This Article is brought to you for free and open access by the Jefferson Digital Commons. The Jefferson Digital Commons is a service of Thomas Jefferson University's Center for Teaching and Learning (CTL). The Commons is a showcase for Jefferson books and journals, peer-reviewed scholarly publications, unique historical collections from the University archives, and teaching tools. The Jefferson Digital Commons allows researchers and interested readers anywhere in the world to learn about and keep up to date with Jefferson scholarship. This article has been accepted for inclusion in Jefferson Surgical Solutions by an authorized administrator of the Jefferson Digital Commons. For more information, please contact: JeffersonDigitalCommons@jefferson.edu.
Meet our Surgical Interns

Jefferson surgeons are currently assisted by an exceptional group of categorical interns, half of them Jefferson Medical College graduates. These doctors, who recently matched with Jefferson, started on June 20, 2009 (l to r):

Katrina Harper, MD Georgetown University
Kathleen Lamb, MD Jefferson Medical College
Carrie Houssock, MD Jefferson Medical College
Jose Munoz, MD UMDNJ/New Jersey Medical School
Renee Tholey, MD Jefferson Medical College
Konrad Sarosiek, MD Drexel University

Dr. Houssock, who was a preliminary intern last year, is now joining the PGY2 class. We are also pleased to welcome back another Jefferson Medical College graduate, Erika Davis, MD, as a preliminary intern in General Surgery.

In medical research—like in all areas of innovation—it is impossible to predict where the next great idea might come from. The Department of Surgery recently hosted a researcher who is investigating an unusual potential cancer treatment.

Anthony Holland, PhD, composer and professor, conducting radiofrequency experiments on pancreatic cancer cells in a Division of Surgical Research laboratory at Jefferson.

Jefferson has been extremely open-minded throughout this process, which is the ultimate test of a research institution.”
