REGULATIONS.

The Session commences on the second Monday of October.

The examinations are so arranged as to permit the Commencement for conferring degrees to be held as early as is practicable in March.

There is likewise an examination of candidates for graduation during the first week of July. The degrees are conferred on the candidates, who are successful at this examination, at the annual commencement following.

The candidate must be of good moral character, and at least twenty-one years of age.

He must have attended two full courses of lectures in some respectable medical school, one of which shall have been in this College, and must exhibit his tickets, or other adequate evidence thereof, to the Dean of the Faculty.

He must have studied medicine for not less than three years, and have attended at least one course of clinical instruction in an institution approved by the Faculty.

Clinics will be held during the spring and summer; and every Wednesday and Saturday in the month of October, and during the Course, Medical and Surgical cases will be investigated, prescribed for, and lectured on, before the Class. During the year ending March the first, 1857, about *sixteen hundred* cases were treated, and about *two hundred* operations were performed; amongst which were many major operations—as amputation of the thigh and leg, extirpation of the upper jaw, mamma, &c., lithotomy, trephining, resection of the elbow-joint, and ligation of the external iliac artery.

The lectures are so arranged as to permit the student to attend the medical and surgical practice and lectures at the Pennsylvania Hospital.

On and after the first of October, the dissecting-rooms will be open, under the direction of the Professor of Anatomy and the Demonstrator.
