Integrative Medicine Grand Rounds

presents

Oxidative Stress as a Driver of Cancer Metabolism

Presenter:

Ubaldo Martinez-Outschoorn, MD

Ubaldo Martinez-Outschoorn, MD is an Assistant Professor in the Department of Medical Oncology at Thomas Jefferson University. He received his MD Degree from the Complutense University of Madrid and completed his Internal Medicine and Medical Oncology training at Thomas Jefferson University. The major focus of his laboratory is to study metabolic interactions between cancer and stromal cells. He also conducts clinical trials of chemotherapy that alters metabolic interactions between cancer cells and the microenvironment.

Overall Goals and Objectives:

1. Identify recent advances in integrative medical care and discuss their application to clinical practice.
2. Describe the latest data on complementary and alternative medical therapies that could improve patient outcomes.
3. Discuss core integrative medicine topics that patients frequently ask physicians about.

Jefferson Medical College of Thomas Jefferson University is accredited by the ACCME to provide continuing medical education for physicians. Jefferson Medical College designates this live activity for a maximum of 1 AMA PRA Category Credit(s). Physicians should only claim credit commensurate with the extent of their participation in the activity.

September 3, 2013  8 – 9 a.m.
925 Chestnut Street
2nd Floor Conference Room
