During the 1975/76 academic year, the College continued its steady process of growth and development, both in curricular and extracurricular areas.

The College’s first catalog, covering the years 1975-77, was published in October. During the year, the first College yearbook was started by seniors in medical technology and nursing. The yearbook was called *Karyon*, chosen through a name contest. The winning entry was submitted by Susan Barbuto, a junior baccalaureate nursing student. A class ring, designed by senior radiologic technology students, was approved.

After nine years as the first Dean of the College, Dr. John W. Goldschmidt (Fig. 28) resigned, effective December 31, 1975, to accept a new post as Associate Medical Director of the Rehabilitation Institute of Chicago and Professor of Rehabilitation Medicine at Northwestern University. Lawrence Abrams, Associate Dean and Director of Student Affairs, was appointed Acting Dean.

The College, as well as the rest of the University, suffered a loss on March 31, 1976, when University President Peter A. Herbut, M.D. died. Dr. Herbut had been Jefferson’s President since 1966 (Fig. 29).

The Department of Baccalaureate Nursing, in cooperation with the Nursing Service Department of Jefferson Hospital, presented a continuing education symposium for nurses, entitled “My Patient Can’t Cope: A Seminar in Crisis Intervention.” The Department of Medical Technology, in conjunction with the Clinical Laboratories of Jefferson Hospital, presented “A Symposium on Clinical Laboratory Management,” also a continuing education program.

The Department of Cytotechnology received a positive summary evaluation after its accreditation visit by the American Society of Cytology in March. The evaluation included a recommendation to the Council on Medical Education of the American Medical Association for five years full accreditation.

The Department of Baccalaureate Nursing received notice of its full accreditation status for the maximum eight years from the National League for Nursing in May.

The end of the academic year also marked the termination of the College’s histologic technology program.

At the University’s Commencement Exercises on June 11, degrees were awarded to baccalaureate degree graduates of the College, 20 in medical technology and 58 in nursing. In addition, the first two associate of arts degrees, earned through the College’s General Studies program, were awarded.

Fig. 28. John W. Goldschmidt, M.D., Dean of the College since its establishment as the School of Allied Health Sciences in 1967, resigned during the year. He is pictured as he appeared in the College’s first yearbook, *Karyon*.
University President Peter A. Herbut, M.D., who died during the year. He is shown in attendance at a 1975 College of Allied Health Sciences dinner chatting with medical technology program alumni, Emira Zamilli, '45, left, and Betty Ransom, '30.

Five honorary degrees were conferred at that ceremony. Marian Anderson, world famous contralto; Dr. Roger W. Heyns, president of the American Council on Education; Arthur C. Kaufmann, former president of Gimbel's, business and civic leader; James A. Michener, Pulitzer prize novelist; and Dr. Jo Ono, Jefferson Medical College graduate, class of 28 and world renowned otolaryngologist, were the recipients.

A few months later, the radiologic technology program graduates included two award winners: Betsy Lynn Hayes, the recipient of both the Frances Cary Award and the Clinical Award, the latter presented by the Mallinckrodt Company; and Viola Louise Harris, the winner of the Class Award, given to the most helpful graduating senior, presented by the Squibb Pharmaceutical Company.

Kathy L. Norris, later Kathy L. Grant, cytotechnology, was a founding member of the Delaware Valley Society of Cytology in 1979 and President of that organization in 1981 (Fig. 30). She earned a master of science degree from St. Joseph's University in 1986. She became the chief cytologist and anatomic pathology co-ordinator at Mansfield General Hospital in Mansfield, Ohio, as well as a doctoral candidate at the University of Akron, and a member of the Board of Directors of the Wayne County Unit of the American Cancer Society.

Elizabeth A. Celenza, later Elizabeth A. Bowrowski, medical technology, earned her certification as a specialist in blood banking and became Director of Technical Education at American Red Cross Blood Services in Philadelphia. An active lecturer at many professional meetings, she was also enrolled in a master's degree program at the University of Pennsylvania.

Rachelle A. Alisa, later Rachelle A. Jeannette, radiologic technology, became a radiologic technologist for Bancroft X-Ray, Inc. in Wilmington, Delaware, and earned two academic incentive scholarship awards from Delaware Technical and Community College and an American Chemical Society Scholarship Award.

Nancy Fulginiti, practical nursing, subsequently attended Gloucester County College in New Jersey, where she earned degrees in respiratory therapy in 1979 and nursing in 1985 (Fig. 31). She was on the Licensed Practical Nursing Advisory Committee at Gloucester County Vocational and Technical School. She became a Nurse Recruitment Specialist for Kennedy Memorial Hospitals-University Medical Center.
Susan Werther Cohen, Esq., nursing, went on to a law degree in 1979. That same year she became President of the baccalaureate nurses' Alumni Association (CAHS), and in December was elected to Jefferson's Board of Trustees (Fig. 32). Rachel E. Moore, medical technology, became a specialist in blood banking and embarked on a career that included Hershey Medical Center in Hershey, Pennsylvania, and Johns Hopkins University Hospital in Baltimore. In 1985, she became Coordinator of the Rare Donor Registry and Reference Laboratory Technologist for the American Red Cross National Headquarters in Washington, D.C. After several promotions, she was made Marketing Associate for Plasma Operations.

Parents Day organizers: standing left to right, Mrs. Dorothy Grieb, Assistant Director of Student Affairs and Services; students Mitch Bergman and Rachel Moore; and seated, Ellen Berg and Faye Yatsko.
The 1976/77 academic year was a pivotal one for the College of Allied Health Sciences. Effective July 1, 1976, a number of changes took place that consolidated the allied health professional programs at the baccalaureate level within the College. The School of Radiologic Technology became the Department of Radiologic Technology. The School of Cytotechnology became the Department of Cytotechnology. The final class of 12 cytotechnology certificate students graduated a month later. The Department of Dental Hygiene was officially established.

Marten M. Kernis, Ph.D., assumed the position of Dean of the College of Allied Health Sciences on September 1 (Fig. 33). Dr. Kernis had been Associate Dean of the School of Basic Medical Sciences in the College of Medicine at the University of Illinois, and associate professor of anatomy and obstetrics and gynecology.

A non-traditional interinstitutional academic program (NIAP) in medical technology was planned (Fig. 34). It would admit students two times, in September 1977 and September 1978. A cooperative effort among Jefferson, Temple University and the University of Pennsylvania, the program was supported by a federal grant. The special weekend course of study, spread over three years, provided the third and fourth years of a baccalaureate degree program for clinical laboratory technicians and technologists who were seeking to meet the qualifications set by recent state and federal legislation.

During 1977, the College celebrated the 10th anniversary of its founding as the School of Allied Health Sciences. The University’s Interim President, George M. Norwood, Jr., wrote in a letter published in the Allied Health Review, the College’s alumni periodical, that the College “has successfully met the challenges of the times during the past decade. . . . The growth of the College has been dramatic. . . . On behalf of the University, it is gratifying to commend the College for its emergence as a most vital part of the institution.”

In April, 1977, Tenley Albright, M.D., a general surgeon affiliated with New England Baptist Hospital in Boston, a graduate of Harvard Medical School and an Olympic gold medalist figure skating champion in 1956, delivered the College’s Merves Lecture. The Merves Lecture, designed to address a topic on the humanities in medicine, was established in 1968 in honor of the late Dr. Louis Merves, an associate professor.
of clinical medicine at Jefferson, whose gift to the College supported the lecture program.

The Department of Radiologic Technology's annual awards included several graduates of 1977. Theresa Ragano won the Frances Cary Award, which recognized the combination of technical expertise with kindness and humanitarian concern for patients. Alma Jean Calcagno won the Mallinckrodt Award, given to the senior who was most helpful to junior students. The Squibb Award for highest overall academic and clinical performance was shared by Alma Jean Calcagno, Joyce Keil and Joanne Landis.

At the University's Commencement Exercises on June 10, the College of Allied Health Sciences awarded bachelor of science degrees to 57 nurses and 24 medical technologists. Separate ceremonies were held for certificate graduates of radiologic technology and practical nursing (Fig. 35 and 36).

Honorary degrees were presented to Derek E. Denny-Brown, M.D., a distinguished neurologist from Harvard Medical School; Dr. Millard E. Gladfelter, Chancellor of Temple University; and Hobart A. Reimann, M.D., Associate Director of Medical Affairs at Hahnemann Hospital.

Carla M. Trautman, medical technology, a summa cum laude graduate and a member of the Medical Technology Student Bowl Team, became Supervisor of Veterinary Services, World Services/Johnson Control.

Theresa M. Poiesz, radiologic technology, continued her education, earning a certificate in radiation oncology from Gwynedd-Mercy College in 1978 and a bachelor of science degree from Neumann College in 1983. She was a Senior Radiation Oncology Technologist at Thomas Jefferson University Hospital.

Mitchell T. Bergmann, nursing, earned a master of science in nursing degree in nursing administration and gerontology from Gwynedd-Mercy College in 1986 and became Administrative Director for Surgery and Anesthesia at Medical College of Pennsylvania. He remained a very active alumnus serving on the College’s Alumni Advisory Committee and participating in Career Options programs and other College events.

Hebe Diana Hearn Jungkind, later Hebe Diana Hearn Lutz, nursing, received a master of science in nursing degree from the University of Pennsylvania in 1984 and became an instructor in the Department of Nursing at Eastern Michigan University and a staff nurse at the University of Michigan.

Victoria A. Kolodzey, nursing, became a rehabilitation consultant for Conseruco in Voorhees, New Jersey. She returned to Jefferson as a student in 1990 and enrolled in the master of science in nursing degree program in rehabilitation nursing.

Meri Lynn Wieder, later Meri Wieder Sirkin, nursing, earned a master's degree from Rutgers University and became certified in adolescent and child psychiatric and mental health nursing. She was the Assessment and Treatment Coordinator in the Adolescent Substance Abuse Unit of Fair Oaks Hospital in Summit, New Jersey. She also lectured on cults, satanism, and adolescent substance abuse.

Karen R. Krylowicz, practical nursing, became Clinical Services Coordinator of the Department of Obstetrics and Gynecology, Hospital of the University of Pennsylvania.

Fig. 35. Graduation for 56 students in the School of Practical Nursing took place on August 31, 1977.
Fig. 36. Elizabeth J. Sweeney, Director of the School of Practical Nursing, “pins” a student of the Class of ’77.
At Opening Exercises in September for the 1977/78 academic year, Martin M. Kernis, Ph.D., the Dean of the College, presented the first College of Allied Health Sciences’ Achievement Award for Student Life to Bonnie L. Dymek, radiologic technology (Fig. 38). Thereafter, the award was presented annually to the student who had made the most outstanding contribution to student life.

The Opening Exercises were particularly significant for the College and the University as Lewis W. Bluemle, Jr., M.D., was inaugurated University President. Dr. Bluemle, who served as President until his retirement in 1990, proved to be a strong supporter of the College’s nursing and allied health programs (Fig. 39).

In September, College students, faculty and administrators joined in the celebration of a milestone in the University’s history, the centennial of Thomas Jefferson University Hospital (Fig. 40). The approval of the Bylaws of the College by the University Board of Trustees in September provided the faculty with a set of guidelines by which participatory governance could be maintained and provided for student representation on seven of the nine College committees.

The incoming class was marked by three firsts: the matriculation of the first class of dental hygiene students (Fig. 41), two classes of radiologic technology baccalaureate degree students after the department phased out its hospital-based certificate program following the summer quarter of 1977, and a group of medical technology

Fig. 38. Among the radiologic technology students pictured with the department’s acting chairperson, Larry Walker, M.Ed., is Bonnie L. Dymek, far left, the recipient of the College’s first Achievement Award for Student Life.
students in a non-traditional, weekend program sponsored by a grant from the U.S. Department of Health, Education and Welfare.

At Parents’ Day in October, Dean Kernis presented the first College of Allied Health Sciences’ Alumni Special Achievement Award to Rhonda Karp, Ed.D., chairman and Associate Professor, Department of Cytotechnology (Fig. 42). This award, given to a graduate in recognition of that person’s contribution to his or her profession in the areas of education, research, or community service which reflect on Thomas Jefferson University as that person’s alma mater, continued to be awarded annually.

Ribbon-cutting ceremonies for the Department of Dental Hygiene’s new clinical facility and administrative offices, located on the 18th and 22nd floor of the Edison Building respectively, were held November 9, 1977.

In the spring, the Department of Radiologic Technology sponsored its first Symposium for Radiologic Technologists. The event was well attended and attracted technologists from Pennsylvania, New Jersey, New York, Maryland, Washington, D.C., and Texas.

Dean Kernis submitted his resignation in March and Lawrence Abrams was appointed by President Bluemle to serve as Dean Pro Tem.

At the June 9 Commencement Exercises, the College graduated 113 students. In addition to graduates in medical technology, nursing and radiologic technology, the Class of ’78 included its first group of baccalaureate degree cytotechnologists, 12 in number.

Bonnie L. Dymek (Fig. 38), later Bonnie L. Behm, radiologic technology, the recipient of the College’s first Achievement Award for Student Life, for her editorship of the College yearbook and numerous other activities, stayed at the College as an admissions counselor in the Office of Admissions, Records, and Financial Aid. Subsequently, she became Coordinator of Financial Aid, then Director of Financial Aid. An active alumnus who served on the Alumni Advisory Committee, she earned a master’s degree in health care administration and held numerous leadership positions in the Pennsylvania Association of Student Financial Aid Administrators.

Phyllis Glantzow, later Phyllis Granados, medical technology, earned a master’s degree from the University of Pennsylvania in infection control education. At Roxborough Memorial Hospital, she was Microbiology Supervisor and Infection-Control Practitioner.

Lorraine J. Zwolak, cytotechnology, became an instructor in the College shortly after her graduation. In 1981 she became the Assistant to the Deputy Health Commissioner for the City of Philadelphia and subsequently attended Temple University Law School, graduating in 1985. She later became an Associate Attorney, involved with products liability defense, and insurance coverage analysis.

Nancy Council, later Nancy Council-Maguire, cytotechnology, who had received a diploma in histotechnology from Jefferson in 1974, returned to Jefferson in 1980 as a faculty member in the Department of Cytotechnology. She earned a master of science degree in biomedical sciences from Drexel University in 1984. A summa cum laude graduate and a charter member of the Jef-

---

Fig. 39. Lewis W. Bluemle, Jr., M.D., inaugurated as University President in September, 1977.
ferson chapter of the Alpha Eta Society, the national allied health honor society, she continued to serve in leadership roles in that organization. Her research in the areas of immunocytochemistry and cytopathology standards of practice became recognized nationally and internationally. In 1989, she was given the “Cytotechnologist Award” from the American Society of Cytology for her scientific paper on cervical cancer. In the area of Pap smear testing, the outcomes of her studies on interobserver variations in cytopathologic diagnosis have formed the scientific basis for requiring uniform gynecologic cytology reporting systems in federal and state regulations for cytology laboratories. For her many contributions, she was presented with the College’s Alumni Special Achievement Award in 1990 (Fig. 43).

Helena Bolton Stewart, nursing, developed the first geriatric floor in an acute care hospital, serving as geriatric coordinator. In 1985, she graduated from St. Joseph’s University with a master of science degree in gerontology and became a consultant in elder care.

Paul B. Schaeffer, nursing, an asthma and allergy nurse at Kaiser Permanente in San Diego, who also had served in the U.S. Navy, was recalled to active duty for Operation Desert Shield. He was experienced in shipboard and flight nursing.

Susan Romano, later Susan Romano O’Brien, medical technology, authored and presented a paper entitled “Development of the Plasminogen and Alpha 2 Antiplasmin Assays for Evaluating Systemic Fibrinolysis in the Dog” at the 1986 annual meeting of the Society of Toxicology.

Teresa Darden, radiologic technology, earned a master of science degree and became a radiation specialist/health physicist for the Nuclear Regulatory Commission.

Health is a precious thing, and the only one, in truth, which deserves that we employ in its pursuit not only time, sweat, trouble, and worldly goods, but even life; inasmuch as without it life comes to be painful and oppressive to us. . . . As far as I am concerned, no road that would lead us to health is either arduous or expensive.

Michel de Montaigne [1533–1592]
Fig. 42. Rhonda Karp, Ed.D., received the Alumni Special Achievement Award on the occasion of its first presentation (1978).

Fig. 43. Nancy Council-Maguire received the College's Alumni Special Achievement Award from Dean Lawrence Abrams in October, 1990. As Nancy Council, Class of '78, she was a cytotechnology major.
A few months into the 1978/79 academic year, Lawrence Abrams, who had served as Dean Pro Tem since June, was named Dean of the College (Fig. 44). Dr. Abrams had previously served the College in a variety of positions, including Associate Dean and Director of Student Affairs and Services.

The Student Life Award, announced on Parents' Day in October, went to nursing student Diane Hamburg, whose many activities included serving as co-editor of the College's yearbook, Karyon.

Five students from the Department of Medical Technology comprised the winning Jefferson team in the Pennsylvania Society of Medical Technology College Bowl Tournament, competing against 21 other teams from the Commonwealth. Jefferson was represented by Kathryn Reihard, Beth Macy, Donna Farber, Theresa Carrigan and Linda Harker.

The addition of new staff positions made it necessary for the College to expand and renovate space in Jefferson Alumni Hall. The changes affected the Office of the Dean, Office of Admissions and the Departments of Cytotechnology and Medical Technology.

The recipient of the Alumni Special Achievement Award was Harriet H. Werley, Ph.D. Dr. Werley, a 1941 nursing graduate, earned a B.S. degree in nursing education at the University of California, a master's degree in nursing service administration at Teachers College of Columbia University, and a Ph.D. in psychology at the University of Utah. An Associate Dean for Research at the College of Nursing, University of Illinois, Dr. Werley's research focused on the social and psychological aspects of health, family planning, and health delivery systems in nursing.

The Department of Dental Hygiene was honored as one of 20 dental auxiliary programs across the country to be selected by the American Dental Association’s Commission on Accreditation of Dental and Dental Auxiliary Educational Programs to pilot test the self-study accreditation manual. In addition, the Commission on Accreditation granted full accreditation status to the Department of Dental Hygiene for seven years.

The Class of 1979 included 122 graduates in the degree programs, the largest graduating class in the College's history to this time, with another 86 graduates of the School of Diploma Nursing and 51 graduates of the School of Practical Nursing (Fig. 45).

The year 1979 was the last that the College of Allied Health Sciences graduation exercises were held jointly with those of Jefferson Medical College and the College of Graduate Studies.

Honorary degrees were awarded to W. Edward Chamberlain, M.D., a distinguished radiologist; Jonathan E. Rhoads, M.D., one of the country’s leading surgeons; and Jessie M. Scott, assistant surgeon general in the United States.
Public Health Service and a national and international authority on nursing.

The Department of Dental Hygiene, the College's most recently established department, graduated its first class in June. All seven graduates successfully passed both the National and the Northeast Regional Board Examinations with scores well above the national and regional averages.

Jeffrey A. Krantz, radiologic technology, who was very involved in student activities including serving as co-editor of the yearbook, earned his M.Ed. degree, also in 1979, from Pennsylvania State University. He subsequently attended the University of Pittsburgh, where he took a master's degree in health administration in 1986. He became Director of Planning for Southeast Missouri Hospital.

Susan Burke, nursing, earned a master of science in nursing degree in 1983 and returned to the College of Allied Health Sciences as a faculty member from 1983 to 1988. In 1990 she was on the nursing faculty at The Catholic University of America where she was also a doctoral candidate in nursing.

Dale Leslie Miller, later Dale Leslie Hopkins, nursing, received a master of science in nursing degree from the University of Pennsylvania in 1986, specializing in perinatal nursing. She developed and implemented comprehensive obstetric and pediatric nursing services at Tempe St. Luke's Hospital in Tempe, Arizona, where she held the position of Director of Women's and Children's Services.

Kyla M. Kraft, later Kyla M. Lester, nursing, embarked on a career as a missionary nurse, first at Turtle Mountain Indian Reservation Hospital from 1979 to 1982. Subsequently, she practiced nursing at a rural mission hospital in Zimbabwe from 1984 to 1986 before moving to The Evangelical Alliance Mission in the Republic of South Africa.
Karen Mandzak, later Karen Mandzak-McCarron, nursing, developed a specialty in rehabilitation nursing at Thomas Jefferson University Hospital (Fig. 46). She presented two papers at the national conference of the Association of Rehabilitation Nurses in 1989. She was appointed to the National Certification Board of Rehabilitation Nurses and later became its Chairperson.

Jane Lynch, later Jane Lynch Rozycki, nursing, earned a master of science in nursing degree and became the clinical coordinator of obstetrical/neonatal nursing at the Hospital of the University of Pennsylvania. She served on the College’s Alumni Advisory Committee (Fig. 47).

Carolyn Wakefield, later Carolyn Wakefield-Shank, medical technology, remained close to Jefferson for years, working in the Clinical Laboratories and serving on the College’s Alumni Advisory Committee (Fig. 48).

Albert Cadogan (Fig. 49), cytotechnology, held a variety of positions with SmithKline Beecham Pharmaceuticals, eventually becoming a Scientist of Morphological Pathology, Department of Experimental Pathology. He was also an active member of the College’s Alumni Advisory Committee.

James E. Weidmann, cytotechnology, was awarded the 1988 Diamond Cover Award from the Journal of Histotechnology and Miles Scientific for one of the best published articles in 1988.

Charlotte E. Voss, right, performs one of her last official duties as Chairperson of the Department of Baccalaureate Nursing, the awarding of class pins. Dr. Voss retired in 1979 and was succeeded by Mary D. Naylor, standing at podium at left.
A Nursing Honor Society was established within the Department of Baccalaureate Nursing in 1979. Inducted that May were front row, left to right, Lee A. Goldstein, Donna M. Sabella, Shelley N. Finkle, Thomas A. Csaszar; middle row, left to right, Julia E. Hackman, Judith G. Godsey, H. Roslyn Taylor, Cynthia A. Binanay, Mary Jo Callan, Dale L. Miller, Kyla M. Kraft, Jo Ann Conry (faculty member); top row, left to right, Sally A. Forsberg, Donna J. Fausnacht, Mari Ann Alberts, Mary Eileen McGurrin, Elizabeth M. Lazarich, Susan E. Korbel, Janice E. Vanderlip, Barbara Oelschlegel. Not pictured: Sue E. Alderman, Melonie P. Bartlett, Lori D. Stein.

Health is not to be purchased by idleness and inactivity, which are the greatest evils attendant on sickness, and the man who thinks to conserve his health by uselessness and ease does not differ from him who guards his eyes by not seeing, and his voice by not speaking. For a man in good health could not devote himself to any better object than to numerous humane activities.

Plutarch [46?–120?]
Despite an overall trend toward decreased federal funding for allied health education, in the 1979/80 academic year the College received four grants. Supported by grants were training workshops on the role of the humanities in allied health education and the management of a radiological quality assurance program. In addition, a dental hygiene grant was awarded to develop an expanded function dental auxiliary training program (Fig. 50), and another went to develop a program for management, supervision and evaluation for dental hygiene educators.

The College's Alumni Special Achievement Award was presented at University Opening Exercises on September 5 to Dolores (Dee) Hughes, a 1969 nursing graduate (Fig. 51). After earning a bachelor's degree from Antioch University and a master's degree from St. Joseph's University, Ms. Hughes developed a specialty in cardiac care, serving as head nurse in Jefferson Hospital's cardiac care unit and later as the unit's Program Coordinator of Health Education.

The year marked the establishment of College chapters of two honor societies. The Beta Omega chapter of the national dental hygiene honor society, Sigma Phi Alpha, was approved in November, and the first Jefferson faculty and students were inducted in April. Also in April, the Jefferson chapter, Delta Rho, of Sigma Theta Tau, the nursing honor society, received its official charter with the indiction of 98 undergraduate students, alumni, faculty and community nurses.

The College's first fund-raising Phonathon was held in May, 1980 (Fig. 52).

The College's School of Practical Nursing graduated its last class in August, 1980 (Fig. 53). The class of 66 graduates was the largest in the school's 16-year history and brought the total number of graduates to 665.

At the June 6 Commencement Exercises, the College graduated 197 students. The Commencement speaker was Luther Christman, Ph.D., R.N., vice president for nursing affairs at Rush Presbyterian-St. Luke's Medical Center, who also received an honorary Doctor of Humane Letters degree. John W. Goldschmidt, M.D., President of the American Congress of Rehabilitation Medicine, and founding dean of the College of Allied Health Sciences, was awarded an honorary Doctor of Science degree. An honorary Doctor of Literature degree was awarded to Judge A. Leon Higginbotham Jr., Esq., LLB., a Jefferson trustee.

Fig. 50. Under a Department of Health, Education and Welfare grant, the Department of Dental Hygiene developed an Expanded Function Dental Auxiliary (EFDA) Program. Assistant Professor Joan Gluch-Scranton, standing at right, supervises students in the (EFDA Program).

Fig. 51. Dolores Hughes, a 1969 Nursing graduate, accepts the College's Alumni Special Achievement Award from Dean Lawrence Abrams at University Opening Exercises.
Six of the summa cum laude graduates earned perfect 4.0 grade point averages: Bernadine Gramata-Kopicki, Carolyn Mann, April Manzinger-Crawford and Ursula Maslofsky, all nursing. The Student Life Award winner was Patricia Goda, dental hygiene. She was also inducted into the newly formed Sigma Phi Alpha dental hygiene honor society. Later, as Patricia Goda Donahoe, she served as President of the Western Pennsylvania Dental Hygienists Association.

M. Elaine Bower, nursing, received a master of science in nursing degree from Gwynedd-Mercy College and became an assistant professor of nursing at Community College of Philadelphia.

Sandra Kowalski, later Sandra Schwartz, nursing, graduated from Allentown College of St. Francis de Sales with a master of science in nursing degree in 1989. She was Director of Patient Education at The Allentown Hospital-Lehigh Valley Hospital Center.

Faith Joyce, nursing, earned her master of science in nursing degree at the University of Pennsylvania in 1987. She was a geriatric nurse practitioner at the Coatesville Veterans Administration.

Nancy Osinski Cuttic, dental hygiene, subsequently attended West Chester University where in 1985 she took an M.Ed. degree in health. She held positions as an assistant professor of dental hygiene at Montgomery County Community College and at Harcum Junior College.

Karen R. Hammers, medical technology, began her career as a medical technologist in clinical hematology and microbiology laboratories. Subsequently, she earned a master of science degree in biology from Duquesne University in 1984. She then returned to Jefferson as a medical student, graduating from Jefferson Medical College in 1988. By 1990, she was in her second year of her psychiatry residency training program.

Fig. 52. Alumni and student Volunteers enjoyed a supper meeting as they prepared for the College's first Fund-raising Phonathon on May 5, 1980.

Senior medical technology students work on their required research projects: (left to right) Carla Ristine, Gene C. Wang and Patty Welch.
The 1980/81 academic year was marked by several achievements and firsts. The College had a successful accreditation by the Commission on Higher Education of the Middle States Association of Colleges and Schools.

The Department of Radiologic Technology’s Pilot Project 21, a proposal to institute a four-year study of preparing radiologic technology students in 21 months, rather than 24 months, was given approval by the Joint Review Committee on Education in Radiologic Technology, by the American Medical Association’s Committee on Allied Health Education and Accreditation, and by the American Registry of Radiologic Technologists.

A Nurse Scholar Series was established in the Department of Baccalaureate Nursing. Ann Marie Douglas, R.N., Ph.D., was appointed nurse scholar in residence (Fig. 54).

The first class of students in the Post-Certificate Baccalaureate Degree Program in Dental Hygiene matriculated in September. Designed for licensed dental hygienists who had a certificate or associate’s degree, the program included elective specialization courses in education, public health and health management.

The Alumni Special Achievement Award for this year was presented to Barbara G. Schutt, R.N., a 1938 graduate of the School of Nursing (Fig. 55). Her career included serving as a lieutenant in the U.S. Army Nurse Corps during World War II in Okinawa, as a director of nursing at Mohegan Community College in Norwich, Connecticut, as executive director of the Pennsylvania Nurses Association and as editor of the American Journal of Nursing.

Linda C. Gorham, radiologic technology, received the department’s Mallinckrodt Award for the senior giving the most help to juniors (Fig. 56).

The 153 graduates at the June 5 Commencement Exercises included the first class of students from the Advanced Placement Program for Registered Nurses. The Class of ‘81 heard an address by Karl Danner Clouser, Ph.D., professor of humanities of the College of Medicine, Hershey Medical Center, Pennsylvania State University. Dr. Clouser received an honorary Doctor of Humane Letters degree. In addition, an honorary Doctor of Science degree was awarded to Catherine M. Keebler, R.N., C.T. (ASCP), a leading figure in the field of cytotechnology, nationally and internationally.

Fig. 54. Ann Marie Douglas, R.N., Ph.D., was named Jefferson’s first Nurse Scholar in Residence.
The College’s Student Life Award was presented to Donna E. Eckardt (Fig. 57), later Donna E. Budak, cytotechnology, President of the Student Dormitory, who was also Co-Editor-in-Chief of the student yearbook and a representative on the Student Advisory Committee. During her career she became Chief Cytotechnologist at Medical College of Pennsylvania and later Cytology Supervisor at St. Luke’s Hospital in Newburgh, New York.

Seven of the summa cum laude graduates earned perfect 4.0 grade point averages: Geraldine Koppenhaver, Helen Charles, Renee Merlino Luchtman and Raymond Miller, all medical technology; Andrea Hein, Elizabeth Torresson and Mary Wood, all nursing.

Nancy Stackhouse, dental hygiene, a magna cum laude graduate who served on the Alumni Advisory Committee, relocated to California, where she held a variety of board positions for the Orange County Dental Hygiene Society beginning in 1982. While continuing her career in a private periodontist practice, she also became a clinical instructor in the Department of Periodontics at the University of Southern California School of Dentistry in 1985.

Marsha Venner, dental hygiene, whose love of animals led her to earn an associate’s degree in the veterinary technician program at Harcum Junior College, combined her two degrees to help start a veterinary dentistry practice within the field of veterinary medicine. In 1990, she was performing her dental specialty both on domestic and exotic animals in Houston, Texas.

Valli Meeks, dental hygiene, earned a Doctor of Dental Surgery degree from the University of Maryland Dental School in Baltimore. Since 1985, she continued in private practice as well as serv-

Fig. 55. Barbara G. Schutt, R.N., was the recipient of the College’s Alumni Special Achievement Award.

Fig. 56. Linda C. Gorham, radiologic technology, holds the department’s Mallinckrodt Award.
served as a board member of the Rainbow Headstart Program in Philadelphia.

Claire Shaw, medical technology, earned a Doctor of Dental Medicine degree from Temple University in 1987 and a certificate in periodontics, also from Temple, in 1989. By 1990, she was the owner of Doylestown Periodontics and assistant clinical professor in the Department of Graduate Periodontics at Temple.

Gerald Davidson, nursing, became a lieutenant in the United States Navy. In 1989, he received the Navy Commendation Medal from the Secretary of the Navy for meritorious service while assigned to the U.S. Naval Hospital at Subic Bay in the Philippines from 1985 to 1988.

Margaret Gavigan, nursing, began her career at Thomas Jefferson University Hospital as a clinical nurse II in the surgical cardiac care unit, later becoming clinical nurse III, then clinical nurse specialist, then nursing care coordinator in 1985. She earned her Master of Science in Nursing degree from the University of Pennsylvania in 1985. From 1987 to 1989, she was a clinical research nursing manager for Smith Kline Beecham corporation. She became head nurse in the General Surgery and Cardiothoracic Intensive Care Units at the Hospital of the University of Pennsylvania in 1989. The following year she received the Commonwealth Fund Nurse Executive Fellowship.

Marjorie-Linda Zaharfy, nursing, was a very active alumnus, serving on the College’s Alumni Advisory Committee. She returned to the College for her nursing degree, having graduated from medical technology in 1976. She became acting nurse supervisor at the Philadelphia Corporation for the Aging in Philadelphia.

A happy scene from the June 5, 1981 Commencement.
At the University Opening Exercises of the 1981/82 academic year, held on September 9, the College's Alumni Special Achievement Award was presented to Wanda E. Wesolowski, who was coordinator/assistant professor, radiologic technology program at the Community College of Philadelphia (CCP). A 1958 graduate of the School of Radiologic Technology at Jefferson Hospital, Ms. Wesolowski's career was marked by numerous presentations, publications and awards. She was named a fellow of the American Society of Radiologic Technologists. Ms. Wesolowski later became professor/chairperson of the CCP radiologic technology program.

The implementation of the College's Strategic Plan, "A Decade of Planned and Controlled Progress (1982-92)" began during this year. This included the official approval in November by the University Board of Trustees of the Departments of Occupational Therapy and Physical Therapy.

The thirteenth floor of the Edison Building was renovated in order to build the Department of Nursing’s Learning Resources Center. The Center was comprised of three clinical simulation areas (Fig. 58), three audiovisual rooms and a reception area. At the same time, the department established a five-year plan to develop and implement computer technology into the nursing curriculum.

On June 11, 221 graduates received their degrees at Commencement Exercises at the Academy of Music. Two honorary degrees were awarded: a Doctor of Science to Patricia Stanton McLean (Fig. 59), a national leader in the field of dental hygiene, and a Doctor of Literature to Edmund D. Pellegrino, M.D. educator and scholar known especially for his studies in medicine and the humanities (Fig. 60).

At the Commencement, the College’s Achievement Award for Student Life was presented to Francine Savage, cytotechnology (Fig. 61). Ms. Savage's many activities included being student chairperson of Parents' Day, editor of the Student Life Handbook, and representative on the Student Advisory Council and the Student Affairs and Services Committee. Later, as Francine Savage Kates, she returned to the College as an Admissions Counselor and then Assistant Director of Admissions. She remained an active alumnus, serving on the Alumni Advisory Committee.

Six of the summa cum laude graduates earned perfect 4.0 grade point averages: Matthew Yucis, medical technology; Kathleen King, nursing;
Charlene Fenster, Kathleen Frasher-Wirbisky, Jacqueline A. Marcin, and Angela Scarlata-Rom, all dental hygiene.

Karen E. Blumenthal, later Karen E. Fox, cytotechnology, graduated from Philadelphia College of Osteopathic Medicine in 1987 and became board certified in family practice two years later. She began a practice in Bensalem, Pennsylvania, and was on the staffs of Delaware Valley Medical Center and St. Mary's Hospital in Langhorne.

Jacqueline A. Marcin (Fig. 62), dental hygiene, graduated from Temple University School of Dentistry in 1987, at which time she won numerous awards including the Alpha Omega Scholarship Award for highest scholastic average. After a general practice residency in dentistry at Langley Air Force Base in Hampton, Virginia, she served as a general dental officer, Chief of the Department of Periodontics, with the rank of captain, at McGuire Air Force Base in New Jersey. She subsequently practiced in West Hazleton, Pennsylvania.

Nina Markovic (Fig. 63), dental hygiene, became a senior research coordinator at the University of Pennsylvania.

Fig. 63. Nina Markovic, Dental Hygiene, pursued research career.

University of Pennsylvania School of Dental Medicine. Subsequently, she took a position as a research associate at Columbia University School of Dentistry and Oral Surgery, where she earned a Master of Science degree with honors in 1987. A member of the American Dental Hygienists' Association Council on Research, Ms. Markovic later received a doctoral fellowship in cardio-vascular epidemiology in the School of Public Health at the University of Pittsburgh.

Lori Stillerman, later Lori Smith, dental hygiene, began her career as a dental hygienist in Lausanne, Switzerland, treating oral cancer patients among others. She went on to Madrid, Spain, where she established that city's first dental hygiene program. Ms. Smith returned to the United States to become a Provider Network Specialist for Aetna Life and Casualty, setting up a network of dentists for that company's alternative dental plan.

Matthew Yucis, medical technology, graduated from the University of Osteopathic Medicine and Health Sciences in Des Moines, Iowa, in 1988. After an internship at Riverside Hospital in Wilmington, Delaware, he became a resident in psychiatry at Eastern Virginia Graduate School of Medicine.

Laura Chercass, medical technology, began her career as a medical technologist at Jefferson Hospital. She later became a marketing representative for a supplier of health care information systems, and then moved on to IMS America, Ltd., where she was named Product Manager, responsible for the production of pharmaceutical market research reports.

Melinda Mercer, nursing, became the Assistant Director, Congressional and Agency Relations, for the American Nurses' Association.

Jacqueline J. Exum, nursing, went to Liberia, West Africa, where she served as village health nurse and educator.

Michael Gerofsky, radiologic technology, embarked on a varied career as a CAT scan technologist at Wills Eye Hospital in Philadelphia. He returned to the College as Clinical Education Coordinator of the radiography program in the Department of Diagnostic Imaging. Mr. Gerofsky was a very active member of the Alumni Advisory Committee.
