Dear Fellow Alumni,

Well, another year has flown by and I would like to tell you — your Alumni is alive and well.

Although the number attending our Alumni Day luncheons each May varies only slightly, (350 plus or minus), our anniversary class attendance remains rather high. I personally feel, the older we get, the more memories we treasure and the more we want to share them and ourselves with our friends—Try it—you’ll like it!

Your Board of Directors, Committee Chairpersons, and those who actively participate in our meetings, do hear and respond to your suggestions. You may be happy to know that we are planning a change in our By-Laws. This proposed change is for your benefit—the annual meeting would be held on the day of the luncheon rather than on the second Tuesday in May. At this, the annual business meeting, you will have the opportunity to make yourself heard as well as find out the results of the election. You get the news on the spot!

Our Scholarship Fund and Relief Fund Committees have been more active this past year. We would be happy to hear from or about anyone who needs assistance.

I wish to thank my Board of Directors, Committee Chairpersons, their Committee members, and the active members of the Alumni, for all the help and support they have shown this past year. It is a privilege and an honor to serve you for a second term.

Fondest wishes,
Flossie Roche, R.N., CNOR

NURSES' RELIEF FUND

The Nurses' Relief Fund is available to all Diploma and White Haven graduates. The purpose of the Relief Fund is to provide financial assistance annually toward hospital bills and/or bills incurred at home due to an illness requiring the services of a physician.

The fund is also available for use in cases of adversity. Nursing Home cases will be given special consideration.

All things being equal, first consideration will be given to Life and Active members. However, all applications received will be reviewed and given consideration.

Any or all of the amount distributed to a recipient from the Relief Fund may have to be reported to the Internal Revenue Service as taxable income. Each recipient will receive a statement at the end of the year showing what portion of the distribution to her/him should be reported.

During 1985 we have been able to assist fifteen of our graduates from the Relief Fund. IF YOU KNOW OF ANY JEFFERSON OR WHITE HAVEN GRADUATE IN NEED OF ASSISTANCE, PLEASE LET US KNOW AS SOON AS POSSIBLE.

An application for Relief Fund benefits can be found in the back of the bulletin.

NURSES' SCHOLARSHIP FUND

The Clara Melville-Adele Lewis Scholarship Fund continues to provide scholarships to Diploma and White Haven graduates.

May 1985, the Scholarship Committee took action to grant scholarships to part-time, as well as full time applicants. Provided the applicant is enrolled in a program leading to a degree in nursing and enrolled for a minimum of six (6) credits.

Scholarships will be available for summer, fall and spring semesters.

Each application received will be reviewed by the Scholarship Committee; preference will be given to the applicant who has been a member, who is most active in the Alumni Association, and who has most nearly completed requirements for a degree.

A Scholarship application can be found in the back of the bulletin.

Surgery For The Unborn

A Nurse's Own Story

BY PATRICIA DUNN, RN

On January 9, 1982, Patricia Dunn, RN, was admitted to Philadelphia's Pennsylvania Hospital in premature labor. She was 26.5 weeks pregnant. Doctors controlled her contractions with uterine relaxants. But 3 days later, ultrasonography showed that the fetus had hydronephrosis and hydrouretel of the left kidney.

A cystic mass in the fetal kidney was causing fluid to accumulate, putting pressure on the fetus's abdomen and chest. If this pressure increased, it could cause severe lung and kidney damage. Dunn knew this could be fatal to the fetus. And even if the fetus lived, the damage was likely to be repairable.

On January 19, another ultrasound study showed that the renal mass, now measuring 6 x 8 cm, was creating pressure on the fetal thorax, elevating the diaphragm and causing hydronephrosis in the right kidney, too.

Pennsylvania Hospital obstetrician Stewart Weiner, MD, laid out three possibilities: First, if doctors didn't intervene surgically, the fetus probably would be born with severe anomalies and die shortly after birth. Second, they might induce labor and deliver the 28-week-old fetus, who would have the expected problems of prematurity as well as life-threatening kidney problems. Third, they might perform percutaneous aspiration of the cystic mass, an experimental technique for treating fetal urinary-tract obstructions. By decompressing the mass with a needle, doctors hoped the fetus's lungs and right kidney would develop normally and lead to a full-term pregnancy.

Here's what Patricia Dunn decided and what happened afterward.

It wasn't an easy choice. I didn't want to lose the baby that I could feel moving around inside of me. But I didn't know if I could devote my life to a disabled child. My husband and I also had to consider the needs of our two other children.

The type of fetal surgery suggested by Dr. Weiner offered hope. But as an obstetric nurse, I knew the procedure was risky. Blood vessels or fetal organs might be ruptured accidentally. Also, there could be a premature rupture of the amniotic sac, as well as infection or premature delivery.

My husband and I talked late into the night about what we should do, but I never felt so isolated in my life. Only I could feel the baby's movements. And somehow I thought the decision was more mine than anyone else's. Mixed up by the fast-moving confusion, I felt deeply guilty, bitter, and angry. It didn't seem fair. Both of us love children so much. Why did we have to make such a critical decision? What if I made the wrong decision? For the rest of that night, we got very little sleep.

The next morning, we told Dr. Weiner: We wanted him to try in utero corrective surgery. That afternoon, he performed the first needle aspiration of the cystic mass. It took about 30 minutes.

This initial procedure decompressed the mass, giving the fetal lungs and right kidney more space to develop. Ultrasound studies revealed that the mass continued to grow, however. Pressure on the lungs and right kidney from the cystic mass determined when the procedure must be repeated. During the next 6 weeks, the procedure was performed three times.

Each time, I went into premature labor and was given uterine relaxants. Because I was sedated during the procedures, I grew more and more concerned about the baby's well-being. Afterward, I would anxiously listen for normal fetal heartbeats and wait for fetal movement to resume. I was also afraid of delivering the baby during that time because he might have respiratory depression from being sedated.

With time on my hands now, my feelings of guilt, bitterness, and anger surfaced again. I kept wondering if I'd done something wrong to precipitate the fetal problems, although I'd been careful with medication, caffeine, and so on. I wondered if a genetic factor was involved. I kept looking for answers, but I found none. And because I was hospitalized more than I was home, I was torn between who needed me more—the
a baby boy, with good Apgar scores, weighing 5 pounds, 12 ounces. We named him Patrick. Because of postnatal respiratory problems, Patrick had to be intubated. But after a few days, he was breathing well on his own. An ultrasound study confirmed he had a multicystic left kidney. But his right kidney functioned normally, and his urine output was adequate. His BUN and creatinine remained within normal limits, too. That was good news to my husband and me.

When Patrick was 10 weeks old, a left nephrectomy and inguinal herniorrhaphy were performed. He recovered uneventfully.

If you could see Patrick playing with his sister and brother now, you'd never guess that he's a life-threatening birth defect. "Patrick probably owes his life to fetal surgery," says Patricia Dunn, a nursing manager at Pennsylvania Hospital in Philadelphia.

A Pandora's Box Of Ethical Problems

From an ethical perspective, fetal treatment poses complex questions about when life begins and raises the issues of abortion and right to life. If a fetus can be treated like any patient, does that make it a "person"? If so, can a doctor who neglects to insert a drainage catheter into the head of a hydrocephalic fetus be sued for medical malpractice? Can a mother who refuses fetal treatment be compelled by the courts to have it done? And, finally, if a mother refuses treatment and decides on an abortion—what are the legal and moral implications?

Bioethicists are pondering these questions—and raising some more. In an article in the Journal of the American Medical Association, Dr. John Fletcher of the National Institutes of Health pointed out "the apparent inconsistency of encouraging fetal therapy on the one hand and rejecting parental choice about abortion on the other. Should the moral status of the wanted fetus with a treatable defect outweigh that of an unwanted fetus with the same treatable defect?"

And in an article in Life magazine, ethicist Rev. Richard Bioethicists are pondering these questions—and raising some more. In an article in the Journal of the American Medical Association, Dr. John Fletcher of the National Institutes of Health pointed out "the apparent inconsistency of encouraging fetal therapy on the one hand and rejecting parental choice about abortion on the other. And in an article in Life magazine, ethicist Rev. Richard

The surgery performed on Patrick Dunn is one of four techniques used to treat fetal abnormalities. These formerly unthinkable medical advances can be done today for two reasons: Doctors can detect fetal disorders earlier in the pregnancy using their sophisticated arsenal of techniques for prenatal diagnosis. And uterine relaxants introduced during the last 16 years keep the traumatized uterus from contracting during fetal treatments.

Here's a short description of each of these techniques:

1. Intrauterine blood transfusions. The first human intrauterine procedures were done in New Zealand in 1963: Fetuses with severe anemia because of Rhesus blood incompatibility were given transfusions directly through the abdomen. Since 1974, drugs have been administered to fetuses with vitamin deficiencies, thyrotoxicosis, renal-sodium, and thyrotoxic function.

2. Intrauterine aspiration. The earliest attempt at surgical treatment were called "mendings"—draining fluid-filled areas of the fetal brain or thorax by inserting a needle. First performed in 1978 when doctors at Harvard University, Cambridge, Mass., drained cerebrospinal fluid from a fetus with hydrocephalus, the procedure is also used to treat urinary tract obstructions such as Patrick Dunn's, when insertion of a drainage catheter isn't required.

3. Intrauterine catheterization (drainage tube insertion into bladder). More invasive than needling, this form of intrauterine catheterization requires implanting a plastic catheter in the fetal bladder to drain excess fluid. The drainage catheter usually stays in place until birth, when more permanent surgical treatment is possible.

This procedure was first performed successfully in April, 1981, at the University of California, San Francisco, on a fetus (a twin) diagnosed with hydronephrosis. A catheter was inserted into the fetal bladder, preventing a life-threatening urine buildup. The procedure worked: The twins are now 3 years old.

4. Intrauterine catheterization (brain shunt insertion). Another form of intrauterine catheterization is being used to treat hydrocephalus, in which a buildup of fluid in the fetal brain causes death from ischemia of nerve cells, causing retardation or death. In this procedure, a "prenatal brain shunt"—developed by doctors at the University of Colorado, Denver—drains fluid into the amniotic sac.

At the National Institutes of Health in Bethesda, Md., current experiments are paving the way for treating major birth defects such as congenital diaphragmatic hernia, spina bifida, and limb deformities. Someday, performing bone and organ transplants in utero may also be possible.

HOW YOU CAN HELP AS A NURSE

If you're caring for a woman who's undergoing fetal treatment, here are some helpful things to remember:

Before the procedure
- Examine your own attitude about fetal treatment—your active support of her decision is vital. If you can't do it, then ask your head nurse to reassign the patient to a nurse who can.

- Don't assign her to the same room as a mother whose baby rooms in or visits for meals. Because the outcome of your pregnancy's uncertain, she may feel even more isolated and depressed at seeing another patient's baby.

- Offer yourself—be there and listen. Realize that her feelings of guilt, bitterness, anger, or denial are normal and similar to those experienced during the grieving process. Encourage her to express those feelings to you or to a psychiatric nurse-consultant.

- Help her explain the procedure to her children, using words, drawings, or teaching aids (such as dolls) appropriate to their ages.

- Avoid using such expressions as "God (or Nature) will take care of things." The outcome of her patient's pregnancy is uncertain.

During the procedure
- Reach out. Holding her hand helps her cope with pain and anxiety. If you should see that something causes her pain or anxiety, try to help her.

- Keep her informed of the health of the fetus by checking the fetal monitor continually. She may fear the worst if she's not sure.

After the procedure
- Understand that she may feel isolated and alone. Putting her in touch with other mothers who experienced fetal treatment may help.

- Allow her husband or another supportive person to stay with her if she desires.

- Let her know that mothers with high-risk pregnancies usually suffer more severe postpartum depressions.
Further Reminiscences

Last year when I wrote "Tempos Fidglets" I hoped others would remember their "pink" days at Jeff and record them for a growing history of "Training at Jeff." But, it was not to be. Many of you wrote, called and said the article evoked memories—good and bad, many of which are funny in retrospect. I must say that it was a difficult paper to write because so much had been used. But, I worked it all out and now see the real humor and the results of the experiment that I have done. These are the results: As one of my classmates said, she was the last one they ever expected to remain in nursing and earn a doctorate.

Because of your responses to last year's article, I have been asked to continue with my memories. I doubt they will be as amusing, second attempts rarely are. So here goes:

Our days as a Probie were busy. Each day began on the ward, sweeping the floors, counting the face towels and serving dinner. Sometimes we got a real zinger of hot tea with lots of sugar in it. We did not serve milk or cream because this produced gas which led to troubles for the patient and the staff. Retrieving and counting sponges was a favorite assignment while there. When surgery was completed the patient was coming out of ether and the way of the staff. We were taught to work together, which is a concept not always followed and the rule there is an exception, and this one was when "ran" the case to the OR, which was put in 629.

Further out and now see the real humor and the results of the experiment that I have done. These are the results: As one of my classmates said, she was the last one they ever expected to remain in nursing and earn a doctorate.

"At last!" The word from the Promo was "hit the road!" But, I had to find a bench for me to stand on an empty bed and was too miserable to kick the dead flowers in the morning. I dislike gladness to this day!

It was also on 11th Floor that I had the happy chore of catheterizing a lady and took out 1500 cc. She had been done in the morning by her obstetrician and he evidently hurt her because she did not do it again. But she had to be emptied. When I returned on duty the next evening, I was greeted with an "At last!" And had to cath her then and again before I eat at 7 A.M.

But who can forget the "Jessie" cart on Mat? We really had it bad. That drug was given with equal doses of Soda Bicarb, but that was better than nothing. We had our capes, but because it was cold smoke we were stretched out—two black masses with white organdy caps on the end. We woke with a yelp. Joe was standing over us trying to figure out when two corpes got into that room.

Now, Joe was a real institution! He had had a deft palate and harleip repair at Jeff when he was a baby and Dr. Warren B. was very proud of that early job. Joe ran all the elevators, except Annex, at one time or another during our three years. Usually he was a pleasant man, but he could and did bawl out a student if he felt the need was there.

September 15, 1923, Martha E. Ireland, a native of Sunbury, Pennsylvania, came to Philadelphia to enter Jefferson's Training School for Nurses. Martha graduated from Jefferson in 1927 and since then has had an interesting professional life.

After graduation she worked as a private duty nurse. At that time, if your patient was in the hospital you worked 12 hours. If you were lucky or unlucky enough to get a home case—it was usually 24 hour duty. The nurse would sleep on a cot in the patient's room.

During summer vacations she would relieve the staff nurses on 8th Annex; then in 1945 when Miss Ethel M. Hopkins was retired from the Alumni office coordinator, I had the position of Alumni Office Coordinator on a part-time basis. Martha held the position and retired in September 1985. In career you wonder just what an alumni office coordinator does—well, it is really difficult to put into words, but one of the main responsibilities is to keep the address files current. We have nearly 3000 addresses, and this can be very involved and time consuming, as nurses are constantly on the move. She was also responsible for getting all the addresses on the computer and she would get all of the addressograph machine. Other positions Martha held in the Alumni Association were president, vice president, member board of directors, chairman of various committees as well as being a member of committees.

Even since she first came to Jefferson in 1923 Martha has been a loyal and dedicated supporter not only of the Alumni Association, but Jefferson as well, and during these years many lasting friendships were made. Martha was, and is a friend to many people, her opinions and ideas are valuable not only because of her varied work experience but also due to the interesting travels she has taken in the past. Her work as alumni coordinator was outstanding, and I'm certain I speak for everyone when I say thank you for a job well done. Martha, we love you.
FROM THE

The 1907 Hospital ("Old Main")
The southeast corner of Tenth and Sansom Streets may be considered a "tough old spot" as far as the physical endurance of its buildings is concerned and as "holy ground" in terms of its benefit to mankind. Only two buildings have been located there. The first was "New Medical Hall" of Jefferson Medical College, erected on this corner in 1828 through the benefaction of the Reverend Ezra Silvis Elly, a member of the board of trustees. The original college building, from 1825 to 1826, was the renovated Twelfth Theater at 518-20 Prune Street (now Locust). Enlargements and modifications of the Tenth Street Jefferson Medical College in 1838, 1846, 1879 and 1891 changed its appearance from that of a church, that of a Greek temple, and finally to a facade of florid Victorian style. In the renovation of 1879, two stories on the corner in which the upper floors had served as a connected mini-ward for 15 post-surgical patients were converted into a laboratory building.

About 1895, it became evident that a building program was necessary to provide Jefferson with a new medical school and a new hospital. In 1898, after 70 fruitful years at Tenth and Sansom, a new Jefferson Medical College was erected at the corner of Tenth and Walnut, where now stands the Curtis Building. The old hodgepodge of Jefferson Medical College was now ready for demolition to accommodate the new Jefferson Medical College Hospital (the present "Old Main").

Was "Old Main (1907)" the first Jefferson Hospital? The story going back to May 1825, dispensary were available to the public at the old Twelfth Theater site. (See Directions, October 1855). The first full-scale hospital was built in 1877 on the site between Tenth and Eleventh, where now stands the Thompson Building. It was the second teaching hospital in the country to be connected with a medical school, the first being the University of Pennsylvania in 1874. It was a five-story building of Victorian Gothic style that contained a clinical amphitheater ("pit") seating 600 students. Many "greats" of Jefferson operated and lectured there.

Over a period of thirty years (1877-1907), that hospital trained 5,000 doctors in its halls; cared for 2,000,000 patients in wards and dispensaries; treated nearly 50,000 accident cases; and graduated 148 nurses.

By the turn of the century the hospital was antiquated; 125 beds were insufficient for the demand; it was too small for the volume of work and not fire-proof. By 1902 it was possible to demolish the old medical school building at Tenth and Sansom and erect the new hospital ("Old Main"). The 1877 hospital was maintained for nurses' education and living quarters.

New Uses for "Old Main"
After becoming unsuitable for inpatient care, it functioned for a variety of outpatient, research and educational activities, housing the department of radiation therapy and nuclear medicine, the Hemophilia Center, the Clinical Pharmacology Unit, educational facilities for the College of Allied Health Sciences and psychiatric outpatient care.

A decision has been made to preserve this old but structurally sound building. Among other things, the building will house an imaging center with the latest equipment for diagnosis by ultrasound, CT scanning and nuclear magnetic resonance. There is a certain nostalgia for the preservation of modern architecture, the English Style facade achieved by the architects, James Windrim and Son. The new look restored by the outside cleaning process unveils the salmon bricks from their previous black, accentuates the pilasters and plasters, while attracting the admiring gaze of many passers-by. "Old Main" is starting a second life in keeping what was best of the old and adding the best of the new.

Fall Cleaning Revitalizes "Old Main"
The facade performed on the Main Building this fall represented a dream-come-true for Gene E. Prouty, director of physical plant. "It was just a very dirty building," said Mr. Prouty, explaining why he proposed that "Old Main" be cleaned by a special process. Michael J. Bradley, executive director, agreed that the building was in dire need of a cleanup, and the project went forward.

The process, which involved the application of a special cleanser, then rinsing with high-pressure water, took only about eight weeks. During this time, some needed patching of the exterior and bird-proofing were also done. In addition to revealing the original colors of the bricks and its interesting architectural features, the cleaning has unveiled the words, "Jefferson Medical College Hospital," on the front of the building and "Jefferson College Dispensary" on a side.

JEFFERSON SURGICAL CENTER OPENS

The third floor. Among the procedures offered on this floor are: Ear, Nose and Throat Surgery, Hand Surgery, Hemis Repair, Breast Biopsy and Minor Gynecological Surgery. Ambulatory surgery enables the patient to arrive, undergo surgery and return home on the same day. Those patients are reunited more quickly with family members; lose less time from work; and enjoy financial savings because hospitalization is not necessary. The center also features special facilities for children, including a playroom for pediatric patients awaiting surgery. Parents can accompany their children throughout the entire procedure. The newly renovated Operating Room. Last year, 38 percent of the surgical operations performed were ambulatory cases. By 1985, 50 percent of all surgical cases in the nation will be ambulatory in nature. Jefferson is ready.

 Newly reconstructed 7th and 8th floors of the Thompson and Main Buildings which house the new Ultra Sound Department opened in early July with the most modern Diagnostic equipment available.

The construction of the Rodine Center for Radiation Therapy is proceeding on schedule, and is expected to be opened early in 1987. This Department is newly constructed where the parking area was located on the Street Level of the New Hospital, and was fully described in our Alumni Bulletin last year.

**Bulletin Committee**

The Bulletin Committee wishes to thank every one who helped in any way with the publication of the 1986 Bulletin. We have endeavored to be as accurate as we could, so if any names are misspelled please forgive us, it was not intentional.

You will note in the treasurer's report for 1985 which appears in this bulletin that the printing and mailing expenses for the 1985 bulletin was $9,850.00. This is one of the big reasons we need monies in our general fund. If you have done or are doing anything interesting, please consider writing about it for the 1987 Bulletin, we are always on the lookout for ideas.

Alumni Office News

In September 1965, Betty Pieriol and I were appointed by the president of the Alumni Association as the Alumni Office Coordinators. This was done on the resignation of Martha Riland — who held this position since January of 1969. Although Betty and I had frequently helped Martha, it was quite different when we assumed the full responsibility for the office. Quite frankly, I don’t know how Martha did it by herself. The Alumni Association owes her a big thank you for her commitment to her Alumni and to this office.

October 1986, 2,944 copies of the alumni bulletin were mailed, this included the 11 overseas mailings.

A great deal of our time is spent in checking names, addresses and trying to track down graduates who give us insufficient information.

January 29, 1986 the alumni office moved from room 105 Edison to M-32 Jefferson Alumni Hall (this is only a temporary move) We like it much better being in Jefferson Hall.

During 1985 we undertook the tremendous task of getting the names of all our graduates on the computer run. This information is a big help in identifying people. This year we are working on including the telephone numbers of our graduates. Our older graduates, whose birthday we know and who are over eighty, are sent a floral birthday arrangement from the Alumni Association. If you know of anyone having a birthday, let us know the year, month, day, address and telephone number.

We wish to thank our volunteers, who so faithfully help us with stuffing and putting labels on the annual giving and luncheon letters. Without their help it would be nearly impossible to get the mailings out on time.

In April Francine Kates, Admissions Counselor, and Lisa Ryan, Nurse Recruiter for the CAHS, met with Betty and I. They are trying to build up the CAHS Alumni, and are having a really tough job. Knowing that our association is so active and so well established they asked us for some pointers. They also talked about the Advanced Placement Program for Nurses at Jefferson, and the placement program for Nurses in Rehabilitation Nursing which starts the Fall of 1986.

The following are a few of the benefits we receive by being a part of the Jefferson Faculty office space, telephone, routine printing, mailing (except the bulletin), xerography (within normal limits), monthly updated computer print-outs, labels for our mailings, someone to answer our telephone when we are not in the office, (our association is included in the Department of Development’s budget, and we do thank them for these benefits.)

Our address is — Nurses Alumni Association, Thomas Jefferson University, 11th and Walnut Streets, Philadelphia, PA 19107. The telephone number is 215-928-3881. We are usually in the office every Tuesday, from 10 A.M. to 4 P.M., and occasionally on Wednesday. When we are not in the office our calls will be answered and messages taken by the CAHS Alumni Office, Room M-6 Jefferson Alumni Hall, 1200 Locust Street, Philadelphia, PA 19107. Stop by and see us when you are in the vicinity, it would be wise to call first to be sure we are in the office.

Our office works closely with the CAHS Alumni Office, its staff, Elisa Lang and Carolyn Robinson have been a great help to us, we value their friendship and the good working relations between the two offices.

Thanks to your help we now have a copy of the commencement programs starting with the class of 1919 through the class of 1982.

Margaret Summer & Betty Pieriol Alumni Office Coordinators

Social Chairman Report

The Annual Luncheon was held May 3rd, 1986 at Jefferson Alumni Hall, 1020 Locust Street, Philadelphia, PA 19107. There were 314 members in attendance.

A business meeting was held in the Solis-Cohen Auditorium prior to the luncheon. The anniversary class of 1961 had the largest number present for the luncheon. The class of 1936 celebrated their 50th anniversary and were guest of the Alumni Association, 15 members attended.

Frances Butler Pangburn from the class of 1915 was the oldest member present and celebrated her 75th anniversary, the Alumni Association presented her with a corsage.

Twenty-three states were represented at the luncheon and one member came from Hong Kong for her 30th anniversary.

The Annual Luncheon for 1987 will be Saturday May 2nd, at Jefferson Alumni Hall, 1020 Locust Street, Philadelphia, Pennsylvania.

Cathleen Keating ’53 Chairman

Bequests

We have received a number of questions concerning bequests to the Nurses Alumni Association. If you are thinking about such a bequest, we would suggest the following sample paragraph for your consideration:

I give to the Nurses Alumni Association of the School of Nursing, Diploma Program, College of Allied Health Sciences, Thomas Jefferson University, located in Philadelphia, Pennsylvania, or its successors, the sum of dollars (or identify the property, such as stock, or indicate a percentage of the estate, if appropriate), to be used for its general purposes.

This suggested clause is exclusively for the information of our alumni and friends. You should, of course, consult your own attorney as to the applicability of any item to your own situation.

Graduates Appreciate Alumni Scholarships

As we begin 1986, I would like to take the opportunity to thank you, and the scholarship committee, and the Alumni Association for the scholarship that I was granted for the summer of 1985. In August I graduated with my BSN from Gwynedd Mercy College. Thank you again for the scholarship. Alan L. MacMillan, ’76

Corrine R. Kurzen, ’62 writes — I again thank the committee for the scholarship which made this past semester possible, and will appreciate any consideration for the Fall, 1986 semester.

I continue to be pleased with the caliber of the program at the University of Washington. This past quarter has been the most challenging. Due to the scholarship committee’s generosity I will be able to complete my degree on schedule. YOU CAN BE SURE THAT WITH MY Master’s degree, I will do all that is in my power to support the rights of nurses and assure our patients of quality nursing care. Again, thank you for all your efforts on my behalf. Kate G. Felix, ’70

Words cannot express my gratitude to you and the Alumni Association for the generous scholarship that has been awarded to me. The money will help me to fulfill my professional dream of my two loves—critical care nursing and teaching. I hope to serve the proud tradition of Jefferson’s excellency throughout my career. Thank you again. Susan M. Galagher, ’77

Our HUMANITARIAN AWARD

Jane Black Guerin, class of 1947 Jefferson Hospital School of Nursing, has been awarded the Dr. Frist Humanitarian Award by the Hospital Corporation of America.

Jane has been employed at the J.C. Blair Hospital in Huntingdon, PA since 1947 in various positions and will retire in 1987 as head nurse in the recovery room.

Norma Z. Smith

May 17, 1985 was proclaimed as Norma Z. Smith Day by County Executive Donald P. Hutchinson, recognizing her outstanding service in the care of handicapped children. The commendation was presented to Mrs. Smith by Mr. Sherrard.

Mrs. Smith, a registered nurse for 45 years has been em­
ployed by the Health Department for the past 28 years. Dur­
ing that time she contributed greatly to advancements made in the public school system to accommodate physically and mentally handicapped children. In March 1979, she was cho­sen for the March of Dimes Nurse of the Year Award for the State of Maryland, in recognition of her service and dedica­tion in this area. In 1985 Mrs. Smith retired and on May 17, was honored by a retirement dinner, given by friends and co-workers from the Baltimore County Health Department.

Since her retirement both she and her husband Woodward "Red", have started a bed-and-breakfast and have enjoyed a bicycle trip to Nantucket, the Everglades in Florida, and the past May they went to Savannah.

Norma’s Jefferson friends will remember her as Norma Ziegler, class of 1940.

Miss Werley is in demand to make presentations on the Nursing Minimum Data Set Conference at various profes­sional and research conferences, and leads a very busy professional life.

Receives Master of Science Degree

Sandra Fox Wendel of Downingtown, Pa., received a Mas­ter of Science degree specializing in Group Process and Group Psychotherapy from the Graduate School of Hahn­emann University, Philadelphia. Ms. Wendel plans to enter private psychotherapy practice where she will be a business consultant. While a student at Hahnemann, she was a mem­ber of Who's Who Among Students in American Colleges and Universities. In 1983 Ms. Wendel graduated with a Bach­elor of Arts degree in Psychology from West Chester State University, West Chester, Pa. where she was selected to Phi Sigma Pi Gamma Mu Honor Societies. She is a 1969 graduate of Thomas Jefferson University, where she re­ceived a diploma as a Registered Nurse. She is a 1966 graduate of Middle Township High School of Cape May Court House, N.J. She has two children, Julie and Laura.

Special Achievement Award

Barbara Schneider, Ph.D., R.N., a 1965 graduate of the Thomas Jefferson University Diploma Program in Nursing and a member of the University’s College of Allied Health Sciences nursing faculty, was the recipient of the 1986 College of Allied Health Sciences’ Alumni Special Achievement Award for her dedicated service to nursing education, research, and to professional excellence.

Jefferson’s Advanced Placement Program for BSN and Masters Program in Rehabilitation Nursing

Dear Prospective Student,

As the new Nurse Recruiter for the College of Allied Health Sciences of Thomas Jefferson University, I would like to take this opportunity to tell you about some of our new and exciting programs.

For people who are already an RN, we offer an advanced placement program that will lead to your BSN. You can obtain your BSN either on a full or part-time basis. We offer our classes at convenient times—day or evening. The program can be completed in one year, a year and a half or two years. We try to be as flexible as possible to accommodate every­

you about some of our new and exciting programs. You can call the Admissions Office at (215) 928-8890 or write:

Office of Admissions
Jefferson Alumni Hall Rm 230
1101 Locust Street
Philadelphia, Pa. 19107

I hope you find our programs as exciting as we do!

Sincerely,

Lisa A. Ryan
Nurse Recruiter

Distinguished Professor

Harriett H. Werley, PhD, Distinguished Professor School of Nursing, The University of Wisconsin-Milwaukee and a 1941 graduate of Jefferson’s School of Nursing, Diploma Program remains very active as a full time University professor and travels quite a bit in conjunction with her faculty position. In May 1986 she participated in an international nursing re­search conference in Canada.

In May 1985 Harriet conducted “Nursing Minimum Data Set Conference”, and said it is believed that the results of this work will have great import for nursing. In July 1986 there was a publication in Nursing Management, titled The Nursing Minimum Data Set Conference: Executive Summary.

The Annual Review of Nursing Research (ARNR) was founded several years ago by Harriet; she was also founder and is past editor of Research in Nursing and Health.

Adeline Ruth Miller (Benjamin), 6704 Glen Avenue, Glen Dale, MD 21768. Greating all God willing I will see you next year at our 65th reunion complete with vita statistics, and more wrinkles.

Mildred Garman Jeffers (Arthur W.), 306 West 19th Street, Strip Bottom, NJ 08808. Best regards to all my classmames. I am doing very well, but all has been done with much help. I went to Burlington County Hospital and my surgeon was Dr. Slubbarn, he is just great.

Erma Coup Painter, Pine Street Box, 1444, R. D. #3, Milton, PA 17247. Kindest regards to all my friends and classmates at Jeffersonville.

I think of you many times. I am in very good health, and active in church and community. I enjoyed being seen from "white tail" deer to the 3rd of July. I hope to go back and dispose of 40 years accumulation in 16 days. Now I can mix and enjoy a leisured comp. For so it has been very pleasant.

Elsabeth Jazik Setfoway, 1040 Marine Street, Los Angeles, CA 90041. Being on the move is not easy, however, seen and enjoyed from a "white tail" deer to the 3rd of July. I hope to go back and dispose of 40 years accumulation in 16 days. Now I can mix and enjoy a leisured comp. For so it has been very pleasant.

Theresa Marks Saylor, (Blair), 243 Cafe de Madrid, Tucson, AZ 85711. I am sorry so far to attend our 50th reunion this year. My best to all our classmates.

Class of 1917

Grace Elise Noonan, 13 New Town Terrace, Norwalk, CT 06851. Because of poor health I moved to Norwalk, CT to be with my daughter.

Class of 1929

Zelda Reese Monex, Memo Hain Inc., 2075 Southaven Avenue, Philadelphia, PA 19153. I have retired from teaching after 33 years. I have 2 great-grandchildren and big plans. I am still active, a devoted wife, and mom. I love to travel.

Hazel Beasche Baker (Justine H.), 750-C Menno Village, Chambersburg, PA 17201. My husband and I live very much at Menno Village. I now have a friend who has a health issue. She was ill to be at the luncheon in May 1991. I have missed her since March 1991.

Ella Engel Kielch, #2, Box 363, Elberta, AL 36530. I would love to hear from any of you and my friends. My MG keeps me from writing. Best wishes for better health.

Ruth Sellers Johnson (Charlorie), P.O. Box 8398, Sarasota City Mobile Park, Sarasota, FL 34276. My husband passed away February 2, 1986. I am going to try to see you all at the luncheon. Perhaps next May I will be able to attend the Alumni luncheon.

Class of 1931

Elizabeth Youngblood Guil, 2148 Cherry Street, Philadelphia, PA 19103. My first granddaughter was born in January 1986.

Emma M. Bahner, Ridgecrest Apartment 617, 29 Knoll Road, Salem, VA 24153. It was so nice to receive our alumnae letters. Sorry to miss our 55th anniversary luncheon at the hotel. I enjoyed the Retirement Retirement Celebration.

Dorothy E. Peterson, Pull's Out Apt, 2233, 8986 Budapest Avenue, Philadelphia, PA 19115. I was sorry I could not attend our 55th anniversary this year. I am not physically able to cope with transportation problems.

Helen Waip Hubbard, 126 Montgomery Street, Highland Park, NJ 08904. I am busy doing volunteer work for our church in New York City. I am now preparing for dinner for adult children monthly, celebrating their anniversaries, and planning occasions that are unique to each child.

Mary Tyler Lawley (William B.), Route 1, Box 736, Laconia, NH 03245. I am still enjoying my rural life. I enjoy gardening, community life, and being up for bicycling since a stray dog bit me.

Mary Hosage Delman, 78 West Street, Wilkes-Barre, PA 18702. I moved back to Pennsylvania in August 1985 and remained from all nursing, including 17 years as a volunteer with the blood bank. I guess I will tend to the garden and flowers.

Blanche Ford, Box 13-119111, Pennsbrook, S. H. 39277. I am still living on the go and take part in many things, church, social club, church, community events, and we have had a busy year. I cannot do as much as I would like, because of arthritis of the hips. Love and best wishes to all.

Mary Cramer Mount (Joseph), 25622 Garrett Avenue, Santa Fe, NM 87501. I am still enjoying good health, my grandson's marriage, and my grandchildren.

Class of 1932

Dorothy Bates Young, 2714 Broad Street, Easton, PA 18042. I am still hanging in there at age 76.

Grace Ellis Noonan, 13 New Town Terrace, Norwalk, CT 06851. Because of poor health I moved to Norwalk, CT to be with my daughter.
Elizabeth Stephanie Miller (John E.), P.O. Box 14, Saddle Brook, PA 07663. I am enjoying my retirement. Today I find the experience and education of that long ago time has had a solid and enduring influence on the years of my later life. It was never evident until I took the time to reflect back on the early years and especially on Jefferson student years. May all our Assumption enemies continue to win.

Myra Cora Snyder Dunkle (George T.), P.O. Box 207, 706 Chethol-Dale Road, Jackson, TN 38305. We are enjoying life. Our older grandson, Michael age 7 has leukemia and in St. Judes Hospital, we should appreciate people. Here's to the future. Fraternally yours.

Grace Barbos Rupps (Evelyn), 2525 Sprout Mountain Road, Danbury, CT 06810. Inspite of arthritis, I had my husband and I traveled 2,400 miles in our recreational vehicle to the Great Southwest, Yellowstone, Glacier National Park and through the Northern Cascade Mountains, Luxury camping is one of our choicest activities. We are happy to have people that we are enjoying life. My dear mother was killed all over the world—pilrows, hoops, toys, quilts, and lots of Christmas items. A very special Christmas wish to all who may be reading this.

Cleo Snyder (John E.), 1311 Puritan Avenue, Woodbury, NJ 08096. I am greatly pleased and surprised at receiving a Life Membership in the American Chemical Society. Award in the Chemistry of Organic Chemistry. With nursing by teaching Red Cross courses.

My husband lives in the Houston area. I am in my 41st year of industrial nursing. It seems just a few weeks (or so) ago that I was a senior at Woodstown High School. It is April, 1955. I still love retirement. I am greatly pleased and surprised at receiving a Life Membership in the American Chemical Society. Award in the Chemistry of Organic Chemistry. With nursing by teaching Red Cross courses.

Harry M. L. Looney (San Antonio, TX 78216). We are now in our 5th year of retirement in the mountains of Virginia, full life care at our home in the Catskill Mountains.

Elizabeth (Patsy) Woodhead Hawkesworth (Norman O.), P.O. Box 263, Gettysburg, PA 17325. I am still teaching and have both grandchildren, living at home, and enjoy my life. Our older grandson, Michael age 7 has leukemia and is in St. Judes Hospital, we should appreciate people. Here's to the future. Fraternally yours.

Margaret Matthews (Ousby), 1704 Catawissa Street, Reading, PA 19608. We are all well and have lots for which we are thankful. It is now May 1999.

Another spring—another luncheon, and the early years and challenge.

Dorothy Payne (Clever) Kean (Vincent A.), 1311 Puritan Avenue, Woodbury, NJ 08096. I amgreatly pleased and surprised at receiving a Life Membership in the American Chemical Society. Award in the Chemistry of Organic Chemistry. With nursing by teaching Red Cross courses.

Hello to everyone.

Grace Jennings (John), 1704 Catawissa Street, Reading, PA 19608. We are all well and have lots for which we are thankful. It is now May 1999.

Hello to everyone. It is now May 1999.
Evelyn L. White Collett (Milo J.), 29 East 40th St, South Dakota UT 85048. I plan on getting my 7th and final eye surgery in 1984.

Charlotte Cooper Phillips (Emmet), 201 South Way, Aurora, CA 90605. Emmett and I are thankful to have been “hiq and dry” during this spring’s flood. Our old Aurora was built over the river where gold was discovered in 1849 and parts of this area were flooded badly. We enjoy being grandparents to 3 lovely grandchildren—4 boys and 1 girl.

Lee Anne Farley (Alice), 9221 Chestertown, MD 21620. We enjoyed the June 30th, 1986, and we moved into our new home in Chestertown, MD.

Ruth L. Reede Cress (Eva), 1913 South Michigan Way, Denver, CO 80219. My husband and I have two sons and two children. This summer, he is teaching and I am a professor of Russian at Denver Baptist Seminary, Denver, CO. I am hoping to get involved in teaching English as a second language. We enjoy being grandparents to 3 lovely grandchildren—4 years, 1 year, and 1 year.

Ruth L. Ragan Carson (Dr. Jos. Machle), 24 Bloomfield Street, Lebanon, PA 17042. I am a nurse practitioner at Jefferson Medical College in June 1986. Best wishes to all my classmates.

Betty H. Hecker Fletcher, 539 Brookwood Road, PA 19063. We have been a working part time as an activities assistant at Phoenixville Manor, Phoenixville, PA. (My husband was a resident there for almost 2 years.)

Marie DeStefano Thiers, 576 Live Street, Warrington, PA 18974. I was appointed assistant director of nurses at a health care center for geriatric patients.

Class of 1948

A. L. Phillips (William), 58 Lynn Avenue, Woodbury, NJ 08096. I am still working part-time in a nursing home in Woodbury, NJ. I have married and have 2 granddaughters and 2 grandsons. Also enjoy visits with our family in Florida.

Ruth L. White (Harold), 2650 S.W. 8th Street, Miami, FL 33156. My daughter Nancy and I work in Doctors Hospital in Coral Gables. Florida. Also, my son-in-law is a paramedic, and my husband is in the plunging home care.

Marie DeStefano Thiers, 576 Live Street, Warrington, PA 18974. I was appointed assistant director of nurses at a health care center for geriatric patients.

Class of 1948

Gary Collins Miller (Louise), 330 Twayne Drive, S.W., Rochester, NY 14621. My husband, Alton, and I have two sons, who are students at Jefferson Medical College.

Marilyn Burton Gold (Aileen), 1440 Wooland Drive, S.W., Rochester, NY 55502. After by-pass surgery in 1985, Alton is going strong and looking forward to4 the spring. My daughter, Nancy C. Drazan, is a nurse at Mayo Clinic. Our kids are all grown and away from home—until last, and we thoroughly enjoy our 2 grandchildren, 33 and 3.

Mary Louise Moore Brumbaugh (Simon C.), 737 Central Avenue, Lebanon, PA 17042. I am a registered nurse working for Planned Parenthood as director of clinic services, and also as an ophthalmic nurse practitioner when times permit. We enjoy our 3 grandchildren (Carol's). A gift from God.

Shirley Daring Merrill (Mary), 1205 Ashland Road, Basking Ridge, NJ 07920. I bought a motor home and have been traveling for several years.

Sue Kellog Garrett (Rt. 2, #2182 Douglassville, PA 19518. June 1, 1986, after 25 years I retired from college nursing at Northwestern Christian Junior College. Wilmington, NC. My husband Donald and I now make Delaware Valley College Camp at Douglassville. I have been camp nurse at camp during 30 years of summer camping. We have 4 children married and have 10 grandchildren.

Doris A. Burke (George), Rd. #5, Box 345, Warren, VA 22198. I thank God I was led to a nursing career by my brother in 1936 in New York. I was a junior nurse in San Antonio and I was delighted to find a job in the field of work but so rewarding to give to the sick on our medical floor. Many many hours of hard cold care. I have done part time for 15 years now and do not plan to quit.

Rachel Irene Herbert, 2419 E. Heims Boulevard, Boftenham, PA 19601. Best wishes in 1987, I will not quit.

M. Arlene Yoweth Watkins (George), 802 Oak Lane, Clarksburg, WV 26520. I am still at Lake City VAMC on the nursing home care and have worked here for almost 25 years. I have been married 40 years to the same man and we have 3 children and 2 grandchildren.

Marie DeStefano Thiers, 576 Live Street, Warrington, PA 18974. I was appointed assistant director of nurses at a health care center for geriatric patients.

visited with friends and 7 of the class of ’71 had our own reunion in Philadelphia. By the way, my research proposal at Arizona was on the relationship between earthquake magnitude and perfusion time in births, something that has never gotten very much respect, it seems, and statistics as quake data is pretty common there, through the proposal studied in California. My mentor (John) is definitely a top stats professor whom ‘who’s in american stats’ is looking for to build for my classrooms next year.

Marilyn Frank, PSC 1276, APN O2992-3396. Hello fellow alumna or another year group. I don’t believe I’m on the verge of 90 years in the Air Force. I have been assigned to Inactive Air Base, Turkey, since January 1988. I am managing myself thoroughly in spite of frequent ‘exacerbations and problems’ that come up here—lots of history, good food and good friends! I will be here until April 1987, then maybe Europe or the states.

Lynne M. Streper, 511 Dona Corte, Brownton, FL 33510. In April I began a new job with a new health agency. After 10 years of critical care, I’m enjoying health care tremendously. I’m learning new skills and doing on the job, the challenge is excitement.

MARGARET M. JACKSON

Margaret M. Jackson, age 89, died April 18, 1986. She was a native Philadelphian who was born and raised in the Roxborough area, and lived in the city most of her life.

Miss Jackson had a distinguished nursing career that spanned nearly 50 years, and more than 4000 young women graduated to become nurses under her supervision.

She was a member of the original committee to develop Blue Cross and Blue Shield, initiated the ward clerk program for nurses, and developed the concept of operating room technicians.

In her 60's she learned to drive a car, and at 60 she took up golf, and the pride of her life was a hole in one at the age of 64.

Miss Jackson was assistant director of nursing from 1943-1945, and director of nursing at Jefferson from 1945-1947. After her retirement in 1963 she had been living in Camden, Maine, until last year when she moved to Bedford, Pennsylvania.

Many of our graduates will remember Margaret Jackson as a gentle woman in the true sense of the word, she stimulated those she came in contact with to go the extra mile.
