- b. Conditions on activities and expenditure of funds in other statutory requirements, such as those included in appropriations acts.

(See NIH Home Page at <http://grants.nih.gov/grants/policy/awardconditions.htm> for certain references cited above.)

**Research and Development (R&D):** All awards issued by the National Institutes of Health (NIH) meet the definition of "Research and Development" at 45 CFR Part§ 75.2. As such, auditees should identify NIH awards as part of the R&D cluster on the Schedule of Expenditures of Federal Awards (SEFA). The auditor should test NIH awards for compliance as instructed in Part V, Clusters of Programs. NIH recognizes that some awards may have another classification for purposes of indirect costs. The auditor is not required to report the disconnect (i.e., the award is classified as R&D for Federal Audit Requirement purposes but non-research for indirect cost rate purposes), unless the auditee is charging indirect costs at a rate other than the rate(s) specified in the award document(s).

This institution is a signatory to the Federal Demonstration Partnership (FDP) Phase VI Agreement which requires active institutional participation in new or ongoing FDP demonstrations and pilots.

An unobligated balance may be carried over into the next budget period without Grants Management Officer prior approval.

This grant is subject to Streamlined Noncompeting Award Procedures (SNAP).

This award is subject to the requirements of 2 CFR Part 25 for institutions to receive a Dun & Bradstreet Universal Numbering System (DUNS) number and maintain an active registration in the System for Award Management (SAM). Should a consortium/subaward be issued under this award, a DUNS requirement must be included. See <http://grants.nih.gov/grants/policy/awardconditions.htm> for the full NIH award term implementing this requirement and other additional information.

This award has been assigned the Federal Award Identification Number (FAIN) R01HD091492. Recipients must document the assigned FAIN on each consortium/subaward issued under this award.

Based on the project period start date of this project, this award is likely subject to the Transparency Act subaward and executive compensation reporting requirement of 2 CFR Part 170. There are conditions that may exclude this award; see <http://grants.nih.gov/grants/policy/awardconditions.htm> for additional award applicability information.

In accordance with P.L. 110-161, compliance with the NIH Public Access Policy is now mandatory. For more information, see NOT-OD-08-033 and the Public Access website: <http://publicaccess.nih.gov/>.

This award provides support for one or more clinical trials. By law (Title VIII, Section 801 of Public Law 110-85), the "responsible party" must register "applicable clinical trials" on the [ClinicalTrials.gov](http://ClinicalTrials.gov) Protocol Registration System Information Website. NIH encourages registration of all trials whether required under the law or not. For more information, see [http://grants.nih.gov/ClinicalTrials\\_fdaaa/](http://grants.nih.gov/ClinicalTrials_fdaaa/)

In accordance with the regulatory requirements provided at 45 CFR 75.113 and Appendix XII to 45 CFR Part 75, recipients that have currently active Federal grants, cooperative agreements, and procurement contracts with cumulative total value greater than \$10,000,000 must report and maintain information in the System for Award Management (SAM) about civil, criminal, and administrative proceedings in connection with the award or performance of a Federal award that reached final disposition within the most recent five-year period. The recipient must also make semiannual disclosures regarding such proceedings. Proceedings information will be made publicly available in the designated integrity and performance system (currently the Federal Awardee Performance and Integrity Information System (FAPIIS)). Full reporting requirements

and procedures are found in Appendix XII to 45 CFR Part 75. This term does not apply to NIH fellowships.

**SECTION IV – HD Special Terms and Conditions – 1R01HD091492-01 REVISED**

REVISION: This revised award reflects NICHD acceptance of the certification of Institutional Review Board (IRB) approval and releases the restriction on the Notice of Award issued on 09/13/17. Accordingly, the special terms and conditions prohibiting research involving human subjects are removed, effective as of the date of IRB approval.

The previous terms and conditions of award remain in effect as stated below.

\*\*\*\*\*

In order to meet Institute program objectives within FY2017 budget constraints, this grant is reduced 17 percent below the level recommended by peer review. Future year levels of support are determined by applying the same administrative reduction.

\*\*\*\*\*

This award includes funds awarded for consortium activity with the following consortia/subcontracts: Rush University and University of Illinois at Chicago.

Consortia are to be established and administered as described in the NIH Grants Policy Statement (rev. 11/16) (<http://grants.nih.gov/grants/policy/nihgps/nihgps.pdf>).

\*\*\*\*\*

This award includes funds for twelve months of support. The competing budget period is awarded for less than 12 months. Continuation awards will cycle on July 1. NICHD is taking this action to redistribute start dates more evenly throughout the year. Allowable preaward costs may be charged to this award, in accordance with institutional requirements for prior approval and the conditions outlined in the NIH Grants Policy Statement (rev. 11/16) (<http://grants.nih.gov/grants/policy/nihgps/nihgps.pdf>).
