Friday, May 4, 2001

A Business Case for Low Molecular Weight Heparin

Marriott Long Wharf

Boston, MA

Program Directors: David B. Nash, MD, MBA, Associate Dean, Jefferson Medical College and Director,

Office of Health Policy and Clinical Outcomes; Geno J. Merli, MD, Acting Chairman, Department of Medicine, Jefferson Medical College.

Who should attend: Medical and Pharmacy Directors, Physicians, Pharmacists, and Case Managers.

This one-day program will feature national experts who will present evidence of the economic, clinical and humanistic outcomes regarding the use and implications of low molecular weight heparin (LMWH). Representing different perspectives within the healthcare environment (the managed care organization, the integrated delivery system, the economist, the physician, the pharmacist) the speakers will report on studies and clinical experiences with LMWH and traditional unfractionated heparin. This program is supported by an unrestricted grant from Aventis Pharmaceuticals.

Complimentary Registration
