The Bulletin is published annually by Alumni Association of the School of Nursing College of Allied Health Sciences Thomas Jefferson University Philadelphia, PA 19107

A Message From The President

Serving as your President in the past year, I have encountered challenge, sustained change, and growth in our Association.

Our bi-monthly meetings have been informative and stimulating, but still lack participation on your part as fellow alumni. As years pass, I still see the same 20-25 faces at our meetings who hold your Alumni Association together. If we are to remain viable, we must have your participation and input.

I know all of you enjoy the Bulletin and the luncheon. However, it takes people to make all of these things happen. These same people manage your funds and the contributions you make to the Association. But, the managers of today may not be here for tomorrow; therefore, I am appealing to you for your help and participation to assist in the endeavors of your peers in keeping the Association alive.

Benefits from new changes are occurring with our Scholarship Fund and as we mature, our Relief Fund will be more active. There have been several gifts and bequests from Alumni which have created minor legal problems and a lot of painstaking time to solve. Please use the forms in your Bulletin to allay some of these problems with Scholarship, Relief and Bequests.

I extend my wholehearted gratitude to your Board of Directors, Committee Chairpersons and their committee members and those of you who actively participated in Alumni meetings and affairs. Your support and encouragement have been most valuable to me, and I look forward with pride to my next year in serving as the President.

Fondest wishes,

Flossie Roche, R.N., CNOR

NURSES' RELIEF FUND

The Nurses' Relief Fund is available to all Diploma and White Haven graduates. The purpose of the Relief Fund is to provide financial assistance annually toward hospital bills and/or bills incurred at home due to an extended illness or requiring the services of a physician.

The fund is also available for use in cases of adversity. Nursing Home cases will be given special consideration. All things being equal, first consideration will be given to Life and Active members. However, all applications received will be reviewed and given consideration.

All or a portion of the amount distributed to a recipient from the Relief Fund may have to be reported to the Internal Revenue Service as taxable income. Each recipient will receive a statement at the end of the year showing what portion of the distribution to her/him should be reported.

During 1984 we have been able to assist eight of our graduates from the relief fund. IF YOU KNOW OF ANY JEFFERSON OR WHITE HAVEN GRADUATE IN NEED OF ASSISTANCE, PLEASE LET US KNOW AS SOON AS POSSIBLE.

An application for Relief Fund benefits can be found in the back of this bulletin.

NURSES' SCHOLARSHIP FUND

The Clara McVillo-Aidole Lewis Scholarship Fund continues to provide scholarships to Diploma and White Haven graduates.

Scholarships will be available for summer, fall and spring semesters.

Each application received will be reviewed by the Scholarship Committee; preference will be given to the applicant who has been a member, who is most active in the Alumni Association, and who has most nearly completed requirements for a degree.

Please read the Scholarship Committee report, see index for page.

A Scholarship application can be found in the back of this bulletin.

Barbara D. Schraeder, a 1985 graduate of the School of Nursing, received a Ph.D. degree from Temple University in 1984. Her dissertation is titled, Developmental Progress and Behavioral Styles of Very Low Birth Weight Infants During the First Year of Life.

Dr. Schraeder earned her baccalaureate and master's degrees at the University of Wisconsin in Madison. Since 1979, Dr. Schraeder has been on the faculty of the College of Allied Health Sciences' Department of Nursing. She is currently an associate professor and teaches in family normal pregnancy, perinatal care, human sexuality, care of well and sick infant and child, and leadership.

Before coming to Jefferson, Dr. Schraeder was head nurse in the Pediatric Intensive Care Unit at the Children's Hospital of Philadelphia.

In the field of knowledge, Dr. Schraeder has been supported by the American Nurses' Foundation and the James Picker Foundation.

Dr. Schraeder has contributed numerous articles to nursing journals on maternal child nursing, intensive care nursing, and low birth weight infants. She collaborated with M. Donor on The Child in Chronic Respiratory Failure, a chapter in the book, Neonatal and Pediatric Critical Care Nursing.

Dr. Schraeder is a member of the American Nurses Association, Pennsylvania Nurses Association, Sigma Theta Tau, Sigma Xi, and many other professional organizations.

As summer approaches, I find myself getting restless. I study my photo albums; scan the book store shelves for the latest editions of Stedeker and Fender's 'guides; remember the fun of stocking up on "travel goodies"—portable clothes lines, blow-up hangers, tiny tubes of tooth paste and bottles of shampoo. It is summer and it is travel time. The month of June brings the annual Sigma Theta Tau international re research conferences held this year in Tel Aviv, and the international Council of Nurses' Meeting in Jerusalem. The increasing interest of my fellow nurses in attending these and other international meetings mirrors my own enthusiasm for international travel; and more specifically, international travel as a nurse.

In 1983 I had the opportunity to present a research paper in Madrid, Spain; and in 1984 I presented a paper in Seoul, Korea. During the latter meeting and a subsequent study tour, I met formally and informally with nurse colleagues in Korea and Taiwan, Republic of China. Also joining us on the tour were nurses from Australia, Nigeria, Liberia and Thailand. To my dismay I will not go again abroad this year, but I would like to reminisce about my adventures and to share with you my thoughts about traveling internationally as a nurse.

"Welcome Honorable Nurses" proclaims the sign outside our Seoul hotel. It is safe to say that not one of us in the study tour from newly graduated staff nurse to dean emeritus, had ever before been described as "honorable nurse." The name of our group, Sigma Theta Tau, National Nursing Honor Society, had obviously picked up something in the translation, and we were thrilled. We felt suffused with pride in ourselves and in our profession. This professional pride was at a very high level throughout the tour as we celebrated ourselves and our profession.

My memories of some peak experiences have sustained me through the last year. Especially I am proud of the two recent seminars in the Republic of Korea which was co-sponsored by Sigma Theta Tau and the Korean Academic Nurses' Society. I was especially thrilled by the calling of the roll of delegates from the countries represented at our meeting. As each delegate stood up I felt a surge of energy and pride. It was wonderful to consider that despite our differences in dress, color, and language we shared a very fundamental value of commitment to helping others. In addition to my conscious awareness of the ideals, I found myself delighted to be a member of such an exotic group. It was fun to see nurses in dashikies and turbans, others in the beautiful hankies of our host country, and my American colleagues dressed to the "nineties" for the gala opening of the meeting and planning sessions. Thanks to the diversity of dress and culture and the Koreans' gift for form and celebration the meetings were a visual delight. Equally memorable and often moving were the papers presented by this international group of nurses.

The papers discussed frankly the needs of the people and the challenges which face nurses who care about those needs. A highlight for all of us was a paper presented by Susie Kim, R.N., D.N.S., an outstanding nurse in the field of women's health care. She described some of the cultural and
Modern intensive care nursing in Taiwan

legal barriers experienced by Korean women in their traditional patriarchal society. We learned of the three rules which have shaped women’s experiences. The first rule, the Virtue of Three Obediences prescribed that a woman was subject to her parents before marriage, to her husband after her marriage, and to her sons in later years. This rule effectively placed control of all aspects of a woman’s life in the hands of her father, her husband, and her sons. The second rule, Women’s Seven Evils subjected a woman to divorce if she dishonored her parents-in-law, failed to bear a son, was talkative, committed adultery, was jealous, had “bad” diseases or stole. The third rule, Dishonor of Two Husbands proclaimed an open-heart surgery program and cardiac surgery our arrival. Formal meetings, tours of hospitals and health care facilities, and opportunities for individual dialogue reinforced for me the commonalities of our interests and experiences as women and as nurses. Like their American counterparts, nurses in Taiwan, the Republic of China, are struggling to upgrade the educational preparation of nurses and to reconcile the humanistic aspects of care with high technology. We had wonderful opportunities to see the Taiwanese expression of the latter issue in the coexistence of modern western medicine and traditional Chinese medicine. We visited the “night market” where we watched individuals seeking relief from near-sightedness by drinking the bile of snakes that have been freshly killed before our eyes. We decided not to purchase dried, formerly creepy-crawly things which are the traditional cure for hemorrhoids, constipation and impotence. We found the night market to be quite a contrast to the modern 400 bed hospital we visited. We noted computers in every nurses’ station, and small refrigerators and beds for relatives in every patient’s room. The hospital has an open-heart surgery program and cardiac surgery

Dr. Kim’s recommendations and her willingness to share with us some of the powerful cultural influences that shape Korean women’s lives heightened our appreciation of the style and accomplishment of our Korean nurse colleagues. Their style was one of sophisticated assertiveness combined with gentleness and sensitivity, and their accomplishments are impressive. There is university based education for all nurses. Korea now has 13 Master of Nursing Programs and two Doctor of Nursing Science Programs. Community health practitioners, nurses who have completed their basic nursing education and a 24 week program, provide primary health care in the rural towns and villages. A highlight of our study tour was a site visit to a village to see a nurse practitioner in action. This young woman provided all of the primary health care to the village. Data presented at the conference confirmed that there was widespread acceptance of and satisfaction with these community nurses. On every measure the people in the village preferred them to the public health doctor. A study from two major health institutions indicated that the care provided by community nurses was qualitatively equal to and economically more efficient than care provided by regular medical doctors. We learned that even internationally, when it comes to health, “nurses do it better.” After bidding a tearful and affectionate farewell to our Korean nurse colleagues we flew on to Taiwan, the Republic of China. Like Korea, the clearest impression of my visit there is again, a visual one. Representatives from the Taiwan Nurses Association met us at the airport with banners proclaiming...
Introduction

One of the functions of an Annual Bulletin for an Alumnae organization is to keep the Alumnae up-to-date on the events and happenings of the school. However, because our school has completed its mission and closed, our Bulletin has or should take on a different mission: that of recording our past as seen through the eyes of the people who lived through the experiences. When classmates get together there is always a period of "Do you remember?" and "I remember." These can be shared in our Bulletin and tell us that classmates can read, laugh or cry, and also recall the halcyon days of Jeff. With that in mind, we shall begin our nostalgic journey on September 1, 1938 at 6 P.M.

There were four of us who approached the tables set up in 1914 Spruce Street that fateful September evening — Alice D., Dorothy C., Sylvia H. and Alice B. Miss Rohde, one of the housemothers, asked us if we objected to rooming together, (did we really have a choice?), and then had us sign in. She assigned the houseman to escort us to room 400 for not obeying these rules. Smoking allowed only in Tea Room and Lounge on first floor. Smoking not permitted in bed rooms, corridors, stairs or bathrooms. Smoking is never permissible in uniform.

Fortescue, in his comments, is the penalty for not obeying these rules.

Margaret M. Jackson, R.N.

Of course, it was on night duty over Christmas in Corridor (third floor, I applied for those entrusted to their care. Although my experiences from Jeff got me through a difficult situation. Jeff gave me a deep and firm belief in the value of nursing and what good nurses can do for those entrusted to their care. Class of 1942

Depression, money was scarce, and to replace ten to fifteen thermometers at sixty cents each was a real disaster. How many can remember Miss Hawke holding up the wall on third floor? She had total visual command of the whole floor from that vantage point.

From third floor, I went to sixth floor and the domain of Miss Lewis and Miss Dute. I was assigned to Center Corridor, a complex of six private rooms and two baths. I believe I learned more nursing there than any place else in the hospital. Probably because we had classes in medical and surgical nursing and I was able to apply and utilize the material. Of course, it was on sixth floor that you looked forward to two half-days a week — yours and Miss Lewis. If the two fell on the same day, you felt cheated. But the summer finally came and it was vacation time.

Vacation that year was a trip to the 1939 World’s Fair in New York. That is all I remember of that three weeks — one day at the Fair.

In the fall, the class moved into specialties and night duty. The course in Urology proved to be a killer and more than half the class had to repeat when it was given to the February half of the class.

I was on night duty over Christmas in Corridor (third floor again). It was cold sitting by that balcony door. Miss Shafer told me to "take the clean linen out of the dirty linen hamper and push it against the door jamb." Corridor was six semi-private rooms which were full most of the time. Night duty was from 9 P.M. to 7 A.M., seven days a week and lasted for eight weeks. Classes, of course, were held as usual, but were generally scheduled for early morning (before going to bed) or late in the afternoon, so you could get supper. Meals were served to the nurses at times which would not interfere with patient’s meals. And, you had a half hour for a meal, this had to include bathroom, waiting for an elevator, and waiting in line. Yet, we did gain weight.

This second year also included Pine Street. The water bugs came out at night and scared the babysitters out of you. They were three inches long and would fly. It was at Pine Street that I learned what a "red light" house was. The light would go on and off all night long in the little street behind the hospital. Watching it was one way to pass the twelve hours of each night.

Our third year included Maternity and Forty-ninth Street. All our belongings had to be moved out to Pennsylvania Hospital for Mental and Nervous Diseases, because we were to be there for three months. While there, we had a whole day off a week. And, if we took a patient to an evening activity, we were given extra time off.

We did get one full day off at Jeff in our three years. It was during the Christmas Season of our senior year. I was in Diet Kitchen at that time. Diet Kitchen is memorable for the funny things that happened. Mary Rita and I were the cooks and we burned ten cups of rice. We tried to fix spaghetti so it would be long, so we stood it up in the pot. Needless to say — disaster. However, I did learn to make an egg souffle which did not fail.

At last, it was time to finish the 1095 days required by the State of Pennsylvania. I ended training in CDR, but making IV solutions. This was the job I was to have as a graduate. My finishing day is a very clear memory. I wore the same clothes I entered in and walked up Chestnut Street to Wanamaker’s crying.

Our graduation date was April 30, 1942. Everyone had to have taken State Boards and the February class was included. The U.S. Army Nurse Corps got most of our class and there are many times my experiences from Jeff got me through a difficult situation. Jeff gave me a deep and firm belief in the value of nursing and what good nurses can do for those entrusted to their care. Although this belief has grown and changes as degree of college work has enlarged it. I did learn to come from our few teachers and many head nurses who pushed, demanded and helped me learn the values I hold today.

The friendships formed under these trying conditions have lasted as true friendships throughout the years. I hope others might submit their remembrances of training at Jefferson.

Celebrating National Nurses Day at Jefferson

The Bodine Center for Radiation Therapy

Jefferson was pleased to name its new Center for the University’s late President and Chairman, William W. Bodine, Jr. It is being constructed on 11th and Sansom Streets be­neath the New University’s Hospital Building. When completed in the Fall of 1986, the Bodine Center will have three levels. The entrance will be on the street level and will be utilized for initial patient examinations, follow-up and multi-disciplinary clinics.

The Ground Floor (first underground level) will house the professional staff, labs and treatment areas. The basement floor (second underground level) will contain all of the patient treatment planning functions, a small operating suite and a high energy accelerator room. When completed, the Bodine Center will be one of the most advanced radiation therapy facilities in the world.

On The Move

The entire Division of Ultrasound and Radiologic Imaging is moving from 5th floor Curtis to expanded facilities on 7th floor Thompson and Main and part of 8th floor Main.

Computer Tomography (CT) is moving from its current space on 5th floor Hospital and second floor Main to 10th floor Main where it will join a newly acquired Super Conductive Resonance Imaging Machine (MRI). These moves will centralize a large portion of Jefferson’s diagnostic imaging capabilities, and will be the largest concentration of high technology imaging equipment in the Del­aware Valley.

Margaret M. Cosman, ’47

Medical Office Building

Located at 1100 Walnut Street, the new building will contain the offices of staff physicians with an ambulatory surgical center. Office space will be available on the third through the ninth floors. The ambulatory surgical center is planned for the second floor. The first floor will be available for commer­cial tenants. A Cardiac Rehabilitation/Fitness Center is also being considered. When completed in the fall of 1985, the building’s exterior will be the same reddish brick used on the Scott and Barringer buildings.

Nursing Students Benefit
From Grant Program

The Nursing Education Grant Program which was instituted at CAHS is based on a similar program at Rush University in Chicago. The program provides nursing students who show need with $2500 annually. That amount is exchanged for a commitment to work as a nurse, at full pay and benefits, at Jefferson Hospital within 30 days of graduation. Someone who begins the program as a junior makes a two-year work commitment to the hospital; the commitment is one year for a student who receives the aid only as a senior. If that commitment is honored, fully and satisfactorily, the CAHS graduate has "repaid" his or her grant — and doesn't have to face years of indenturedness.

The program, which was three years in the planning and development stages, currently involves 15 juniors and 5 seniors, and the number of students will increase next year.

The Nursing Education Grant Program is a collaborative effort benefitting the College of Allied Health Sciences, Nursing Service of Thomas Jefferson University Hospital, and our nursing students. These grant programs are "self-help" programs for our students,” says William Thygeson, CAHS director of student affairs and services.

"The hospital benefits because the program reduces the need for costly recruitment, orientation and training. The hospital is guaranteed a certain number of well-prepared nurses, all of whom have completed rotations there, and have some familiarity with the hospital's personnel and practices. Also, the hospital staff can become acquainted with students when they are in the Department of Nursing. It seems appropriate that Nursing Service would consider the college as a prime source of qualified professionals," comments Thygeson.

Although similar programs exist, they were usually not established to provide financial aid. They evolved during a nursing shortage and were used primarily to enhance recruitment.

The emphasis of the CAHS Nursing Education Grant Program is on helping students who need financial aid, and providing a flexible work commitment. As students the participants have no special obligation to the hospital, but best of all, there's a guaranteed job waiting.

"First jobs are hard to find now, even for nurses," says Hedi Shore-Brown, a nursing senior in the program. "I'm glad I won't have to look for a job — especially since I'd have to do that around finals time."

And CAHS benefits too, "because it provides us with additional aid money," says Thygeson. How? The Jefferson Hospital's Department of Nursing Service provides the funding for the program, but as the nursing graduates fulfill their employment obligation, Nursing Service will be reimbursed by the University Benefits Program.

Though the program is need-based, it is also competitive, and only outstanding students are selected. To stay in the program, students must maintain satisfactory academic records.

"If this program proves to be a success in nursing, we will consider similar grant programs for our other allied health programs," concluded Thygeson.

Bequests

We have received a number of questions concerning bequests to the Nurses Alumni Association. If you are thinking about such a bequest, we would suggest the following sample paragraph for your consideration:

I give to the Nurses Alumni Association of the School of Nursing, Diploma Program, College of Allied Health Sciences, Thomas Jefferson University, located in Philadelphia, Pennsylvania, or its successors, the sum of ___________ dollars (or identify the property, such as stock, or indicate a percentage of the estate, if appropriate), to be used for its general purposes.

This suggested clause is exclusively for the information of our alumni and friends. You should, of course, consult your own attorney as to the applicability of any item to your own situation.
Nursing Alumni Association Hosted by Alumni Office and Department of Nursing

Members of the Nurses Alumni Association attended an Open House in the Department of Nursing on January 8, 1985. Dr. Mary Naylor, chairman of the department, welcomed the group. Following her remarks, she introduced Assistant Professor Sharon Renshaw, R.N., M.S.N., who is coordinator of the Learning Resource Center. Ms. Renshaw gave the alumnae a preview of what they would see when they toured the Learning Resource Center later that evening.

The center, located on the 13th floor of the Edison Building, was built in 1983. It was designed to help student nurses acquire special skills before they need to use them. The facility houses a 12-bed clinical unit used for simulated patient-care situations, and individual study carrels where students can practice their clinical skills or view instructional and audiovisuals without interruption. Alumnae had the opportunity to chat with students and faculty members during the tour. Students demonstrated how they use the computers and clinical equipment to strengthen their skills.

Florence Roche, R.N., M.S., president of the Nurses Alumni Association, expressed her thanks to Dr. Mary Naylor and Mrs. Janet Waxman, assistant director of development and director of alumni programs, for their efforts in coordinating the nursing alumni visit.

“[The tour of the Learning Resource Center for the alumnae was both eye-opening and educational],” Ms. Roche said. “Our members thoroughly enjoyed the tour and the dinner. We were impressed by the students’ enthusiasm in their demonstrations of their clinical skills. Such advanced technology in education as television and video cassettes plays a remarkable role in today’s learning arena. The faculty was very impressed with the facility.”

Committee reports were given. Flowers were sent to Frances Pangburn, class of 1916, to honor her 99th birthday; to Elaine Weber, class of 1920, to honor her 90th birthday; to Alice Worthington, class of 1919, and Viletta Emig, class of 1923, in honor of their birthdays. The satellite committee will plan a program and select a date for a seminar to be held in the spring of 1985.

It was recommended and approved that we continue to give Christmas checks to our graduates who are sick or in nursing homes.

January 8, 1985 — 22 members present.

Committee reports were given. The satellite committee reported that there will be an all-day seminar on Saturday, March 23, 1985.

May 14, 1985 — 16 members present.

Committee reports were given.

Flowers were sent to Henrietta Bigney, class of 1920 for her 94th birthday.

The seminar held on Saturday March 23, 1985 was very interesting and enjoyed by those present. The attendance was fair.

ALUMNI OFFICE NEWS

On June 10, 1985, it was two years since we moved into our present office, room 105, Edison Building. Time moves on and this past year has been a busy one.

Betty Piersol and Peggy Summers have so generously taken over the “running” of the office for me, while I have been recuperating from a total hip replacement, done late in 1984.

The names and addresses of all our graduates are on the computer and one of my aims this year was to have the maiden name of each married graduate included on the computerized listing, which is updated monthly. The computer list gets constant use and is often referred to as “the bible.” With the maiden names included on the computer list it will make it much easier to identify our graduates.

I am proud of our office, and it is a pleasant place to work.

The plants on the window sill, facing Ninth Street, attract a lot of attention from passers-by.

You are always welcome, and of course, you are invited to visit the office. Located in room 105, Edison Building, 130 South Ninth Street, Philadelphia, Pennsylvania 19107. The phone number is (215) 928-6981. I am usually in the office every Tuesday, 10 A.M. to 3:30 p.m., and occasionally on Wednesday. If I am not in the office, phone calls will be answered by the CAHS Alumni Office, room M-6, Jefferson Alumni Hall, 1000 Locust Street, Philadelphia.

Our office works closely with the CAHS Alumni Office, its staff, Janet Waxman and Carolyn Robinson who have been a great help to us. We value the good working relationship between the two offices.

The following Graduation Exercises Programs are missing — 1918, Spring of 1945, 1946, 1952 and 1956. If you do not wish to part with the original copy, we would be happy to have a copy made for our files and return the original copy to you.

SCHOLARSHIP COMMITTEE REPORT
1984-1985

The Scholarship Committee met several times during the year and we are pleased with the increased number of applications and requests for information. We hope that this apparent interest in seeking additional educational preparation in nursing will continue and wish to encourage our graduates who are enrolled in a program leading to a degree in nursing to apply for scholarship assistance.

The following graduates of the School of Nursing were awarded scholarships:

Spring 1985
- Katherine (Gilten) Leslie (1980)

Summer/Fall
- Judith Troutman (1980)
- Catherine (Glavey) Dowhy (1975)
- Marguerite (Johnson) Domenick (1956)
- Patricia (Mazakas) Van Strain (1960)
- Doris E. Bowman, Chairman

Permission was given for reprinting portions of the following letters:

Graduates Appreciate Alumni Scholarships

To encourage our graduates to apply for scholarships sponsored by the Nurses Alumni Association, Miss Doris Bowman, chairman of the scholarship committee, would like to share with you excerpts from the letters of some of our recent scholarship recipients:

Kate G. Felix, a 1973 graduate who was recently accepted in a graduate program at the University of Washington, Seattle, shared her feelings with Miss Bowman. Because certain educational documents were not available for Ms. Felix, she had to take equivalency exams in order to be accepted. Pass the exams and I received some of the highest scores ever recorded by any nurse seeking admittance to the University of Washington's nursing program. My passing is the result of Jefferson's legacy of educational excellence and your efforts as director of nursing of Jefferson's program. At Jefferson, we were not educated as nursing professionals. The program at the University of Washington has recently been recognized as the number one program in the nation, based on a study prepared by nursing deans in the United States.

I wish to express my sincere thanks and gratitude to the committee for granting me a scholarship that will enable me to complete my bachelor's degree in nursing. Although I realize the importance of continuing education, I will always cherish my basic nursing training received at Jefferson. I am, and always will be proud to say, I'm a Jefferson nurse, Kathy Glavey Dowhy, '75.

A 1956 graduate, Marguerite Domenick, has recently been accepted at St. Joseph's University. She recently thanked the scholarship committee for her scholarship. She writes: I will continue to support the Nurses Alumni Association, so that in the future other alumni will be able to take advantage of this wonderful opportunity.

The response of those who attended was enthusiastic. However, due to the decreased number of participants and rising costs, the committee will need to address the feasibility of sponsoring future programs.

Janet Wexman, Assistant Director of Development and Director of Alumni Programs for CAHS and CGS coordinated the efforts of the Program Committee consisting of Alice Chase, '52, Jacqueline Harris, '61, Dolores Heckenberger, '55, Sandra Payne Kerton, '68, Kay K. A Prayer For The Mature

Lord, Thou knowest better than I know myself that I am growing older, and will someday be old.

Keep me from getting talkative, and particularly from the fatal habit of thinking I must say something on every subject and every occasion.

Release me from craving to try to straighten out everybody’s affairs.

Make me thoughtful, but not moody; helpful but not bossy. With my vast store of wisdom, it seems a pity not to use it all—but Thou knowest Lord, that I want a few friends at the end.

Keep my mind free from the recital of endless details; give me wings to get to the point.

Seal my lips on my many aches and pains. They are increasing, and my love of rehearsing them is becoming sweeter as the years go by.

Teach me the glorious lesson that occasionally it is possible that I may be mistaken.

Help me to extract all possible fun out of life. There are so many amusing things around us, and I don’t want to miss any of them. Amen.

Terry Lefchick Lamberth, 726 Pomona Avenue, Conshohocken, PA 19428. 1984 was fantastic! We had a marvelous six month holiday in England and two months in Japan and we visited friends and family. We picked up our car at the factory in Stuttgart, Germany and that alone was quite an adventure. We had our own flat in London which we used as home base and we lived for a while in Tokyo and Kyoto at anytime. Some friends allowed us to use their Swiss chalet in the Alps on the edge of a large pine forest, 600 feet up, and nowhere near tourist areas. Skiing was the prime interest and we did a lot of skiing and during this time and May and early June, a lovely time. We had lots of wonderful adventures and bought lots of things, since we shopped only at factory outlets; the prices are so affordable for crystal, woods, bone china, and anything one can imagine. We hated to leave. Here to stay fairly busy. Work some days at the neonatal unit, a very busy one. We do no full time delivery every day, we have the third busiest obstetric department in the whole state of California. My husband, being fully retired, is deciding all his time to his newest hobby -- becoming a computer whiz. We have already begun to plan the next six month holiday to England and Europe for January 1986. Can hardly wait!
