Membrane Medicine: Neurometabolic Cellular Stabilization with Lipid Therapy for Treatment of Neurological Disease

Patricia Kane, PhD

Presenter:

Patricia Kane, PhD

Patricia Kane, PhD, is Director of the NeuroLipid Research Foundation. During her extensive career she has developed biomedical analysis systems for fatty acid and biochemical laboratory testing. In addition, the translational component of her work has led to specific nutrient protocols that have been utilized throughout the world.

Overall Goals and Objectives:

1. Identify recent advances in integrative medical care and discuss their application to clinical practice.
2. Describe the latest data on complementary and alternative medical therapies that could improve patient outcomes.
3. Discuss core integrative medicine topics that patients frequently ask physicians about.

Jefferson Medical College of Thomas Jefferson University is accredited by the ACCME to provide continuing medical education for physicians. Jefferson Medical College designates this live activity for a maximum of 1 *AMA PRA Category Credit(s)*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

March 5 8 – 9 a.m.

**925 Chestnut Street
2nd Floor Conference Room**
