Call for Posters : SLA Annual Conference - Denver 2007

Libraries are changing at a rapid rate these days, forcing librarians to seek new and innovative ways of interpreting and fulfilling their roles within various organizations. How are you meeting the future? Are you using resources, materials, or even spaces in new or innovative ways that may help re-define or clarify your role as librarian or information professional? Are you beginning to interact with non-traditional users or groups?

If the answer is yes to any of these questions, we would love for you to consider sharing your ideas and experiences with your colleagues in the upcoming poster session at SLA in Denver, June 2007, sponsored by the Biomedical and Life Sciences Division. This session is scheduled for Sunday, June 3rd, 7:00 pm, to coincide with the Division reception, so that you will be assured of a good audience. The theme of this session is, "Innovations and Best Practices in Biomedical and Life Sciences Libraries." The poster session will provide an informal and lively venue for sharing innovative ideas on topics that concern us all. How are we defining or re-defining ourselves in these changing times? How do we see ourselves ten years down the road, and how is this vision beginning to manifest itself in the way we operate now? What are we doing to make ourselves leaders in our fields and our institutions? If such questions are of importance to you, please consider submitting an abstract for possible inclusion in the poster session. This is a theme that should engage us all, for it concerns the future of our profession.

Guidelines for materials and layout of poster presentations are available on the SLA Chemistry Division website at: <http://www.sla.org/division/dche/poster.html>

Please submit your name, institution, fax, email address, poster title, and description (250 words or less) by email or surface mail to:

Scott Reece
3117 Ortiz NE
Albuquerque, NM 87110
scott_reece@illinoisalumni.org

The deadline for submissions is March 1, 2007. Any SLA Member is welcome to submit an abstract for consideration. In the event that a greater number of submissions are received than can be accommodated, members of the sponsoring division will be given first preference. All applicants will be notified no later than April 1, 2007 as to whether or not their proposal has been accepted.

Contact Eleanor MacLean at the address given below if you have any questions about this session

Get what you need when you need it ScienceDirect Corporate Edition

**You work in a competitive,
fast-moving environment.**

Try ScienceDirect for your business. You can:

- Investigate the work of other researchers
- Identify development opportunities
- Stimulate innovation
- Discard ideas more quickly
- Benchmark against competitors
- Accelerate decisions by basing them on a critical mass of data

**You can be faster, more accurate
and more innovative if you have
access to the right resources.**

Most importantly – you can get the information you need at the moment you need it. That's what makes the difference.

Free trials are available.
Licenses are specifically designed
for corporate customers.
