The President's Message

Dear Alumni:

This has been a pretty good year, despite the fact we had no one to fill the pending vacancies. Our treasury is solvent and we have a fair cushion to fall back on. The Relief Committee could help eight of our Alumni who are having difficulties and the Bulletin was better than ever.

We have two satellite groups that are active. The Harrisburg area meets five times a year and the Western South Jersey area meets once a year. There are nibbles from other areas, but nothing has taken hold.

We do believe that the satellites are a means of continuous contact with the Board of Directors as minutes of the meetings are sent to the chairmen. The satellite meetings also help to identify our members who are in need of assistance from the Relief Committee. This is of great importance. If we can help each other we are truly a membership of nurses in the best sense of the word.

The most troubling aspect of our organization is the lack of participation. We're well aware of the reluctance women have about coming into Philadelphia late in the day. We have toyed with the idea of a Saturday meeting during the Fall. Then comes the question "Where could we meet?" Jefferson Hall is for students, and in the Fall classes are full speed ahead. The room we use for the Luncheon is where the students have their meals, and is in use most of the day. Also, there has been no feedback from the members that they would like Fall meetings.

The luncheon this year (1993) had the smallest attendance in a number of years. Then we realized there were no more 10 year anniversaries. We have entered the 15 years. But Mildred Kroupa Okunishi, class of 1925, was there again. She has been the representative of the earliest class for the past several years. It is always a pleasure to see her beautiful face when she comes forward for her corsage. Jefferson School of Nursing has the most beautiful nurses in the world!

We have received a 1925 CLINIC, published by the Medical College. The book includes the Department of Nursing. We thank Alyce Casper Wright, 1926 for donating the book, and Martha Willeing King, 1935 for presenting it to us the day of the luncheon.

Respectfully,
Alice C. Boehret, RN, EdD

Tribute to Mabel C. Prevost

The University and the Jefferson Nurses' Alumni Association were saddened by the death of Mabel C. Prevost on August 14, 1993. Miss Prevost was a loyal Jeffersonian and held many important positions during her long association with Jefferson and the Alumni Association.

On the occasion of the celebration of 100 years of nursing at Jefferson, Miss Prevost commented, "I am very proud of the nursing profession as it has developed and of Jefferson nursing today..." Not only was she proud of the nursing at Jefferson, she was also proud to be a "Jefferson Nurse."

Her most recent position was liaison to the hospital Women's Board, a capacity in which she served from 1974 until 1987, devoting her energies to every aspect of the board's fundraising activities.

She was also a member of the Bunt-Melville Department which now supports patient-care enhancements in the department of rehabilitation medicine. Upon her retirement, she was honored with membership on the board itself.

Miss Prevost's Jefferson affiliation began when she matriculated at the School of Nursing from which she received her diploma in 1929. She then did private duty until 1942.

During World War II, she joined the Army Nurse Corps in the Pacific. When the Army's 38th General Hospital was reactivated in 1949 as a U.S. Army Reserve Unit, she joined the unit and later became Chief Nurse, retiring after 20 years of service, as a Lt. Colonel. She was a very active member of the Helen Fairchild Nursing Post #412.

From 1953 to 1958, she was Jefferson's Director of Nursing (Nursing Service and School of Nursing). During her tenure, the school continued to grow through rigorous recruitment efforts, and a campaign was undertaken for a more modern nurses' residence. This resulted in the 1959 opening of the James R. Martin Residence for student nurses.

In 1958, Miss Prevost was appointed assistant hospital director with administrative responsibility for the School of Nursing (until 1967), the Practical Nurse Program, operating rooms, the pharmacy, the volunteers, the Women's Board liaison, and several other departments.

While assistant hospital director, from 1958 to 1974, Miss Prevost established an Exchange Visitor Program for Filipino nurses, this program also included nurses from the Netherland, England, India, Greece, Taiwan, and Jamaica. She established the Practical Nurse Program, and served on the committee for the construction of the Foederer Pavilion, the intensive care nursery and the helipad, made possible through the contribution of the Women's Board.

Miss Prevost was a loyal supporter of the Jefferson Nurses' Alumni Association, she served as chairman of many committees, and offered valuable guidance and direction.

Her love of animals was well known at Jefferson, she became a friend to many stray dogs and cats over the years, taking them into her home until she could find another home for them.

Surviving are her sister Marie L. Prevost, and four cousins.

Miss Prevost will be missed by her many friends and the Nurses' Alumni Association.
The Decade Fund Nursing Scholarship

The University asked the Alumni Association to participate in a fund drive in the eighties. The monies we raised was divided so half would go to nursing service as seed money for nursing practice research, and the other half would go to scholarship aid to students who were changing careers. Our first scholar graduated last year (1992) and we now have a second scholar.

We are presenting to you, a letter from Dr. Pamela Watson and one from the student. As you read them, you will be impressed by the changes in education for nursing and by the caliber of the women entering the profession.

It's a pleasure to tell you about Alice Drumm, the recipient of this year's School of Nursing Alumni Scholarship. Alice, a third-year student, is 51 and has made a mid-life career change so that she can work closely with people. She says, "I want to make a contribution in a personal way," she said. Currently, Alice has a successful career in financial administration, but feels that the executive environment is a closed one. "I even sold cars awhile back," she says, "just so I could be around people. I loved it."

Like many of her generation, Alice married young, worked and went to school while raising her family. (She now has six grandchildren as she attends school four nights a week - sometimes until after 11 p.m."

I'll just take on some extra pages."

I have recently been notified that I have been awarded the School of Nursing Scholarship. I would like to express my deep appreciation for the support of the Association.

I am a student in the Generic BSN Accelerated Evening Program. I am employed as an Executive Assistant for a Center City firm that is involved in manufacturing operations and real estate investment. Some of my major areas of responsibility are: risk management, profit sharing plan administration, personnel, etc. I have formerly worked as an accounting clerk and an automobile dealer with supervisory duties. As a student, I believe part of the learning experience is to become involved and, therefore, I am student government representative and member of the Curriculum Committee.

In 1990, I made a decision to pursue a long held dream of becoming a baccalaureate nurse. The evening program was the only way I was going to accomplish this due to the fact that since I maintain a home for my daughter and myself, I am not in a position to leave my job (or accept part time employment). The decision, I made in 1992, to attend Thomas Jefferson University was filled with uncertainty because of the financial implications. The scholarship that has been awarded to me goes a long way toward relieving the burden. It is particularly heartwarming because, as an older student, I was fearful that no funding would be available to me. As a non-traditional student, it is difficult balancing the responsibilities of school, home and work. It is through, not only the emotional support of family and friends, but the generosity of people such as you, that many of us are able to accomplish our goals and, hopefully, give something back in the future. Thank you.

Yours truly,

Alice Drumm
LORETTA SUBER HEDYUK, ’71, R.N.C., M.S.N. has been ap- pointed director of the recently created Division of Partial Hospital Services at Friends Hospital. This division encompasses all partial hospital programs of the private psychiatric hospital, including a Day Program for adults at its main Northeast Philadelphia campus and the Passage, a partial program for adolescents located in the Centennial School District in Warminster, Bucks County. Under her leadership, the hospital is also developing additional partial programs at its main campus, including a program for the elderly and another for adolescents. “Changing patterns of delivery of mental health care have resulted in a much greater emphasis on ambulatory or outpatient programs,” comments Malcolm Strickler, M.B.A., acting CEO of Friends Hospital.

Loretta, a resident of Northeast Philadelphia, has worked at Friends Hospital since 1971 in key nursing management positions. In 1984, she helped create and was appointed senior nurse coordinator for its Day Program. As director of partial hospital services, she is responsible for planning, marketing, and managing daily operations of all the hospital’s partial hospital programs, including supervising program coordinators.

She holds an M.S.N. in nursing with concentration in nursing administration from Villanova University, a B.S.N. in nursing from LaSalle College, and in 1971 a diploma in nursing from Thomas Jefferson University Hospital School of Nursing. She was certified in psychiatric and mental health nursing by the American Nurses Association in 1985.

THOUGHTS FOR YOU TO PONDER

T. Lincoln walked 20 miles to borrow a book. Now they close libraries to celebrate his birthday! The best thing about the future is that it comes one day at a time. Even if you are on the right track, you get run over if you just sit there! The three essentials of happiness are something to do, someone to love, and something to hope for. There is no tranquilizer in the world more effective than a few kind words. Our duty is not to see through one another, but to see one another through. Blessed are those who give without remembering and re- ceive without forgetting. The time to make friends is before you need them. Joy shared is joy doubled. Sorrow shared is sorrow halved. Faith does not demand that we win; it does demand that we keep trying. If you think education is expensive, try ignorance. Some things are loved because they are valuable; others are valuable because they are loved. It doesn’t do any good to sit up and take notice if you just keep on sitting. The measure of a man is not how tall he is, but how much his neighbors respect him. We need some clouds in our life to have a beautiful sunset. Minds are like parachutes ... they function only when open. In the midst of everything, take time to love and laugh and pray. Then life will be worth living, each and every day. Success is relative ... the more success, the more meaningless.

WHAT KIND OF BONE ARE YOU?

There are four kinds of bones in every organization. There are the WISH-BOONES, who spend their time wishing someone else would do the work. There are the JAWBONES, who do all the talking, but very little work. There are the SNACKLEBONES, who knock everything anyone else tries to do. Finally, there are the BACKBONES, who get under the load and do the work. What kind of bone are you?

SEIZE THE DAY

Life goes on even though I have Multiple Sclerosis. I have been in a wheel chair for 16 years, with no bed sores ever. This can be attributed to the good care received from health care aides and my nursing experience which has helped me to direct them.

One day at a time

When I woke up this morning at 7 a.m. to a p.m. health care aide enters my studio apartment, she very often begins singing, “Good morning dear teacher, good morning to you, ...” a refrain we all remember from childhood days. It seems almost every day I hold a teaching session, either about my own care or some medical problem of hers or her immediate family. Teaching still is very dear to my heart.

In the past I tutored graduate and practical nurses who had not passed the State Boards. Everyone I tutored has gone back to pass her exams. I miss tutoring people. But it is so time consuming just to meet life’s necessary situations that I can tutor no longer.

On with the duties of my morning home health aide. The articles that were placed on my bed the evening before by 4 p.m. to 7 p.m. health care aide are removed. They include: hand extender grabber, facial tissues, reading glasses, pads, current book, pampers, a few chucks, Jean Nate powder and spray, an emergency alarm in a red zipper bag, the TV guide and the TV remote control. These items allow me to be comfortable while I am alone through the night.

Because I am alone through the night, a woman comes in for a short period to reposition me, refill liquids, and see that the telephone is within my reach. I continue to report that the Hoyer lift is a necessary part of my life. My health care aides have mastered this contraption. I sit on a canvas with hand extender grabber, facial tissues, reading glasses, pads, current book, pampers, a few chucks, Jean Nate powder and spray, an emergency alarm in a red zipper bag, the TV guide and the TV remote control. These items allow me to be comfortable while I am alone through the night.

VIEWS OF ART

"He's a brave man," the clerk at the counter said. "Most of us would give up if we were blinded at such a young age."
During his recovery, he made sure the world wouldn't change. So, as before, he and his wife come in whenever there's a new show about art. "But what does he get out of the art?" I asked. "He can't see."
"Can't see? You're wrong. He sees a lot. More than you and I. His wife describes each painting so he can see it in his mind."
I learned something about patience, courage and love that day. I saw the patience of a young wife describing paintings to a person without sight and the courage of a husband who must be charged every night. It's quite natural to assume that they are NOT ("Trust me, I work at Harborview. That's where I come from.")
Cognitive Behavioral Therapy is my treatment modality of choice. Stress management and psychosocial/immunology are major areas of emphasis in my work. I won't attempt to sort out whether I chose these as a major line of personal development because I was never in a play setting. For the boys, it's all about survival (including three decades of dealing with a child born with mongoloidencephal and hydrophobia)....or just came by the interests of a bent toward the science of life. In any case, once again my nursing background came in pretty exciting to provide a kind of psychotherapy which helps others maximize their own internal resources in dealing with physical, social and educational, and other stressors.
These things plus reading, writing, making tapes of Relaxation Technique and/or imagery, occasionally bicycling, and presenting workshops on stress management have been pretty rewarding. The combination of nursing, music and clinical psychology is one I can strongly recommend. (Tell THAT to the little judges within.) Joyce Shaffer, Class of 61, Diploma School of Nursing.

A PRAYER

Give us, Lord, a bit o' sun,
bit o' work and a bit o' fun.
Give us in all the struggle and sputter,
Our daily bread and a bit o' butter.
Give us our health to keep us alive
And a bit to spare for other's sake
Give us, too, a bit of song,
And a bit to spare for other's sake.

PSYCHOLOGY AND NURSING

A Healthy Union

When asked to write on what I do, I eagerly agreed to the writing of the love I have for all things professional in my life. Now, many months later, as I note I've not even structured my thoughts on the topic. I ask friends “whay and where to begin?” Flunny, isn’t it, how easily diminutive things come into view, the blinking cursor implies urgency. Out steps one little judge saying, “Oh DO get on with this, would you?” while another asks “What of REAL consequence DO you do?” or some such. Not always kind, these internal judges.

Which brings me to the matter at hand, so to speak. Health care employment by the University of Washington at Harborview Medical Center in Seattle includes a faculty appointment as Clinical Assistant Professor in the Psychology and Behavioral Sciences Department. A small part of my responsibilities at Harborview includes educating new staff, medical students, and residents about the Involuntary Treatment Act (ITA). However, the bulk of my work there is as a forensic psychologist (court evaluator) for ITA patients.

During their first 72 hours of detention, my job is to evaluate the patients to see if they have a mental disorder and, if so, to determine if treatment is essential and, if so, if they will be a “good faith” voluntary patient or need a court order for further detention. If a court order is indicated, I file a petition with the court. Since the patients have the right to a hearing prior to detention beyond the 72 hours, I often end up before the judge testifying as to the mental disorder and the patients need further involuntary psychiatric evaluation and treatment.

All other court evaluators in the Harborview system are licensed psychologists as I am. However, being a Registered Nurse gives me the additional advantage of being able to testify in court as an expert witness on medical matters relating to those patients who are gravely disabled due to a mental disorder. After 10 years at Harborview, it is still the best job I’ve ever had, that is to provide the opportunity and stimuli to keep me fromer at the edge of cutting edge psychiatry, medicine, and the law. Besides, assessing ITA patients has quite an additional impact in providing psychotherapy with people like you and me.

Our health care employment is my private practice as a psychologist in Bellevue, Washington. When the occasional patient there says, “I know you’re gonna think I’m crazy...” it’s quite natural to assume that they are NOT (“Trust me, I work at Harborview. Where’s that where I come from.”)
Cognitive Behavioral Therapy is my treatment modality of choice.

One afternoon I toured an art museum while waiting for my husband to finish a business meeting. I was looking forward to a quiet view of the masterpieces.
A young couple looking at the paintings ahead of me chatted nonstop. I watched them a moment and decided she was doing all the talking. I admired her patience, but putting up with a constant parade of words.
Distracted by their noise, I moved on.
I encountered them several times as I moved through the various rooms of art. Each time I heard her constant gush of words, I moved away, as the museum was new and pulled out a white object. He extended it into a long cane and then tapped his way into the corridor to get his wife’s jacket.

One friend to the mainline performance of “Chorus Line” in center city. At that time I could transfer to an end seat, and my friend folded the wheelhead and put it in the back of the theater. This no longer can be done. Nevertheless, I have a new electric chair which affords me more independence. I no longer need to be pushed by anyone. I just press my joy stick, say goodbye, and I proceed! The battery must be charged every night. It’s interesting to see how airplane pilots use a joy stick mechanism to fly the planes.

The Cuban Missile Crisis

Coverage of the anniversary of the Cuban missile crisis left an impression on me this year. It was hard for me to believe that 30 years have gone by since this crisis. I met a naval officer right after it took place, and he said that “they had orders to shoot.” We were all on the verge of extinction the next day. Only because of President Kennedy’s wise decision, and his agonized choice, was the world saved from nuclear warfare. I’m happy to write this article 30 years later.

A Military Honor

During World War II, I was an Army nurse based overseas for two years. Today there is the Women in Military Service for America Memorial, authorized by Congress and supported by the Department of Defense and the Department of Veterans Affairs. However, money must be raised through private donations. A dear friend of mine honored me by making a private donation on my behalf. I wrote her a summary about my service record is now included in the computerized database memorial register.

The memorial for Women in Military Service is at the gateway to Arlington National Cemetery. The Memorial includes a reflecting pool, graceful sculptures and a skylight. Should you visit there, you’ll be able to learn about Vivian Moyer’s years as an Army nurse by “punching up” my name on the computer.

Church Ties

Whenever I go to church, the Reverend Edgar G. Adams, and his assistant, the Reverend Lynne A. Grifo, always deliver a meaningful and encouraging message. Pastor Lynne is a great help to me, and I’m always inspired by Pastor Adams’ messages.

My Family

My niece, Laurie (an attorney) is married to Bob Gunther (also an attorney). Their three children are Russell, age 11; Paul, age 9; and Allison, age 4-1/2. We have delightful visits about once a week when Pat, the babysitter, brings them for pizza and a play session. For the boys, it’s baseball cards and the active competition of shootingballscintothehooponthetookastrairedmananddog. For Allison, it’s a white object. He extended it into a long cane and then tapped his way into the corridor to get his wife’s jacket.

Alumni Office News

The Alumni Office continues to be a "beehive" of activity. It amazes us the number of requests we get, either by phone and/or letter or in person, and we really go the "extra mile" to provide a satisfactory answer.

BIRTHDAYS — By the end of 1993 flowers and/or birthday cards will be sent to 42 of our 80 and over graduates, more, if we learn about their birthdays. If you are 80 or more (or if you know of a graduate who is in this category), please send the following: Name — first, maiden, married. Year of graduation — month, day and year. Social Security number and telephone number.

COMMITMENT TO EXCELLENCE — If you did not receive a copy of this book when the School of Nursing closed in 1992 and would like a copy, (no charge) let us know and we will be happy to send you a copy as long as our supply lasts. The book is the history of our school from its beginning in 1921 until the closing in 1982.

CAPS — We have 22 caps left, we ask a $6.00 donation plus $1.00 for handling and postage.

MOSKOCOMMENTS — We wish we had a 1953 and 1967 Moskocom to complete our set of year books in the Alumni Office. We ask you to forgive any misspellings and/or other errors. We try to hard. We do appreciate your thoughtfulness.

1971 YEAR BOOKS — We have six extra copies of the 1971 Moskocom available. If you would like a copy, let us know.

PHOTOS — We have six photos in a folder of the painting "Jefferson Student Nurse" available for a $5.00 donation plus $1.00 for postage.

THANK YOU CLASS OF 1942 — For presenting a framed copy of the painting "Jefferson Student Nurse, 1981 to 1982" to the Alumni Office, we do appreciate your thoughtfulness.

Volunteers — Again we would like to say thank you to our volunteers who are so willing to give of their time when we need them. We do appreciate their help.

Alumni Office Coordinators

RELIEF FUND COMMITTEE
Jefferson Nurses Diploma Program! As you know, we, the Jefferson Nurses’ Alumni Association, have a Nurses “Relief Fund Trust”. This trust is available to assist graduates of the School of Nursing (Diploma Program) and the White Haven School, who are ill, disabled or in need of additional support or maintenance.

Please let us know if you, or another graduate needs assistance.

The preliminary application found in the back of the bulletin can be sent to the Alumni Association. A second application will be sent to the applicant by the committee. When completed and returned the committee will evaluate the request, and the applicant will be notified as soon as possible. The amount of assistance is determined by the committee. All information on the application is confidential.

This year we have been able to assist eleven of our graduates. Some receiving a monthly stipend, and others a one-time gift.

The Relief Fund Committee also sends monetary gifts at Christmas time to those graduates known to be home bound or in a nursing home. Birthday flowers are sent to our graduates who we know will be celebrating their 80th or over birthday.

Lorraine McCall
Chair, Relief Fund Committee

BULLETIN COMMITTEE

The committee wishes to thank all of you who have in any way contributed to the 1993 Bulletin. We hope you enjoy reading it.

Again, we ask you to forgive any misspellings and/or other errors. We try so hard to do everything right, perhaps we try too hard.

Please continue to send interesting bits of news about you and your family. If your job is unusual we will send it very rewarding considering writing a short article about it. We need material for our 1994 bulletin.

Remember — the bulletin is only as interesting as the materials we receive from you our fellow graduates. Thanks again for all your help.

Chair, Bulletin Committee

stop first, so that the driver is forced to stop. He will try to get their first so he can pretend he hasn't seen you running for it and accelerate past. Thrills, spills and a challenge for everyone.

A report is written by Dr. Barbara Duchworth Arkes ’51, Joanne Garber Sencindiver ’51, Flickinger ’51, Nancy Thompson ’51, and Anna McCairns, PhD. It also includes classmates who have passed away since the last update.

Class of 1993
Emma Phoebe Kial (Witten), 11190 Burmont Road, Drew Hill, PA 19026. Things are the same. My best to all my classmates.
Adeline Roth Miller (Benjamin), 6704 Glen Avenue, Glen Dale, MD 20769. I am sorry to report that missed our 60th reunion in 1992. It was good to attend the luncheon this year and get the latest news of Kit and Kix.
Hazel Greger Biddle (Adair), 214 Stonybrook Drive, Norristown, PA 19403-2734. I am active in a docent in an 18th-century historic restoration and in two heritage classes. I’ve had to relinquish other volunteering because of my husband’s health.
Elaine Cautumanti (Dumford), 516 Hillside Drive, West Chester, PA 19380. Rosal’s son Robert wrote the following: “Rosal had a dulcimer unit operation in November and had no problems (progeria fail­ure) in February. She is doing better now as her daughter Nancy is nursing her back to health.”
Carlyle Jones Tissas, 431 John Ardine Drive, Ormond Beach, FL 32175. I hope I’ll be able to attend the luncheon next year. I do miss my classmates.
Class of 1933
Elmer Plant Tiska (Howard), 2746 Carlton Place, York, PA 17404. Good health and good luck to all. It is interesting to note how many Jeffersonians live in New York.
Katherine Kinde Leach, 86th Rie Hauss Lane, Hammetsworth, PA 70396. My twin grandchildren graduated from Mary Mount University on May 1st.
Elizabeth Rohrini Cobb, 12 High Street, Carbondale, PA 18407. I always appreciate the bulletin and read it as soon as I can. I’ve had a set-back in my health, however, because I was born with a bronchial spasm cutting off oxygen. I have a low tolerance to medicine and the blood pressure pills. I take more medicine. Hello to everyone.
Martha M. Lec Garver (Darly), 228 N. Norths Avenue, Bristol, PA 19007. Hello to all my classmates. Old age does not seem to be a happy way of life, although we keep struggling along for another year. Best wishes to all for good health.
Pauline Helms Kough, 76 Eon Lomard Street, Apt. 1, Unkintook, PA 15401-3636. Hello to all the remaining members of the class of 1933.
Dorothy Deene Norris, 7201 Liberty Street, Easton, PA 18042. Peace and good health to all my classmates.
Marie Poitell Carey( Janey), 2135 Kings Drive, Lewes, DE 19958. My husband and I observed our fifth wedding anniversary on June 30th. He is still very healthy and we are both enjoying the health. A hello to all my classmates. I enjoy reading the Bulletin.
Class of 1934
Dorothy Walt Collins, 201 E. Broad Street, Apt. 3-11, Tampico, PA 18525. I’m in good health, I keep busy with crippled children’s clinic, blood mobile, meals on wheels, and volunteer 4 hours a week at Miners Memorial Hospital as a volunteer, and the holding hand here at the Majestic House. My daughter-in-law is an RN and works at JFK Hospital.
