgomery and in attendance
upon operations and examinations in the Private Operating
Room. In addition there is instruction in the wards or in the
out-patient department by the demonstrator and the assistant
demonstrators.

CLINICAL DERMATOLOGY.
The course in Clinical Dermatology consists in a weekly
clinic by Professor Stelwagon, and instruction in the out-patient
department by the Chief of the Clinic and his assistants.

CLINICAL ORTHOPEDICS.
The course in Clinical Orthopedic Surgery is composed of a
weekly clinic, a weekly recitation for half the session, by Pro-
fessor H. Augustus Wilson, and instruction to small sections of
the class by the professor and the demonstrator in the out-
patient department.

CLINICAL PEDIATRICS.
In addition to the general clinic on Children's Diseases by Pro-
fessor Graham, there is instruction in the out-patient depart-
ment in this branch.

CLINICAL NEUROLOGY.
Professor Dercum gives a weekly clinic on Nervous Diseases
and instruction in Neurology and Insanity is given in the out-
patient department or in the wards of the Philadelphia Hospital,
which, in addition to its department for nervous diseases, has
a large Insane Department. Instruction will be given to the
class in sections in the electrotherapeutics of nervous disorders.

GENITO URINARY DISEASES.
Instruction in this branch is given by Professor Horwitz in
the Jefferson Hospital and at the Philadelphia Hospital.

CLINICAL OPHTHALMOLOGY.
The Ophthalmological Clinics will be held once a week at the
Hospital by Professor Hansell. Practical Instruction in Dis-
eeases of the Eye, Ophthalmoscopy and Refraction will be given
to fourth-year students in sections by the professor or his as-
sistants, and demonstrations upon animals' eyes by the demon-
strator.

CLINICAL LARYNGOLOGY AND RHINOLOGY.
Professors Cohen, Jones and Kyle give a clinic on these sub-
jects, and instruction is given to the class in small sections by
the Chief of the Clinic and the assistants.

CLINICAL OTOLARYNGOLOGY.
The course of Otology consists of clinical lectures by Pro-
fessor S. MacCuen Smith and instruction in the treatment of
diseases of the ear in the out-patient department.

ADDITIONAL HOSPITAL-TEACHING FACILITIES.
In addition to the facilities for clinical instruction afforded by
the large and varied service of the Jefferson Medical College
Hospital, the following hospitals provide opportunities for teach-
ing by the various members of the Staff of the College:

The Pennsylvania Hospital is situated in the vicinity of
the College. The field for instruction in acute diseases and surgical
injuries is very large. The students of Jefferson College, by
reason of the proximity of the College to the Hospital and its
immense resources for the illustration of all forms of diseases
and accidents, have peculiar advantages. Professor J. C. Wilson
is a member of the Staff. Clinical lectures are delivered in the
Amphitheatre by members of the Staff.

The Philadelphia Hospital,—This extensive Hospital of 1300
beds presents a large number and variety of cases for clinical
instruction. A number of the Faculty and Instructors of Jeffer-
son Medical College are members of the staff of this institution,
and utilize their wards and clinics for the daily instruction of
the students of Jefferson College. Professor Coplin and
Drs. Kalteyer and Prince are on the Pathological Staff, Professor
Stelwagon on the Dermatomical Staff, Professor Dercum on the
Neurological Staff, Professors Horwitz, Hearn and Da Costa on
the Surgical Staff, Drs. S. Solis-Cohen, Salinger and Ashton on
the Medical Staff, Professor Davis and Dr. J. M. Fisher on the
Obstetrical and Gynecological Staff, Professor H. Augustus Wil-
son on the Orthopedical Staff and Professor E. E. Graham on the
Pediatric Staff.

St. Joseph's Hospital,—Professor Montgomery is Gynecologist
to this Hospital, Professor J. Chalmers Da Costa is Surgeon,
Drs. Krusen and Maler are Assistant Gynecologists and Dr.
Rosenberger is Pathologist. Their classes will have the benefit
of their practice there.

German Hospital.—The Staff of this important Hospital have
now made arrangements for clinical teaching, in which the
resources of this excellent institution are utilized to the fullest
extent. Professor J. C. Wilson is Physician-in-Chief. A clinical
Amphitheatre, with ample seating capacity, has been recently
erected.
Wills Eye Hospital.—This well-known and extensive Hospital is within a convenient distance of the College, and daily clinics are held there.

The Municipal Hospital.—In this institution none but contagious diseases are received. Such third year students as desire it will have opportunities to study the contagious diseases at the bedside.

In all, Philadelphia has 20 hospitals, 9 dispensaries and 38 other charitable institutions with which infirmaries are connected. Almost every special branch of medicine and surgery has its distinct institution, as the Dispensary for Diseases of the Skin, Children's Hospital and others. Graduates and advanced students desiring to pursue any special branch of medical science, have therefore ample opportunities afforded them in these various hospitals.

Spring and Summer Courses.—The facilities of the College Laboratories and Hospital clinics will be afforded to practitioners of medicine and undergraduates of this College by the Faculty and instructors during the spring and summer. For particulars, application should be made to the Dean.

LABORATORY COURSES.

The laboratory courses are as follows, and are obligatory. Each student, on completing a laboratory course, must have his ticket countersigned by the instructor or demonstrator in that branch.

THE LABORATORY OF PRACTICAL CHEMISTRY.

The Laboratory for medical Chemistry and Toxicology is under the supervision of the Professor of Chemistry, aided by the Demonstrator and his Assistant. Each student, during his course, has assigned to him a table, with full reagent sets and apparatus.

The instruction here given is in harmony with the chemical lectures of the Winter session, and is conducted in such a manner as to secure to the student a practical familiarity with the apparatus, materials, processes and reactions which are the subjects of his professional study, and which will be useful in his subsequent practice.

The course of the freshman year consists of:

1. MANIPULATIONS, in which each student himself performs various experiments, shown and explained by the Professor of Chemistry in his regular lectures previous to the holidays. These include Acidimetry and Alkalimetry.

2. TOXICOLOGY, especially adapted to the wants of the medical practitioner. This includes an extensive range of testing for the various poisons, mineral and organic, commonly met with in practice, and concludes with a practical examination of samples of vomited matters of unknown composition.

The course of the sophomore year includes the EXAMINATION OF NORMAL and ABNORMAL PRODUCTS of the human body, in the diagnosis of diseases. The practical Chemistry of the Bile and the Blood, the most approved methods of examining Urine, the Gastric Contents, and Milk, are performed by each student according to the principles taught by the Professor of Chemistry. At the close of this course each of the students makes a diagnostic examination of a sample of urine of an unknown composition.

THE LABORATORIES OF PHARMACY, MATERIA MEDICA AND EXPERIMENTAL THERAPEUTICS.

The Laboratory of Pharmacy, Materia Medica and Experimental Therapeutics contains a complete cabinet of materia medica preparations, finished products, digestive ferments and active principles for study by each pupil. The room is equipped for pharmaceutical instruction, and a systematic course in pharmacy and prescription writing is given. The laboratory is provided with instruments and appliances for special researches in the physiological action of remedies. Members of the class who desire to carry on original research in experimental therapeutics will be assigned remedies for studies, under the direction of the Professor and his assistants. A number of valuable special researches have been made by members of the class and published from time to time as original contributions to knowledge.

In the course on Pharmacy each student performs the necessary manipulations and makes in turn the various preparations.

THE LABORATORY OF PHYSIOLOGY.

This Laboratory is well equipped with apparatus for the illustration of the subjects of Physiological Physics, such as the theory of the balance methods of obtaining specific gravity, the arranging of galvanic batteries, galvanometers, chronographic apparatus, methods of analysis of food and gases. Also with apparatus for the demonstration of the essential phenomena of nutrition, digestion, absorption, circulation, respiration, excretion, the functions of the nervous system, the reproductive apparatus and development of the embryo.

THE STUDENTS' NEW LABORATORY OF PHYSIOLOGY.

The Students' new Laboratory of Physiology was opened in the fall of 1899 with an outfit presented by a member of the Board of Trustees, and has been in successful operation during the past session. The outfit includes appropriate apparatus for the study of fundamental facts in physiological chemistry, apparatus for the study of the physiological mechanism of the heart, nerves, muscles, spinal cord, etc. The equipment is such that sections of fifty students can work at the same time, each student being provided with all necessary apparatus—e. g., kymograph, induction coil, keys, moist chamber, electrodes, rheocord, commutators, time markers, levers, test solutions, etc., etc. In the course of two years the student will perform a large number of the cardinal experiments in physiology relating to the above mentioned subjects.
This Laboratory contains a complete collection of specimens illustrating the course in special and general pathology. The student has demonstrated to him, by the Demonstrator and his assistants, the various organs and tissues in the body, showing the morbid conditions to which each organ is subject. While the collection of tumors, diseased organs, etc., belonging to the laboratory, is believed to be quite complete, the large general museum can be drawn upon whenever necessary. The post-mortems at the Jefferson Medical College Hospital supply abundant material for the demonstration of fresh specimens. There has been installed a complete microprojection outfit by means of which the slides prepared for and by the class can be demonstrated to a large section. An elaborate macroprojection outfit is present in course of installation and will be in use during the coming term.

Post-mortems.—The class, divided into sections, is given detailed instruction in the method of conducting post-mortems and the examination of fresh specimens.

The Bureau of Charities and Corrections of the City of Philadelphia have made available for teaching purposes, the Museum of the Philadelphia Hospital, containing a splendid accumulation of specimens, the result of many years collection. In addition, the class is now admitted to post-mortems. Professor Coplin is the senior pathologist; Drs. Kalteyer and Prince are his assistants.

Arrangements have been completed by which sections of the class are taken weekly for post-mortem instruction and study of the material in the museum.

THE LABORATORIES OF THE JEFFERSON MEDICAL COLLEGE HOSPITAL.

A description of these laboratories will be found on page 10.

Each student working in any of the laboratories of this department makes a deposit to cover breakage, but such deposit does not cover all injuries to the microscope supplied him.

The facilities for post-graduate teaching in the laboratories of the Hospital are believed to be unexcelled. Such teaching is conducted at hours not interfering with the undergraduate teaching and constitutes individual instruction. Spring and summer courses are given.

THE LABORATORY OF NORMAL HISTOLOGY AND EMBRYOLOGY.—This Laboratory is on the fifth floor of the new Laboratory building. The instruction in Normal Histology embraces the manner of using the microscope, the preparation of tissue, the cutting, staining, and mounting of sections, and demonstrations of the minute or microscopical anatomy of the various tissues and organs. The class is divided into sections of fifty, and each student is supplied with a microscope, a desk, and all reagents necessary for the pursuit of his studies. As the sections which he mounts are his after the completion of the course, the student is only expected to supply or replace what he takes away, also his needles, forceps, etc., which are usually in his anatomical dissecting set. The collection of slides made by the student in this course will be valuable for future reference.

THE LABORATORY OF EMBRYOLOGY.—As stated in last year's Announcement a Laboratory of Practical Embryology has been opened. The instruction in this department is given in connection with the course in Practical Histology. The technique of embryologic methods is taught by the preparation of sections, the examination of embryos, particularly of the chick, by elaborate lantern demonstration and from accurate but greatly enlarged wax models especially imported for the department. The course is essential for students desiring familiarity with the normal process of development—the intrauterine growth of the embryo, the formation of the placenta, etc.—and the errors in developmental processes that end in the production of malformations.

THE LABORATORY OF MORBID HISTOLOGY.—This Laboratory occupies the fourth story of the new Laboratory building. The regular undergraduate instruction in this department consists in the sectioning, mounting and study under the microscope of diseased tissues. The course embraces the examination of the blood, urine, sputum, and other fluids, excretions and pathologic exudates. Each student is supplied with microscope, desk, and all needed reagents for the work. The student supplies his own slides and cover glasses and the few trifling instruments used in the mounting, such as needles, forceps, etc., which are usually in his anatomical dissecting case. When the course is completed the mounted specimens are the property of the student, and in this way he is enabled to secure a collection of typical slides invaluable for future reference. A dark room is set apart for special work on photomicrography, for which a most elaborate and complete outfit is at command. Students or post-graduates, desiring to pursue any special line of research can find facilities afforded.

THE LABORATORY OF BACTERIOLOGY.—This Laboratory occupies the sixth floor of the new Laboratory building, above the noise and dirt of the city streets. The equipment is complete in every detail, all microscopes, microtomes, incubators, serum apparatus and other accessories for the study of bacteria are available. A large collection of pathogenic and other bacteria is constantly on hand, and a comprehensive course is given in practical bacteriology, including methods of studying bacteria, identification of the pathogenic forms, etc. The course includes bacteriologic examination of normal and abnormal discharges, such as urine and sputum, and also pathologic exudates. As in the other laboratories, each student has his own desk, with lock and key. Adjoining this laboratory is a room where diseased animals may be kept under observation. The student is supplied with all reagents for his work, but supplies for himself forceps, needles, scissors,
etc., his dissecting set usually containing the needed instruments. The slides mounted belong to the student, and he may in this way secure a collection of stained bacteria valuable for future reference.

THE COURSE IN HEMATOLOGY.—After the completion of the course in Bacteriology the student is given practical instruction in Hematology, including various clinical methods for the examination of the blood. Dr. Kalteyer, who conducts the course in Hematology, is Hematologist to the Jefferson Medical College Hospital, from which an abundance of material for the study of morbid conditions can be obtained.

PRACTICAL ANATOMY.

The rooms are spacious and provided with every convenience. They are open during the Winter session daily.

The course in Anatomy will begin with the dissection of lower animals. The entire freshman class, in sections, will dissect this material before beginning the dissection of the human cadaver.

The material is furnished at $1 per part, and no extra or incidental charges are made.

Under the operation of the Anatomical Act, the supply of material has much increased and is now ample.

The methods are such as to render the teaching of Anatomy efficient. No lectures are given by the Demonstrators, but their duties are confined to directing the work of the students, and their work has three special features:

1. The demonstration of the bones, ligaments and joints to the students beginning anatomical study.

2. The demonstration on the cadaver, as the students proceed in their dissection. Examination of each student on the anatomy of the part he has dissected is made weekly, and his status is recorded at the time.

3. Weekly, during the entire session, demonstrators are detailed to hold demonstrations and recitations on special parts and organs.

Report is made to the Professor of each student's work.

With a view to introduce students properly to the study of Practical Anatomy before beginning dissections, each student, with the material in his hands, under the direction of the Demonstrators, acquires the necessary elementary knowledge of the skeleton and its articulations.

The bones and joints are demonstrated and loose bones issued to each student, which he may take to his room for more deliberate study and upon which recitations are held.

Systematic demonstrations on the cadaver are made to aid the dissections of the students. Careful supervision is had of the work of the students as they proceed in their dissections, to insure thorough acquisition of anatomical knowledge, and recitations are held over the dissected body.

The Professor of Anatomy holds recitations over the dead body weekly.

VISCERAL ANATOMY.

Heretofore this important subject has been taught to advanced students only, but the demands of the departments of Physiology, Histology and Embryology, as well as the importance of an accurate knowledge of the gross anatomy and relations of the viscera have led to the inauguration of a course in visceral anatomy given in the freshman year. The instruction is conducted by a demonstrator, under the supervision of the Professor of Anatomy, and consists of practical demonstrations to sections of the class, taking up all the important viscera, their gross anatomy, relations and developmental origin; in this way the student is prepared to appreciate the instruction given in other departments and receives a course introductory to the work of the sophomore year.

OPERATIVE OBSTETRICS.

The Demonstrator of Obstetrics, under the supervision of the Professor, will review with the students in each section the anatomy of the birth canal and of the fetus. He will further instruct them in the diagnosis of the presentations and positions of pregnancy, with the modes of rectifying errors and accomplishing delivery by manual and instrumental means. Models, diagrams, and the manikin will be used.

THE LABORATORIES OF OPERATIVE, AND MINOR SURGERY AND BANDAGING.

These departments are in charge of the Demonstrators of Surgery of Fractures and Dislocations and the Instructor in Bandaging and assistants, under the direction of the Professors of Surgery.

Students of the freshman year are taught the proper methods of applying all bandages, including the handkerchief system of Mayor and the fixed bandages, together with the plaster-of-Paris, silicate of sodium and starch bandages.

Students of the junior year are carefully instructed in the use of fracture dressings, which they are individually required to apply, and the manual for the reduction of dislocations.

Each student is taught the use of the hypodermic syringe, the proper method of passing the catheter, of performing intravenous injection, the application of tourniquets, etc.

The members of each section of the junior class are required to perform on the cadaver, amputations, resections, ligations of arteries, trephining, tracheotomy, nerve resections, perineal section, and the various operations of abdominal and genito-urinary surgery.

Before any operation is performed, the Demonstrator carefully instructs the student in the surgical anatomy of the part, in the management of instruments, the surgical dressings and the proper methods of operating.
The course in Hygiene is so arranged that the student receives, by didactic and practical instruction, definite ideas regarding the laws of growth, development and physiological activity of the body; the correction of deformities and the prevention of disease through measures relating to physical exercise, diet, clothing, bathing, etc.; the prevention of disease by the sanitary arrangement of the dwelling, including water supply, drainage, ventilation, heating, etc., as well as the water supply and drainage of communities.

**CLINICAL MICROSCOPY.**

The course in Clinical Microscopy is under the direct supervision of the Professor of Pathology. The course is now conducted in connection with the laboratory work in morbid histology, and will include the examination of sputum, pus, blood, including the counting of blood-corpuscles and the estimation of hemoglobin, etc., also a course in Urinary Microscopy.

**RECITATIONS BY PROFESSORS AND INSTRUCTORS.**

Systematic recitations constitute an important part of the instruction, and are provided without charge in connection with the regular teaching of the respective chairs. The recitations are conducted as follows:

- **Physiology.**—By Professors Chapman and Brubaker.
- **Surgery.**—By Professors Brinton and Da Costa and Dr. George W. Spencer.
- **Chemistry.**—By Professor Holland.
- **Anatomy.**—By Professor Forbes and the demonstrators.
- **Therapeutics.**—By Professor Hare and Drs. Thornton, Appleman and Kennedy.
- **Practice of Medicine.**—By Professor J. C. Wilson and Drs. Salinger and Ashton.
- **Gynecology.**—By Professor Montgomery and the demonstrators.
- **Pathology.**—By Professor Coplin and assistants.
- **Ophthalmology.**—By Professor Hansell and Doctor Veasey.
- **Obstetrics.**—By Professor Davis and assistants.
- **Histology.**—By the Demonstrator or his assistants.
- **Bacteriology.**—By Dr. Rosenberger.
- **Laryngology.**—By Professors Jones and Kyle.
- **Dermatology.**—Professor Stelwagon and Dr. E. J. Stout.
- **Orthopedic Surgery.**—By Professor H. Augustus Wilson and Doctor J. T. Rugh.
- **Pediatrics.**—By Professor Graham.
- **Neurology.**—By Professor Dercum.
- **Otology.**—By Professors Smith and Doctors Klopp and Hoopes.
- **Genito-Urinary Surgery.**—By Professor Horwitz.

**SUMMARY OF THE REGULAR FOUR YEARS' COURSE.**

The graded curriculum is arranged as follows:

**FRESHMAN YEAR.**

- **Anatomy.**—One lecture, ten hours of dissection, three demonstrations in Osteology, three demonstrations in Syndesmology per week, and three in Visceral Anatomy, with recitations.
- **Normal Histology.**—One recitation per week throughout the term, and twelve hours' laboratory instruction per week part of the term.
- **Bacteriology.**—One recitation per week for the whole term.
- **Physiology.**—One lecture per week and four hours of laboratory instruction per week for a period of six weeks.
- **General Chemistry and Toxicology.**—Two lectures with recitations, and six hours of laboratory instruction per week half of the term.
- **Materia Medica and Pharmacy.**—Two hours of laboratory work and a recitation per week for the whole session.
- **Bandaging.**—Four hours of practical instruction per week, for part of the term.
- **Embryology.**—Practical instruction six hours per week, for part of the term.

Examinations will be held at the close of the term in Anatomy (Osteology, Syndesmology, Myology), Normal Histology and Elementary Bacteriology, Embryology, Physiology, (Digestion, Absorption, Circulation, Animal Heat, Respiration and Excretion), General Chemistry and Toxicology, Materia Medica and Pharmacy, and Bandaging.

No student can advance to the sophomore class unless he has passed the required examinations or a majority of them. He can be conditioned in the minority until the closing examination of the sophomore year. If he should fail then, he must repeat his year's work.

**SOPHOMORE YEAR.**

- **Anatomy.**—Three lectures, ten hours’ dissection per week and recitations over cadaver weekly for half the term.
- **General Pathology.**—Two lectures and one recitation per week.
- **Hygiene.**—One lecture per week.
- **Pathological Histology.**—Sixteen hours of laboratory work and recitations per week part of the term.
- **Physiology.**—Two lectures per week and four hours of laboratory instruction per week for a period of six weeks.
- **Medical Chemistry.**—One lecture with recitation per week, and nine hours' laboratory instruction in Clinical Chemistry per week half of the term.

*Subject to change.*
Therapeutics.—Two lectures per week.

Surgery.—Two lectures per week, with recitations.

Symptomatology and Physical Diagnosis.—One lecture per week.

Medical Jurisprudence.—Two lectures per week in the latter half of term.

Examinations will be held at the close of the term in Anatomy. General Pathology and Pathological Histology, Physiology (Nervous System, Special Senses, Reproduction), Medical Jurisprudence, Medical Chemistry, the part of Surgery taught this year, and Symptomatology and Physical Diagnosis.

No student can advance to the junior class unless he has passed all the freshman examinations and a majority of those of the sophomore year. He can be conditioned in the minority until the closing examinations of the junior year. If he should fail then he must repeat his year's work.

JUNIOR YEAR.

Pathology.—Two lectures and one recitation per week.

Bacteriology.—Eight hours per week for part of the term.

Morbid Anatomy.—Three hours per week for part of the term.

This course includes instruction in post-mortem, given to the class in sections.

Obstetrics.—Two lectures per week.

Operative Obstetrics.—Two demonstrations per week.

Therapeutics.—Two lectures per week.

Surgery.—Two lectures and one hour of class examination per week.

Clinical Surgery.—Two clinics of two hours each per week.

Operative Surgery.—Six hours per week for part of the term.

Fracture Dressings.—Three demonstrations per week for part of the term.

Practice of Medicine.—Three lectures and two hours of class examination per week.

Clinical Medicine.—Two lectures per week.

Symptomatology and Physical Diagnosis.—One bedside demonstration per week.

Gynecology.—One recitation per week on Symptomatology and Diagnosis for the first half of the year.

Examinations will be held at the close of the term in the Practice of Medicine, Pathology and Bacteriology, Obstetrics, including Operative Obstetrics, Therapeutics, Surgery, (Fractures, Dislocations, Hernia, Surgical Diseases of the Bones, Joints, Vascular and Respiratory Systems, of the Skin and its Appendages, and of the Rectum and Urinary Bladder), Operative Surgery, Fracture Dressings and Reductions of Dislocations.

No student can advance to the senior class unless he has passed all the freshman and sophomore examinations and a majority of those of the junior year. He can be conditioned in the minority until the closing examinations of the senior year.

SENIOR YEAR.

Special Therapeutics.—One lecture or recitation per week.

Electro-Therapeutics.—Section work.

Gynecology.—One clinical lecture; one recitation or lecture, and one hour section instruction per week.

Obstetrics.—Two obstetric clinics and one didactic lecture weekly, bedside demonstration and attendance upon cases.

Special Surgery.—One lecture per week and one hour of recitation every other week.

Clinical Surgery.—Two clinical lectures of two hours and one hour of bedside instruction every week.

Practice of Medicine.—Three lectures per week and two hours of class examination.

Clinical Medicine.—Two clinical lectures and one hour of bedside instruction per week.

Clinical Ophthalmology.—One clinic and one hour of practical instruction per week.

Clinical Laryngology.—One clinic per week and eight hours of practical instruction.

Clinical Otology.—One clinic per week and eight hours of practical instruction.

Clinical Orthopedics.—One clinic per week, eight hours of practical instruction and one recitation per week for half of the session.

Clinical Pediatrics.—One clinic per week and eight hours of practical instruction.

Clinical Dermatology.—One clinic per week and eight hours of practical instruction.

Clinical Neurology.—One clinic per week and eight hours of practical instruction.

Clinical Genito-Urinary Diseases.—One clinic per week and eight hours of practical instruction.

Attendance upon the special clinics, ward classes and demonstrations must be certified by the instructor of each branch.

General Clinics, Medical and Surgical, at the Pennsylvania and Philadelphia Hospitals.

Final Examinations will be held at the close of the term in Therapeutics (including Climate, Baths, Diet, Electro-Therapeutics), Gynecology, Clinical Obstetrics, Practice of Medicine (beside general medicine, this examination will include questions given by the clinical
Professors of Dermatology and Pediatrics), Neurology, Surgery (in addition to the questions in the parts of Surgery not covered by the third-year examinations, there will be included questions given by the clinical Professors of Orthopedics, Genito-Urinary Diseases, Laryngology, Otology and Ophthalmology). A separate examination in Ophthalmology may be announced later as required. See also examinations for the doctorate, p. 14.

HOSPITAL APPOINTMENTS.

Every year six Resident Physicians to the College Hospital and six substitutes are appointed from the graduates of the graduating class. These are chosen from among the graduates attaining 80 per cent. and over. Seven Resident Physicians and seven alternates to the Philadelphia Hospital are selected from the graduates of this College after passing the civil service examination by the Directors of Charities. At the other hospitals over 80 resident appointments are made annually, for the most part by competition, open to graduates in medicine. The Faculty has appointed a committee to collect definite information that will facilitate the securing of appointment for our graduates to positions as Resident Physicians in the various hospitals in this country. The committee will be glad to receive any information from former Resident Physicians and others that will aid its organized efforts, and will be pleased to assist applicants for such positions. The committee is composed of Prof. James C. Wilson, Chairman; Dr. Joseph S. Neff, Medical Director of Hospital; Prof. E. E. Montgomery, and Prof. H. Augustus Wilson, Secretary.

STUDENTS' MEDICAL SOCIETIES.

Members of different classes have organized the Hare, Keen, Wilson, Forbes, Davis, Chapman, Coplin, Dercum, Montgomery and Horwitz Medical Societies. The Academy is a society composed of students who hold College degrees from recognized literary institutions. Meetings are held twice a month for consideration of essays on Therapeutics, Surgery, Practice of Medicine, Anatomy, Obstetrics, Physiology and Pathology. The meetings are held in the students' society rooms.

The following prizes are offered to the graduates of the Jefferson Medical College, to be conferred at the Annual Commencement in 1903:

The Henry M. Phillips Prize of Seventy-five Dollars. Awarded upon the recommendation of the Professor of Medicine to the graduate in his opinion most worthy.

The Henry M. Phillips Prize of Seventy-five Dollars. Awarded upon the recommendation of the Professors of Surgery to the graduate in their opinion most worthy.

Physiology Prize. Awarded by bequest of Dr. Francis W. Shain, for the best Essay or the best Examination on a subject pertaining to Physiology (open to undergraduates of the second year).

Practice Prize. Awarded by bequest of Dr. Francis W. Shain, for the best Essay on a subject pertaining to the Practice of Medicine.

Therapeutics Prize. A Gold Medal, for the best Examination in Therapeutics.

Surgery Prize. Awarded by bequest of Dr. Francis W. Shain, for the best Essay on a subject pertaining to Surgery.

Obstetrical Prize. A Gold Medal, for General Excellence in Obstetrics.

Chemical Prize. A Gold Medal, for the best Original Work in the Chemical Laboratory (open to undergraduates).

Anatomy Prize. A Gold Medal, for the best Anatomical Preparation (open to undergraduates).

Pathology Prize. A Gold Medal, for the best Essay embodying original research on some subject connected with Pathology, or for best Examination.

Gynecology Prize. By Professor Montgomery, a Gold Medal, for the best Examination in Gynecology.

Neurology Prize. By Professor Dercum, a Gold Medal, for the best examination in Neurology.

Demonstrator of Anatomy Prize. By Dr. Addinell Hewson, a Pocket Case of Instruments, for the best Record of Anomalies made in the dissecting-room.

Clinical Orthopedics Prize. By Professor H. Augustus Wilson, Twenty-five Dollars, for the best Examination in Orthopedic Surgery.

Clinical Pediatrics Prize. By Professor Graham, Twenty-five Dollars, for the best Report on his Clinics.

Clinical Genito-Urinary Prize. By Professor Horwitz, Twenty-five Dollars, for the best Examination in Genito-Urinary Surgery.

Clinical Obstetrics Prize. By Professor Davis, Twenty-five Dollars, for the best Report of his Clinics.

Clinical Otology Prize. By Professor S. MacCuen Smith, Twenty-five Dollars, for the best Examination in Otology.

Clinical Dermatology Prize. By Professor Stelwagon, Twenty-five Dollars, for the best Examination in Dermatology.

Clinical Laryngology Prize. By Professor Kyle, Twenty-five Dollars, for the best Original Essay on a subject pertaining to Laryngology and Rhinology.

Clinical Laryngology Prize. By Professor Jones, Twenty-five Dollars, for the best Report of his Clinics.

Alumni Prize. By the Alumni Association, a Medal for the best General Average gained in the examinations for the entire curriculum.

W. B. Saunders Prize. Ten Volumes of Saunders' Medical Hand Atlases to the student who passes the best General Examination at the close of the next college term.

Out-Patient Obstetric Prize. By Dr. W. H. Wells, Demonstrator of Clinical Obstetrics, a Case of Instruments, for the best Report of work in Out-Patient Maternity Service.
TEXT-BOOKS.

FIRST YEAR.

Text-Books. Required.

Physiology.—Chapman; Brubaker.
Chemistry.—Simon; Holland on the Uirine, the Common Poisons, and the Milk.
Anatomy.—Morris; Gray; Holden's Dissector, by Hewson.
Materia Medica.—Hare's Text-Book of Practical Therapeutics; Thornton's Prescription Writing.
Histology.—Stöhr.
Bacteriology.—Muir and Ritchie.

Books of Reference. Not required.

Taylor on Poisons.
Sattler and Trimble, Medical and Pharmaceutical Chemistry.
Architecture of the Brain, by Fuller.
Quain.

SECOND, THIRD AND FOURTH YEARS.

Text-Books. Required.

Physiology.—Chapman; Brubaker.
Medical Jurisprudence.—Chapman.
Chemistry.—Holland on the Uirine, the Common Poisons, and the Milk.
Anatomy.—Morris; Gray.
Therapeutics.—Hare; Haymen's Physical and Natural Therapeutics.
Hygiene and Public Health.—Coplin and Bevan.
Obstetrics.—Davis.
Gynecology.—Montgomery on Practical Gynecology.
Pediatrics.—Holt on Diseases of Children.
Pathology.—Ziegler; Coplin's Manual of Pathology.
Practice of Medicine.—The American Text-Book of the Theory and Practice of Medicine.
Laryngology and Rhinology. Cohen; Kyle.
Dermatology.—Stelwagen's Essentials of Diseases of the Skin.

Books of Reference. Not required.

Taylor's Medical Jurisprudence.
Netbauer and Vogel on the Urine.
Black on the Urine.
Quain.
Hare's System of Therapeutics.
American Text-Book of Obstetrics.
American Text-Book of Gynecology; Keating and Coe; Practical Gynecology.
American Text-Book of Pathology.
Da Costa's Medical Diagnosis; Bartholow's Practice of Medicine; Strumpell's Practice of Medicine; Hare's Practical Diagnosis; Vierordt's Medical Diagnoses.
Hyde on Diseases of the Skin; Kapoii on Diseases of the Skin; Unna's Histopathology of the Diseases of the Skin; Aldenmitch on Ring-worm and Alopecia Areata.

INFORMATION FOR STUDENTS.

The personal expenses of the student are at least as low in Philadelphia as in any other large city. Students can board comfortably for from $4 to $5 per week, fire and light included; and those who are willing to live at some distance from the COLLEGE, or to club together in lodging-rooms, can live at lower rates.

Students will save time and expense by going directly to the College, corner of Tenth and Walnut Streets, on their arrival in the city. The Clerk will at once see that they are provided with board.

Students are advised to register and procure their tickets without delay, as numbered seats are given in the order of registration. The Dean can be seen at his office, in the College building, every day, during term, from 10 A. M. to 12 M., or at such times as he may hereafter announce.

Any student will receive the Jefferson College Hand-Book, by writing to the Inter-Collegiate Secretary, Y. M. C. A., at Fifteenth and Chestnut Streets, Philadelphia. Representatives of the Jefferson College, Y. M. C. A. wearing red badges will be at all trains during the opening days to meet new students and assist them in securing suitable rooms and boarding places.

All business connected with the College is transacted at the office of the Dean.

Students are advised to pay fees by check for the exact amount. Remittances for other expenses should be in Postal money-orders or Drafts or notes by express, as the College will not endorse checks for private expenses.

Letters on business of exclusive interest to the writer must inclose a stamp to secure attention.

By the Faculty: J. W. HOLLAND, M.D., Dean.

Approved by the Board of Trustees:

WM. POTTER, President.
SIMON GRATZ, Secretary.

GRADUATES
OF
THE JEFFERSON MEDICAL COLLEGE
OF PHILADELPHIA,
MAY, 1901

At a Public Commencement, held at the American Academy of Music on the 15th day of May, 1901, the Degree of Doctor of Medicine was conferred on the following gentlemen by the President, Hon. William Potter, the exercises closing with a Valedictory by Prof. W. W. Keen, M. D., LL. D., F. R. C. S. (Hon.)

Altman, Owen Randolph...Pa.
Angle, George Burton.....Tex.
Applewhite, Scott Carter...Ind.
Baldwin, Hugh Allen.....Ohio
Barrows, Arthur Monroe....Vt.
Bassett, Henry Linn (A. B)...Pa.
Beek, John Alonzo.........Pa.
Bell, John James.........Ireland
Berberich, Herman (P. D.)....Pa.
Bland, Pascal Brooke......Pa.
Bossard, Harry Bardwell....Pa.
Bradford, Edward Burton....Pa.
Brown, Charles Gailey...A. B.)....Ohio
Bussey, William Joseph....Ia.
Cartin, Harry James......Pa.
Cooper, Frank Chambers......Pa.
Craig, Albert B.........Wash.
Craige, John Jay (B. A.).....Pa.
Crawford, David Hutchison...N. J.
Crigler, Wallace Payton....Ky.
Culler, Robert Martin...A. B.)....Pa.
Curtis, Ralph Gardner....Cal.
Davis, James Leslie (B.S.)...Ky.
Davis, Robert Goode (Ph.G.)..Ark.
Dean, Fred William Symmers... (M.D.).....S. C.
Despard, Duncan Lee.....W. Va.
Dight, Herman Hersche...Pa.
Diggott, Ernest William.....Fla.
Dirickson, Cyrus William.....(B.S.)....Md.
Dole, William Arthur (Ph.B.).....Pa.
Dolson, Frank Edgar.....Pa.
Downs, Alfred Jonathan....Cal.
Dubbs, Robert L........Cal.
Duryea, Chester Ford......N. Y.
Ellis, Edwin Milton......Pa.
Ellis, James Baxter......Ark.
Fletcher, Robert Swan.....Mass.
Fosque, George Lee......Va.

PRIZES

The following prizes were awarded:

The Henry M. Phillips Prize of Seventy-five Dollars. Awarded upon the recommendation of the Professor of Medicine to the graduate in his opinion most worthy, to James Edwin Weller, of Indiana.

The Henry M. Phillips Prize of Seventy-five Dollars. Awarded upon the recommendation of the Professors of Surgery to the graduate in their opinion most worthy, to Albert B. Craig, of Washington.

Physiology Prize. Awarded by bequest of Dr. Francis W. Shain, for the best Essay or the best Examination on a subject pertaining to Physiology (open to undergraduates of the second year), to Undergraduate Thomas Cook Stellwagen, Jr., of Pennsylvania.

Chemistry Prize. A Gold Medal, for the best Original Work in the Chemical Laboratory (open to undergraduates), to Undergraduate Max R. Dinkelspiel, of New York.

Therapeutics Prize. A Gold Medal, for the best Examinations in Therapeutics, to Acheson Stewart, of Ireland.

Obstetrical Prize. A Gold Medal, for General Excellence in Obstetrics, to George A. Ulrich, of Pennsylvania.

Anatomy Prize. A Gold Medal, for the best Anatomical Preparation (open to undergraduates), to Undergraduate Thomas Cook Stellwagen, Jr., of Pennsylvania.

Ophthalmology Prize. By Professor De Schweinitz, a Gold Medal, for the best Examination on Ophthalmology, to Pascal Brooke Bland, of Pennsylvania, with honorable mention of William Carey Vail, of Indiana, and Theodore T. Girould, of Illinois.

Gynecology Prize. By Professor Montgomery, a Gold Medal, for the best Examination in Gynecology, to Collin Foulkrod, of Pennsylvania, with honorable mention of George A. LaMotte, of Missouri.

Neurology Prize. By Professor Dercum, Twenty-five Dollars, for the best Examination in Neurology, to William C. Vail, of Indiana, with honorable mention of George A. LaMotte, of Missouri.

The W. S. Forbes Anatomical League Prize of One Hundred and Fifty Dollars given by Professor Forbes to the member of the Anatomical League having the highest standing in a competitive Examination in Anatomy, to Louis C. Williams, of New Jersey, with honorable mention of Douglas Symmers, of South Carolina.

Clinical Orthopedics Prize. By Professor H. Augustus Wilson, Twenty-five Dollars for the best Examination in Orthopedic Surgery, to Albert B. Craig, of Washington.

Clinical Pediatrics Prize. By Professor Graham, Twenty-five Dollars, for the best Report on his Clinics, to Louis C. Williams, of New Jersey, with honorable mention of J. B. Horinstein and Joseph Weller.

Clinical Gastro-Urinary Prize. By Professor Horwitz, Twenty-five Dollars, for the best Examination in Gastro-Urinary Surgery, to C. W. Williams, of New Jersey, with honorable mention of Robert G. Davis.

Clinical Obstetrics Prize. By Professor Davis, Twenty-five Dollars, for the best Report on his Clinics, to Louis C. Williams, of New Jersey, with honorable mention of Collin Foulkrod, of Pennsylvania, and Francis Wayland Goddard, of Pennsylvania.

Clinical Ophthalmology Prize. By Professor Hansell, Twenty-five Dollars, for the best Examination in Ophthalmology, to J. Leslie Davis, of Kentucky.

Clinical Otolaryngology Prize. By Professor S. MacCuen Smith, Twenty-five Dollars, for the best Examination in Otolaryngology, to J. Leslie Davis, of Kentucky, with honorable mention of William C. Vail, of Indiana, and Collin Foulkrod, of Pennsylvania.
Clinical Dermatology Prize. By Professor Stelwagon, Twenty-five Dollars, for the best Examination in Dermatology, to W. C. Vail, of Indiana, with honorable mention of George A. LaMotte, of Missouri.

Clinical Laryngology Prize. By Professor Jones, Twenty-five Dollars, for the best Report of his Clinics, to J. Leslie Davis, of Kentucky, with honorable mention of Louis C. Williams, of New Jersey.

Alumni Prize. By the Alumni Association, a Medal for the best General Average gained in the Examinations for the entire curriculum, to George Althouse LaMotte, of Missouri.

W. B. Saunders Prize. Ten Volumes of Saunders' Medical Hand Atlases, to the student who passes the best General Examination at the close of the college term, to Collin Foulkrod, of Pennsylvania.

Out-Patient Department Obstetric Prize. By Dr. W. H. Wells, Demonstrator of Clinical Obstetrics, a Case of Instruments, for the best Report of work in out-patient maternity service, to George Burton Angle, of Texas.

The S. MacCuen Smith Prize of Two Hundred Dollars. Awarded by Professor Smith, upon the recommendation of a Committee, for the best Essay embodying original research 'On the Discharges from the Ear, with Special Reference to Intra-Cranial Lesions,' to John Funke, Pennsylvania.

Ptolemy Prize. A Gold Medal, by the Ptolemy Society, to the student of the Graduating Class who passes the Examinations of the Senior year with the highest general average, to Collin Foulkrod, of Pennsylvania.

HOSPITAL APPOINTMENTS

The following graduates of 1901 received hospital appointments:

Jefferson Hospital.—Resident Physicians—Dr. Pascal Brook Bland, Dr. Albert Craig, Dr. Henry L. Bassett, Dr. J. Linton Harkness, Dr. James D. Heysinger.
Substitute Resident Physicians—Dr. Joseph N. Weller, Dr. Homer J. Keeney, Dr. Charles G. Brown, Dr. Hugh A. Baldwin, Dr. John Funke.

Philadelphia Hospital.—Dr. R. G. Davis, Dr. J. N. Weller, Dr. F. A. McMullin, Dr. Charles G. Brown, Dr. L. C. Williams, Dr. C. A. Orr, Dr. Douglass Symmers, Dr. Nathan P. Shaffer, Dr. Walter S. Pattison.

St. Mary's Hospital, of Philadelphia.—Dr. Douglas Symmers.

German Hospital, of Philadelphia.—Dr. J. L. Davis, Dr. W. D. Kline.

Methodist Hospital, of Philadelphia.—Dr. J. B. Miller.

Jewish Hospital, of Philadelphia.—Dr. G. V. Hamilton.

Presbyterian Hospital, of Philadelphia.—Dr. Collin Foulkrod and Dr. Smith Hamill Horne.

St. Timothy's Hospital, of Philadelphia.—Dr. Charles G. Brown.

St. Joseph's Hospital, of Philadelphia.—Dr. Collin Foulkrod, Dr. Thomas Francis Riegel, Dr. George A. LaMotte, Dr. F. A. Murphy.

Polyclinic Hospital, of Philadelphia.—Dr. John J. Craig.

Home for Incurables, of Philadelphia.—Dr. John Keely.

Philadelphia Municipal Hospital.—Dr. W. C. Stockton.

State Hospital, Fountain Springs, Pa.—Dr. William C. Vail.

Hospital for Insane, Retreat, Pa.—Dr. A. C. Voigt.

King's County Hospital, Brooklyn, N. Y.—Dr. Winfield Scott Pugh, Jr., Dr. Alfred J. Downs, Dr. Chester F. Duryea.

Harrisburg City Hospital, Pa.—Dr. John E. Howard.

St. Joseph's Hospital, Lancaster, Pa.—Dr. D. R. MacCarroll.

Pottsville Hospital.—Dr. John L. Harkness.

Eaton Hospital, Pa.—Dr. Harry B. Bossard.

Chester Hospital.—Dr. R. M. Culler.

Hasleton Hospital, Pa.—Dr. De Forrest E. Walters.

Mercy Hospital, Pittsburg.—Dr. Acheson Stewart.

West Pennsylvania Hospital, Pittsburg.—Dr. S. C. Applewhite, Dr. R. G. Davis.

Reading Hospital.—Dr. R. M. Culler.

St. Luke's Hospital, Bethlehem.—Dr. W. C. Vail, Dr. F. P. McCarthy, Dr. A. M. Barrows.

Samaritan Hospital, Troy, N. Y.—Dr. F. W. Goddard.

Jersey City Hospital, New Jersey.—Dr. B. W. Horne and Dr. John Keely.

St. James' Hospital, Newark, N. J.—Dr. Edwin Steiner.

Atlantic City Hospital, Atlantic City, N. J.—Dr. F. C. Katherman.

Quarantine Hospital, Itasca, Minn.—Dr. E. A. Rich.

Good Samaritan Hospital, Portland, Ore.—Dr. L. A. Hamilton and Dr. H. J. Keeney.

St. Joseph's Hospital, Reading, Pa.—Dr. S. G. Logan.

Pottstown Hospital, Pa.—Dr. Charles Wetton.

Cooper Hospital, Camden, N. J.—Dr. F. C. Katherman.

ALUMNI ASSOCIATION OF
THE JEFFERSON MEDICAL COLLEGE
OF PHILADELPHIA.

The objects of this Association are the promotion of the prosperity of the Jefferson Medical College, offering of prizes, publishing of the meritorious theses, endowment of scholarships for free medical education at the College of sons of Alumni whose means are limited, collection of anatomical and pathological specimens for the College museum, maintenance and cultivation of good feeling among the Alumni, and, above all, advancement of the interest of medical education and diffusion of sound medical knowledge.

The members of the Association are the graduates and professors of the Jefferson Medical College. The Trustees of the College and the Alumni of other recognized institutions are eligible to honorary membership. The annual contribution is one dollar, and when first paid constitutes the entrance fee to the Association. Any member who has paid his annual subscription for five years, or who has paid the sum of five dollars, becomes a life-member, and receives a diploma of life-membership, and is exempt from further dues.

The latter is the preferable plan of payment.

Officers for the ensuing year:

President, W. W. Hartzell, Allentown, Pa.

Corresponding Secretary, Harry Tucker, 19 South 21st Street, Philadelphia, Pa.
Recording Secretary, Frank C. Hammond, 1419 Tioga Street, Philadelphia, Pa.
Treasurer, W. M. Sweet, 1205 Spruce St., Philadelphia, Pa.
Chairman of Executive Committee, H. R. Loux, 1941 North 12th Street, Philadelphia, Pa.

The Philadelphia chapter will hold four clinical meetings during the year. The annual business meeting will be held the last week in May.

Graduates are requested to forward to the Corresponding Secretary their present address.

* Members of the Association who have already paid annual subscriptions are respectfully reminded that the amount is due for five years from date of membership, and that it is desirable that they shall, at their earliest convenience, by completing the full amount specified for such purpose, become enrolled in the list of life-members of the Association.
