Alumni Office of The Jefferson Medical College, 1025 Walnut Street

Issued by the Executive Committee of the Alumni Association
WILLIAM HARVEY PERKINS, M. D.
Dean and Professor of Preventive Medicine
THE APPOINTMENT of Dr. William Harvey Perkins as Dean of Jefferson Medical College has met with enthusiastic approval throughout the Jefferson Alumni body, and has been accepted in the medical schools over the country with the highest acclaim.

After graduating from Jefferson Medical College in 1917 and serving an internship at Jefferson Hospital, Dr. Perkins went to France with the United States Army where he served with Base Hospital #120 through 1918 and 1919. Shortly after his return to the United States, he went to Siam as a medical missionary and served there far in the interior where he saw much to broaden his perspective of disease and to foster his interest in preventive medicine.

Dr. Perkins returned in 1924 to a Fellowship in Internal Medicine in a number of the medical schools in the East, although chiefly under Dr. McCrae at Jefferson. He then went to London and studied under Lord Dawson of Penn, and to Paris under Dr. Widal. He returned to Siam in 1926 where he continued as Professor of Medicine and Director of Clinics until 1930 when the service of all foreign teachers was automatically discontinued. He was awarded the decoration of the Order of the White Elephant for his meritorious service to the Siamese Government.

Upon his return from abroad, Dr. Perkins was appointed to the faculty of the Medical School of Tulane University as Professor and Director of the Department of Preventive Medicine; he also became Director of the Hutchinson Memorial Clinic. He remained at Tulane until called to Jefferson in the summer of 1941.

Dr. Perkins has made many contributions to scientific literature, chiefly in relation to matters pertaining to public health and medical education.

In addition to his wide popularity as an individual, Dr. Perkins has extremely broad interests, and with his knowledge of medical educational problems and his unusual wisdom, he brings to Jefferson great promise and carries with him the confidence and loyalty of all sons of Jefferson.
A LETTER FROM THE DEAN

To Our Alumni:

I could show you many things if you were here: capacious, beautiful buildings; unexcelled laboratories; the dignified, handsome Scott Memorial Library and Reading Room; the unique, portrait-lined Auditorium; the spacious Assembly Hall; the Alumni Room complete with exhibit of Alumni treasures; classrooms most of you never dreamed of; and an illustrious teaching staff second to none.

There are other things you cannot see: the indomitable urge to keep Jefferson out in front; the happy accord within the staff; the new spirit of research; the unbreakable tie with the memorable past; the sincerity, understanding and unselfish devotion of our Board of Trustees.

I have come home to Jefferson after twenty-five years and find an unbroken chain of loyalty and pride in her students, staff and Alumni; I find no weak links in that chain; there is a grim determination everywhere I turn that that chain shall not weaken.

You, our Alumni, form the greater part of us. Our small part here depends on your strength and constant, loyal support. Give us of that strength in every way you can; contribute as liberally in the future as you have in the past; keep your contacts among yourselves and with the school; and—SEND US YOUR SONS.

We, here, know where each and every one of you are; we follow your fortunes and rejoice with you in your successes; we always have, and always will be your true ALMA MATER.

December 16, 1941.

Wm. Harvey Perkins, M.D.,
Dean.
A TIMELY MESSAGE TO THE ALUMNI
From
THE PRESIDENT OF THEIR SCHOOL
ROBERT P. HOOPER, LL.D.

TO OUR ALUMNI:

At no time in the History of Jefferson has there been such an opportunity for your Board of Trustees to express its admiration of the splendid spirit being shown by Jefferson men in the face of an emergency.

Let us assure you that we of the Board of Trustees are acutely aware of the problems which we face and are devoting all we can of our crowded hours in your behalf. We hide behind no false complacency or failure to recognize the seriousness of our future, but are daily looking ahead that we may be better prepared for what may come.

Jefferson is strong! It possesses all the strength of an historical institution deeply rooted in the sound principles of the past; it is young in spirit, willing to advance against the pull of tradition when such advance seems best; it has a Faculty and Teaching Staff of which we are justly proud; it has that freedom of choice by which it can handpick its students and give you alumni new recruits of which you can be proud.

When we read over now the historical accounts of the sacrifices and accomplishments of Jefferson men in the First World War, the Spanish American War, the Civil War, and the War with Mexico, and see again in 1942 the recurrence of the same spirit of sacrifice and service our sons are showing in this present terrible conflict, we are proud and confident that Our School will be there first in the protection of our country and our own great institution. Has any other school of medicine in this country ever matched our record of three Surgeons General in the last fifty years, including our present Surgeon General Magee of the United States Army? And even now during this War, Jefferson has 450 of its alumni in active service.

Many more of you will go; all those of Base Hospital No. 38, Jefferson's own, will go; teachers, nurses, administrators will go. No one can tell how much our home forces will be depleted, but the Board of Trustees is proud of each leave of absence that it grants.

When the country needs more young doctors quickly, Jefferson will be foremost in supplying them. Our decision to place the school on an accelerated curriculum will give the country some five to six hundred new doctors by 1945; good Jefferson doctors!

On behalf of your entire Board of Trustees, I salute every man of you, whether you already wear the uniform of active service or, in civilian dress carry on the essential services of the home-front. While you do your part, we will strive to do ours. Our thoughts are with you always and in return we could ask no more than your confidence in our resolve to keep Jefferson the Jefferson as you know it—proud, powerful, secure, and always loyal to you.
WILLIAM POTTER WEAR
New Member of The Board of Trustees

JOSEPH W. WEAR
1876-1941
WILLIAM POTTER WEAR SUCCEEDS FATHER AS TRUSTEE AT JEFFERSON

Recent announcement was made of the appointment of William Potter Wear as a member of the Board of Trustees. Mr. Wear succeeds his illustrious father, the late Joseph W. Wear. He is a grandson of William Potter, who until his death on April 29, 1926, served as president of the Board of Trustees.

Mr. Wear was born in St. Louis, Missouri, in 1904. Coming to Philadelphia with his father in 1914, he received his preliminary education at the Chestnut Hill Academy. He is a graduate of Yale University, Class of 1925.

In taking up the post as a member of the Board, Mr. Wear comes to us with a great deal of executive experience. He is a member of the Board of Managers of the Pennsylvania School for the Deaf; a Trustee of the Chestnut Hill Academy; a Trustee of the Second Presbyterian Church of Philadelphia; and the Secretary of the Philadelphia Charity Ball. He was formerly Chairman of the Employment Board for the Department of Public Assistance of the Commonwealth of Pennsylvania. At present he is on active duty as Lieutenant in the United States Navy.

Jefferson is quite fortunate in the election of Mr. Wear as Trustee. The Institution and its Alumni welcome the appointment of this new member.

The death of Joseph W. Wear on June 4, 1941, following a brief illness, caused great sorrow at Jefferson.

Mr. Wear was born in St. Louis in 1876. Here he made his home until 1914 at which time he came to Philadelphia. His acquaintance with Philadelphia began as official of Thomas Potter Sons & Company. He later entered the banking field and the experience thus derived later served him well as Chairman of the Jefferson Hospital Committee.

Mr. Wear was a Trustee of the Chestnut Hill Academy and of the Second Presbyterian Church where he was a member for more than twenty years. He was former President of the Yale Club and Chairman of the Yale Alumni Board.

His broad experience in the business world was only rivaled by his interest in sports, especially tennis. He was non-playing Captain of the U. S. Davis Cup Teams in 1928 and 1935, Chairman of the Davis Cup Committee from 1928 to 1930 and in recent years was First Vice-President of the U. S. Lawn Tennis Association. In 1923 he and his son won the National Father and Son Championship.

Joseph W. Wear was always devoted in his service to Jefferson. His untimely death is a great loss not only to the College and its Hospital, but to all those who were personally associated with him.
OPENING EXERCISES

The Opening Exercises held in the College Auditorium on the evening of September 17, 1941, marked the inauguration of the 117th annual session of the school.

The ceremony, officially denoting the beginning of the college year, was attended by a large audience. The customary greeting to the faculty, the student body and the invited guests was extended by the President of the Board of Trustees, Robert P. Hooper, LL.D. Announcement of recent faculty appointments was made. The traditional Introductory Lecture was delivered by Dr. Martin E. Rehfuss, Professor of Clinical Medicine and Sutherland M. Prevost Lecturer in Therapeutics.

The announcement of the appointment of William Harvey Perkins as Dean was enthusiastically received by the assembly. Dr. Perkins was fittingly introduced to the audience by his former teacher, Acting Dean Dr. Randle C. Rosenberger. Jefferson has chosen most wisely in its selection of Dr. Perkins as Dean.

The total enrollment for the coming year was 537 students. Of the total enrollment 154 are new students representing 141 admissions to the First Year Class and 13 to the Third Year Class.

Several features concerning the members of the First Year Class are of particular significance. They represent 41 states, insular possessions or foreign countries and have received their preliminary education in 66 separate institutions. Forty-three, or more than one-third of the class, are sons of, or bear other close relationship to physicians, 15 being sons of Jefferson graduates. Approximately one-third of this group of 43 students were sponsored by physicians who are graduates of other schools.

The honor thus bestowed upon Jefferson by its Alumni and by graduates of other schools is self-evident. Accordingly some of the facts concerning the First Year Class are set down in detail elsewhere for further perusal of all interested Alumni.

NEW CURRICULUM ANNOUNCED

The Board of Trustees of Jefferson Medical College today adopted the recommendation of our Faculty for an accelerated schedule as follows:

Freshman admissions on July 1, 1942.
Sophomore classes to start September 1, 1942.
Junior classes to start September 1, 1942.
Senior classes to start July 1, 1942.

The next senior graduations will be approximately February 15, 1943; December 1, 1943; August 15, 1944, and April 1, 1945.

This schedule allows each class a continuous 32-week schedule of 44 hours per week (our present schedule). With shortened vacations and elimination of long holidays, the Freshman Class entering this July will graduate in 33 months.

This is a modified "four academic years in three chronologic years." The delay in starting Sophomores and Juniors affords the most equitable opportunities to the teaching staff of all classes to re-equip laboratories, intensify their work on research and to attend to private practice. It also permits the students of these two classes to do a little outside work this summer to help them financially.

Wm. Harvey Perkins, M.D.,
Dean.
THE MEDICAL STUDENT OF TODAY

Excerpts from the Introductory Lecture Delivered

By

MARTIN E. REHFUSS, M.D.
Professor of Clinical Medicine
Sutherland M. Prevost Lecturer in Therapeutics
Jefferson Medical College

at the

Opening Exercises—September 17, 1941

"... What of the Medical Student? In my brief lifetime, I have learned a few truths. The greatest asset is health. Nothing can take its place. A smooth, efficient human machine running evenly on all its cylinders is something devoutly to be wished and, if you have it, to guard it. We fail to realize often before it is too late that there is a method of living and a system of life which is conducive to that state. This demands systematic planning of work and recreation and exercise and diet and the avoidance of all those factors which induce or favor disease as your Professor of Pathology tries so hard to make clear. The modern student rarely learns to allocate in their proper places these essentials. The next great asset is to become a master workman. ... No matter where you are, no matter what form of government, no matter what the future, medicine is an essential commodity because it deals with the only real common denominator which determines the destinies of the world, and that is mankind itself. These halls, these buildings, this great College, are dedicated to the most precious thing on earth—the study of man. You are to be entrusted with the lives of countless men and women and children."

The Following Suggestions Were Submitted to the Students by Dr. Rehfuss:

"... Lay a course and stick to it—now. The first two years are to master the fundamentals, in the last two years you use those fundamentals. You must learn them and you must master them. How beautifully the pieces of the jigsaw puzzle fit together when the whole course is mastered—how jumbled up and discordant they seem before the pieces are fitted together. You will learn modern medicine.

"Begin now the student habit. Medicine is rich with adventure, its triumphs have only been achieved through hardship and toil. The impenetrable jungle is giving up its secrets day by day, and who knows, perhaps some of you may blaze the way. But there is no reading more revealing, no work more fascinating. Some day the spark may jump from a book, or a teacher and ignite you and then suddenly you realize that you too have some of those qualities that made other men great in their chosen fields.

"You never know what you can do until you try. It was the great French neurologist Pierre Marie who taught me that lesson. I remember that afternoon nearly thirty years ago when he sat down quietly and pointed out that none of us use the full capacity of our minds. He said so many of the cells were in a state of atrophy from disuse. But nature always responds to an increased demand by more muscle and if necessary more brain. If any of your senses were removed today, you would learn to sharpen the others. Nearly every great man I have known has had some physical infirmity or some mental complex to overcome before he could bring his full faculties into play.
"The world is in a state of flux. Everywhere in the far-flung battle lines of human endeavor, new ways are opening up. Research has created new concepts, new ideas, new methods. Medicine today is 1941 medicine, founded on discoveries in every field and all that has gone on before. Chemistry has not hesitated to knock at the very principle of life itself. Physics has not hesitated to shatter the atom. The electron-microscope and the spectroscope foreshadow new things. Man is knocking, knocking everywhere. We cannot afford to remain static. We must move on. He who charts his course and will not allow himself to be diverted and uses every energy to reach his goal will rarely fail. Complacency, self-satisfaction, inertia mean going backward. Energy, dissatisfaction with existing conditions, a ceaseless striving after perfection reward the toiler with more muscle, more strength to climb.

"I have found that there are few successes without some failure and few failures without some successes. To one man, failure spells the end of everything, to another it only serves to spur him on to greater effort.

"Finally, a great school has first morale, then discipline and last but not least, loyalty. Morale implies self-respect and a healthy mind in a healthy body. At Jefferson, we have all the elements conducive to such a state. Your faculty is no group of theorists; they have all been on the firing line. Her men have been recruited from the veterans of many wars. No group is better fitted to produce practical doctors.

"Loyalty is the supreme quality of a healthy college. It is an expression of the underlying devotion to the ideals of the group—loyalty to medicine and to Jefferson, loyalty to keep alive the traditions of this great institution. . . . And so I say to you as soldiers in the greater war against human misery and disease, in the language of the Scripture, the harvest is indeed plenteous, but the workers are few. Let us carry on."

---

**FACULTY CHANGES**

The following appointments and promotions have been made in the Faculty of the Jefferson Medical College and its Hospital since the publication of the last issue of the Bulletin:

William Harvey Perkins, M.D., Dean and Professor of Preventive Medicine.

Baldwin L. Keyes, M.D., promoted from Clinical Professor to Professor of Psychiatry.

Harold W. Jones, M.D., promoted from Associate Professor of Medicine to Professor of Clinical Medicine and Hematology, and appointed to the Thomas Drake Martinez Cardeza Chair of Clinical Medicine and Hematology.

Martin E. Rehfuss, M.D., appointed Sutherland M. Prevost Lecturer in Therapeutics in the Department of Medicine.

Burgess L. Gordon, M.D., promoted from Associate Professor to Clinical Professor of Medicine.

Clifford B. Lull, M.D., promoted from Associate Professor to Clinical Professor of Obstetrics.

Austin T. Smith, M.D., promoted from Assistant Professor to Associate Professor of Laryngology.

Andrew J. Ramsay, Ph.D., promoted from Assistant Professor to Associate Professor of Histology and Embryology.
William J. Harrison, M.D., promoted from Assistant Professor to Associate Professor of Ophthalmology.

William H. Schmidt, M.D., promoted from Assistant Professor to Associate Professor of Physical Therapy.

C. Calvin Fox, M.D., promoted from Associate to Assistant Professor of Laryngology.

Charles Lintgen, M.D., promoted from Associate to Assistant Professor of Gynecology.

Mario A. Castallo, M.D., promoted from Associate to Assistant Professor of Obstetrics.

Arthur First, M.D., promoted from Associate to Assistant Professor of Obstetrics.

E. Ross Hart, Ph.D., appointed Associate in Pharmacology.

H. M. F. Friedman, M.D., appointed Associate in Physiology.

Bobb Schaeffer, Ph.D., appointed Associate in Histology and Embryology.

Lowell Ashton Erf, M.D., appointed Associate in Medicine.

Tracy D. Cutch, M.D., promoted from Instructor to Demonstrator of Medicine.

F. Johnson Putney, M.D., promoted from Instructor to Demonstrator of Laryngology and Bronchoscopy.

Nathan S. Schlezingen, M.D., promoted from Instructor to Demonstrator of Neurology.

Thomas J. Costello, M.D., promoted from Instructor to Demonstrator of Gynecology.

David M. Farell, M.D., promoted from Instructor to Demonstrator of Gynecology.

David H. Solo, M.D., promoted from Instructor to Demonstrator of Laryngology.

Paul H. Roeder, M.D., promoted from Instructor to Demonstrator of Obstetrics.

Robert P. Sturr, M.D., promoted from Instructor to Demonstrator of Physical Therapy.

Eli Marcovitz, M.D., promoted from Instructor to Demonstrator of Neurology.

Robert Charr, M.D., appointed Instructor in Medicine.

H. Edward Yaskin, M.D., promoted from Assistant Demonstrator to Instructor in Neurology.

James J. Ryan, M.D., promoted from Assistant Demonstrator to Instructor in Neurology.

John C. Ullery, M.D., promoted from Assistant Demonstrator to Instructor in Obstetrics.

Kenneth Matthew Corrin, M.D., promoted from Assistant Demonstrator to Instructor in Psychiatry.

Thomas J. Leichner, M.D., promoted from Assistant Demonstrator to Instructor in Physical Therapy.

J. Woodrow Savacool, M.D., appointed Assistant Demonstrator of Medicine.

M. J. Zakrzewski, M.D., appointed Assistant Demonstrator of Gynecology.

Perry MacNeal, M.D., appointed Assistant Demonstrator of Medicine.

Amos S. Wainer, M.D., appointed Assistant Demonstrator of Obstetrics.

Ephraim M. Rosset, M.D., appointed Assistant Demonstrator of Obstetrics.

Alfred W. Snedeker, M.D., appointed Assistant Demonstrator of Psychiatry.

Eugene L. Sielke, M.D., appointed Assistant Demonstrator of Psychiatry.

John Edward Lynch, M.D., appointed Assistant Demonstrator of Gynecology.

George Alan Hahn, M.D., appointed Assistant Demonstrator of Gynecology.
MARTIN E. REHFUSS
Sutherland M. Prevost Lecturer in Therapeutics

Martin E. Rehfuss was selected by the Board of Trustees to become the Sutherland M. Prevost Lecturer in Therapeutics in the Department of Medicine. This appointment followed the recent decision of the Board to incorporate the teaching of Therapeutics within the Department of Medicine. It was felt by them that the many advances made in the Science of Therapeutics during recent years could be more effectively taught within the Department of Medicine.

Dr. Rehfuss will present a course in Therapeutics in collaboration with Dr. Hobart A. Reimann, Magee Professor of Practice of Medicine and Clinical Medicine, utilizing the services and facilities together with members of the Staff of the Department of Medicine who are best qualified to teach the various aspects of this branch.

Dr. Rehfuss needs little introduction to the Alumni Body. His interest in the subjects of Therapeutics and Gastro-enterology has long been recognized by his many students. He is the author of several books and many papers on diseases of the digestive system and nutrition.
HAROLD WALTER JONES became the first incumbent of the Thomas Drake Martinez Cardeza Chair of Clinical Medicine and Hematology. As Professor of Clinical Medicine and Hematology, Dr. Jones will continue to teach undergraduates in the Medical Department of the College and as Director of the Division of Hematology will supervise all of the activities of the Cardeza Foundation. This Division, acting as the functioning unit of the Foundation, utilizes the services of many clinicians of the Jefferson Medical College and Hospital and employs research workers, technicians, artists, and nurses.

Dr. Jones is a graduate of the Jefferson Medical College, Class of 1917. He served as Resident Physician and Chief Resident Physician at the Jefferson Medical College Hospital. He was a Captain in the Medical Corps in the Army in the first World War. Following this he became interested in the study of diseases of the blood. Medical literature contains many of his scientific contributions in this field.

He is a member of the Association of American Physicians, the American College of Physicians, the Interurban Clinical Club, and many other important societies. He is a member of the Board of Corporators of the Peddie School.
Baldwin Longstreth Keyes was appointed Professor of Psychiatry. Dr. Keyes will be in complete charge of the Department of Psychiatry, a Department formerly affiliated with and part of the Department of Nervous and Mental Diseases. As Clinical Professor of Psychiatry during the past few years, he collaborated closely with the various medical services for the purpose of determining and treating emotional maladjustments in general medical practice.

Dr. Keyes is a graduate of the Jefferson Medical College, Class of 1917. His hospital appointments include Psychiatrist to the Jefferson, St. Agnes and St. Vincent Hospitals; Visiting Psychiatrist to Fairmount Farms, Roseneath Farms and Oakland Farms Sanataria; and Consulting Psychiatrist to the Municipal Court of Philadelphia.

He is a member of many national, state and local societies and is a Diplomate of the American Board of Psychiatry and Neurology.

Dr. Keyes is President of the Pennsylvania Psychiatric Society. He is a Lt. Colonel in the Medical Reserve of the United States Army and served with distinction in the World War of 1914-18 in both the British and American Armies. He is a member of the British Reserve Officers Association and is now in command of the Jefferson Hospital Unit—General Hospital #38.

Numerous papers in the field of psychiatry have been written by him.
RECENT IMPORTANT BEQUESTS AND GIFTS

The Board of Trustees of the Jefferson Medical College recently announced the establishment of a new Chair in the Department of Medicine to be known as the Thomas Drake Martinez Cardeza Chair of Clinical Medicine and Hematology. The Chair has been founded through the generosity of Mr. Thomas Drake Martinez Cardeza, well known in this city for his civic and cultural activities and philanthropic contributions.

The creation of this Chair is a result of the developments planned under the Charlotte Drake Cardeza Foundation, an outgrowth of the Division of Hematology established by the Board of Trustees in 1938 and maintained to date by funds contributed by Mr. and Mrs. Cardeza.

The foundation, named in memory of Mr. Cardeza's mother, has as its purpose the study and investigation of the diseases of the blood and allied conditions. It maintains a Research Laboratory in the Jefferson Medical College Hospital, Research Rooms in the College Building, a Transfusion-Plasma Unit and a Biologic-Photographic Laboratory.

The Transfusion-Plasma Unit fills a long-felt want. Through its facilities it has made notable advances in the preparation of plasma for transfusion and now produces a plasma of an established superiority over many others. It uses the Hill-Adtevac method as perfected at Dallas and modified by Dr. H. W. Jones and his associates at Jefferson. This plasma is small in bulk, easily transported and particularly suited to field use because of its compactness, availability and "flash" solubility. It dissolves in water in 30-60 seconds and retains all the factors found in fresh plasma.

The Board of Trustees recently announced their acceptance of a bequest of $5,000 to the College, the gift of Jacob M. and Ethel Pincus. The sum of money received will be used to establish a fund named after its donors. The income of this bequest is to be used for research purposes and will be made available from time to time at the discretion of the Board.

Dr. E. J. G. Beardsley, Clinical Professor of Medicine at Jefferson, has resigned to take up a new post. Dr. Beardsley was recently appointed Professor of Medicine at the Woman's Medical College of Pennsylvania.

Dr. Beardsley needs no introduction to the Alumni body. His professional activities and consulting practice carry him far and wide. Nevertheless, he is seen quite frequently in the halls of the school and hospital. Jefferson can again point with pride to another of its sons who has attained a high ranking appointment in a sister institution.

One can also rest assured that Dr. Beardsley's loyalty and attachment to Jefferson is as firm as ever.
Library News

The following donations have been received by the library since the publication of the last issue of the Bulletin: 603 books, 616 journals and 436 pamphlets.

Dr. James R. Care, of the class of 1896, presented 155 books to the library.

Six books on the history of medicine were presented to the library in memory of Joseph W. Wear, a trustee of the Jefferson Medical College, by his friend, Dr. Edward B. Krumbhaar.

Thirty-seven new books were purchased with money given to the College Library by Mrs. Jesse Hubschman, Mrs. Milton Hubschman and Mr. Abraham Lyon. This donation was given in memory of the late Dr. Henry K. Mohler.

One hundred and seventy-seven books were received from the estate of the late Dr. Henry K. Mohler.

A portrait of Dr. E. E. Montgomery has been received from Mrs. P. Brooke Bland. This was painted by Susan in 1921 and now hangs in the library.

Material has recently been received from the following members of the Alumni Association:

Bauer, Dr. Edward L.
Bretz, Dr. Gilbert F.
Brophy, Dr. John R.
Bushong, Dr. Frederic
Cantarow, Dr. Abraham
Care, Dr. James R.
Caviness, Dr. Verne S.
Clerf, Dr. Louis H.
Davis, Dr. Warren B.
Farrell, Dr. John T., Jr.
Grady, Dr. Hugh G.
Greenbaum, Dr. Sigmund S.
Macneill, Dr. Norman M.
Mann, Dr. Ira Thurman

Mohler, Dr. Henry K. (estate)
Mundhenk, Dr. Herbert C.
Palmisano, Dr. Vincent S.
Parsons, Dr. Willard H.
Perkins, Dr. William Harvey
Savacool, Dr. J. Woodrow
Scheffey, Dr. Lewis C.
Scott, Dr. Michael
Stewart, Dr. Harold L.
Sussman, Dr. Nathan
Tocantins, Dr. Leandro M.
White, Dr. Joseph William
Wick, Dr. Hilton Addison
Zugerman, Dr. Isadore

Jefferson to House Alumni Treasures

College Receives Gift from Dr. and Mrs. E. Q. Thornton

The Alumni Association had long felt the need for suitable quarters in which to permanently house a collection of treasures and mementos that may be bequeathed to the College by our Alumni from time to time. It was their intention that this collection consist essentially of cherished articles such as medals, plaques, decorations, etc., which in the past have reflected honor upon its graduates.

With this thought in mind, the Executive Committee sought and recently secured a cabinet for the display and protection of such gifts. The cabinet, formerly the property of the late Dr. P. B. Bland, was presented as a gift to the College by Mrs. Bland.

The recent acceptance by the College of a rare piece, in the form of a silver plate, thus fulfilled the desire of this Association and initiated a movement which may have a far-reaching effect not only as it concerns Jefferson but also its Alumni. Dr. and Mrs. E. Q. Thornton, the modest donors of this unusual gift, have the distinction of being the first to contribute in this undertaking.

Extrinsically, the silver plate represents a rare specimen of exquisite craftsmanship and is a precious object of art. Historically, it has far greater intrinsic value. In its acquisition, Jefferson, with two of its faculty members, was called upon to play an important role in a drama of widespread medical interest enacted a half century ago. The tale can be told briefly as follows:
Following the discovery of chloroform by Sir James Toreny Simpson, of Scotland, in 1848, a period ensued in which the profession questioned the then current explanations concerning the action of this drug upon the respiratory and circulatory system, and especially as to the cause of death following the administration of chloroform.

Differences of opinion were debated with much feeling and bitterness. Several investigations amongst medical men in the British Empire failed to settle the question in the minds of many.

The controversial subject was then brought to the attention of His Highness, the Nizam of Hyderabad, in India. By reason of his philanthropy, interest in science and his financial ability he accepted the invitation of some of the most outstanding scientists in the British Empire to finance a Commission; the Commission to make extensive study concerning the action of chloroform. The conclusions published in 1888 also failed to quiet the dissatisfaction of the medical profession.

His Highness consented to finance a second Commission, known as the Hyderabad Chloroform Commission of 1889, organized by Surgeon Lt. Col. Lawrie. Dr. Hobart A. Hare, Professor of Therapeutics, with Dr. E. Q. Thornton, of Jefferson, were invited to participate and form this Commission together with Drs. W. H. Gaskell and L. E. Shore of England. Through the combined investigation, a report was finally published in 1891 showing conclusively that the cause of death in chloroform anesthesia was chiefly respiratory.

Formal recognition by the profession attended this lengthy and at that time difficult investigation. As a mark of the high appreciation by the Nizam's Government, the silver plate reproduced elsewhere in the Bulletin was presented to each of the participants.

The Alumni Association of Jefferson proudly accepts this unusual gift from one of its outstanding Alumni. Its presence as the first contribution towards the Alumni collection will undoubtedly attract additional treasures of merit.
Facts Concerning Members of the First Year Class—
Session 1941-1942

(Student) (Home) (Preparatory School)
ROBERT E. BARTO, JR. PENNSYLVANIA SWARTHMORE COLLEGE
Son of Dr. Robert E. Barto, Jefferson Medical College, 1915

JAMES BEEBE, JR. DELAWARE DUKE UNIVERSITY
Son of Dr. James Beebe, Jefferson Medical College, 1906

J. FRANCIS BEHLER PENNSYLVANIA MUHLENBERG COLLEGE
Son of Dr. John E. Barsby, Jefferson Medical College, 1920
Also Grandson of Jefferson Graduate

MELVIN L. C. BERNSTINE PENNSYLVANIA ST. JOSEPH'S COLLEGE
Son of Dr. J. Bernard Bernstine, Jefferson Medical College, 1922

FRANK W. BLAIR PENNSYLVANIA UNIV. OF PENNSYLVANIA
Son of Dr. Mortimer W. Blair, Jefferson Medical College, 1914

DAVID R. BREWER, JR. NEW JERSEY TEMPLE UNIVERSITY
Son of Dr. David R. Brewer, Jefferson Medical College, 1918
Also Grandson of Jefferson Graduate, 1896

HARRY M. BURROS PENNSYLVANIA UNIV. OF PENNSYLVANIA
Son of Dr. Albert Burros, Temple University, 1920
Instructor in Pediatrics, Jefferson Medical College

STANLEY N. CLARK UTAH BRIGHAM YOUNG UNIV.
Son of Dr. Stanley M. Clark, Jefferson Medical College, 1921

HUGH L. H. DICK, JR. PENNSYLVANIA UNIV. OF PENNSYLVANIA
Son of Dr. Hugh L. H. Dick, deceased, Jefferson Medical College, 1909

F. M. DOUGLASS, JR. OHIO OBERLIN
Son of Dr. Frederick M. Douglass, Toledo Medical College, 1911

M. E. EICHMAN, JR. PENNSYLVANIA VILLANOVA COLLEGE
Nephew of Dr. Edward A. Eichman, Jefferson Medical College, 1905

JEROME J. FROELICH NEW JERSEY NOTRE DAME UNIVERSITY
Son of Dr. Joseph C. Froelich, University of South, 1900

WILLIAM R. GRIFFIN, JR. NORTH CAROLINA DUKE UNIVERSITY
Son of Dr. William R. Griffin, Jefferson Medical College, 1910

CARL von R. HEISE MINNESOTA DRAKE UNIVERSITY
Son of Dr. William F. C. Heise, Rush Medical College, 1896
Brother of Dr. Herbert Heise, Jefferson Medical College, 1927

ROBERT H. HOLLAND PENNSYLVANIA GETTYSBURG COLLEGE
Son of Dr. Harold H. Holland, University of Pittsburgh, 1926

PAUL E. H. KAIN NEW JERSEY YALE UNIVERSITY
Son of Dr. Thomas M. Kain, Jefferson Medical College, 1912
Brother of Thomas M. Kain—Jefferson Medical College, Class of 1943

EDWARD KAPEGHIAN PENNSYLVANIA ST. JOSEPH'S COLLEGE
Son of Dr. Ervant Kapeghian, Maryland Medical College, 1911

ROBERT M. KERR PENNSYLVANIA BUCKNE LL UNIVERSITY
Son of Dr. Percival M. Kerr, Temple Medical College, 1906

THEODORE J. KRAUS PENNSYLVANIA VILLANOVA COLLEGE
Son of Dr. Gabriel J. Kraus, Jefferson Medical College, 1912
CHARLES L. LIGGETT  OHIO  OHIO WESLEYAN
Son of Dr. Lewis L. Liggett, Ohio State, 1925
Brother of John S. Liggett—Jefferson Medical College, Class of 1942

HERBERT LIPSHUTZ  PENNSYLVANIA  FRANKLIN & MARSHALL
Son of Dr. Benjamin Lipshutz, Jefferson Medical College, 1912

BRYAN H. LUMPKIN, JR.  SOUTH CAROLINA  UNIV. OF S. CAROLINA
Cousin of Dr. William W. L. Glenn, Jefferson Medical College, 1939
Nephew of Dr. E. B. Glenn, Jefferson Medical College, 1896

JAMES D. McGAUGHEY, III  CONNECTICUT  DARTMOUTH COLLEGE
Son of Dr. James D. McGaughey, Jefferson Medical College, 1910
Also Grandson of Jefferson Graduate

WILLIAM B. MANGES  PENNSYLVANIA  GETTYSBURG COLLEGE
Son of Dr. Willis F. Manges, Jefferson Medical College, 1903

JOHN SPOTZ MONK  PENNSYLVANIA  FRANKLIN & MARSHALL
Grandson of Dr. G. E. Spotz, Jefferson Medical College, 1897

DOMER S. NEWILL, JR.  PENNSYLVANIA  ASHLAND COLLEGE
Son of Dr. Domer S. Newill, Eclectic, 1915

THOMAS E. PILLA  PENNSYLVANIA  UNIV. OF PENNSYLVANIA
Nephew of Dr. Joseph Pessolano, Jefferson Medical College, 1915

CHARLES W. POTTER, JR.  PENNSYLVANIA  BUCKNELL UNIVERSITY
Grandson of Dr. Isaac Edwards, Jefferson Medical College, 1870
Also Nephew of Jefferson Graduate

ROBERT E. RICH  PENNSYLVANIA  AMHERST COLLEGE
Son of Dr. Charles Rich, University of Vermont, 1915

ROBERT G. SALASIN  PENNSYLVANIA  RUTGERS COLLEGE
Son of Dr. Samuel L. Salasin, Medico-Chi, 1907

FRANK A. SCHMIDT, JR.  PENNSYLVANIA  GROVE CITY COLLEGE
Nephew of Dr. W. H. Schmidt, University of Pennsylvania, 1908
Assistant Professor of Physical Therapy

JEROME SHAFFER  PENNSYLVANIA  PENNSYLVANIA STATE
Brother of Dr. Irwin G. Shaffer, Jefferson Medical College, 1940

R. J. SPANGENBERG  PENNSYLVANIA  VILLANOVA COLLEGE
Nephew of Dr. John A. Kahler, Jefferson Medical College, 1920

EMILIO F. TRILLA  PUERTO RICO  UNIV. OF RICHMOND
Son of Dr. Federico Trilla, Chicago Medical College, 1913

ROBERT A. UPDEGROVE  PENNSYLVANIA  SUSQUEHANNA
Brother of John Updegrove, Jefferson Medical College, Class of 1944

PAUL C. WASHBURN  PENNSYLVANIA  GENEVA COLLEGE
Son of Dr. Horace Washburn, Jefferson Medical College, 1914
Brother of Dr. Hubert H. Washburn, Jefferson Medical College, 1941

JOHN S. WATSON  OHIO  OHIO STATE UNIVERSITY
Son of Dr. Frank W. Watson, Ohio State Medical College, 1919

HENRY S. WENTZ  PENNSYLVANIA  DUKE UNIVERSITY
Nephew of Dr. P. R. Wentz, Jefferson Medical College, 1907

HERMAN G. WILHELM, JR.  PENNSYLVANIA  PITTSBURGH UNIVERSITY
Nephew of Dr. James Easton, Baltimore Physicians and Surgeons, 1913
THE ALUMNI

IN THE SERVICE OF THEIR COUNTRY

JEFFERSON MOBILIZES

The service record of Jefferson during the first World War when compared with similar institutions was second to none. At that time there were approximately 5,000 living graduates and more than one in four, or a total of 1,435, saw service, either in the Army or Navy, some with the highest rank. The beginning of hostilities found 500 officers in the Medical Corps of the Army. Upon completion of the war, the total number that had been mustered was 30,000. Thus 98.3% of the medical officers enrolled were called from civilian ranks. Of these, approximately one in every twenty-three was a Jeffersonian.

The many citations and decorations for merit with which our men were honored indicated effectively the adequacy of their service. Every military decoration, including the Congressional Medal of Honor, was received. Decorations bestowed upon our graduates by foreign governments included the Order of Bath, the Order of the Crown of Belgium, the Legion of Honor, the Belgium War Cross, the Croix de Guerre, the Distinguished Service Medal, and the British Military Cross. Twenty-seven gave their lives.

The number of our graduates already enrolled for service in the present conflict has not been determined accurately at this writing. All available sources show an aggregate number of approximately 450 individuals and these have been listed on the following pages. All Alumni who are now in the Service and whose names are not recorded in this issue of the Bulletin are urged to forward complete data as to their rank, station, etc. Individuals who may, at some future time, be called into one of the various services are asked to do likewise. In this way a permanent and authoritative record will be made available to the Institution. It will also serve as a handy directory for communicating with one's friends and classmates.

Jefferson's participation in the present crisis will undoubtedly be on a scale much larger than on any previous occasion of war. The total number of physicians that will be required before the present conflict is finally ended can not, of course, be estimated. From all present trends and authoritative sources of information, the ranks of the medical profession in civilian life will necessarily be depleted to a new low. The greater portion of the graduating classes of the past fifteen years will see military service in some form. Upon the shoulders of our older Alumni there will be an added burden, in the school, in the cities, and in the villages.

Jefferson need not stand upon any past record of performance. It is certain that, whatever the future may bring, our school and our Alumni will be found deserving.
### Graduates of Jefferson Medical College

**Officers of the Regular and Peacetime Army and Navy Corps**

THE 38th General Hospital, United States Army

The 38th General Hospital, United States Army (Jefferson Hospital Unit), was reactivated and reorganized during the past year, and stands ready with its professional and nursing staff to respond to the call for active duty whenever and wherever the Surgeon General of the Army decides it is needed.

It is understood that this hospital is to function much as did the old Jefferson Hospital Unit of World War I which established such an enviable record in France in 1918.

The present 38th General Hospital is to be composed of 55 medical officers, 120 nurses and about 500 other personnel to care for 1000 bed patients. It is probable that the Unit will not be mobilized until about three months after the declaration of war, and that another month or two will be required after that for organization and processing of personnel before patients can be accepted. To facilitate administration, six medical administrative officers and 200 trained hospital corps men from the regular army will function as a nucleus around which will develop a smoothly running organization.

A number of the medical officers and nurses of this Unit have been on active duty with the Army for several months in scattered parts of the United States and abroad. All of these will be returned to the 38th General Hospital when it is inducted into service. By reason of their recent army experience, they will prove most helpful in assisting many of the uninitiated to adjust themselves quickly to the transition from civil to army existence.

During the past year a dinner and several meetings have been held by the Medical Officers who show an eagerness in the prospect of active duty. The nurses also have held meetings and are demonstrating considerable interest and a readiness for active service.

Following the declaration of war with Japan, there developed a great increase in the demand for positions in the 38th General Hospital, but since all assignments have been filled for many months and no further vacancies have been created, a list of alternate doctors and nurses has been compiled which in itself could almost staff another hospital.

It is very gratifying to the organizing group to find such enthusiastic support which spells well for the future of the 38th General Hospital. The members of the professional staff are at present listed as follows:

---

**Personnel—Jefferson Hospital Unit**

**Unit Director—Lt. Col. Baldwin L. Keyes**
**Chief, Medical Service—Lt. Col. Burgess L. Gordon**
**Chief, Surgical Service—Lt. Col. Alan P. Parker**

A LETTER FROM THE PRESIDENT OF THE ALUMNI ASSOCIATION

I greet you, my fellow Alumni, in this year of 1942, with true Jefferson spirit, fully realizing the great responsibility which has to be carried by us one and all in this national emergency.

We remember with great pride the outstanding service of our Jefferson Unit during the first World War and now again our Unit has been formed, of which we can again be justly proud, knowing full well that it will acquit itself with as great credit as did the first.

Although we feel assured of the victorious outcome, the present is a serious challenge to every thinking American. I have confidence that you, as trained Jefferson men, will meet the challenge.

During 1942 I trust all of you who find it possible to come to Philadelphia will make it a point to visit your Alma Mater, where you will be warmly welcomed and the old associations which bind you to her may be renewed and strengthened.

While for most of us this may not be a truly happy year, yet I wish for you everything that is good.

EDWARD L. BAUER,
President.

ALUMNI DAY—1941

On June 5, 1941, the annual Alumni Dinner made a fitting climax for the program held during Commencement Week. The various class reunions added to the large attendance filling the Banquet Room of the Bellevue-Stratford Hotel in Philadelphia.

Five hundred forty-two members of the Alumni Association representing forty-seven classes were present. Among the participants were members of six classes who graduated from College more than fifty years ago.

The speakers were Mr. Robert P. Hooper, President of the Board of Trustees; Dr. Henry E. Radasch, '01; Dr. Francis F. Borzell, '06; Dr. Frank H. Krusen, '21, and Commander John H. Chambers, '16. Dr. John J. Gill, President of the Graduating Class, spoke for the Class of 1941. On behalf of the New York Alumni Chapter, Dr. Robert G. Carlin, '02, announced that the Annual Award of that Chapter was given to Dr. Victor G. Heiser.

The number of Alumni returning to the various class reunions totaled 276, and were divided as follows:

BRANCH CHAPTER MEETINGS

PENNSYLVANIA

Northern Pennsylvania Chapter
An all day meeting of the Northern Pennsylvania Chapter was held in Wilkes-Barre, Pa., on October 30, 1941. Dr. Lewis C. Scheffey, Dr. Burgess L. Gordon and Dr. Bernard J. Alpers attended as representatives of the College. Clinics were held at the Mercy Hospital in the forenoon and at the Wilkes-Barre General Hospital in the afternoon. Seventy-five members were present at the dinner held at the Sterling Hotel in the evening.

Southwestern Pennsylvania Chapter
The Annual Dinner of the Southwestern Pennsylvania Chapter was held at the Uniontown Country Club in Uniontown, Pa., October 22, 1941. Ninety members were present. Dr. Randle C. Rosenberger and Dr. E. J. G. Beardsley were present.

The officers of this Chapter for the year 1942 are:
President, Dr. Joseph A. Baird, Pittsburgh, Pa.
Vice-President, Dr. A. J. Berlin, Coraopolis, Pa.
Secretary-Treas., Dr. Lester L. Bartlett, Pittsburgh, Pa.

NEW YORK

Metropolitan New York Chapter
A meeting of the Metropolitan New York Chapter of the Jefferson Medical College Alumni was held at the Murray Hill Hotel in New York City on November 12, 1941, with thirty-three members in attendance.

Dr. John B. Montgomery, Dr. Abraham Cantarow and Dr. Robert A. Matthews were present and addressed the gathering.

The F. G. Handren Award was presented to Dr. F. B. Wagner, '40, for his outstanding ability as a student in his four years at Jefferson.

Western New York Chapter
Nineteen members of the Western New York Chapter of the Jefferson Alumni attended a dinner at the Saturn Club in Buffalo, N. Y., on September 10, 1941. Informal talks were given by Dr. Randle C. Rosenberger, Dr. Baldwin L. Keyes and Dr. William T. Lemmon.

NEW JERSEY

New Jersey Chapter
An enthusiastic dinner and meeting of the Northern New Jersey Chapter was held at the Essex Club in Newark, N. J., October 29, 1941. Dr. E. J. G. Beardsley addressed the group and spoke on "Common Sense in Medical Education."

The following were elected officers for the coming year:
President, Dr. Edwin Steiner, '01, Newark, N. J.
Vice-President, Dr. Lee Hughes, '16, Newark, N. J.
Secretary, Dr. Henry A. Davidson, '28, Newark, N. J.
Treasurer, Dr. Rocco Nittoli, '16, Elizabeth, N. J.

Dr. Wm. Harvey Perkins attended a meeting of the Essex County Medical Society in Newark, N. J., on December 18, 1941. Twenty-five Jefferson men met for dinner before the meeting.

MISSOURI

St. Louis Chapter
In conjunction with a meeting of the Southern Medical Society held in St. Louis, Missouri, on November 12, 1941, fourteen members of the Jefferson Medical College Alumni attended a dinner in the Gold Room of the Jefferson Hotel.

Dean Wm. Harvey Perkins was the guest of honor. An informal talk by Dean Perkins on "Recent Developments at Jefferson" was enjoyed by all.
Dr. Theodore R. Fetter, '26 congratulates Dr. John T. Eads, Chairman of the Entertainment Committee on the success of the Dinner. Center "Pop" Ulrich, Right "Rosy."

CLASS REUNIONS
Eighty-nine graduates of Jefferson Medical College gathered for a Dinner in the Empire Room of the Hotel Cleveland in Cleveland, Ohio, on June 4, 1941. This dinner was held in conjunction with the Annual Meeting of the American Medical Association. Dr. Horace E. Mitchell, Class of 1912, acted as Chairman of the Committee. Drs. Brooke M. Anspach and Louis H. Clerf represented the Faculty of the College.

During the coming session of the American Medical Association to be held in Atlantic City, New Jersey, June 8-12, 1942, plans have been made for an Alumni Reunion. A Buffet Dinner and Smoker will be held on Wednesday, June 10, 1942, at 6:30 p.m. at the Hotel Traymore. Please arrange to be present. Reservations should be made as early as possible either through the Alumni Association or through Dr. David B. Allman, 104 St. Charles Place, Atlantic City, New Jersey.

The Chairman of the Committee on New Members, Dr. Reynold S. Griffith, informs us that at the present writing 100% of the graduating class of 1941 have been enrolled in the Alumni Association.

The Class of 1917 wishes to announce that its Twenty-fifth Reunion will be held in June, 1942. An organization meeting was held on December 8, at which time fifteen members of the class living in and around Philadelphia were present. They were Drs. Harold Jones, William Harvey Perkins, Baldwin Keyes, J. Malcolm Weber, William Thudium, Irvin Deibert, Morris Segal, James Carrell, Abraham Bernstein, Frederick Keller, Oram Kline, Walter Livingston, Edgar Kemner, Albert Fisher and Adolph Walkling.

Dr. Harold Jones was appointed Chairman of the Committee and Dr. Adolph Walkling, Secretary. Various sub-committees were appointed to lay the groundwork for a two-day reunion. Monthly meetings are scheduled and letters will be sent out to each member of the class after each meeting. We urge each class member to cooperate to the fullest extent to make this reunion an outstanding success.

5th Reunion—Class of 1937
Dr. Robert C. McElroy
Philadelphia General Hospital

STUDENT ACTIVITIES

ANNUAL BLACK AND BLUE BALL

Again this year, as during the past ten years, the Kappa Beta Phi Fraternity of Jefferson is sponsor of the Annual Black and Blue Ball. This increasingly popular event is to be held during the early part of March, the exact date and place to be announced. All students and Alumni, together with their friends, are invited. The Student Committee have as their Faculty Advisor Dr. Eli Saleeby, who assures us that the dance this year will be gayer than ever. One of the country's leading orchestras has been secured.

Several years ago, at the suggestion of Dr. Saleeby, the proceeds of the dance were permitted to accumulate in order to create a fund which would provide financial aid to needy students. The Board of Trustees granted authority permitting the establishment of this fund, now recognized as “The Jefferson Medical Student Endowment and Welfare Fund.”

Receipts from the past few dances have accumulated and at the present time total approximately $800.00. Your attendance will lend support towards the growth and continuance of this creditable student activity. Tickets are best obtained early either through the Student Committee or through Dr. Saleeby.
Dear Ulrich:

Thanks very much for your letter and kind invitation to the reunion of the Class of 1901.

Much as I would like to attend, am afraid it is impossible. I doubt very seriously whether you will receive my reply to your letter received only today. It is rather strange I should have been thinking of Jefferson and my old schoolmates very much this last month. I did receive a 1941 prospectus however, and this may be the reason. The new College buildings are magnificent and I recalled that our class of 1901 were the first to graduate from the then new college. Do you remember the hectic days and nights spent on the roof of the building protecting our Class Flag? All lectures stopped and the mad crowds on the streets.

Am afraid my professional life since leaving Jeff, although varied, is not very interesting, but here goes:

After graduation I returned to Florida, my home. I then left for England to do post-graduate work in London. Offered my services as civilian surgeon for duty in the South African War. Not having a British Qualification, I was turned down. Returned to the U. S. A. in '02 and served as Resident Surgeon at Mercy Hospital, Pittsburgh, Pa., until 1903. Returned to Florida and took up surgery. Sat for a competitive job as Asst. State Health Officer and got it. Served until 1905 and then resigned. Again I took up surgery in Jacksonville, Fla., but cracked up in 1906. Packed up and came over here to my old home. After regaining my health again I did some more post-graduate work and then returned to the U. S. A. I stayed over in Philadelphia and on the advice of our classmate Funke, applied for and got the new post of Neuro-Pathologist at Jefferson. I passed the State Examination and carried on for a few months but alas, I could not stand the financial strain so when offered special work with the Florida State Board of Health, took it. During my time in Phillie I met some of our classmates, two who have gone, Bland and J. L. Davis. Men who made names for themselves.

I remained in the Florida State Service until 1914. When doing special Bubonic Plague work in New Orleans, the Great War broke out and I offered my serv-
ices at once. The State Health Officer, Dr. J. Y. Porter, who by the way was an old Jefferson man, granted me indefinite leave without pay and gave me his blessing on departure. I never saw him again.

When I arrived here the War Office again turned me down on account of not having a British Qualification. I then got a job as Chief Surgeon to a French auxiliary hospital at Dunkirk. Served with the French at different hospitals until 1916, and was then sent for by my own government and attached to the R.A.M.C. as surgeon.

Sat for and got my L.M.S.S.A. in 1914, and was commissioned at once. Served in Mesopotamia until 1918, and also in India for a time after being invalided there. Left the Army in 1918, and went straight into the Ministry of Pensions.

Served with them until 1927. Bought a practice in London and was swindled out of all my savings. Gave it up in 1929, and went to sea as Medical Officer with Elden Dempster Lines, Ltd., became Commodore Surgeon and left them in 1936.

Returned to the U. S. A. on holiday. Bought a 23' cabin cruiser in Charleston, S. C., and made the journey down to Florida via Intracoastal Waterway. Spent the winter there cruising in Florida waters as far as Key West. Returned North in my boat, visiting my daughter in Washington.

Took my boat back to Norfolk, Va., and shipped her on a Baltimore Mail Line boat for London, sailing on same boat. Spent the summer of '38 cruising about English waters.

Sorry, the sirens have just sounded and I must do a spot of fire watching.

Thank goodness, the Jerries gave us a miss but they went over us for hours. Some poor devils have got it. I hope to God you are spared from this terrible ordeal. To continue, I made one more voyage down the West African Coast ending June 1939. The war was on and it was not too pleasant. Unfortunately I went down with broncho-pneumonia and was put in hospital for ten days. The spring and summer of '40 I spent on a river in my American cabin cruiser as surgeon to the river patrol. At the time of writing I am undecided; have an offer of a ship in my old company and the river patrol want me to carry on.

You must pardon me for digressing. This letter will probably never reach you and if it does, it will be too late for the reunion. You may meet some of my old classmates and they may be interested to hear of an Englishman who is proud to be a graduate of Jefferson Medical College, Class of 1901. Greetings.

Yours fraternally,
Ernest W. Diggett
JEFFERSON SOCIETY FOR CLINICAL INVESTIGATION

The 15th Annual Dinner of the Jefferson Society for Clinical Investigation was held at the University Club on Thursday, October 30, 1941. Members of the Board of Trustees and Senior Faculty were present as guests of the Society.

The speakers of the evening were Dr. Frank L. Meleney, Associate Professor of Surgery, Columbia University, and Dr. William Harvey Perkins, Dean and Professor of Preventive Medicine, Jefferson Medical College. They spoke on “Surgical Infections and Their Bacteriological Effects Since the Advent of War,” and “Sidelights on Siam—Medical and Otherwise,” respectively.

The annual award, now known as the Thomas McCrae Award, given to that individual or group of individuals belonging to the Junior Staff who published the most meritorious piece of investigative work during the past year was announced by Dr. Hobart A. Reimann, Magee Professor of Practice of Medicine and Clinical Medicine, Chairman of the Faculty Advisory Committee. This honor was conferred upon Drs. Robert Charr and J. Woodrow Savacool for their paper, “Changes in the Arteries in the Walls of Tuberculous Pulmonary Cavities.” Honorable mention was made of the paper, “Intercapillary Glomerulosclerosis” written by Dr. Peter Herbut.

ENDOWED ROOM AND BENEVOLENCE FUND

The report of the Endowed Room and Benevolence Fund Committee indicates the use made of the Endowed Room and the need for increasing the fund. Dr. Warren B. Davis, Chairman of the Committee, reports that in the period from May 22, 1940, to December 9, 1941, ten Jefferson Alumni have occupied the room for a total of one hundred eighty-six days. This represents a total room charge of $2557.25. The Committee is collecting further funds so that sufficient income will be obtained to provide special nursing care when this is necessary. To date, this fund amounts to $475.86.

It is hoped that the Alumni will support generously this important activity of the Association. Subscriptions may be sent in at any time and in any amount. Subscriptions to the fund will enable the Alumni Association actually to do something for the various members of the Alumni who need aid. The amount subscribed need not be great. The sum of many small subscriptions quickly mounts to an appreciable size. Write a check at once to enable the Association to do more for you and the other members.

I wish to contribute to the Endowed Room Fund $__________________
