Communication in Health and Wellness: How Words Can Change Your Brain

Presenter:

Andrew Newberg, MD

Andrew Newberg, MD is Director of Research at the Jefferson-Myrna Brind Center of Integrative Medicine, and Professor of Emergency Medicine and Radiology, Thomas Jefferson University. His research has focused on the relationship between brain physiology and various neurological and psychiatric conditions, as well as how spirituality, religion, and language affect the brain. He is the co-author of Words Can Change Your Brain and several other popular press books.

Overall Goals and Objectives:

1. Identify recent advances in integrative medical care and discuss their application to clinical practice.
2. Describe the latest data on complementary and alternative medical therapies that could improve patient outcomes.
3. Discuss core integrative medicine topics that patients frequently ask physicians about.

Jefferson Medical College of Thomas Jefferson University is accredited by Jefferson Medical College designates this live activity for a maximum of 1 AMA PRA Category Credit(s). Physicians should only claim credit commensurate with the extent of their participation in the activity.
