Dear Alumni:

Another year has flown by and the Alumni Association continues to seek ways to have membership participate in the decisions which must be made. Although the decisions are the responsibility of the Board of Directors, the Board needs to know the opinion and desires of the membership before the decision is made. Hearing dissension does not help. The opinions and objectives must be considered when the problem is discussed and argued before a vote is taken.

It is discouraging to have so few members participate in the meetings, including the annual meeting. It makes one wonder the true purpose of the Association. Oh, the membership is very generous with annual giving which keeps the organization alive (and we do appreciate your generosity), and in helping meet the obligations to the University which were accepted by the members who voted. And that is the democratic way.

We are a very unique group of women, with a sprinkling of men. We offer financial assistance to our members who have fallen on bad times, and we help others to move up the academic ladder to meet current nursing demands. Few organizations do that to the extent that we do.

So, now, if only some would agree to help with the organizational work, we would be in clover. There must be some of you out there who could give a small amount of time a year to your fellow Jeff nurses via Alumni committees and meetings.

As you can read, I am in a slight depression right now. I can’t tell if it is the weather, or the non-stop heat, or the loss of the first message I wrote and mailed which never arrived in Philadelphia. It will change, I don’t stay “down” long, especially when I think about Jeff nurses.
"News About Our Graduates"

MARY L. BENNETT ROCHELEAU, '65. Mary is community relations director, School of Nursing University of Colorado. She is a member of the Centennial Council which has been formed to help guide the Colorado University School of Nursing's development activities and shape its mission as it moves towards its centennial year in 1998.

MADELINE M. ULLOM, '38. In 1993, nearly 50 years after her liberation, a former prisoner of war helped inspect present day troops from her perch in a "humvee" at the POW/MIA Recognition Day retreat ceremony on historic Brown Parade Field.

Retired Lt. Col. Ullom, a former Army nurse captured in the Philippines, attended the event as the distinguished guest of Maj. Gen. Samuel A. Leffler, Commanding General, Information Systems Command, who presided over the ceremony. Among the troops under her scrutiny were soldiers of the 11th Signal Brigade, as well as the 36th Army Bank and B Troop, 4th Regiment, U.S. Cavalry (Memorial).

Madeline was serving as an Army nurse on Corregidor Island in the Philippines when on May 6, 1942, the Japanese took it. She spent 1,000 days in captivity before being released on February 3, 1945.

In 1993 more than 700 Prisoners of War/Missing in Action supporters joined together to walk the 2, 10 or 20 mile trails in the 6th annual POW/MIA Walkathon at La Hacienda NCO Club.

Retired Lt. Col. Ullom gave an inspirational speech that kicked off the Walkathon. She was also the guest speaker at the prayer breakfast at La Hacienda NCO Club.

OLGA HUBIAK, '54. Olga says, after a long and successful career as a Private, OR, Clinical and Supervisory Nurse, I am now retired and enjoying life in Southern California. She spent many years at Harbor UCLA Medical Center, County of Los Angeles.

She got her education, B.S.H. and her M.S.H.S. (Medical Management) at Chapman College, Orange, California, her R.N. from Thomas Jefferson Hospital in Philadelphia; P.H.N. from California State University, Long Beach, and continuing education at El Camino College, Torrance, CA; Santa Monica College, Santa Monica, CA and Long Beach City College, Long Beach, CA.

Olga's fields of interest were Nursing Supervision, Operating Room Nursing and Clinical Nursing.

CATHERINE T. BETZ, '45. On Veteran's Day 1993, Col. Catherine Betz was among the female Vietnam veterans who marched up Pennsylvania Avenue in Washington, D.C. to the cheers of thousands of spectators. Ms Betz said "there is no way of explaining the emotions she felt that day." It was Veteran's Day and the birthday of the Marine Corps and the city was full of veterans. When the march was over, hundreds of soldiers put their medals at the base of the Women's Vietnam Memorial which was being dedicated.

Ms Betz graduated from Jefferson Hospital School of Nursing in 1945 and remained on staff. She joined the Army Reserves and in 1951 was sent to Korea and returned to the U.S. and Jefferson in 1953. She earned a BS degree in nursing at Temple University. Kitty decided to make a career of the military and was stationed at Regensburg, Germany; Fort Sam Houston and Walter Reed Hospital in Washington, D.C. She attended Duke University and in 1962 earned a master’s degree in medical-surgical nursing. Then, it was back to Fort Sam Houston for a three year term as Director of the Army Nurse Corps in 1962. The course. On Holy Saturday, 1968 she spent her first day in Vietnam, in Southeast Asia.

Her final assignment came in 1973 when she was named head of the Department of Nursing at William Beaumont Medical Center, El Paso, Texas.

In 1975, Kitty retired. She had been awarded the Legion of Merit, the Meritorious Service Medal with Oak Leaf Cluster, and the Army Commendation Medal with two Oak Leaf Clusters. Her retirement ceremony was attended by her mother, five sisters and 26 friends from all over the country.

While attending Collinswood, NJ High School she excelled academically and athletically, earning letters in Tennis, lacrosse, basketball and field hockey. For Betz, her life has been a combination of sports, medicine and the Armed Services.

SARA (SALLY) SUMNER, '75. Sally, RN,CCRN is a joint recipient of the first Amelia Earhart Award of PNA's Nurse Entrepreneur/Intrapreneur Council. Sally with her partner utilized their professional expertise and ventured into business in 1981.
Recognized. It took her ten years and $4,000.00 after being turned down in the beginning. Another statute will be erected for the 250,000 women who served in all wars. The Vietnam nurses memorial is located near the WALL, so the nurses can be near their fallen brothers.

Tanya says that although the memorial doesn’t “say” enough it is a time for closure. All her giving in Vietnam, seeing the pain and suffering of those involved in what many considered “political war games”, many nurses gave up their careers. She also says there was subtle discrimination against women in the service and now the memorial recognizes women who served honorably with their male counterparts. She feels it now gives all Veterans a reason to unite.

Tanya credits Jefferson for having taught her so much. Vietnam veterans often turn to the nurses for help. The nurses who served in Vietnam and the needs of the tri-state area. They showed persistence setting legal battle with the U.S. Internal Revenue Service which clarified independence and autonomy of professional nurse contractors, while at the same time establishing themselves as professionals dedicated to the advancement of the profession.

The “win” was covered by the Wall Street Journal and resulted in women testing before Congress. Sally and her partner, Pam have been active in PNA District 23 and in the Pennsylvania Nurses Association, tailing hundreds of volunteer hours between them.

Criticare has provided an environment and opportunity for nurse entrepreneurs to staff, supervise and administrate. The firm has provided staff development services as well as survey consultation. Any nurse who is considering an alternative practice can call Criticare and receive information on how to become an independent contractor or start a business. Sally and her partner expanded this assistance to other nurses by founding “Mothers” of PNA’s Nurse Entrepreneur/Intrapreneur Council, which has already assisted many nurse-owned businesses and has also encouraged intrapreneurship in the work place.

Sally holds a diploma from Thomas Jefferson University Hospital. She has been on the PNA Board of Directors and currently is president of the Nursing Foundation of Pennsylvania. She has also been an ANA delegate and is past president of the Nurse Brokers and Contractors of America.

CAROLYN DOORLY ZZVARD, ’61 James Hospital of Philadelphia, has promoted Carolyn to vice president of quality management services. She’s responsible for adopting total quality management throughout all departments and the medical staff.

GLORIA CORZEN ESSOKA, ‘59. Gloria spent 1991-1993 as a visiting professor at the University of Malawi in South Central Africa through a Rockefeller Foundation Grant. Since 1971 she has taught in a baccalaureate program and earned a PhD (nursing) in 1980. Gloria and husband Modi have two children, Jonathan, 25, a graduate student in Environmental Engineering at Tulane University. Their daughter, 23, recently graduated from Hunter College and plans to enroll in a BS program at Penn or Jeff. Through the alumni bulletin Betty Smith Patterson, ‘60 and Gloria were re-united after 30 years. At present Gloria is Associate Professor, Hunter-Bellevue School of Nursing.

TANYA ZATARINY, ‘57. Tanya attended the unveiling of the nurses Vietnam Memorial in Washington, D.C. In 1970 she retired as a Commander from the U.S. Navy, having served on the hospital ship. She received her invitation from the Navy Nurse Corp, organization to attend the ceremonies on November 11, 1993. Diane Evans, a former Army nurse was instrumental in having the nurses finall

An Old English Prayer

Give us, Lord, a bit o’ sun,
A bit o’ work and a bit o’ fun,
Give us in all the struggle and sputter,
Our daily bread and a bit o’ butter,
Give us health our keep to make
And a bit to spare for others’ sake
Give us, too, a bit of song,
And a tale and a book to help us along.
Give us, Lord, a chance to be
Our goodly best, brave, wise, and free,
Our goodly best for ourselves and others
Till all men learn to live as brothers.

Department of Nursing
1993-1994

The 1993-1994 year has been a banner year for the CAHS Department of Nursing. For most important achievement was the approval of our Family Nurse Practitioner Program (FNP) by the Board of Trustees in June 1994. And we were all most appreciative of the ongoing support for the Program provided by CAHS Dean Lawrence Abrams and our Jefferson Medical College Colleagues. Students will begin to enter the program this fall.

Nursing faculty have also excelled in personal accomplishments this year. In addition to election into the American Academy of Nursing, Dr. Laurie Sherwen, Director of the Master's Program, was promoted to the rank of full professor effective July 1, 1994. Ms. Gloria McNeal, Assistant Professor and Acting Coordinator of the Critical Care/ Trauma Track, has been appointed to the Advisory Board of the University of the Arts, College of Performing Arts and Art Design. Dr. Joen Jenkins was appointed as the Director of the Baccalaureate Division, in addition to her promotion to Associate Professor. The masters degree program has undergone a number of changes during the year. In addition to the acceptance of the Family Nurse Practitioner Program as noted above, the program has added a nurse administration track. The nursing administration track was approved by the University Board of Trustees in March and will begin this fall 1994. The masters degree program will also begin an HIV/AIDS subspecialization in fall 1994 furnished by the Department for Health and Human Services Rehabilitation Services Administration.

The faculty continue to give excellent service and women's health was exemplified this year by the new Women's Center for Health Promotion which was launched with a three year grant from the Philadelphia based Independence Foundation. Similarly, cancer related grants received from the Avon Foundation and the Philadelphia Corporation for Aging further enhanced faculty efforts to reach out to the community surrounding Jefferson. Under the guidance of faculty, our students made significant community health and public health contributions in the greater Philadelphia area. Students have been part of immunization programs, health assessments, health fairs, and other related activities.

Alumni Office News

We are sure you are aware that the alumni office is the HUB of activities for the Alumni Association. We continue to be as busy as the proverbial "one armed paper hanger". We invite you to visit our office when you are in town. Our usual day in the office, but call first to be sure we are in.

BIRTHDAYS - By the end of 1994 flowers and/or birthday cards will be sent to 61 of our and over graduates. If you are 80 or over, or if you know of a graduate who is in this category, please let us know:

New Business - Please let us know:

- The following locations:
  - Name - first, maiden, married. Year of graduation
- COMMITMENT TO EXCELLENCE - If you did not receive a copy of this book when the School of Nursing closed in 1982 and would like a copy, send us your SS# and $5.00 plus $1.00 for handling and postage.

GOSOKOMOS - We wish we had a 1968 Nosokomos to complete our set of year books in养生. Alumni Office. CAN YOU HELP?

1971 YEAR BOOKS - We have six extra copies of the 1971 Nosokomos available. If you would like a copy, let us know.

PHOTOS - We have 5x7 photos on a folder of the painting "Student Nurse Student" available for a $3.00 donation plus $1.00 for handling and postage.

CAPS CHARMS - We are sorry, caps charms are no longer available. The company that made the charms went out of business several years ago, and the cost would be prohibitive to have them made at today's prices.

SOCIAL SECURITY NUMBERS - We are in the process of updating our alumni records and have noticed that we do not have your social security number. It is the primary identification number in our alumni computer system. At present you have an "assigned" identification number for auto insurance and there has been no problem. Some of our lists and labels are sorted by the social security number. To ensure that you are included, won't you help us keep our records complete, and send us your SS# when we ask for it.

DOUBLE YOUR DOLLARS! If you or your spouse worked for a matching gift company - you could double or even triple your gift, by including a completed matching gift form with your gift.

VOLUNTEERS - Again we would like to say thank you to our volunteers who are so willing to give of their time when we need them. We do appreciate their help.

The Women's Center for Health Promotion

In January 1994, Elizabeth J. Forbes, Ed.D., RN and Diane M. Wieland, MSN, RN, CS, Co-Directors for the project and faculty in the Department of Nursing, College of Allied Health Sciences, at Thomas Jefferson University, received $237,168.00 from Independence Foundation of Philadelphia for a three-year project to establish a Women’s Center for Health Promotion for Disadvantaged Women in Center City Philadelphia. For the purposes of this study, disadvantaged women are defined as “individuals who come from an environment that has inhibited the individual from obtaining knowledge, skills and abilities necessary for assuming responsibility for health promotion/health protection activities.” In addition, many disadvantaged women come from families which meet U.S. Census Bureau low income thresholds by family size. The end goal of the Women’s Center for Health Promotion is to guide national priorities identified in Healthy People 2000; Healthy America: Prioritizers for 2020, Health Security Act of 1993; and the N.I.H. Office of Research on Women’s Health.

The goals of the project are to:

1) Identify the unmet health promotion/health protection needs of disadvantaged women in the surrounding area.

2) Establish a nurse-managed center to provide health promotion/health protection activities, and to provide a setting for related nursing research, and nursing student learning experiences focusing on women’s health.

3) Provide holistic and culturally sensitive health promotion/health protection activities to disadvantaged women.

4) Foster an interdisciplinary approach to meet the health promotion/health protection needs of disadvantaged women.

The disadvantaged women’s health care priorities will be identified by conducting a needs assessment and by building alliances with consumers and clergy in the community and through input by members of the Center’s Consumer, Professional and Advisory Committees. The Women’s Center for Health Promotion is housed in the Department of Nursing, Learning Resource Center, College of Allied Health Sciences of Thomas Jefferson University. It is also a “Center without walls” in that health promotion/health protection activities will be conducted in community settings such as churches and community organizations.

As of May, 1994, we have established four sites in the community; The Coffee Cup, a Philadelphia Corporation for Aging Satellite, on 12th and Locust Streets; Cole’s House, low-cost housing facility for single women, located on 9th and Clinton Streets; St. George Manor, a retirement community on 10th and Locust Streets; and St. George Cathedral on 6th and Spruce Streets. The latter two sites afford us to become familiar with the Greek culture. The clients at Cole’s House and the Coffee Cup represent a variety of ethnic groups.

The Center will provide many educational experiences for undergraduate and graduate nursing students and opportunities for faculty practice and research in a nurse managed setting which focuses on women’s health. In its first year of operation, the Center will identify research initiatives, provide educational programs and conduct selected health promotion/health protection activities.

During the second year, more health promotion/health protection, nursing interventions, and research activities will occur. By the third year, full health screening and educational programming, research and project outcomes will be actualized. To this end, a quality improvement plan of methods will be employed to carry out systematic formative and summative evaluation of each phase and component of this demonstration project.

Since April, Dr. Forbes, Ms. Wieland, Ms. Davis-Moon (Nurse Manager) and the students currently involved in the project have provided educational programs on breast health, hypertension and low salt diets, as well as blood pressure screenings for the community. The Center has developed a collaborative relationship with the Family Medicine Department, Jefferson Medical College for referrals.

The Women’s Center for Health Promotion is developing plans for support groups, grief counseling, psychotherapy services, parenting classes, stress reduction classes, and programs for the older woman. We would encourage any of you to become involved, and use our Information Line Number, (215)955-8538, to become involved.

Cadet Nurse Corps

A major factor behind the upsurge in student enrollment at Jefferson was the creation of the Cadet Nurse Corps by Congress in June, 1943. It was designed to relieve the acute shortage of nurses brought about by the demands of the armed forces. Students admitted to the Corps included 1,126 nursing schools with all their educational expenses paid for a period of 30 months instead of the usual 36 months so that senior cadets could be utilized for military service for the last six months, if necessary. On duty cadets wore the uniforms of the schools they attended and were treated the same as other students, insofar as admission and graduation standards were concerned.

Nevertheless, the nurses were hard put to cope with a growing civilian patient load in the hospital. Such trained volunteers as the Gray Ladies, nurses aides, and canteen workers were welcomed with open arms. Not until 1944 did the eight-hour day become a reality. A special sort of camaraderie developed among the students during those long days and nights of sheer drudgery. One girl secretly married her GI boyfriend before he went overseas and became pregnant. Her friends managed to keep her covered with large aprons as the months progressed, and she made it through school without being discovered and disheartened.

Troubles

Troubles come in every shape,
And tend to make one frown -
But just cheer up, and never let
Your troubles get you down.
For if you stop to think of it,
More often than not,
Your troubles don’t seem quite like ones
That other folks have got.
If only magic spectacles,
Could really help one see
That troubles are but stepping stones,
And not catastrophe.
For on this journey we call life,
When troubles bring dismay,
There’s always hope and sunshine
Of a clearer, brighter day!

Sister Miriam Barker, C.D.S.
Medical Anecdotes of Faith

It is more than 50 years since I was a student nurse at Jefferson, but I have never forgotten one special doctor, Dr. Edward Klopp. There were two surgical services, and he was Chief of one of them. Everybody admired and loved him.

As I remember it was on an evening that was shift on Women’s Surgical. The ward was darkened and quiet. The first bed, near the nurses station, was curtained off. Dr. Klopp had operated on the patient that day, in the amphitheater (known at “The Pit”), overs sore, and his voice was, again. Most stroke patients are resentful of what has happened to them, but in his voice, was only regret.

When his nurse came back a couple minutes later, I was in the bathroom, emptying the basin. Tears were streaming down my face. In alarm she asked me, what happened? When I told her, tears streamed down her face, but we smiled at each other through our tears. We felt so privileged to be able to care for such a man.

Michaelangeleschi’s picture in the ceiling of the Sixtine Chapel, shows God’s hand reaching down to man. We felt we had touched a hand that had been touched by the hand of God.

By: Mildred Greenlee Durham, ‘38

Ed’s note: The hand of God continues to reach down and touch the hands of many of our doctors and nurses. This evening, we are touched once again. Overall, Jefferson’s staff consists of caring and concerned doctors, nurses and all others working in the hospital.

Ukrainian-American Teacher Exchange

Jeff Grad Participates in First Ukrainian-American Teacher Exchange in the Fall of 1993.

Dr. Dowling just couldn’t get over the conditions under which the doctors worked and their lack of equipment and supplies and commended their work. I asked them about Chengil and the doctor stated that according to his statistics there had not been a great increase in disease or tumors. However, I told them that I had seen much more in America that we often can’t use it fast enough, even though it is okay, so we date it. He seemed to agree with that explanation.

Dr. Dowling and I were introduced to a young physician in an inner city hospital. I felt really touched by the hand of God.

We were receiving inhalation therapy and had small stationary bicycles for exercise.

I wondered how much milk the children drank for I never saw any offered during the school lunch. Nor was I offered any during my entire stay in Ukraine - yet I had sour cream.

I was only offered water in a bottle and told by Serge and Kalia (my hosts) not to drink the tap water. The bottled water was bubbly and had a salty medicinal taste that I just did not drink. The water was still up - and yet my skin was drying out due to lack of fluid.

I had enough food and it was tasty. Beets, cabbage and potatoes were available and in season so we ate these many different ways.

Ukrainian school nurses wear uniforms, give vaccines, but do not teach. Family Life (sex) Education is apparently nonexistent. Some principals were very interested in obtaining our curricula. Our interpreters were embarrassed to discuss sex ed. Students in an advanced school was taught about “speed” so I started to talk about amphetamines. I looked at their faces and realized that something was not clicking. Through the interpreter I realized that they were asking me about AIDS. Ukrainians call AIDS “infection of 1987” - I am not sure what I could gain children with mental or severe medical problems attending boarding schools outside the city. Parents would have a difficult time getting sick children home every day using the only means of travel which is usually public transportation. It seemed that conditions were not good in these schools and that they had a difficult time getting teachers to work there.

There is so much beauty in the areas of Lviv in Western Ukraine and Kiev in Central Ukraine and yet

Jeff Grad participated in the first Ukrainian-American Teacher Exchange. The program was the most incredible, educational and emotional journey of my life. The Ukrainians were honored to have us as guests and they treated us royally.

I visited two hospitals with Dr. William Dowling, a family practitioner in Santa Monica, California. We were introduced to a young physician in an inner city hospital. I felt really touched by the hand of God.

We were receiving inhalation therapy and had small stationary bicycles for exercise.

There is so much beauty in the areas of Lviv in Western Ukraine and Kiev in Central Ukraine and yet
life there is so difficult. In Lviv, we had to bathe during certain hours because the water was turned off. People walk a great deal which is good, but I took my host's arm when he offered it so I would not fall. If they need to run a pipe it was over a sidewalk and not under it. Many apartment (flat) areas are poorly lit and I did not want to fall especially after having visited the hospitals. We were taken by train to Lviv in Western Ukraine - but that was an experience in itself. We visited the University of Lviv and an art and business school while we were there. The country is strong in preservation of arts and culture but needs the knowledge of how to compete in the world of free enterprise and technology.

We also visited a pharmacy which is one of the world's oldest continually active pharmacies - it was also a museum. Some of our female teachers, due to the erratic schedules, had menstrual cycles that were irregular and found that they could not purchase sanitary napkins - they were offered only a handful of gauze. Later they were able to locate tampons.

Before we left the school in Kiev, I taught a lesson on smoking using a coloring book from the American Cancer Society. I presented the school nurse with band aids, ace bandages, hydrocortisone and antibiotic creams, toothbrush and toothpaste kits. I had my luggage taped so it would not open on the way over since I carried so many items with me. I had also gifts for everyone like jewelry, make-up, T-shirts with American logos, candy, jello, coffee, peanut butter, salamis and much more for the teachers. We also brought pens, pencils, pencil sharpeners, pencils, notebooks, maps, flags, pictures, stickers and much more for the students. One of my host's friends came to visit wearing a "Kiss me I don't smoke" sticker I brought - so I kissed him, which gave us all a reason to laugh. We all seemed to bring different items. Serge called me the "American Santa Claus."

Our final meeting with all the teachers and administrators concerned family life. Ukrainians are concerned with pornography and alcohol as they affect family life. We explained that these are American problems too. I made new friends in Ukraine and hopefully my hostess and host will come to New Jersey to live with me and visit our schools. I feel very frustrated because there are gifts I would like to send my new friends but the postal system is so corrupt that they may not receive what I send.

Everywhere in America, American teachers went we were received with traditional bread and salt greetings, music, singing, dancing, skits, luncheons, gifts and so much more. Some of the children felt America is not interested in Ukraine - I told them that America does not know about Ukraine - many people still refer to Ukraine as being Russian. The young people are optimistic about their new freedom because this is the first time Ukraine has been free without bloodshed. The economy is in chaos. Their future is so uncertain and yet the people were so warm and generous. We American teachers are already planning for their visit this year in March so that their experience can equal ours.

A GRANDMOTHER'S WISH
If I were granted any wish, I'll tell you what I'd do:...I'd wish my kids were small again, for just a month or two. To hear their squeals of laughter, to watch them while they play. And when they asked me to join in, I'd NOT say, "Not today.”

To tug against their chubby frame, to kiss away their tears, And cherished childhood innocence that's evaded away the years; Then when it's story time again, I'd stay a little longer; To answer questions, sing the songs, so memories would be stronger. But time is callous, wishes, myths, and God in His great wisdom, Has given me another chance to join His Kingdom The face may not be just the same, the name is changed, 'tis true, But yet the smile that radiates, reminds me so of you. God must have known that Grandma would need a chance or two, For many little happy things she had to do; So God gave love to Grandma's to equal that before, That, in effect, embraces those little things she bore.

The Development Committee wishes to thank each one of you for your generous giving, support and loyalty to our Alumni Association. All contributions received after the Bulletin goes to press will be gratefully accepted and acknowledged. However, your name will not be listed in the Bulletin as a contributor. For that reason we have received over 9 matching gifts, and we thank you. REMEMBER - TO DOUBLE YOUR DOLLARS - If you or your spouse work for a matching gift (grant) company, by including the completed matching gift form with your gift for Annual Giving, you could double or even triple your dollars. Matching gift donors will receive a thank you from the Alumni and a thank you from the University.

Total contributions for all funds from January 1st to press time (including matching gifts, memorial gifts, general, relief and scholarship funds) were $22,763.00.

A DAY IN YOUR LIFE

If you are an adult weighing about 176 pounds, in 24 hours:

- Your heart beats 103,689 times.
- Your blood travels 166,000,000 miles.
- You breathe 21,000 times.
- You inhale 438 cubic feet of air.
- You eat 3 1/4 pounds of food.
- You drink 2.9 pounds of liquids.
- You lose in weight 7.5 pounds of waste.
- You perspire 1.43 pints.
- You give off 2.6 degrees Fahrenheit.
- You turn in your sleep 25 to 35 times.
- You speak 4,500 words.
- You move 750 major muscles.
- Your nails grow 0.0046 of an inch.

Gladye Keiper and I were asked by the parent committee, Mabel Prewost, Chairman, to coordinate a satellite group in Central Pennsylvania. A questionnaire to determine interest was mailed to 172 nurses in a six county area January, 1986. 39 questionnaires were returned with a positive response from 29.

Guidelines For Satellite Programs were developed in line with Constitution and By-Laws of the Alumni Association, and approved by the Board of Directors June, 1983.

The first meeting was held August 17, 1988 with 18 members attending including President Alice Boehret and Dorothy Cloud.

August 12, 1993 five years later, the 23rd meeting was held with 19 members present.

Meetings are held the second Thursday of April, June, August, October and December at 10:30 AM at Pennsylvania Nurses Association headquarters, Commerce Park, Harrisburg. Meetings are followed by a catered luncheon. The June, 1992 meeting and luncheon was held in McVeytown hosted by Ruth Sunderland. The group met in Carlisle at the Long's home in June, 1993.

The agenda for the first meeting included distribution of the Constitution and By-Laws and a discussion of the Guidelines for a Satellite Program.

The satellite is an extension, or connection with the Alumni in Philadelphia. This concept is one of participation in the workings of the Nurses Alumni by a greater number of its members, thus there is a flow of information back and forth by written minutes.

The minutes of the regular Alumni meetings in Philadelphia are the basis for the business meeting of the satellite. In addition, special programs are planned and have included:

- Updates in legislation affecting nursing by Kathy McKeon, RN; Hospital Nursing by Janet Kelly, RN; Health Care Legislation by Senator John Shumaker; Nursing Home Licensure Program by Marjorie Key, RN; Health Care Reform by Paula Bussard, Pennsylvania Association of Nursing; The Nursing Program at Williamsburg.

As in the past we try to avoid errors, but, if we "goof" please don't think too badly of us.

Thanks for your help.

NEW SATELLITE GROUP FORMED

The Jefferson Nurses' Alumni Association has formed a "Suburban Satellite Division." Those interested in information or who wish to join can contact Jane Ryan Dietrich, 59 (610) 272-6108; Barbara Hand Brodovsky, 58 (215) 625-0707; or Mary Jo Winning McMullen, 74 (215) 643-7055. We are interested in your ideas for this newly formed organization. A meeting will be held in the near future, probably the beginning of October. Thank you.

SOCIAL COMMITTEE

The 61st Annual Luncheon was held on May 7, 1994. As usual, the weather was delightful and added to the festivity of the day.

The alumni meeting convened at 10 A.M., in the Solis-Cohen Auditorium. Refer to Resume' of Alumni Meetings for report of the meeting. Social Hour was held from 11 A.M. to 12:30 P.M., followed by a delicious luncheon. The Eakins lounge and West Courtyard were used for the social hour. The congeniality of all the attendees was easily apparent by the picture taking, laughter, and conversation.

Most of the classes dating back to 1925 were represented at the luncheon. For a change, London Broil was served. Many compliments were heard about the food selection.

Corsages were given to the members of the classes of 1925 and 1932. Alumni from the 50th anniversary class are invited as special complimentary guests of the Alumni Association. It's such a joy to hear the uproar from the individuals as their year is recognized by Alice Boehnet, President. No one could ever say Jefferson nurses lack for enthusiasm!

264 attended the luncheon, and 57 attended the annual meeting.

The luncheon planning committee, Jeanne Kane, Vera Pioletti, Hope Russo Schooley, and I continued to receive helpful hints from Janet Hindson, Betty Piersol and Peg Summers. Nothing helps like experience. I thank all the members of the luncheon planning committee for their advice and help. I'm sure next year we'll be doing it again. If anyone has any requests, suggestions, or would like to be on the committee, please send them to me in care of the Alumni Office.

The 62nd Annual Luncheon is planned for May 6, 1995. The planning committee looks forward to seeing you next year.

CLARA MELVILLE/ ADELE LEWIS SCHOLARSHIP COMMITTEE 1933 - 1994

We have had a slight increase in interest in scholarships this past year and should like to continue to encourage graduates of the School of Nursing to pursue work toward a baccalaureate or higher degree in nursing.

Awards given the past year include the following:
Karen (Richard) Emerle, 1977
Cecelia (Marini) Ellis, 1976

PLEASE NOTE

The Board of Directors of the Nurses' Alumni Association met with our attorney Ann Loftus on May 27, 1992. The Scholarship Fund (a restricted fund) was reviewed.

After review, the attorney advised us that, legally, the funds are restricted for use to graduates of the diploma program only. However, if relatives of the diploma graduate plans to attend Jefferson's Nursing Program, a scholarship could be granted, provided all other requirements are met.

The Board of Directors

RELIEF FUND COMMITTEE

Jefferson Diploma Nurses! As you know, we, the Jefferson Nurses Alumni Association, have a Nurses' "Relief Fund Trust." The purpose of this trust is to assist the graduates of the School of Nursing (Diploma Program) and the White Haven School of Nursing, who are ill, disabled or in need of additional financial support or maintenance.

The preliminary application found in the back of the Bulletin can be completed and sent to the Alumni Association. An additional form will then be sent to you by the committee. When completed and returned the committee will evaluate the request, determine the amount of assistance, and notify the applicant as soon as possible. All the information on the application is confidential.

In the event you know of anyone that needs this type of assistance, or if you personally need assistance, do not hesitate to complete the application in the back of the Bulletin and mail it to the Alumni Association Relief Fund Committee.

This past year six of our graduates requested, and were granted, a monthly stipend. We also sent ten monetary gifts at Christmastime to those graduates known to be homebound or in a nursing home.

Birthday flowers were sent to our graduates who celebrated their 80th or plus birthday.

Class of 1916

Walter S. Rawls, 39 South 4th Street, Lebanon, PA 17073.
After a very snowy and cold winter it was great when spring arrived and I could get out of my apartment. Aside from the weather, it has not been too bad a year. I have a good year and bad days, but I am not complaining. Sorry I could not get to the luncheon, but my traveling days are over. My thoughts were with you all.

Class of 1923

Ruth Thompson, Pitman Manor 535 N. Oak Avenue, Box 44, Pitman, NJ 08071. My health is good except I need a new pair of knees. I am able to get around by using a walker.

It's great fun and I love the classes.

Franklin M. Pollock Miller (Bill), 108 Winfield Court, Fairless Hills, PA 19030-3316. Everything is going well. Eric 5-1/2 starts Kindergarten in September and Thomas is 2-1/2, started with Jeff at STF in February. It was strange returning to my roots. All my love to everyone.

Barbara A. Kominsky Leons (Chuck), 193 Leonard Avenue, Clarkboro, N.B08021. I am working for Magpie Rehab as a clinical liaison, I will hopefully continue to attend classes. Warren Harding (Chuck) is just fine. The boys are doing well, thank God. God is good.

What CAHS Graduate is Now Director of Financial Aid?

Stumped? It's Ronnie Lehner, BS, radiologic technology, '78, who won the first CAHS Achievement Award for Student Life. You'll find this and other interesting facts in a Chronological History and Alumni Directory in the section devoted to the College of Allied Health Sciences.

Facts such as: Anna E. Laughlin, '06, was the first graduate of Jefferson's School of Nursing, precursor to the College of Allied Health Sciences'; published in 1999. I am kept busy at school, at home and work. My best to everyone.

Debra Graham McCorry (Dan), 15044 N. 4th Street, Philadelphia, PA 19128. Dan, Alex and I are all doing well out here in Arizona. It all goes well we should have another member of the family in the neighborhood. I am and we will be a full time mom at least the baby starts pre-school. Hope everyone is doing well. Gaye and Kurens thanks for keeping in touch.
