Dear Fellow Alumni,

On May 7th when I assumed office from Flossie Roche, I felt elated and honored as I looked across the sea of faces enjoying the annual luncheon and renewing friendships. I also realized at that time, that this was only a small gathering of the graduates of Jefferson Hospital School of Nursing. Generally speaking, these were mostly the reunion classes. How many members of the alumnae (a feminist at heart) are there? It was a real shock to learn that of over 3000 living Alumnae, only 779 are dues paying members. There are also 235 life members (those who have belonged to the association for 40 consecutive years.)

Because not all of the members live in the Philadelphia area, the work of running the organization, planning and executing the work falls on the shoulders of a few loyal and devoted members. To them we give thanks.

The annual meeting moved ahead smoothly and efficiently. Although some alumnae who attended heard of the work which is being carried out in the name of all the alumnae. There were 62 at the meeting. Many appeared impressed and pleased with the work which had been done, and that which was being planned.

The Satellite Group in New Jersey met several times last year and are continuing to plan for the future. A second group will be meeting in the Harrisburg area in August to develop an on going group, which will renew friendships and keep up with the Philadelphia group. Interest is astir in the Baltimore area, but it needs a little more nurturing to arrive as a viable group.

All these activities make for an exciting and interesting future for the alumnae of the School of Nursing of Jefferson Hospital. It also means that we need to expand the membership in the organization.

The younger members can seek funds for educational purposes. Nursing as a profession will only grow and evolve as we have prepared leaders who can move forward. As a past recipient of alumni scholarship fund, I am most grateful for the help I received while engaged in doctoral study.

More and more of our members are representative of the national population—getting older. Some of them will be in need of financial assistance from the relief fund. Fortunately, previous presidents and boards of directors have had sound financial advice, and both the Relief Fund Trust and the Scholarship Fund are secure at this time. However, we have no crystal ball, so do not know what the future will bring.

We do know that in 1992, the Alumni Association of Jefferson Hospital School of Nursing (we have changed our name several times) will celebrate its 100th anniversary. The last class to graduate (1982) will celebrate its 10th anniversary. My class will celebrate its 50th anniversary. Will there be members to celebrate the 150th anniversary? Membership is not a big expense but it is a source of real pleasure to meet with friends and classmates several times a year, and have a voice in the progress of the nurses who shared the origancy cap, and black, blue and gold pin.

Warmest wishes to all,

Alice C. Boehret, Class of '42
President

The President's Message
The Jefferson Hospital School of Nursing Roll of Honor

The School of Nursing may be closed but many of its graduates have distinguished themselves and their school by their contributions to the field of nursing. It is a given fact that they were excellent nurses, bedside nurses that gave full measure in caring for those committed to their care. We are interested in compiling a record of those who gave and contributed to the growth and development of nursing.

Our successors, the graduates of the baccalaureate program, have no direct ties with the School of Nursing, so do not know of the contributions to nursing. Indeed, many of our alumnae sisters have no knowledge of the many contributions made by Jeff nurses. So, it is proposed that an annual luncheon be held in the spring for nurses who gave a record of those who gave and contributed to the growth and development of nursing.

Arrangements were made by Jeff nurses. So, it is proposed that an annual luncheon be held in the spring for nurses who gave a record of those who gave and contributed to the growth and development of nursing.

Disbursements:

- Annual Luncheon Wine & Cheese Expenses $5,062.00
- Luncheon Floral Arrangements 286.00
- Bar Receipts 81.50
- Alumni Room Expenses (stamps, stationary, printing, etc. 938.64
- Annual Bulletin Printing 9,078.40
- Contribution to "Decade Fund" 5,500.00

The criteria identified are as follows:

1. Established a nursing education program
2. Served on state, regional, national or international committees
3. Wrote or edited books on nursing (articles)
4. Received honors or awards (nurse of the year)
5. Service to Government (not military)
6. Missionary in a foreign country
7. Served as officer in Nursing Organization(s) (Local, State, National)
8. Invented, designed or improved equipment

At the back of this Bulletin is a form for you to nominate any one who will meet one or more of the criteria. Please indicate in the space below the criterion how your candidate meets it. You may nominate any number of graduates. Please use a separate sheet of paper for each nurse you wish to nominate. Remember, we also wish to identify those nurses who are no longer with us. It is not necessary for you to sign your name if you do not wish to.

When complete, please return to Dr. Alice G. Church, RN Nurses' Alumni Association Thomas Jefferson University 119th and Walnut Streets Philadelphia, PA 19107 M-5, J.A.H.

Glimpses From An Earlier Time

In 1931 the members of the class of '32 were completing their training at the Training School for Nurses of the Jefferson Medical College Hospital. Yes, it was called a "Training School" in those days. Now, we say we train animals—we educate people.

Vic and I were in the midst of the Great Depression, but it didn't mean a whole lot to us. We had been well protected during our student days—clean, warm shelter, adequate nutritious food, and in addition a stipend of $6.00 a month our first year, $7.00 the second, and $8.00 the third. (But we paid no tuition.) If we didn't like the menu of the day, there was always plenty of bread, molasses and milk. We stayed healthy. We saw people selling apples on the street for 5 cents, and some of our families were having a rough time, but none of us lost any money on the stock market—we didn't have any to lose.

As we completed our program in September and October of 1931, some went back to their hometowns. Many of us elected to stay in Philadelphia where we felt comfortable, particularly in our own hospital.

And by large, the hospital was staffed by student nurses. But private duty nurses were common among the private patients. Many opted for that. Ruth Ush (Macon) '31, reports that after working for 13 months in O.B.O.R. she resigned to do private duty nursing. She had one case, 12 hours duty, for $60.00 ($90.00) a day. She received $75.00 a month in O.B. the first 4 months, then $80.00 the next 9 months.

When I completed the program, I went on the registry. I had one case, a D & C on third Corridor. All I remember of that is the patient slept all day, for which I was grateful, for I had on my first pair of white duty shoes, and they hurt my feet. I also had a blazer on my heel. I wasn't called back the second day. I never knew whether she needed a nurse or if I wasn't satisfactory. However, I was glad. That one case convinced me I wasn't cut out for private duty nursing.

A few days later, the word was around that Miss Melville was calling to her office many young nurses. We found out that the new Curtis Clinic was opening, and she was calling nurses to staff it.

Probably the first one to be appointed was Miss Margaret Barnett, '14, as supervisor of the clinics. Barney, as we all called her, was a supervisor, but our own, a true professional and personal advisor.

I remember when we became 21 year olds, she headed us all together, and marched us to Lombard Street to register to take the Board of Nursing. Since that time I have been a registered nurse and have had a lot of experience. Barney the next day, and scolded her for allowing "her girls" to do such a terrible thing. She told her to tell them to cease and desist such activity. Barney reassured the message! I'm sure it didn't stop the activity.

After Miss Barnett was appointed, Miss Melville began to summon the rest of us, one by one. A phone call, "Miss Melville wants to see you in her office Tuesday, 10:30 M." We never questioned the time or motive. We were convinced that doing what Miss Melville said was safe. I am not sure what kinds of clinics existed before this. I know there was an OB clinic. They moved to the Curtis Clinic interact with their nurses, secretaries, white mice, rats and rabbits, and stayed pretty much to themselves.

Mrs. Souders, '30 came with E.N. & T. I know this was formerly in the basement of the old hospital building for I remember it as a student nurse and as a nurse in the hospital floors for T & K. The fact that you HAD tonsils was reason enough in those days to have them removed. The acute was seated in a chair, and under local anesthesia, the M.D. snared them out.

It seemed to me to be quite gruesome. The children were lined up on stretchers, and waited, one after the other. I think Edna Scott worked for a time in this operating situation. Dr. Lott was the primary physician in the department.

Minnie left in 1935, and Rita Katsier, '35 took over. Minnie remembers that if Dr. Lott liked you, you could do almost anything wrong. We were young and if you crossed him!

A new nurse to be appointed was Dotie Dunmore (Williams), '33. She had G.U. Clinics, but didn't stay too long. Dotie had a college degree, and had taught school before
Marguerite Barnett, ’14

she entered nursing. A college degree was a rarity for nurses in those days, so Miss Melville soon tapped her for the nursing school office. However, not before Dottie made friends with all her co-workers. One such was Fred, the orderly in “her” clinic. Fred was quite a fisherman, and arranged deep sea fishing expeditions for us. Most of us had never been at sea, and we reached violently. We were told to eat strawberry jam on the boat because it would taste as good coming up as going down. Those of us whose were the thickest, caught the most fish, so apparently the fish liked it, too. Those who didn’t get seasick got sunburned. But we sure had fun! Other class-mates were always happy to go along.

Millie Smith (O’Connor), ’32, was called for G.I. clinic on 6th floor, and Carolyn Jones (Transeau), ’32, for Orthopedic and Neurology. Millie worked with giants like Drs. McCraig, Hearstley, Griffith, and Relfaas. The nurses here learned to do many procedures pertaining to the G.I. tract. Three times a week gall bladder drainages were scheduled. Endless shots were given to arthritis patients for Dr. Cohen. Diabetic clinic was Saturday A.M. with Dr. Duncan. Elise Heil (Baker), ’37, replaced Millie, and adds memories of Dr. Duncan. He was all suave, and in his English twanged suite he would give the patients H-... and tell them not to come back again unless they “brought their blood sugar down before next week!” Millie and Elise both speak of the wonderful experience of working with such outstanding doctors. Students nurses came to these clinics too, so Elise and Millie were able to teach them, as well as the medical students, the various procedures.

Caroline’s time was taken up very often in the cast room of Orthopedic clinic with Drs. Hugh, Martin, and Head, Neurology doctors were Drs. Burns and Gilpin, whom she helped with spinal drainings every Friday. Caroline eloped, and Millie left to work in a doctor’s office.

I think Elisa left to marry. Remember, married nurses were not permitted to continue working at the hospital.

Jo Fink, secretary in surgical clinic, recalls the special treatment clinic for syphilis. I do not remember which clinic this was – either Dermatology or II G.U.? Anyway, secretaries and nurses from other clinics helped. The lines ran from the treatment room to the elevator, all waiting for their weekly injections of Diaramo or Neoarsphenamine. The young secretaries were frightened about those “horrible” diseases. But the patients were treated well, and appreciated the care. Many times they brought gifts — tailor

made wooden skirts, and mill workers brought silk stockings, etc.

I’ve already told you something about Ruth Utah. To con-tinue, when the clinic was being staffed, Dr. Schelfo (from whom Ruth had worked in OB) asked Miss Melville to assign Ruth to Gyne clinic, fifth floor. Ruth was happy to accept the assignment, even though it was a cut in pay from G.B. At the time she was engaged to Nick who was a captain in the army. We girls knew about it, but our lips were sealed. She was in Gyne from November 1931 until April 1935. During her first week in the clinic, she heard two painters talking about the new building. “This is a white Elephant.” We cer-tainly refuted that statement over the next 40-odd years. Also on the fifth floor was Surgical clinic. Gay Arnold (Blue), ’32, was the nurse here. There was the general surgical clinic, Varicose Vein and Proctology clinics. Dr. Haskel was “her” proctology chief, Drs. Wissler and Walking, surgeons. Those of you who knew Dr. Wissler will appreciate this story. The older Italian women would come to have their varicose veins treated with injections to sclorose the vein. Some of the women would drive Dr. Wissler to distraction by wearing round elas-tic garters. He would take the garters, stretch them like sling-shots, grab scissors and cut them to shreds. The women would come to Gay crying, not knowing how to get home with their stockings falling below their knees. Gay would make a knot on the top, fasten it with adhesive tape and admonish her to take it off the minute she got home, and not to come back until she had a garter belt. On Sundays, when we were on duty, but the clinics were closed, we would congregate in one of the surgical clinic treatment rooms, and prepare supplies for the following week. Gay would have the new supplies ready. Rolls of gauze would be cut to the proper sizes the day before in Central Supply. We would fold and wrap the dressings for sterilization. We made applicators, We sharpened needles. There were no disposables then. No disposable nothing that I can remember. Needles and syringes were boiled and firmly took charge. As the other doctors came in, they assigned patients to each student. There were usually four, to have loved and lost than to have loved at all? The problem was never solved.

Gay led the singing to make the chords less boring. Gay was (and is) a good vocal. Poor Gay, even though I would sit next to her, she never was able to keep me in tune! Sometimes we would be assigned to relieve in accident ward, or perhaps to sit with a patient recovering from emergency surgery, coming out of ether. I don’t remember that there was much “visiting” as a recovery room. We didn’t much care for these assignments — only because we felt inade­quate in strange surroundings.

Before patients came to the clinic they stopped on first floor, registered, told their complaint so the registrar could assign them to the appropriate clinic. They had to pay 50 cents, 25 cents for each in-hospital hour. During clinic hours an operator ran the elevator. One day, a patient handed him a slip of paper that read “Rain in P.I.!” Mistakenly, the patient was directed to proctology clinic instead of ear clinic. Imagine being told to take your pants down to have your ear looked at.

The clinic was officially opened with appropriate dedication ceremonies on December 17, 1931, and the portrait of Cyrus Curtis was unveiled. Of course, you realize that by this time we had all settled in, and were functioning well. I hope you also realize by now that I have not mentioned Children’s Clinic.

I was one of the lucky ones to receive the order to report to Miss Melville. I felt particularly grateful when she asked me to tell you about Clinic. It is the one I would have chosen had I been given a choice.

The chief of the clinic was Dr. Norman Macneill, affectionately known as ‘Mac’ (I don’t remember knowing him before 1932, but it didn’t take long to realize how fortunate I was. He was very easy to get to know and I knew in short order that he was a kind and caring man. This was borne out in the eight years I was in the clinic. He sailed in, a hue of colors, red hair complementing his green suit, pink shirt, and tie of the color of ‘baby B.M.’ (his words). This doesn’t sound as bizarre today as it was in the conservative era of the 30s. The clinics were open 11 AM to 1 PM, except on Saturday when we had to work. Even if we had to work, we had to pay! So when were done, we would have known when it was clinic time. The parents, mostly mothers with their children, would be in the lobby, usually around 10:30 AM. They would have checked in with the secretary, who called for the history to come from the record room, pus-tologic tube, or write a history if the patient was new. The nurse then saw that each patient was weighed and measured. This might be done by the R.N. or a registered nurse, or a student if they stopped on first floor. They had to pay 50 cents, 25 cents for each in-hospital hour. During clinic hours an operator ran the elevator. One day, a patient handed him a slip of paper that read “Rain in P.I.!” Mistakenly, the patient was directed to proctology clinic instead of ear clinic.

Gay Arnold (Blue), ’32, was the nurse here. There was the general surgical clinic, Varicose Vein and Proctology clinics. Dr. Haskel was “her” proctology chief, Drs. Wissler and Walking, surgeons. Those of you who knew Dr. Wissler will appreciate this story. The older Italian women would come to have their varicose veins treated with injections to sclorose the vein. We made applicators, We sharpened needles. There were no disposables then. No disposable nothing that I can remember. Needles and syringes were boiled and firmly took charge. As the other doctors came in, they assigned patients to each student. There were usually four, five, sometimes six doctors. Each one would be supervising the medical students.

In the hall, which was the waiting room, there were booths which were supposed to keep the mothers and their children separate from other families in order to prevent cross contamina-tion of the so-called childhood diseases, which are prac-tically non-existent now. But can you imagine trying to keep them separated? They ran all over the place. So we tried to screen them as soon as possible.

We did have a holding room for diagnosed or suspected communicable disease patients. If so diagnosed, they were kept here until private transportation could be arranged by parent or social worker, or they could be transferred to the Philadelphia Hospital for Contagious Diseases, (now no longer in existence.)

Dr. Macneill flitted all over. Students and staff alike sought his advice. Sometimes there weren’t enough patients for each two students. Sometimes there were too many. Mac said we were a weather clinic. “Whether (the children) come or whether they didn’t, depended on the weather.” So true. So the students prod-dled, thumped, listened, looked and con-firmed with each other. Dr. Macneill would stand at the door of the examining room, 10 feet from the patient, and make an accurate diagnosis before the student had an inkling. He needed only his five senses, not the armada and sometimes inaccurate laboratory results which we often see today.

He didn’t cotton to birth control. If the rest of us were wont to berate a poor struggling mother for having 10 children, his answer was: “God will take care of them.” Most of us knew that God’s initials were frequently “N.M.H.”

Again, he would be instructing a mother in infant feeding. She would ask if her three month old baby should have solid food. “Mother, if God wanted him to eat meat and vegetables

"Weighing In"

at three months He would have given him teeth now. He was much not bottle for feeding, if breast milk was at all available. “Can I give my baby a bottle?” “Mother, cow's milk is for calves. Mother's milk is for babies.” However, we had a big walk-in clinic filled with all kinds of samples of baby foods and commercial formulae. All sent by the newly emerging baby food companies. I remember the Gerber foods especially. They sent pictures of the Gerber baby which we hung all over the clinic. These samples of food and formula helped many families eked out the babies' diet. He was very generous in passing out these samples to any needy family.

The medical students received wonderful training in all the aspects of pediatric care to be found in any general practice. In addition to this general practice we had specialized services. Dr. John Coppolino had a congenital syphilis clinic. All babies born to leucic mothers in the OB department were referred to him. I think I was on Tuesday. Dr. Coppolino taught me to draw for the Wasserstrom tests, this at a time when nurses barely were allowed to take blood pressures. We drew from the jugular vein or the fontanel. Tiny business. Medical students learned from all of us. Treatment hopefully was prevention by good prenatal care. The Wasserstrom positive infants were given Aetocerin, pencyclos, Ar'-

Thelma Shipman or Bismuth. Also one a day we had a heart clinic. I do not remember who was in charge of that clinic. Was it Dr. Edward Thomas or Dr. Aaron Coppen? No matter. They were both involved in Children's care.

Wednesday afternoon was Well Baby Clinic. That was a day we all liked. All those healthy, black, white and yellow babies! The Debs particularly liked that clinic. We averaged 100 babies a day. We vaccinated for smallpox, and gave DPT vaccinations. One year we tuberculin tested them. (Once when I was a school nurse in Williamsport, I had to attend a two day seminar on how to do tuberculin testing. I, who had done hundreds, and had taught medical students to do them).

Thursday PM was Children's Psychiatric Clinic, under the care of Dr. Baldwin Keyes. This was primarily counseling of parents and psychological testing and evaluation — many times to facilitate placements in institutions. I particularly remember Blaine and Evan W. (I remember their names after 55 years!) The mother had taken these two children all over Philadelphia and New York City to every facility that did psychological testing, especially to the ones that would tell her Blaine and Evan had the highest IQ. I think they did test out to something like 130 for Blaine, and 150 for Evan. There was no question that they were bright. The mother, considering herself very bright, looked for a husband equally bright, and married him to produce even super children. The only thing was, the husband was living in New York on welfare, and she was in Philadelphia on welfare. I do wonder what happened to them! The last I saw of them she was on a harness going down 10th Street.

Dr. Keyes had one great trait! After every clinic day, he would bring his notes for the history to Miss Edwards, the secretary, and the two of us would spend hours deciphering his writing. It consisted of a first letter, and then lots of abbreviations. We got pretty good at it. If it was impossible, we would keep the history, and ask him the next week to decipher it. He usually accepted wholeheartedly.

During all this time I had been taking classes at the University of Pennsylvania. Finally, I went on parttime from Children's Clinic. I was taking Public Health Nursing, and Katherine Tucker, my advisor at Penn, advised me that my class work would be much more valuable if I had some actual public health experience. I thought my pediatric and Curtis Clinic was adequate. However, I had been in the clinic 8 years, and felt it was time to move on. So, with the blessing of Dr. Macneill and the others, I resigned in 1939 with regret, and went with Philadelphia Nursing Society.

By this time there had been many changes of staff. The clinic survived until about 1974. Pediatric Clinic was the first one to close in 1974. By 1978, all the clinics were closed, and former patients were assigned to private physicians. Now all clinic floors, with the exception of first, are used by the medical college.

And so ended a remarkable era. I wonder where the medical students now get the kinds of excellent experiences they did in the Curtis Clinic? Not only the medical students—the nurses were doubly fortunate in working with such top notch doctors in all fields. The doctors were compassionate, caring, and willing to give their time and expertise gratis to patients, medical students, nurses, secretaries; yes, even the Debs. This was the theme that ran through all the letters that I received. Each nurse thought her "chew" was the best. I knew mine was. Dr. Macneill died in 1965. He was a great doctor, and a great human being. I am grateful to have been a part of the clinic.

I'm sorry not to talk about all the R.N.'s, secretaries, and others who were part of the clinics. There was a constant going and coming. Perhaps someone else out there will pick up the story for next year's Bulletin.

Since my last article, some bad luck occurred. I asked myself, "Why would my fellow alumni be interested!" But since so many people continue to give me encouragement, I once again present a short report.

I've heard people, "Hang in there." "Things could always be worse." "Keep your chin up." And when kids today hear of problems, "That's life." The phrase that helps me the most is, "One day at a time." Now for an update on the bad luck.

In July, 1987, during a pivotal transfer (necessary because I have multiple sclerosis, I was dropped. An X-ray showed that the right femur snapped, and I was sent to surgery for insertion of plate. No weight bearing allowed; therefore, no transfer.

However, thanks to Dr. Hoyer, who invented a canvas with hooks, chains and pump — the Hoyer Lift — I have been transported from bed to wheelchair, and from wheelchair to bus via this transportation. The Hoyer was used in the hospital in July, 1987. And in July, 1988, I am still swaying in this remarkable contraption because the fracture has not healed, although there has been considerable progress in the healing process.

The rattle of the chains takes me back to high school literature, when we studied Victor Hugo's Les Miserables. Jean Val Jean was in chains in prison for 19 years. So my year must be accepted.

Recently I went for my "every second month" X-ray of the femur. Although the orthopedic surgeon is anxious to have me "restart" weight bearing and pivot, he hastens to add, "You have had to be remies for one year, so physical therapy must come first." Although I hope to get back to where I was one year ago (and even hope to start tutoring again) I am told that I am not progressing because of no weight bearing. It looks as though I am sitting duck for another fracture.

Another obstacle that has cropped up at the worst time is a problem I am having with my left shoulder, relating to an arthroscopy eight years ago. It's slow going, and always gets back "to bed at a time."

On a happier note, I am still able to "go places" by a Septa Paratransit van. To be picked up and returned home. I must call the woman who makes sure that I am picked up on time. I need medical care, and must get there on time. I get medical care at the University of Pennsylvania, and must be there on time. I am grateful to have the memory of a day at the shore.

My older niece's two little boys, age 7 and 4, come to my apartment for a weekly visit, making a bee-line to an A&P covered with gift-wrap paper and filled with toys. We have a glorious play session. I have been in the wheelchair for 12 years now, and "no bed sores." Jefferson training—take a bow!

My family and I meet for a festive lunch in the lovely dining room of the Flanders Hotel in Ocean City. Then we walk the boards, giving me a chance to enjoy a look at the ocean. At the end of the day when I'm being put to bed with the help of (you guessed it) the Hoyer Lift, I'm happy to have the memory of a day at the shore.

As far back as I can remember (and that's a very long time) I wanted to be a nurse. I was inspired by a great-aunt, who lived in a rural area and spent her life-time accompanying the local doctors to deliver babies in their homes, and caring for them and the mothers for two weeks, or until she received a call for another delivery. But in those days our parents guided our lives, and even until my graduation from high school, my parents never wavered from their decided view that nursing was a humble profession, and no child of theirs should choose that profession. Therefore I trained in clinical work until I was twenty-one, and in the following year, in March 1924, I was accepted into Jefferson Hospital as a "probie," determined to earn the respect and obedience that Miss Merivel demanded of us. This was not difficult as I was accustomed to hard work ever since my earliest years.

There were twelve of us in that class, assigned six to a room at 1012 Spruce Street, with Miss Virginia McClure presenting us with more rules and regulations. Our first encounter with the awesome hospital was to have our "shoes," a minor detail. OH YES! There had been such an operation just before we entered the operating room, and the bloody spout hadn't been removed from the floor, a gruesome sight. As we lined up and received our "needles," one by one we turned white and four of us, including me, slowly eased to the floor, causing the nurses dismay and hasty reviving. I expected to be sent home that night, but ethics prevailed, and I remained at Jefferson.

Our next assignment was to the "sterilizing room," where we rolled bandages, folded sponges, scrubbed floors, cleaned bathrooms, and prayed for tolerance. At the end of the first month, after uniforms and books were deducted, (in those days students received a small monthly stipend from the hospital) our first pay was fifty cents.

After three months probation, we all received our "caps," the goal for which we strived. My first assignment was to give Mr. Jones' bath. He related that all beginners started with him, and he helped me do a perfect job. I remember he had one leg amputated, my first encounter with such a condition.

After "capping" we thought at last we were nurses, but our struggle had just begun. Back-breaking at times, but rewarding, and my long materialized.

After reading the 1987 Alumni Bulletin, which I enjoyed to the extent that I wanted to write to say—it all brought back so many memories; for instance, the descriptions and experiences of Thelma Showers Morris in her "duty" at Pine Street. Even though she followed me by five years, we shared so many memories. Miss Cushen showed patient concern for our "cotigation" in following instructions to prepare a major corpse (I'm sure we must have had more of our share of them). But as Thelma described the working crew, "we were one big happy family."

Also the article by June Roginski Dunrop on "School Nursing" brought back memories of thirteen years as a school nurse, which in very few ways corresponded to the present methods. I was the lone nurse in the Kennett Square Consolidated School with 1200 students. This included elemen­tary and high school grades in the one building, and encompassed the rural area.

My first two months at the beginning of each term was spent "hunting" for head lice in the lower grades, and separa­tting the culprits from the "clean" guys. I could give anyone as many reasons as to their"caper" and, prepared with a tumbler with "Roloids" and rest on a cot (which the patient locked forward to, especially if the next class was unpopular).

As work paper increased, a secret was employed and before I retired, we had one teen-age pregnancy. One morning a drunken high school student was sent to me to be taken home to his parents. These two events aroused a turmoil among the administration, being the first of the kind to happen. I was glad I did not have to make the decisions. I was usually one of the staff nurses in the sickly-patients first cap. I am amazed when I do volunteer work at the bloodmobile and find none of the nurses capped. When I ask them why? they reply "too much trouble." Do they not care about the distinction between aids and R.N.'s? If they worked as hard as I did to get my cap, no one could take it away from them. Oh yes, I had to wear a complete uniform when I was a school nurse.

I am proud to be a "Jefferson" graduate. I will close my travels down memory lane by quoting the ending from the president's message, "Thanks for the Memories."

Sincerely,
Frances Baker-Andersson-Crossan, Class of 1927

"I Have Noticed"

Everything is further away than it used to be. It is even twice as far to the corner and they have added a hill. I have given up running for the bus; it leaves earlier than it used to. It seems to me they are making the stairs steeper than in the old days. And have you noticed the smaller print they use in the newspaper?

There is no sense in asking anyone to read aloud anymore, as everybody speaks in such a low voice I can hardly hear them. The material in dresses is so skimpy now, especially around the hips and waist, it is almost impossible to reach one's shoelaces... and the sizes don't run the way they used to. The 12s and 14s are much smaller.

Even people are changing. They are so much younger than they used to be when I was their age. On the other hand, people my own age are so much older than I am.

I ran into an old classmate the other day and she has aged so much that she doesn't recognize me. I got to thinking about the poor dear while I was combing my hair this morning and in so doing glanced at my own reflection.

Really now, they don't even make good mirrors like they used to.

SPECIAL ACHIEVEMENT AWARD

This year's Alumni Achievement Award winner, Sister Rose Kershbaumer, a member of the Medical Mission Sisters, has worked in developing African countries for the past 34 years. The Medical Mission Sisters are an order of Catholic nurses who provide medical care in developing countries around the world. The primary focus of the order is on caring for women and children. The Alumni Special Achievement Award is given each year to recognize the outstanding achievement of an alumna in the areas of education, research, or community service.

Sister Rose Kershbaumer has attended Columbia University, the University of Pennsylvania, and the Catholic Maternal Institute since graduating from Jefferson's School of Nursing in 1948, but ask her where she went to school and she'll proudly respond "Thomas Jefferson University!" Sister Rose says "I have always identified myself with Jefferson. Jefferson taught me at an early age to be responsible; and, always be my best. I believe that what I learned at Jefferson was the basis for my future education and involvement in nursing."

Sister Rose says she joined the Mission Sisters because, "It was something I had been considering for some time. I felt it was a good way for me to achieve my goal of service. I have always been interested in other parts of the world, so I suppose I was more aware of the problems in developing countries than here in the United States."

After completing her training for the Mission Sisters in 1954, Sister Rose was assigned for 10 years to a 100-bed hospital in nursing school in Berekinan, Ghana, in West Africa. Her responsibilities included teaching and general staff nurse duties. From there she was transferred to Winnebank Ghana, and then to Uganda in 1964 as the matron of nursing for Vinika Hospital. Vinika had been in existence for some time, but was poorly staffed. A full team of professionals was brought in, including Sister Rose who served as matron of nursing for four years. She reorganized the nursing service, established outreach clinics, and began a school of nursing.

When Sister Rose was assigned to Africa, Mission Sisters' assignments were for life, but in 1957 the decision was made to allow sisters to return home every seven to ten years. Today, sisters return every three to five years, often for continuing education.

In 1969, Sister Rose returned to the United States to complete her Bachelor of Science Degree in Nursing and her Master's Degree in Nursing from the University of Pennsylvania. "I received a $500 scholarship from Jefferson's Nurses Alumni Association, at that time $500 was a lot of money and it enabled me to continue my studies. In the late 1970s I returned to Holy Family Hospital in Ghana as director of nursing and became more involved in midwifery. The hospital had a school of midwifery which she supervised.

Sister Rose continues to be deeply committed to midwifery. "One of the big differences in nursing care in Africa versus America is in the area of child birth. In Africa, a midwife has complete responsibility for prenatal care and child birth. It a doctor is brought in it is at the referral of the midwife," sister Rose says.

"Another area where there is a great deal of need is in Western medicine there is a great dependence on technology, but in African clinical expertise is relied upon.

"Because there are fewer doctors and the sense of need is so great, nurses have more autonomy, they are given much more control in the care of patients," says Sister Rose. "I also think there is more understanding of the demands made on a nurse's time."

After leaving Ghana in 1973, Sister Rose went to Zambia, then to Kenya and back to Malawi where she has been since 1980. Sister Rose has worked with the World Health Organization, the United States Peace Corp, the Malawi Ministry of Health, two hospitals and several major African universities.

Sister Rose says "Medical care has come a long way during the years I have been in Africa. At one time all of the Mission Sisters was to work our way out of a job, to teach locals to do what we did. In almost all the places I have worked that has been accomplished. In 1964 we had some doctors and nurses, but very few registered nurses, and no other allied health professionals. There were only a few nursing schools and they were staffed by American students. The students I taught in Nairobi in the late 1970s are now running that school, and I have worked with many of my former students as colleagues in nursing schools throughout Africa. It's a very rewarding feeling."

In the early 1980s Sister Rose was working for the World Health Organization, helping to set up a hospital in Malawi and teaching at medical school. She has been an educator and coordinator of their efforts to develop a school of nursing. Today the President and Dean of the University of Kamuzu College of Nursing are Malawians. Many of the teachers are also Malawians. Other changes include a new school of allied health which has been opened in Malawi, offering seven programs including pharmacology and ophthalmology.

Sister Rose, who was in the United States for a brief visit in August, is back in Africa continuing her work with the Mission Sisters. She says the situation of midwifery in developing countries is extraordinary, as is her dedication to Jefferson.
Archives and the Nursing Experience
by Judith A. Robin, University Archivist

When was the first nurse hired to work at Jefferson Medical College? Who was she? Where did she get her training? What were her duties? And knowing that, why did she choose to become a nurse? These are the classic five W's, the questions which the University Archives strives to answer, or at least to explore. Our daily challenge is to answer hundreds of questions such as these about the University, its people, and its past. Sometimes, finding the answer is as easy as checking a catalog or an index. Sometimes, after every possible resource has been exhausted, the mystery remains.

The Archives, a department of the Library, has a five-fold mission. We identify, collect, organize and describe, preserve, and make accessible those materials that have archival value to the University, its staff, students and alumni. To determine whether an item should be kept in our permanent collections, we consider administrative, legal, fiscal, and historical values. Perhaps the item explains a policy decision, describes events from a special perspective, records operating costs and equipment purchases, or illustrates campus life. A walk through the Archives reveals Jefferson's many facets. If we are to provide answers, we must know where to look, so our first charge is to identify and collect those materials that hold the answers. The official records and publications of the University are our most important source of information. In recognition of this fact, the College of Allied Health Sciences has embarked on a systematic program to transfer its inactive records to the Archives. Many of the important records of the School of Nursing have also been transferred to the Archives. Miss Doris Bowman, alums of the class of 1942, Emeritus Professor of Nursing, and Director of the School from 1958 to 1982, has been tireless in her efforts to preserve both documents and artifacts of the School. The official records, of course, are only a beginning. The Archives also collects the personal papers and memorabilia of our faculty, staff and alumni. Textbooks and class notes, letters and diaries, programs of commencements and cappings, pins, invitations and souvenirs of events are all part of Jefferson's history. One of the Archives' top goals for the coming year is to increase its documentation of nursing staff and student life through adding the personal papers of alumni.

Once materials are acquired, our next task is to put them in order, arranging them in a way that accurately reflects why they were created and how they were used. As we organize collections, we also describe their contents, so that answers can be readily found. These descriptions may be in the form of an index or an inventory, called a finding aid, that can be used to assist researchers. In addition to printed finding aids, the Archives will soon be adding holdings data to the Library's automated catalog, Jeffline. We will also be reporting our holdings of personal papers to the National Union Catalog of Manuscript Collections, maintained by the Library of Congress. Because only those materials that have enduring worth are chosen for inclusion in the Archives, our next concern is to ensure their permanent preservation. This would be easy if no one ever used them, but of course, we want to preserve them so that they can be used. This can be quite a dilemma! Simply by storing materials in protective containers made of acid-free paper, and keeping them in a climate controlled area, their useful lifespan is greatly increased. We also reconsider all visitors to handle them with loving care. In rare instances, we must restrict access to fragile items. Stringent controls are also placed on access to confidential information.

While our primary clientele are University administrators, we serve the entire staff, affiliates, alumni and students. The Archives is also open to the public; we receive many telephone calls and letters each month, requesting information about the University and its alumni. Often, these questions come from people searching for their own family history. Academic scholars, too, find answers in the archives, as well as authors of fact and fiction. These collections support research in such fields as the history of nursing, social history, minority and women's studies, history of education, health policy and hospital administration.

The Archives is a relative newcomer to Jefferson, having gotten its start in 1975. Who kept the institution's archival records, dating from as early as 1824, before us? We are very fortunate that so many offices and individuals recognized the importance of Jefferson's historical records over the years, carefully keeping them for posterity until the Archives could take up its charge. The Alumni Association of the School of Nursing is responsible for preserving much of that heritage. Since its beginnings in 1895, the Alumni Association has been a forward-looking organization, firmly rooted in the past and its traditions.

I began this brief excursion through the Archives with five W's. There are five more important questions which should now be answered. Who does the Archives serve? You! What does it have that might interest you? A cape, a rose, a candle, a pillow, a ribbon, a cap; these and many more await you. Where can you find them? In Room 310, Scott Library Building. When can you see them? The Archives welcomes visitors from 9:00 a.m. to 5:00 p.m., Monday through Friday. Why visit the Archives? Perhaps, if you are like me, to look for answers to the first five questions. Come, satisfy your curiosity!
Cooking the tuition. The Thomas Jefferson University Archives has academic and memos, we personnel nursing, minority and women's studies, the corporate history of our institution. Researchers in administration, and other classes, the Archives supports research in the history of publications and memorabilia, circa 1945-1946. In every archives and most other collections, the Archives collects the publications and inactivity reports and memos, we collected art works, medical and academic memorabilia, and most importantly of all, the personal papers and reminiscences of Jefferson personal and alumni. The Archives supports research in the history of nursing, minority and women's studies, hospital administration, and other fields. Personal papers round out the official record, and give a vital human dimension to the corporate history of our institution. Researchers in many disciplines tell us these related collections are the most useful materials they have found. Your reminiscences of Jefferson and the School of Nursing can make a real contribution to the ongoing effort to document our history. If you have class notes, photographs, and other memorabilia that you would like to donate to the Archives, or just some good memories to share, please let us know. You can reach the Archives at either of our telephone extension numbers: (215) 928-7769 or (215) 928-8927. Or, write to Judith Robbins, University Archivist, Room 310, Scott Library Building, 1020 Walnut Street, Philadelphia, Pennsylvania 19107. And thanks, for the memories!

Resumé of Minutes of Alumni Association Meetings

September 8, 1988—11 members present. The minutes of the previous meeting were distributed, read, and approved. The Treasurer’s Report was read and approved. Committee reports were given. Since our last meeting, birthday flowers were sent to the following: Nora Sheaer Panosia, 12, Frances Butler Pangburn, 16, Anne Lucas, 31, Pauline McWhirter Gillen, 27, Esther Toole Wilson, 27, Hazel Obendorf, 30, Elia Engel Kaloh, 30, Frances M. Grove, 17, and Henrietta Fitzgerald Spruance, 21. Correspondence was read to the group. It was recommended and approved that we send $100.00 to the Memorial Fund for Dr. Leon Paris and contribute $150.00 to the United Way through Thomas Jefferson University.

November 10, 1988—15 members present. The minutes of the September meeting were distributed, read, and approved. In the absence of the Treasurer, due to inclement weather, no report was given. Committee reports were given. The Satellite group in New Jersey has met twice. Since our last meeting, birthday flowers were sent to the following: Edna Scott, 83, Margaret Carey, 27, Clara Brunner, 23, Dorothy Dundore Williams, 32, Claudia Starr Wiedlund, 22, Isabella Keever Hively, 27, and Estelle Ledwoll Fleming, 20. Correspondence was read. Judith Robbins, the University Archivist, recommended that the Alumni's old records (minutes) be transferred to the University Archives for safe keeping. This was approved by those present. It was recommended and approved that we invite Pamela Watson, the new chairman of the Department of Nursing, to the January meeting. It was also recommended that if a fee box for the Alumni Office be purchased, to hold the Commencement Programs (which are frequently used to check correct spelling of names, year of graduation, etc.) in the future original programs will be placed in the archives.

January 12, 1989—16 members present. The minutes of the previous meeting were distributed, read, and approved. The Treasurer’s Report was read and approved. Committee reports were given. The Satellite committee is sending out questionnaires for Alumni in the Central Pennsylvania area to establish another Satellite group. Since our last meeting, birthday flowers were sent to the following: Josephine L. Jones, 84, Marian Robinson Briggs, 25, Florence Kaufman, 23, Emma M. Bahner, 31. A poineerette was sent to Dorothy Edgar Burns, 42 following her accident. Correspondence was read. Pamela Watson, Chairman of the Department of Nursing T.J.U. spoke to the group concerning her interest in the history of nursing at Jefferson. She would like to see more evidence of this throughout the hospital. It was recommended by Betty Piersol, Chairman of the Finance Committee and approved by those present, that $5,500.00 be placed in the Nurse’s Alumni Association Decade Fund.

March 8, 1988—15 members present. The minutes of the January meeting were distributed, read, and approved. The Treasurer’s Report was read and approved. Birthday flowers were sent to the following: Mary Robinson Godfrey, 80, Clara Garber Hardy, 27, Florence Bonnie Browning, 16, Martha Riland, 27, and Katherine Flickinger Aagaard, 21. Committee reports were given. Correspondence was read. It was recommended and approved that we lend articles from the Alumni Office to be placed in areas of the hospital. Also to establish an Honor Roll for graduates of Jefferson Hospital School of Nursing. An article on the Honor Roll and an application form will be placed in the annual alumni bulletin, published in the fall.

May 7, 1988—Annual Meeting—62 members present. The minutes of the March meeting were read and approved. The Treasurer’s Report was read and approved. Committee reports were given. Birthday flowers were sent to Ann Williams Candler, 29, The New Jersey Satellite group have held four meetings, with Nancy Powell as coordinator. A luncheon meeting is planned for September. Proposed guidelines for satellite groups were passed out for comments. The guidelines will be voted on at a Board of Directors meeting.

Correspondence was read. Report of the election as follows: Board of Directors—Pat Dunn, Dolores Heckenberger, Mabel Prevost, Margaret Summers Second Vice President—Jeanette Plasterer President—Alice Boehret Permission was given to destroy the balls. The Board of Directors held several meetings since the March meeting to review the Relief and Scholarship Funds. A new application form has been drawn up for use when additional funding is requested after the initial application. A unanimous thank you was given to Florence Roche for an excellent job during her two terms as president of the association. A motion was made and seconded for the officers and board of directors to handle business as necessary, prior to the September meeting.

Alumni Office News

It seems we continue to do the same things over and over. Such as making address changes, and trying to find missing addresses. You would be surprised all the ways we pursue to find the correct address of those who have moved and in the hassle forgot to notify us. Thanks to all of you who have sent the address of a missing classmate, we do appreciate it.

To our faithful volunteers, we say many, many thanks. Without your help it would be almost impossible to get our big mailings out on time.

Working in the Alumni Office continues to be a pleasure. Our office, as in the past works closely with the CAHS Alumni Office. Lisa and Gayle Dryden are so very kind and helpful. They are our resource when we need to know who to call for a particular service, or where some department is located within the university (departments have a habit of making frequent moves.)

Our address: Nurses’ Alumni Association, Thomas Jefferson University, 11th and Magee Avenue, Philadelphia, Pennsylvania 19107. M 6 Jefferson Alumni Hall. The telephone number is: 215-926-8951. We are in the office on Tuesdays from 9:30 A.M. to 4:30 P.M. When we are not in the office our phone calls are answered and messages taken by the CAHS Alumni Office.

If you are in the vicinity, we would be happy to have you stop by for a visit. Make it on a Tuesday, call first to be sure we are in office.

HELP!!! WANTED!!!

For our Alumni Office files, copies of the following By-Laws books—1908, 1919, 1936. We appreciate your help.

Betty Piersol and Peg Summers Alumni Office Coordinators

Relief Fund Committee Report

During 1987 the Nurses Relief Fund Trust was able to give financial assistance to 10 of our graduates. As stated in the 1984 revised By-Laws "Any graduate of the Diploma School of Nursing and the White Haven School of Nursing of Thomas Jefferson University who finds consideration for benefits from the Relief Fund Trust to help meet expenses incurred due to illness or other expenses for necessities." All things being equal first consideration will be given to Life and Active members. However, all applications received will be reviewed and given consideration.

All or a portion of the amount of money distributed to a recipient from the Relief Fund may have to be reported to the Internal Revenue Service as taxable income. Each recipient will receive a statement at the end of the year showing what portion of the distribution to her/him should be reported. An application for Relief Fund benefits can be found in the back of the bulletin.

The Satellite Committee

At the June meeting, your Board of Directors approved the following guidelines for Satellite Committees. These are:

Purpose: To promote fellowship among members.

Goals: 1. To provide assistance to sick members if needed, through the Relief Fund Trust.

2. To promote professional and educational advancement through the Scholarship Fund.

3. To stimulate interest in the administration of the Association, and to stimulate active involvement in the Association by sharing suggestions with the Nurses’ Alumni Association with the Board of Directors.

During the first year the southern New Jersey Committee, the first satellite group has met four times. With Alice Bohret and Nancy Thompson Powell acting as advisors, they have elected officers and have had both business and program meetings. A second satellite group will meet this month in Harrisburg, Pennsylvania. This group is called the T.J.U. Nurses’ Association Build­ ing. Dorothy Ranick and Gladys Keeper are advisors for this group. One hundred and seventy-seven letters with question­ naires as to their interest in forming a satellite group were mailed to graduates living in the Harrisburg-Ephrata area. To date thirty-one answers have been received. The majority of these plans to attend the meeting and others have expressed an interest in meeting at another time.

Plans for a meeting of a third satellite group. Jefferson diploma nurses are well underway. We are now mailing letters and questionnaires to thirty-one members in the Baltimore, Mary­ land area who are traveling time to Retford, Pennsylvania. They are our resource when we need to know who to call for assistance to anyone interested.

The Satellite Committee at Jefferson is happy to offer assis­ tance to anyone interested.

Mabel C. Prevost

Do Something

Help someone to carry his burden, And lighten every load you bear.

Do something for somebody gladly: Twill sweeten every care.

Help someone in sorrowful need: Your own are less hard to bear.

Do something for somebody, striving

To help where the way seems long;

And the sorrowful hearts that languish

Cure up with a little song.

Do something for somebody always;

Whatever may be your creed,

There’s nothing on earth can help you

So much as a kindly deed.

Social Committee Report

On Saturday May 7, 1988 the Alumni Luncheon was held at Jefferson Alumni Hall, 1020 Locust Street, Philadelphia, PA 19107. 326 members attended.

The Annual Alumni meeting proceeded the luncheon at 12:00 P.M., in the Solly-Cohen Auditorium. This was an excellent opportunity for members who cannot attend the regular business meetings to catch up on the business of the Association. A cocktail hour followed the meeting, and was held in the court yard, thanks to the pleasant weather.

The oldest class member to attend was Mildred Kroupa, Class of '25. She was presented with a corsage from the Alumni Association.

Celebrating their 40th Anniversary, the class of 1948 had the largest attendance with 43 members present. The class of 1938 celebrated their 50th Anniversary with 17 members present. Each member of the 50th anniversary was presented with a red carnation from the Alumni Association.

Other anniversary classes attending were: 1943—45th anniversary (26); 1950—50th anniversary (26); 1955—55th anniversary (17); 1960—60th anniversary (34); 1965—65th anniversary (34); 1970—70th anniversary (20); 1975—75th anniversary (15); 1980—80th anniversary (17).

The following states were represented: Arizona, California, Connecticut, Delaware, Florida, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, Virginia, and West Virginia.

Class mugs, with the Jefferson logo and Jefferson Nurses’ Alumni Association in blue, and Jefferson note pads were given to each one present as souvenirs. The floral basket center piece on each table was given to the oldest member at each table. At usual the day was a wonderful opportunity to renew the very special relationships.

Jefferson Nurses have developed over the years. If you could not attend, we missed you and hope to see as many as possible next year. Please mark your calendar for our next luncheon, Saturday May 6, 1989. See you then.

1988 Social Chairman

(After Flossie Roche gave the Grace before the luncheon some of those present asked her for a copy because it was so touching. With Flossie’s permission the following is the Grace given before the 1988 Annual Luncheon.)

“GRACE”

Lord, we thank you for this day and for letting each of us be a part of it. We thank you for the food we are about to partake. We thank you for the bringing together of our friends, some here for the first time in many years, for those who come every year, for allowing us to share our life experiences with our buddies from another time in our lives, a time of hard work, study, and a time of sharing and giving, a time of fun and joy, and, yes, some sadness. Three years of growing in the best atmosphere, to be proud of saying we are “Jeff Nurses.” Lord—"Thank you for the Memories."

Amen.

Enjoy your lunch!

Scholarship Committee 1987-1988

The number of scholarships requested was considerably reduced this past year but the amount requested seems to have increased. Since the intent is to help as many graduates of the diploma program as possible, we hope to hear from more of you who are in need of assistance in pursuing a degree in nursing.

Awards were granted to the following:

Theresa Steinheigen Grace, ’74
Nancy Nevin McClees, ’69
Dorothy Wishney Lucas, ’95
Kathryn VanDyke Haynes, ’71
Susan Nufio Bodman, ’76
Catherine Glatney Dowhy, ’75

Nurses’ Scholarship Fund

The Clara Melville-Adel Lewis Scholarship Fund continues to provide scholarships to diploma and White Haven graduates.

In May 1985 the scholarship committee took action to grant scholarships to part time, (as well as full time applicants) provided the applicant is enrolled in a program leading to a degree in nursing and enrolled for a minimum of six (6) credits. Scholarships will be available for summer, fall and spring semesters.

Each application received will be reviewed by the scholarship committee; preference will be given to the applicant who has been a member, who is most active in the Alumni Association, and who has most nearly completed requirements for a degree.

A scholarship application can be found in the back of the bulletin.

Bequests

We have received a number of questions concerning bequests to the Nurses Alumni Association. If you are thinking about such a bequest, we would suggest the following sample paragraph for your consideration:

I give to the Nurses Alumni Association of the School of Nursing, Diploma Program, College of Allied Health Sciences, Thomas Jefferson University, located in Philadelphia, Pennsylvania, or its successors, the sum of dollars (or identify the property, such as stock, or indicate a percentage of the estate, if appropriate), to be used for its general purposes.

This suggested clause is exclusively for the information of our alumni and friends. You should, of course, consult your own attorney as to the applicability of any item to your own situation.

Bulletin Committee

It is so interesting to get articles for the bulletin from graduates who remember what it was like when? They are all different and very interesting. How about someone writing an article for the 1989 bulletin from the 50’s, 60’s, 70’s and yes, the 80’s? Tell us what you remember about your time at ‘Jeff’.

If we have misspelled your name, we ask your forgiveness, sometimes it is difficult to read your writing.

Has anything interesting or exciting happened to you or your family? Don’t be shy, share the news with the alumni. Believe it or not, we are interested in what our graduates are doing.

Margaret Summers
Chairman, Bulletin Committee

Volunteers Needed

Volunteering can be a fulfilling and pleasurable way of using some of your “spare” time.

What better place to do volunteer work than at your own alma mater. You might be surprised at the number of people you meet who will remember you; there really are some old-timers still around.

Other departments in the University besides the hospital can use and would welcome volunteers.

If you are interested in being a Jefferson volunteer contact Ms. Linda Sauerwein, 215-982-6222 and tell her your interests or write to her at Thomas Jefferson University, Patient and Volunteer Services, Room 2020 New Hospital, 11th and Walnut Streets, Philadelphia, PA 19107.

The Original Coal Miners Daughter remembers!

I am the original coal miners daughter, the show that was given on TV, didn’t know much about it. Why remembers the 1918 Asian Flu? When five young girls from the spring class at Jefferson died. They sent for my mother who sat by my bed for three weeks while I was unconscious. Then I was sent home for six months to recuperate.

When I got home to the coal mine region, I found the flu still existed, and the nurse with only six months experience, sent home to recuperate, was called on to help care for the sick. I delivered a baby with the mother telling me what to do.

When we were student nurses we would hang out windows and watch race riots on Sansom Street. We would run over the fire escapes to go on duty in the hospital. My life was always exciting, and it still is.

My family are mostly gone during the day. I have the company of two dogs and two cats, and they run my life, they are so much company for me and keep me busy, I do not have time to be lonely.

No use to mention the health side of my life, I have a doctor who manages to keep me active. So what will be will be, its not ours to see.

Katherine Flickinger Aegaad, Class of 1921

99th BIRTHDAY CELEBRATED

May 23rd 1988 Frances E. Butler Pangburn, class of 1916 celebrated her 99th birthday. The 59th 1986 Franklin "Mayme" Pangburn was given a surprise birthday luncheon by Alan Swan and his parents Peggie and Carl Swan in the Chicago Restaurant in the Pennsauken Country Club. They've been friends ever since.

Nearly 36 years ago on May 11th Mrs. Pangburn helped deliver Alan at Zurbogg Memorial Hospital's Riverside division. They've been friends ever since.

Alan had not seen Mrs. Pangburn for nearly two decades, but they quickly recognized each other. Swan considers her to be his "second" mother. Mrs. Pangburn said she always considered Alan part of her family. She has three daughters of her own and recently became a great-great grandmother.

It may be a while before the two meet again. Mrs. Pangburn who spends the winter in Cherry Hill, Nj with her daughter and son-in-law Eleanor and Robert Shelly will return to Lewistown, PA for the summer. Alan will be traveling around the country for Broadcast Consultants of North America.

Mrs. Pangburn sent the newspaper articles to us thinking we might be interested. She said the luncheon was quite a surprise and a bit overwhelming, after all "I was only doing my job as any good Jefferson trained nurse would do." Frances Pangburn is looking forward to her 100th birthday and hopes to attend the Nurses' annual luncheon on May 6, 1988.

“A nurse who cares”

Congratulations to Marie Mengel MacKenzie, '82, 280 Hudson Court, Holland, PA 18966. Marie was recognized by Hospital News/Philadelphia August 1988 under P.R.O.F.I.L.E. as a nurse, who cares. Marie is assistant head nurse at Holy Redeemer Hospital, Philadelphia, PA. She has worked on Medical Center’s 3 Central Nursing Station for two years.

As a medical surgical nurse, working the 7 a.m. to 3 p.m. shift she sees it all. The unit gets its share of patients undergoing chemotherapy as well as those recovering from heart attacks. Marie and her staff of six nurses also care for a variety of surgical patients.

When Marie goes home at the end of her shift knowing she has helped someone, then she feels rewarded. In spite of the mounds of paper work involved, her greatest satisfaction comes from direct patient care, which she considers the most essential part of her position.

Although time away from her job is short, she enjoys cooking. Marie and her husband Kevin are busy preparing to move into an old stone farm house in Warminster, PA. The MacKenizes are both antique collectors and consider this move a dream come true.

(End note: The above item was taken from an article written by Marilyn Watten-Feldman, and appeared in the publication Hospital News/Philadelphia August 1988.)

Nominee for the President’s Volunteer Action Award

The following article appeared in the Richfield Life, Spring 1988 edition

Miss Emma Bahner, a resident at Ridgecrest Apartments, was recognized Friday, April 22 at the annual Volunteer Awards Luncheon at Hotel Roanoke. All nominees of the President’s Volunteer Action Award and/or the Governor’s Award for Volunteer Excellence were invited and presented with a plaque. The awards luncheon was hosted by the Council of Community Services in conjunction with the Junior League of the Roanoke Valley.

Miss Bahner was nominated for the President’s Volunteer Action Award by the Volunteer Department at Richfield Nursing Center. She was very instrumental in the success of the Christmas Laprobe Project in 1987. Miss Bahner was the dominant factor behind the formation of a crochet club at Ridgecrest called "Stitch and Chat." Their hard work and dedication inspired many other church and civic groups to become involved. Richfield Nursing Center has received over 400 laprobes since the project began last fall. CONGRATULATIONS EMMA—YOU’RE TERRIFIC.

Miss Bahner also received congratulations from President and Nancy Reagan, The White House, Washington, D.C.

Centenarian enjoys birthday

Mary Robinson Godfrey class of 1909 celebrated her 102nd birthday January 25th, 1988. Mrs. Godfrey lives in Ligonier, PA with her daughter. Mary is an interesting and avid conversationalist and has many fond memories of her career in nursing. Mary is proud of her memories and loves to show them to anyone who is interested.

Her health is good, she uses a walker and can do most of the things she wants to do. Mrs. Godfrey remembers with great satisfaction her career as a U.S. Navy nurse.

In 1918 The S.S. Leviathan, a former German cruise ship was converted into a troop ship to transport American "doughboys" to France. It carried 100,000 men to the battlefields of Europe and returned almost as many to the United States in 1919. Mary Robinson Godfrey, '09, served as Chief Nurse, U.S.N. on several of this great ship's voyages. Listed among her many accomplishments is the important role she played in assisting navy nurses attain the rank of Commissioned Officers.

The Butterfly
And
The Caterpillar
A Fable Old Is Here Retold

A butterfly, one summer morn,
Sat on a spray of blossoming thorn,
And, as he sipped and drank his share
Of honey from the flowered air,
Barred, Apon the garden wall,
A caterpillar chanced to crawl.
"Horrors!" the butterfly exclaimed,
"This must be stopped! I am ashamed
That such as I should have to
Be in the same world with such as he!
Preserve me from such hideous things!
Disgusting shape! Where are his wings!
With colors that outrival yours.
You, Fuzzy and gray! Eater of
But, as he munched a leaf, he said,
"Eight days ago, young butterfly,
Not someone take the worm
Disgusted shape! Where are his wings!
With colors that outrival yours.
You, Fuzzy and gray! Eater of
But, as he munched a leaf, he said,

true friendship, rare as precious gold,
And as enduring to the touch of time.
Exquisite as fine lace or filigree,
As mellow as the taste of vintage wine.
True friendship, subtle as old tapestry,
As understated as a candle flame,
Unchanged as an ageless work of art
That grows in worth as it remains the same.

Jeanne L. Lebkicker, (Donald E.), P.O. Box 364, Port Charles, PA 19802. I would love you to call me Don, and work more with me when I did, as it was truly the last frontier. My best wishes to all at Jefferson.

Edward Lauer, 421 West Ridge Street, Carlisle, PA 17013. We have two granddaughters and one grandson, how wonderful.

Margaret M. Casey, 17602 Old Mill Road, Wilkes-Barre, PA 18708. Our youngest son has a tragic disease, a serious mental illness. I am now president of our local chapter (Alliance for the Mentally Ill) and I am involved with the advocacy group. We have four sons and a daughter. We also have three grandchildren. I enjoy reading, cooking, and I manage to travel and see the world a little.

Irene Schulte (Donald E.), P.O. Box 364, Port Charles, PA 19802. We have had a wonderful life. My husband John graduated from Jefferson School of Law in May. Ray is now with Data-Tape (a subsidiary of IBM) in the U.S. and we have managed to travel and see the world a little.

Class of 1949

Mary Aiken Walling (George), 602 Oak Avenue, Lake City, FL 32055. My husband George is now semi-retired. The spring of 1978 we thoroughly enjoyed our trip to England and Scotland. I am planning to attend this year's reunion.

Helen Taylor (Richard H.), 338 Congress Street, Cape May, NJ 08204. I am now an R.N. with the American Red Cross Blood Services. Our three children, two of whom graduated from Jefferson, have married and are now part of the seven member family. Our daughter Loretta was awarded a N.S.F. scholarship. I am working on her doctorate in microbiology. Our daughter Carol is a occupational therapist in Texas. Our son John is a partner in a law firm in Indianapolis, a new life. Our youngest son is in his second year of medical school at Duke University. Our family all lives in Indianapolis at one year. I do volunteer work at Riley Children's Hospital in Indianapolis. I read all the time, play calligraphy and take classes in subjects that interest me.

Mary Jane Born Martin (Charles), 245 Caroline Road, Mattituck, NY 11952. I am still working as a staff nurse in critical care at Florida Hospital in Orlando. I tell friends all the time that I am enjoying playing golf, active in civic affairs, and I'm enjoying it.

Irene Iden Traynor, 21 Eisenhower Road, Framingham, MA 01701. What a pleasant surprise to receive the Jefferson Alumni Bulletin. We have been widowed for 8 years. I have a daughter Beth, age 29, and a son, Steve, age 35. One granddaughter Alexandra, age 4, I work full time as an adult day care center, West City Hospital, which I enjoy thoroughly. Included in this fall time practice, are several fall festivals, where I have a weight group, one session per week. This past summer I had the pleasure of spending a few days with Joe King Griswold, and Dorothy Koch Davis at Dome. I will enjoy recalling our past experiences. We also discovered that although many hours go by, and our busy separate lives keep us apart, the bonding we had at Jeff is still just as strong. How nice to know that some things never change. Best wishes to all.

Class of 1957

Martha White Hopkins, 3132 Salvi Vista, Fallbrook, CA 92028. It was a wonderful reunion last year (1977). Our class enjoyed our get-together and we are looking forward to the 35th reunion. To our 1977 class reunion, May the 18th. Sounds like fun. Nice to hear from you all.

Kate G. Felsys Snyder (Dott.), 44-170 Lotus Lane, Karoeh, Hawai'i 96744. Aloha! Hawai'i is every bit as beautiful as the tourist posters. But being local is quite the same thing. I have to pinch myself to remember that I'm not in paradise. Paradise to manage a 19 bed unit with 3 beds only the original unit for the Pacific and I don't have to worry about medical errors. My nursing job is just a bridge to get through today. Someone has to pinch me back to reality. If you go to Hawai'i—please call.

Barbara Ghizzo Judd (Dorothy), Box 557, Glenmont, AK 99856. Sorry, I couldn't make it on the 15th. I'm too crowded for the 20th. I work a half day a week as a nurse and then a few hours a month in medical records. Otherwise I'm home with Jake 5th and Matthew 3rd.

Gina Conens Kramer (Ken), 158 Stewarts Avenue, Easton, PA 18042. We are getting bigger. Our three children, John, Lauren, and Jeff, are a constant source of pride. Having a super partner in the antiques and new quilt business.

Class of 1974

Wendy Ost Moulenehille (Paul), PO Box 1001, Kennebunk, VT 05056. Hello! We must still be in Vermont and loving it. Marc is now 3, Lisa is 2, and Paul is 1. Paul continues with his competitive endurance practice, and Marc is interested in trying out gymnastics. I'm still a homemaker and working part time in the insurance business.

Johnstown, PA in Kathleen 808-235-3358. Anyone in this house from turning into couch potatoes. We're still enjoying my two weeks 6 1/2, and Christopher Wayne 2 1/2 years. I usually only get to visit Philadelphia once a year, during the summer. God bless all of us.

Linda Birangman Napierzyski (Thomas), 609 Jackson Road, Atco, NJ 08004. I'm working in neonatal ICU at West Jersey Hospital in Voorhies, NJ. Lisa was 3 in May, and Jennifer was 1 year in February. I'm working part time in the Pool and make it to the practice as often as possible. My daughter, Balbeck Anne Hedges (Paul), 9046 Cox Avenue, Philadelphia, PA 19134. I'm still working at TBH after all these years. Our children are getting bigger. Chris is 8, and Rachel is 4.

Claire McDonald Pappash (Richard), 79 Marum Avenue, Oaklyn, NJ 08107. I'm keeping busy with two active children, Matthew 3rd, and Kimberly 2nd. I still work at COP in the float pool. Hope everyone is doing fine.

Patricia Thompson Jenkins (David), 253 Maple Avenue, Audubon, NJ 08106. I'm moved, and I'm still working part time in the pool nursery for WCHS. Now I'm 8 1/2 years old, and Kristin is 5 1/2 years old. Just in time for the last swim meet of the season, Jennifer and Kathy 5th will begin kindergarten. Kathy is a class IV gymnast and competes two times a month. Mom keeps busy driving and carpooling. I'm doing my part time job 1 1/2 days a week at Colburn School in Chester County. Paul and I would love to hear from TU graduates.

Janice E. Richmond Malloy (Michael), 515 S West Avenue, Arcadia, PA 19010. I have one of my best vacations ever in March. We had a great week in Fort Wayne, present, and presently enjoying my new home and moved in this area very much. I would love to hear from former classmates, especially if you are getting bigger. Claire is 8, and Rachel is 4.

Class of 1976

Betty Seiders Machtelle (Michael), 504 earth Road, Ontonagon, PA 04601. Betty's husband, Bill, has moved us toOntonagon, PA. I have been there 10 years. When I'm not working, I'm a homemaker and take care of the boys, Matt, 11, and Andrew, 8. It's been a good week of uncle Mark. My son, Andy, 7, is a class IV gymnast and competes two times a month. Mom keeps busy driving and carpooling. I'm doing my part time job 1 1/2 days a week at Colburn School in Chester County. Paul and I would love to hear from TU graduates.

Karen A. Mirecki Webster (Philip), 711 Seminole Avenue, Philadelphia, PA 19111. We have two children, Sarah 3 1/2 years old, and Gregory 2 1/2 years old. I am working part time in the on-call midwifery unit of a local hospital. My husband and I have recently purchased a rental property, 4020 W 211/2 AVENUE, Phoenix, AZ 85015. We are enjoying our new home very much in the spring and summer months.

Linda Roth (Paul) , John, 54 E 7th Street, Collingwood, PA 19420. Hello! Every one is doing very well. I started back to school a year ago and am still enjoying my new job and family.

Alice Leisch Gruener (Carl), 60 Cedar Drive, Richboro, PA 18954. Hi everyone. I'm looking forward to seeing all of you at our reunion. Best wishes to you all.

Annmarie Sloss Moritz (Joseph), 311 Patricia Circle, King of Prussia, PA 19406. We moved back to the Philadelphia area in July 1987. It gave birth to our little wonder, Kathleen. She is true the joy of our lives. We have taken off some time to be with her. Taking after a trip down south for a month we will both be returning to work. Regards to all my classmates.

Clancy Cassell Bush (Howard), 12060 Sagar Harbor #2, West Palm Beach, FL 33414. Everyone! We've recently moved to sunny Florida. I didn't miss the winter a bit. My husband has opened his second orthomotology office. I keep busy with Rachel, now one year old, helping out in the office, and teaching at the local college. I'd love to be a bit more social.

Judy M. Dicostanza, 3215-4 Red Lion Road, Philadelphia, PA 19114. I hope all is well with everyone. I finally left "the Jefferson family," and now I am the director of nursing for Home IV Therapy Company. What a big change! I still haven't booked the right guy, but I'm keeping my body.

Carmen William Russo (Robin), RIN-167C, Sewell, NJ 08080. I left Metro-Parkview to work closer to home, I am now anesthetist at Kennedy Memorial. Robin also left his nurse manager job at Nazareth after seven years to work at Kennedy. We are looking forward to a new arrival—not a baby—a thoroughbred home. We are going to cruise to Bermuda this summer for two weeks.

Sandra Lee Wilson (Robert), 111 N. Huntington Avenue, Margate, NJ 08402. I am still at Widener with our BSN. It's a long road and I wish I'd get it finished.

M. Elaine Honkis Larr (Gen), 203 Sheffield Road, Glassboro, NJ 08028. I am currently working as a school nurse and health teacher. I plan on pursuing a master's degree starting in the fall of 1988. Hiello to fellow classmates.

Karen Hollander Bernardini (Richard), 54 Green Tree Drive, West Chester, PA 19382. We moved to West Chester in the spring of 1987. I'm still working part time at Children's Hospital, and I am keeping busy at home with Lisa 4, and David 2.

Sharon Miller Chilton (Mark), 8110 Clearfield Road, Frederick, MD 21701. Everything is going well. Mark is working hard and the practice is doing well. The boys are growing up very fast. I now have time to enjoy myself—for example: tree's and painting. Matthew was 3 on April, and Craig will be going on 2.

Deborah Samuel Timpone (Glen), 4 Radford Court, Marlton, NJ 08053. I continue to work part time at TJUH in the intensive care nursery—post-stabula. Christopher Ryan was 1 year old on March 20th, and Eugene was 4 in July.

Theresa McClynn Raup (Jim), RIN-95-23 Gays Drive, Seaford, DE 19973. Hello to all. We moved back to Seaford, DE in January, and we were blessed by the birth of our 3rd child, Cassie, on August 28, 1987.

Catherine Soto Ismael (Raymond), 49 Green Court, Denver. PA 17517. We moved back to the fall of 1987. It's nice to see some familiar faces. We have a little girl, she was born February 15, 1987. I am working part time in labor & delivery. I'm enjoying being a mommy and a nurse.

L. Jeanne Humphreys Leiser (William, 33) 342 V. Hogan Road, Cape May Court House, NJ 08210. Hello to all from the shore. I'm still working with Bill in the office (we haven't killed each other yet)! Rudy, 6, and Ross, 2, really keep us busy. I hope to see everyone at the ten year reunion.

Class of 1980

Susan Alberte Coriole (Joseph), 6910 Cheyenne Avenue, Philadelphia, PA 19111. We have a new addition to the "Coriole clan." Christopher Michael was born July 29, 1988 and weighed in at a whopping 10 lbs. 1 oz., 21 inches long. Big brother Kyle, age 3, is thrilled with his new brother. Joe is now working in TJUH emergency room as an ER technician, and he lives in. I still work on 3 East (psychology) full time, and will finish the BSN program fall 89. I keep busy. Hello to all my classmates. P.S. try to make the Alumni Luncheon, our class has a poor showing every year.

Clare Retai Ebersole (Thomas), 11 Marple Lane, Plymouth Meeting, PA 19482. I am now a full time mom! Our second boy was born February 18, 1986. Joseph Paul, Jane and Tammy keep my busy, and I'm going to stay home and enjoy them.

Kris Sharpe Haug (Ted), 43 Bon Air Drive, Marlton, NJ 08053. We continue to live in the same home. We are excited about my nephew, Michael, who was born April 28, 1987. Courtney and Lindsey. Their big, 3 year old brother Ryan is "weathering the storm." I miss of all my classmates, and hope all is well. I'm Urs.

Kathleen B. Shulsky (John), 105 E. Wayne Terrace, Collings-
wood, NJ 08108. I'm enjoying working part time at TJUH on 9th Pavilion. We have two handsome sons, John Jr., 21/4 and Daniel 1 year. We are planning on having another child next year. Hello to everyone.

Marianne Maxwell Dottone (Curt), 131 Pulaski Avenue, Blairstown, NJ 07825. I am pursuing a MSN at the University of Pennsylvania, and working as a nurse at the NICC on 9 west orthopedics. We just celebrated 2 years of marriage.

Liza Burdick Congemi (Joseph), 125 Haven Court, Sewell, NJ 08080. I'm finally settled back in the U.S.A. Joseph and I were married in October 1987 (he's a real South Philly guy). We are expecting our first child in January 1989. I'm currently working at Temple University Hospital.

Terri Kach Martin (Terry), 7116 Wadina Drive, Fairlawn, OH 44315. We bought a house in Erie, after 6 years in Pittsburgh. Our daughter, Lindsay Hope was born on March 12, 1988. Steven Daniel is almost 4 years old. We're enjoying our children, and delighted to have one of each.

Donna Koss Cassey (Joseph), 866-A Asten Mills Road, Aston, PA 19014. After 5 years in orthopedics. I've transferred to maternity/newborn nursery. Our children, Christopher and Jamie Lynn are both doing well. See you at reunion.

Class of 1981

Irma Babies Rajka (Mark), Box 28, 97th General Hospital, APJO NY 08075. Mark and I are proud to announce the arrival of our first child, Eric Benjamin. He was born May 5, 1988 in Frankfurt, West Germany. Erik Benjamin. He was born May 5, 1988 in Frankfurt, West Germany. I'm looking forward to returning home, and to our friends.

Sylvia M. Speth-Brayton (Charles), 306 Blanchard Road, Drexel Hill, PA 19036. I continue to work atDCMH in maternity. We have purchased a house in Drexel Hill and are in the process of settling in. We have no plans yet for children. I hope everyone in the class of '81 is well and achieving what they set out to do.

Lesia E. L. Kreyssas (Charles B.), JMC '82), 804 Westminster Drive, Lancaster, PA 17601. Hello! hope all is well with the class of '91. Charlie and I are well. I am home with the girls (Carly and Kelly). Charlie is busy in practice (ob/gyn) here in Lancaster. Being a full time mom is great. We love Lancaster County. Feel free to write or call. 717-698-7258.

Barbara Fecht Hochuli (Richard), 612 E. Crescent Avenue, Upper Saddle River, NJ 07458. I am presently head nurse at Child Birth Center, Englewood, NJ. Richard and I celebrated our wedding anniversary on October 4, 1987. My work at CBS, with its staff of midwife nurses and birth aides continues to be rewarding. I am planning to go for my master's in the near future. My wishes to all in the class of '91.

Lisa A. Kelly Saker (Howard), 32 Wynnmore Drive, Haddonfield, NJ 08033. In October 1987 (he's a Jeff nurse is our home's regional director. Ernie's doing well after his 2nd angioplasty. Thinks to all who sent warm wishes for his recovery.

Class of 1982

Sandy Krebs D'Amelia (Lori, 371 Monticello Drive, Brantford, CT 06030). We're getting settled in CT where Lori has just started a fellowship at Yale. I'm enjoying being a full time mom for now with Nicholas, age two and baby #2 due in October. Hope everyone is well. See you next May.

Margaret O'Keefe DeNicola (Thomas), 20 Holmes Street, Edison, NJ 08817. What a busy year. Engaged, married, new house, bought a house, and Tom and I are the proud parents of "Gracie" and "Gorden" Renner.

Patricia Jenkins-Barnard (John C. R.N.), 39, Jumil Lane, Levittown, PA 19056. My Wife has been blessed with a terrific husband, three adorable little boys, Matthew, 31/2, Adam 2, and David 1 yr, and a laundry pile that gives new meaning to the term "irretractable." I'm working full time in the PACU at aet, and Jack remains as charge nurse at Fokosik's operating room. So, there's never a dull moment. Hello to all the "last members" of '92. I think of you often.

Friendship—like music heard on the waters, Like pine's when the wind passeth by, Like pearls in the depths of the ocean, Like stars that ename the sky, Like Jane and the odor of roses, Like dew and the freshness of morning, Like sunshine that kissthe clover, Like tassels of silk on the corn, Like mountains that arech the blue heavens, Like clouds when the sun dippeth low, Like songs of birds in the forest, Like brooks where the sweet waters flow, Like dreams of Arcadian pleasures, Like colors that gracefully blend, Like everything breathing of kindness—Like these is the love of a friend. A. P. Stanley
