## REGULATIONS OF JEFFERSON MEDICAL COLLEGE.

---

The Session commences on the second Monday of October.

The examinations are so arranged as to permit the Commencement for conferring degrees to be held early in March.

There is likewise an examination of candidates for graduation during the first week of July. The degrees are conferred on the candidates, who are successful at this examination, at the annual commencement following.

The candidate must be of good moral character, and at least twenty-one years of age.

He must have attended two full courses of lectures in some respectable medical school, one of which shall have been in this College, and must exhibit his tickets, or other adequate evidence thereof, to the Dean of the Faculty.

He must have studied medicine for not less than three years, and have attended at least one course of clinical instruction in an institution approved by the Faculty.

---

Every Wednesday and Saturday in the month of October, and during the Course, Medical and Surgical cases are investigated, prescribed for, and lectured on before the class. Hospital accommodations are provided in a building communicating with the College, which enable the surgeons to perform not only the minor but the more serious operations. During the year ending March the first, 1855, *sixteen hundred and twenty-four* medical and surgical cases were treated, and *two hundred and sixty* operations performed in the presence of the class. Amongst these were many major operations—as amputation of the thigh, leg, arm, &c., extirpation of the upper jaw, parotid gland, mammae, &c., lithotomy and lithotripsy.

The Lectures are so arranged as to permit the student to attend the Medical and Surgical Practice and Lectures at the Pennsylvania Hospital, and the Philadelphia Hospital, Blockley.

On and after the first of October, the dissecting rooms are open under the direction of the Professor of Anatomy and the Demonstrator.
