[Let us know how access to this document benefits you](#)

This Article is brought to you for free and open access by the Jefferson Digital Commons. The Jefferson Digital Commons is a service of Thomas Jefferson University's [Center for Teaching and Learning \(CTL\)](#). The Commons is a showcase for Jefferson books and journals, peer-reviewed scholarly publications, unique historical collections from the University archives, and teaching tools. The Jefferson Digital Commons allows researchers and interested readers anywhere in the world to learn about and keep up to date with Jefferson scholarship. This article has been accepted for inclusion in Jefferson Digital Commons Reports by an authorized administrator of the Jefferson Digital Commons. For more information, please contact: JeffersonDigitalCommons@jefferson.edu.

Jefferson Digital Commons Quarterly Report: April-June 2022

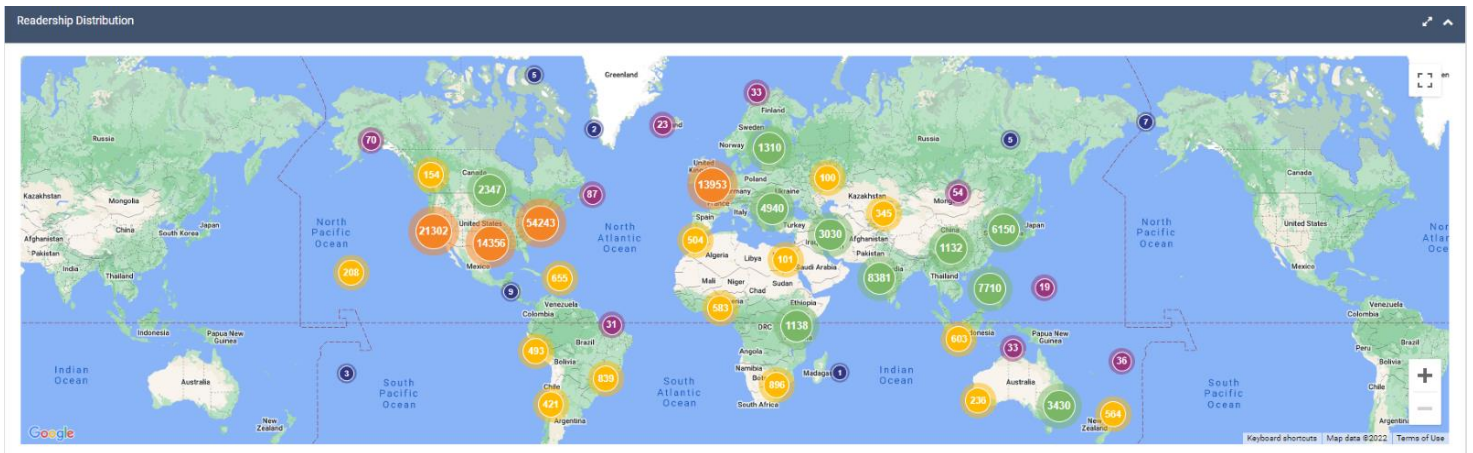

Larissa Gordon, **MSLIS, MEd, MA** | Thomas Jefferson University

Anita Lai, **MLIS** | Thomas Jefferson University

JDC Numbers

Over the last three months there were:

- **340** works posted
- **156,409** downloads
- **5,534** streams
- **203** countries visited the site
- **6,666** institutions accessed content

Notable New Series

- [Introduction To Harm Reduction In Healthcare Video Series](#)
- [Institute for Smart and Healthy Cities](#)

In This Issue

- *Articles*
- *Conferences and Symposia*
- *CREATE Day Presentations*
- *Thesis/Dissertations*
- *Grand Rounds and Lectures*
- *Capstone Presentations*
- *Journals and Newsletters*
- *Posters*
- *Misc.*
- *What People are Saying About the Jefferson Digital Commons*

Articles

- Surgical ventricular reconstruction for ischemic cardiomyopathy-a systematic review and meta-analysis of 7,685 patients
- Assessing Real-World Racial Differences Among Patients With Metastatic Triple-Negative Breast Cancer in US Community Practices
- Faculty perspectives on interprofessional collaborations between occupational therapy and industrial design: A qualitative ethnographic inquiry
- Development of Personas to Communicate Narrative-Based Information About the HPV Vaccine on Twitter
- Efficacy of cenobamate for uncontrolled focal seizures in patients with previous epilepsy-related surgery: Post hoc analysis of a phase 3, multicenter, open-label study
- Prospective Comparison of Geriatric Assessment and Provider's Assessment of Older Adults With Metastatic Breast Cancer in the Community
- Predictors of anticoagulation adherence in patients with acute pulmonary embolism
- Risk Factors for Poor Outcomes Among Patients with Extensively Drug-Resistant Tuberculosis (XDR-TB): A Scoping Review
- New-onset acute ischemic stroke following COVID-19: A case-control study
- Impact of homologous recombination status and responses with veliparib combined with first-line chemotherapy in ovarian cancer in the Phase 3 VELIA/GOG-3005 study
- Assessing the Coverage of US Cancer Center Primary Catchment Areas.
- Cyclophosphamide induces durable molecular and clinical responses in patients with relapsed T-LGL leukemia.
- Patient-Reported Outcome Measures-Challenges and Opportunities for China.
- Arthroscopically Assisted Acromioclavicular and Coracoclavicular Reconstruction with a Looped Braided Polyester Suture Band and Buckle Device.
- ENPP1 variants in patients with GACI and PXE expand the clinical and genetic heterogeneity of heritable disorders of ectopic calcification.
- Solving the Wrong Problem
- Variation in Molecularly Defined Prostate Tumor Subtypes by Self-identified Race
- The future of targeted kinase inhibitors in melanoma
- Comparison of clinical outcomes following osteochondral allograft transplantation for osteochondral versus chondral defects in the knee
- AKT inhibition in the central nervous system induces signaling defects resulting in psychiatric symptomatology
- Mortality after transcatheter aortic valve replacement for aortic stenosis among patients with malignancy: a systematic review and meta-analysis
- 3 Cases of Superior Vena Cava Syndrome Following Percutaneous Right Ventricular Assist Device Placement
- Role of Atogepant in the Treatment of Episodic Migraines: Clinical Perspectives and Considerations
- Longitudinal analysis of the impact of oral contraceptive use on the gut microbiome
- COVID-19 Infection During Pregnancy Induces Differential Gene Expression in Human Cord Blood Cells From Term Neonates
- Lack of Interferon (IFN) Regulatory Factor 8 Associated with Restricted IFN- γ Response Augmented Japanese Encephalitis Virus Replication in the Mouse Brain
- Efficacy and safety of larotrectinib in patients with TRK fusion-positive thyroid carcinoma
- Ocular adnexal metastases from renal cell carcinoma: An update and comprehensive literature review
- Ocular adnexal lymphoma: A single-institution retrospective study
- Making waves: how ultrasound-targeted drug delivery is changing pharmaceutical approaches.
- Immunomodulatory effects and clinical benefits of intravenous immunoglobulin in myasthenia gravis.
- Neonatal Intensive Care Unit Caregiver Behavior Checklist (NICU-CBC)
- Coil embolization of ruptured distal renal artery pseudoaneurysm with gross hematuria and hemorrhagic shock
- Unreliable Automated Complete Blood Count Results: Causes, Recognition, and Resolution
- PROMotion of COvid-19 VA(X)ccination in the Emergency Department-PROCOVAXED: study protocol for a cluster randomized controlled trial.
- Effect of lipid-lowering medications in patients with coronary artery bypass grafting surgery outcomes
- Analyzing the effect of interview time and day on emergency medicine residency interview scores
- The Art of Sim-Making: What to Learn from Film-Making
- Making Invisible RNA Visible: Discriminative Sequencing Methods for RNA Molecules with Specific Terminal Formations
- Coil embolization of ruptured distal renal artery pseudoaneurysm with gross hematuria and hemorrhagic shock

- Unreliable Automated Complete Blood Count Results: Causes, Recognition, and Resolution
- PRoMOTION of COVid-19 VA(X)ccination in the Emergency Department-PROCOVAXED: study protocol for a cluster randomized controlled trial.
- Effect of lipid-lowering medications in patients with coronary artery bypass grafting surgery outcomes
- Analyzing the effect of interview time and day on emergency medicine residency interview scores
- The Art of Sim-Making: What to Learn from Film-Making
- Making Invisible RNA Visible: Discriminative Sequencing Methods for RNA Molecules with Specific Terminal Formations
- An Innovative Non-Pharmacologic Treatment for Delusional Misidentification in Persons with Major Neurocognitive Disorder
- Retained lens fragment presenting 32 years after cataract extraction
- Outcomes of Ahmed glaucoma valve and transscleral cyclophotocoagulation in neovascular glaucoma
- Serine-threonine kinase inhibition as antifibrotic therapy: transforming growth factor- β and Rho kinase inhibitors
- GM1 ganglioside modifies microglial and neuroinflammatory responses to α -synuclein in the rat AAV-A53T α -synuclein model of Parkinson's disease
- Popliteal artery entrapment syndrome treated by a posterior approach in a 15-year-old athlete
- Development and Preclinical Investigation of Physically Cross-Linked and pH-Sensitive Polymeric Gels as Potential Vaginal Contraceptives
- Development of a Dual Drug-Loaded, Surfactant-Stabilized Contrast Agent Containing Oxygen
- National trends in pectus excavatum repair: patient age, facility volume, and outcomes
- Heterozygous frameshift variants in HNRNPA2B1 cause early-onset oculopharyngeal muscular dystrophy
- A state-wide education program on opioid use disorder: influential community members' knowledge, beliefs, and opportunities for coalition development
- Bacille Calmette-Guérin vaccine reprograms human neonatal lipid metabolism in vivo and in vitro
- The Use of Computerized Tomography Scans in Elective Knee and Hip Arthroplasty-What Do They Tell Us and at What Risk?
- Surgery in Advanced Ovary Cancer: Primary versus Interval Cytoreduction
- Can trainees perform Ahmed glaucoma valve surgery as effectively as attendings?
- Age Moderates the Effect of Injury Severity on Functional Trajectories in Traumatic Brain Injury: A Study Using the NIDILRR Traumatic Brain Injury Model Systems National Dataset.
- Protective benefit of minimally invasive liver surgery for hepatocellular carcinoma prior to transplant
- Baroreflex sensitivity in facioscapulohumeral muscular dystrophy
- Partnering With Stakeholders to Inform the Co-Design of a Psychosocial Intervention for Prenatally Diagnosed Congenital Heart Disease
- Role of Extracellular Vesicles in Glia-Neuron Intercellular Communication
- Targeted Therapy in the Management of Modern Craniopharyngiomas
- A periplasmic cinched protein is required for siderophore secretion and virulence of Mycobacterium tuberculosis.
- Selective axonal transport through branch junctions is directed by growth cone signaling and mediated by KIF1/kinesin-3 motors.
- Skin cancer biopsy and detection rates with total body skin examination: A cross-sectional retrospective analysis.
- Novel Approaches to Coronary Perforations: Everything But the Kitchen Sink.
- Implementation of a Teaching Electronic Medical Record within Didactic Instruction Using a Drug Information Question Assignment.
- Evaluation of MealSense©: A Sensory Integration-Based Feeding Support Program for Parents.
- Skin cancer biopsy and detection rates with total body skin examination: A cross-sectional retrospective analysis.
- Structural enzymology of cholesterol biosynthesis and storage.
- Socioeconomic Status and Gastric Cancer Surgical Outcomes: A National Cancer Database Study.
- A Role for Gastric Point of Care Ultrasound in Postoperative Delayed Gastrointestinal Functioning.
- Vulvovaginal Candidiasis: A Review of the Evidence for the 2021 Centers for Disease Control and Prevention of Sexually Transmitted Infections Treatment Guidelines.
- Alpha-Fetoprotein (AFP) and AFP-L3 Is Most Useful in Detection of Recurrence of Hepatocellular Carcinoma in Patients after Tumor Ablation and with Low AFP Level
- Robotic Table and Serious Games for Integrative Rehabilitation in the Early Poststroke Phase: Two Case Reports
- Socioeconomic Status and Gastric Cancer Surgical Outcomes: A National Cancer Database Study.
- A Role for Gastric Point of Care Ultrasound in Postoperative Delayed Gastrointestinal Functioning.

- Vulvovaginal Candidiasis: A Review of the Evidence for the 2021 Centers for Disease Control and Prevention of Sexually Transmitted Infections Treatment Guidelines.
- Alpha-Fetoprotein (AFP) and AFP-L3 Is Most Useful in Detection of Recurrence of Hepatocellular Carcinoma in Patients after Tumor Ablation and with Low AFP Level
- Robotic Table and Serious Games for Integrative Rehabilitation in the Early Poststroke Phase: Two Case Reports
- Anterior segment optical coherence tomography features of netarsudil-Associated reticular corneal edema
- Transitions of Care: Completeness of the Interoperability Data Standard for Communication from Home Health Care to Primary Care.
- Functions of ADP-ribose transferases in the maintenance of telomere integrity
- Oncosuppressive roles of decorin through regulation of multiple receptors and diverse signaling pathways.
- Diabetes in Kidney Transplantation.
- Patterns of Crystallin Gene Expression in Differentiation State Specific Regions of the Embryonic Chicken Lens
- Optimizing the performance and treatment of the female athlete
- Idiopathic midaortic syndrome
- Otolaryngology Subspecialty Surgical Rescheduling Rates During the COVID-19 Pandemic
- The Pro-fibrotic Response of Mesenchymal Leader Cells to Lens Wounding Involves Hyaluronic Acid, Its Receptor RHAMM, and Vimentin
- Genetic Evaluation for Hereditary Cancer Syndromes Among African Americans: A Critical Review
- Comprehensive Analysis of Opioid Use After Common Elective Outpatient Orthopaedic Surgeries
- Recommendations for effective documentation in regional anesthesia: an expert panel Delphi consensus project
- Ovarian reserve parameters and IVF outcomes in 510 women with poor ovarian response (POR) treated with intraovarian injection of autologous platelet rich plasma (PRP)
- A case series of primary cutaneous B-cell lymphomas with atypical presentations: diagnostic and therapeutic challenges
- Parents' Reports of Children's Physical and Sedentary Behavior Engagement among Parents in Weight Management
- Cloud-based Ultrasound System: Feasibility and Potential
- Erratum to: Characterizing Benefit from Temozolomide in MGMT Promoter Unmethylated and Methylated Glioblastoma: A Systematic Review and Meta-analysis
- Acute occlusion of aortic endovascular aneurysm repair stent graft with bilateral limb ischemia
- A mouse model with widespread expression of the C9orf72-linked glycine-arginine dipeptide displays non-lethal ALS/FTD-like phenotypes
- Stem signatures associating SOX2 antibody helps to define diagnosis and prognosis prediction with esophageal cancer
- Overcrowded housing increases risk for COVID-19 mortality: an ecological study.
- The Fate of Periprosthetic Joint Infection Following Megaprosthesis Reconstruction
- Clinical Evaluation of an Auto-Segmentation Tool for Spine SBRT Treatment.
- Surgical Treatment of Femoroacetabular Impingement: Minimum 10-Year Outcome and Risk Factors for Failure
- Safety and efficacy of colchicine in COVID-19 patients: A systematic review and meta-analysis of randomized control trials
- Pharmacologic Ascorbic Acid as Early Therapy for Hospitalized Patients with COVID-19: A Randomized Clinical Trial
- APC- β -Catenin-TCF Signaling Silences the GUCY2C Tumor Suppressor Axis in Colorectal Cancer
- Cytokines in the Pathogenesis of Large Granular Lymphocytic Leukemia
- Clinical Evaluation of an Auto-Segmentation Tool for Spine SBRT Treatment
- Mechanisms of mitochondrial promoter recognition in humans and other mammalian species
- Arsenic Toxicity on Metabolism and Autophagy in Adipose and Muscle Tissues
- Enzymatic Depletion of Mitochondrial Inorganic Polyphosphate (polyP) Increases the Generation of Reactive Oxygen Species (ROS) and the Activity of the Pentose Phosphate Pathway (PPP) in Mammalian Cells
- Hepatitis B Virus-Associated Hepatocellular Carcinoma and Chronic Stress
- Implementation of Clinical Practice Guidelines for Hospitalized Patients With COVID-19 in Academic Medical Centers
- HuR Plays a Role in Double-Strand Break Repair in Pancreatic Cancer Cells and Regulates Functional BRCA1-Associated-Ring-Domain-1(BARD1) Isoforms
- A Forward-Thinking Approach to Addressing the New Synthetic Opioid 2-Benzylbenzimidazole Nitazene Analogs by Liquid Chromatography-Tandem Quadrupole Mass Spectrometry (LC-QQQ-MS)
- Overcrowded housing increases risk for COVID-19 mortality: an ecological study
- The efficacy of low-dose aspirin in pregnancy among women in malaria-endemic countries

- Use of Functional MRI in Deep Brain Stimulation in Parkinson's Diseases: A Systematic Review.
- Curriculum Development by Design Thinking: Analyzing a Program for Social Determinants of Health Screening by Pre-Clerkship Medical Students.
- Microbiology Laboratory Simulations: From a Last-Minute Resource during the Covid-19 Pandemic to a Valuable Learning Tool to Retain—A Semester Microbiology Laboratory Curriculum That Uses Labster as Prelaboratory Activity
- Gender Parity in Authorship of Published Randomized Clinical Trials in Stroke Neurology From 2000 to 2021.
- Reactive granulomatous dermatitis associated with ovarian cancer and a review of its role as a harbinger for malignancy
- Hypophosphatemia causing ST elevation in a critically ill noncardiac surgery postoperative patient.
- Survivorship, complications, and outcomes following distal femoral arthroplasty for non-neoplastic indications.
- Neuromotor prosthetic to treat stroke-related paresis: N-of-1 trial
- Risk Factors for Poor Outcomes Among Patients with Extensively Drug-Resistant Tuberculosis (XDR-TB): A Scoping Review.
- Acute Left Atrial Compression after Ventricular Assist Device Placement
- Positive Selection and Enhancer Evolution Shaped Lifespan and Body Mass in Great Apes.
- The Impact of Inflammation on the Immune Responses to Transplantation: Tolerance or Rejection?
- Efficacy of transdermal 4% lidocaine patches for postoperative pain management after arthroscopic rotator cuff repair: a prospective trial.
- G protein-coupled receptor kinase 5 regulates thrombin signaling in platelets via PAR-1.
- "You can't go wrong being safe": Motivations, patterns, and context surrounding use of fentanyl test strips for heroin and other drugs.
- Discrepancies in Stroke Distribution and Dataset Origin in Machine Learning for Stroke.
- A Machine Learning Approach to First Pass Reperfusion in Mechanical Thrombectomy: Prediction and Feature Analysis.
- Intradural extramedullary capillary hemangioma of the cauda equina: case report of a rare spinal tumor.
- The Use of Integra Dermal Regeneration Templates and Cortical Bone Fenestrations over Exposed Tibia.
- Dabigatran reduces thrombin-induced neuroinflammation and AD markers in vitro: Therapeutic relevance for Alzheimer's disease
- Krabbe disease: A personal perspective and hypothesis
- The impact of preoperative neurological symptom severity on postoperative outcomes in cervical spondylotic myelopathy
- T-Cell Responses to Immunodominant Listeria Epitopes Limit Vaccine-Directed Responses to the Colorectal Cancer Antigen, Guanylyl Cyclase C
- Frequency of Statin Prescription Among Individuals with Coronary Artery Calcifications Detected Through Lung Cancer Screening.
- PKCε Activation Restores Loss of PKCε, Manganese Superoxide Dismutase, Vascular Endothelial Growth Factor, and Microvessels in Aged and Alzheimer's Disease Hippocampus
- A review of multiomics platforms in pituitary adenoma pathogenesis
- Return to School After Anterior Cruciate Ligament Reconstruction: A Prospective Study of Adolescents and Young Adults.
- Coeliac plexus radiosurgery for pain management in patients with advanced cancer : study protocol for a phase II clinical trial
- CSF-1 maintains pathogenic but not homeostatic myeloid cells in the central nervous system during autoimmune neuroinflammation
- The Zoom Picture Book Game: A Creative Way to Promote Teamwork in Undergraduate Medical Education.
- An Evaluation of Risk Attitudes and Risk Tolerance in Emergency Medicine Residents.
- A Curious Critic's Guide on Writing a Five-star Student Evaluation: Five Lessons Learned from Food Blogging.
- Finding the 'QR' to Patient Safety: Applying Gamification to Incorporate Patient Safety Priorities Through a Simulated 'Escape Room' Experience.
- Targeting SOX10-deficient cells to reduce the dormant-invasive phenotype state in melanoma
- Challenging Hazards Amidst Observational Simulation in the Emergency Department: Advancing Gamification in Simulation Education Through a Novel Resident-led Skills Competition.
- Gamification of Hospital Utilization: Incorporating Cost-consciousness in Daily Practices.
- Neurosyphilis: A Simulation Case for Emergency Medicine Residents.
- 68-year old man with progressive weakness and ventilator dependent respiratory failure: a case report of sporadic late onset nemaline myopathy
- Prognostic implications of epidermal and platelet-derived growth factor receptor alterations in 2 cohorts of IDH

- Impact of lymphopenia on survival for elderly patients with glioblastoma: A secondary analysis of the CCTG CE.6 (EORTC 26062-22061, TROG03.01) randomized clinical trial
- Multiple sclerosis: relationship between locus of control and quality of life in persons with low versus high disability
- Aorta in Pathologies May Function as an Immune Organ by Upregulating Secretomes for Immune and Vascular Cell Activation, Differentiation and Trans-Differentiation-Early Secretomes may Serve as Drivers for Trained Immunity
- Impact of Early Feeding: Metagenomics Analysis of the Infant Gut Microbiome
- Human endothelial cells promote arsenic-transformed lung epithelial cells to induce tumor growth and angiogenesis through interleukin-8 induction
- Risk Factors for Hospitalizations Among Older Adults with Gastrointestinal Cancers
- Uncontrolled mitochondrial calcium uptake underlies the pathogenesis of neurodegeneration in MICU1-deficient mice and patients
- Ramifications of the HLA-I Allelic Reactivity of Anti-HLA-E*01:01 and Anti-HLA-E*01:03 Heavy Chain Monoclonal Antibodies in Comparison with Anti-HLA-I IgG Reactivity in Non-Alloimmunized Males, Melanoma-Vaccine Recipients, and End-Stage Renal Disease Patients
- Reversible Cerebral Vasoconstriction Disorder in a Patient with a Chief Complaint of Headache.
- Trapped as a Group, Escape as a Team: Applying Gamification to Incorporate Team-building Skills Through an 'Escape Room' Experience
- Not Your Typical Simulation Workshop: Using LEGOs to Train Medical Students on the Practice of Effective Communication.
- Emergency Medicine Resident Perceptions About the Need for Increased Training in Communicating Diagnostic Uncertainty.
- A novel biosimulation task trainer for the deliberate practice of resuscitative hysterotomy.
- An assessment of emotional intelligence in emergency medicine resident physicians.
- Consensus Guidelines for Digital Scholarship in Academic Promotion.

Conferences and Symposia

Staff Quality and Improvement Conference, 2022

- Improving Resident Continuity Clinic Efficiency
- Improving Hepatitis C Screening at a Resident Clinic
- Reusable Pulse Oximeters Could Result in Significant Cost Savings and Waste Reduction
- Use of Naltrexone for Alcohol Use Disorder: Closing The Gap in Inpatient Initiation
- The Impact of Resident-Led Formal Education During Orientation on Intern Self-Reported Preparedness
- Improving Serial Imaging Protocols in Spontaneous Intracerebral Hemorrhage
- Utility of inpatient fracture liaison service on post-hospitalization follow-up
- Quality Improvement: Assessment of Knowledge and Attitudes Regarding the Confusion Assessment Method Delirium Screening Tool
- Inpatient Management of Delirium
- Improving quality of care through early discharge on postoperative day one or two following robotic cardiac surgery
- Improving Documentation of Penicillin Allergies Through Provider-Focused Education
- Optimizing ED Staff Utilization of Phone and Video Interpreter Services
- Aspiration Pneumonia Prevention Protocol at Thomas Jefferson University Hospital: Utilizing a Mandatory Yale Swallow Protocol
- Development of Clinical Operating Guides (COGs) by the Clinical Variation Team at Jefferson Health
- Opioid reduction in pancreatectomy patients: driving down dependence and depleting the diversion pool
- Addressing Healthcare Disparities in Patients Undergoing Cervical Spine Surgery: A Quality Improvement Initiative
- LGBTQ+ Inclusive Cancer Screening Guidelines
- An Occupational Justice Approach to Addressing Inequities in the School District of Philadelphia: Outcomes of an Advocacy-based Interdisciplinary Intervention
- Closing the Gap in Hepatitis B and Liver Cancer Knowledge and Awareness in High-Risk US Communities
- Improving Post-Stroke Discharge For Individuals With Limited English Proficiency
- Identifying Athletes at Risk for Asthma: A Prevalence Study of an Urban, Athletic Adolescent Population
- Accessible and culturally sensitive services to reduce mental health disparities in postpartum women: a QI project
- Does maternal race influence indication for NTSV Cesarean delivery?

- Disparities in Head and Neck Cancer Survival and Treatment by Race and Socioeconomic Status at a Single Institution in Philadelphia
- Racial Disparities in the Prescription of Opioids for Chronic Noncancer Pain
- Does Treatment at a Level I Trauma Center Reduce Disparities in Patient Outcomes for Open Tibia Fractures?
- Deafness and Medicine: A Pilot Program for Increasing Medical Student Awareness of the Deaf Community
- The Impact of the COVID-19 Pandemic on Orthopaedic Surgery Residency Applicants During the 2021 Residency Match Cycle in the United States
- Smoking Cessation in the Inpatient Setting
- Sugar Crash! Time to Insulin Administration in the Emergency Department for Diabetic Ketoacidosis

CREATE Day Presentations

- Recognizing, Redefining & Restoring: Addressing Quality of Life During Role Transition
- Let's Talk: Occupational Therapy's Role in Supporting Healthy Relationships for Adults with Mental Health Conditions
- Fostering Relationships: Promoting Attachment and Healthy Relationships in the Foster Care System

Thesis/Dissertations

- Protein Trafficking and Unchaperoned Translation During a Viral Infection Determine Antigen Processing Outcomes for MHC Class I Direct Presentation
- Rethinking Human Resources Management In A Complex Context: Proposing Systemic Human Resources Management (SYS HRM)
- Identifying, Characterizing, and Exploring the Profiles of Ribosomal RNA Fragments (rRFs) and Their Implications for Personalized Medicine Contexts
- Metabolic Compartmentalization as a Driver of Head and Neck Squamous Cell Carcinoma Aggressiveness
- Reducing Staphylococcus Aureus Burden in Synovial Fluid
- Implementation Of A Screening Guideline For An Multidisciplinary Clinic Care of Pregnant Women With Underlying Cardiac Disease In An Urban Academic Healthcare System
- Patient Perceptions of Medical Stigma Related to Smoking: Development of a Patient-Reported Experience Measure
- A Systemic Model To Augment Consulting Competencies For Success In a Remote And Multicultural Work Environment
- Metamodern Strategy: A System Of Multi-Ontological Sense Making
- Meeting Mode Effects On Quality And Effectiveness With Clients And Sales Teams Utilizing Consumer Idealized Design
- Ideal Design for Emergence of Diversity, Equity, Inclusion, and Community Health Engagement Using Systems Thinking

Grand Rounds and Lectures

- Advancing the Care of Justice-Involved Patients Through Family Medicine Engagement
- Advancing Health Equity in Philadelphia: A Collaborative Approach
- Improving Inpatient Care: An Integrative Approach
- Lessons From the Opioid Crisis
- Defining Better in Surgery: Clinical Trials In Surgical Technique
- Racial Literacy for Healing Trauma
- The Place of Religion in Child Psychiatry: Experiences and Implications
- The Evolution of Thoracic Surgery and its' Endoscopic Adjuncts
- Sports Injuries of the Foot and Ankle in the Competitive Athlete
- The Surgeon's Laboratory
- Friendly Vision Exams: An Adapted, Evidence-Informed Manual to Support Individualized Sensory Interventions in Vision Centers
- Supporting Autistic Individuals in Healthcare: Development and Implementation of Evidence-Based Trainings on Sensory Needs
- From Seeds to Roses: Cultivating OT Practice Through a Coaching Approach
- OT student Perspectives: Exploring factors contributing to success
- Evaluating Progress: Perceptions and Assessments in an Intensive Pain Rehabilitation Program

- Engaging Stakeholders as Advisors on the Design of a Large-Scale Calibration Study of the Spinal Cord Injury Movement Index (SCI-MI) Item Pools.
- Refinement of a Bucket of Spinal Cord Injury Movement Index (SCI-MI) Items for Administration Acutely After Spinal Cord Injury
- Getting what you want and wanting what you get: Goal concordant decisions in surgical care
- Trust And The Patient with Opioid Use Disorder
- Ergonomics and the Modern Surgeon
- Integrative Approach to the Prevention and Management of Atherosclerosis
- Substance Use and Misuse by Older Adults: Why We Should be Concerned
- Occupational Therapy's Role in Serious Mental Illness
- Development of a Health Disparities Curriculum with a QI Focus on a Family Medicine Clerkship
- Lunchtime Lecture Series: A Smart City is an Eco-City
- Lunchtime Lecture Series: Improving Health via the Built-Environment
- Lunchtime Lecture Series: Promotions and Placement: Environmental Influences on Diet Quality and Obesity Risk
- Lunchtime Lecture Series: Community Health Needs Assessment
- High Value Approach to Prevention of Surgical Site Infection: Improving Surgeons' Compliance
- Management of Aortoiliac Occlusive Disease
- Inclusive STI screening: An LGBTQ+ Focused 2021 CDC Guideline Update
- Integrative Ophthalmology
- An Evolution in the Management of Gastroesophageal Reflux Disease
- Exercise Technology
- Let's Talk About Stress,
- Childhood Bullying
- Mentorship in Surgery
- The Community Health Worker: A Bridge to Address the Social Determinants of Health
- The Evolution of Breast Surgery
- Refugee Health Updates & Afghan Arrivals

Capstone Presentations

- Cost Analysis Of School Vision Screening Programs: Children Eye Health Initiative Of Krishna District, South India
- Implementation Of a Hierarchical Categorical Condition (HCC) Coding Education Plan in Eight Rural Primary Care Clinics: A Quality Improvement Project to Accurately Capture Patient Health Risk
- Reducing Insulin Errors in a Pediatric Hospital
- The Impact of Social Determinants of Health on Fast-Glucose Levels
- Policy Solutions to Increasing Compositional Diversity within Doctor of Pharmacy Programs.
- A Rapid Review of Multiple Disparities in Multiple Myeloma
- The Impact of SDOH on Fasting Glucose Levels and Diabetes Diagnosis
- A Multifaceted Health System Initiative For Screening And Intervention For Substance Use Disorders
- Budget Impact Analysis of Long-Acting Reversible Contraceptives for Prevention of Pregnancy in US Females of Childbearing Age
- Improving Diabetes Outcomes in a Primary Care Clinic During the COVID-19 Pandemic
- Reducing Medication Reconciliation Errors: Improvement Initiative in an Academic Children's Hospital
- A Quality Improvement Initiative to Identify Remediable System Factors in Ambulatory Preventative Harm
- Improving Surgical Outcomes: The Perioperative Surgical Home
- Supporting Caregivers of Older Adults Managing Chronic Conditions Using an Occupational Therapy Approach
- Empowering Individuals with Fibrodysplasia Ossificans Progressiva: Designing Assistive Devices via an Embedded Interdisciplinary Education Program Between Occupational Therapy and Industrial Design
- Making Space for Occupational Therapy in Collaborative Mental Health Care
- Reshaping Perspectives: Exploring Occupational Therapy's Role in Servicing Individuals from Historically Marginalized Groups and Environments

- Addressing Loneliness and Chronic Disease Management in Older adults: Piloting the Liberating Loneliness Program in Primary Care
- Examining the Feasibility of Incorporating the Virtual Dementia Tour into Healthcare Education
- Supporting Families of Individuals with Intellectual Disabilities/Downs Syndrome and Dementia: A Resource Program
- SENSE-able teams: Interdisciplinary perceptions of supports and barriers to implementing sensory-based interventions in early intervention classrooms
- Philadelphia-Based Pharmacist Perceptions of Medication Take-Back Boxes
- Community-Based Programs as an Opportunity for Fentanyl Test Strip Distribution: A Rapid Systematic Review
- Understanding Food Security Among Graduate Students at Thomas Jefferson University
- Drug Diversion in Healthcare Workers and Effects on Patients
- Motorcycle Crashes and Fatalities from 2007-2018 in Philadelphia, PA: A GIS Mapping and Statistical Analysis to Inform Helmet Law
- A Rapid Systematic Review of Health Literacy in the African American Population Related to Hypertension and Efforts to Address this Public Health Issue
- Recommendations to Increase the Participation of African Americans to Head and Neck Cancer Clinical Trials: A Rapid Systematic Review
- Translating Syphilis Rates Among Women of Reproductive Age in Philadelphia
- Vaccination Interventions in the Emergency Department: A Rapid Review
- Public Health Recommendations for Healthcare Providers on Direct-to-Consumer Genetic Testing
- The Impact of Rising Prescription Drug Costs on the Elderly in the United States

Journals and Newsletters

- inSIGHT, Volume 2, Issue 1, 2022

What People are Saying About the Jefferson Digital Commons

Name: Kathy Allison (Porch)

Country: US

Role: researcher

Resource URL: <https://library.jefferson.edu/forms/jdc/index.cfm>

Comments: I am thrilled to find my great-grandfather's graduation information from 1871. He did his thesis on the History of Typhoid Fever. His name is Dr. George B. Porch. Thank you so much!

Name: Baldeepkaur Sehra

Country: IN

Role: researcher

Resource URL: <https://doi.org/10.1080/15374416.2021.1955368>

Comments: As an Occupational therapist, would want parents to use these strategies

Name: Alejandro A. Diaz Calvo

Country: PE

Role: faculty

Resource URL: <https://library.jefferson.edu/forms/jdc/index.cfm>

Comments: I am a professor at the National University of Trujillo, Peru. I use it for students of the 6th year of medicine, Neurosurgery course
