Chief Residents and Residency Program Directors

The Office of Health Policy and Clinical Outcomes will be hosting a two-part leadership series titled Chief Resident Education for Success Training (CREST). The goal of the program is to provide Chief Residents with the skills and knowledge needed to become successful leaders.

Session I will take place in Philadelphia, October 26 and 27, 2001 and will provide Chief Residents with experiences that will better equip them to lead and manage groups in complex organizations. Small group, interactive learning sessions will address concepts of leadership, motivation, time management, group management, and conflict management.

Session II, held in the spring, will cover timely practical issues related to the individual physician's self-development.

For more information, please contact the Office of Health Policy at 215-955-6969.
