## ***Science Today in Verse***

Hope Leman, Samaritan Health Services

---

### **The Nobel Prize in Physics 2011**

Our universe is growing  
At an accelerated rate  
Let's hope it won't  
Disintegrate

Though we'd thought  
It's slowing down  
A Nobel winner of renown  
Declares the opposite to be the case  
In the depths of outer space

### **The 2011 Nobel Prize in Chemistry**

Dr. Shechtman's discovery  
Seemed so odd it could not be  
He was attacked in fashion cruel  
Subjected to basest ridicule  
Pauling said that he  
Considered it tomfoolery  
But Shechtman was full of fight  
And in the end was proven right

### **The 2011 Nobel Prize in Physiology or Medicine**

Should bacteria attack  
You wouldn't want to lack  
An immune system most robust  
For without one you would be  
Early for Eternity  
Ashes to ashes and dust to dust ❖
