Jefferson Welcomes You
To The Alumni Association:

You are cordially invited to attend the Commencement Exercises by the Executive Committee of your Alumni Association, the Trustees and Faculty of Jefferson Medical College, and by me. Commencement includes a graduating class, alumni, class reunions, fraternity reunions, clinics, and many other functions. It is a time of homecoming to your Alma Mater to renew friendships and to make new acquaintances, to meet the members of your Executive Committee, attend the clinics, and enjoy the fellowship of your professional colleagues. Nowhere can you do this so happily as at the Jefferson Commencement.

You will have an opportunity to enjoy those things men live by; namely, Work — Play — Love and Worship. The indulgence in these attributes of living is good physiological exercise for all the members of your noble profession. You will work a bit in the Clinics, enjoy the play and recreation of the reunions, and have many opportunities for love and worship of your Alma Mater. Jefferson needs your loyalty, your support, your respect, and your devotion.

Please look over the events of Commencement time which are listed in this Bulletin. You can be "a most happy fella" if you mark the important ones and make up your mind to go now. To help you remember, note them in your book of appointments for June. As a reminder, you will find more of your alumni friends at the Clinics, the Dean's Luncheon, and the Annual Banquet, where we will entertain the graduating class, than you will find at other functions. I am looking forward to seeing you and hope you will enjoy the program.

Sincerely,

President, The Alumni Association
My dear Friends:

It is my great pleasure to extend to you once again a most sincere invitation to attend Commencement and Reunion activities in June.

To many people, June brings to mind the beginnings of vacations, roses, brides, baseball and golf, but foremost in my thoughts at this time of year is the pleasurable anticipation of our meeting again.

Each year at this time we have the opportunity to strengthen our ties with each other and with Jefferson, and I feel sure that all of us find our spirits lifted and our hearts cheered by these reunions.

The Clinics provide an opportunity for exchange of scientific ideas, and the social events provide relaxation and companionship which are too rare in our busy lives. This year, too, you will wish to learn about the plans for Jefferson expansion; you will wish to meet our new Faculty members and to observe for yourselves the progress your Alma Mater has made during the previous twelve months.

To us who are here at the College, your coming back in June means a great deal. We gain fresh ideas and learn from you many things which help us in formulating plans for the future. It is heartening to us, too, to see demonstrated once again the great love and esteem in which Jefferson is held by its graduates, and we are inspired to maintain standards which will perpetuate this feeling.

Our Graduating Class looks forward to your visits, for the men look to you for leadership and example, and the opportunity of meeting and talking with Alumni who are renowned in their fields is important to them, as they begin their professional careers.

It is with keen pleasure that I anticipate meeting all of you again, and I hope that no matter how busy your schedules, you will find it possible to set aside the days of June 12th, 13th and 14th to join us in the festivities.

Cordially yours,

George R. Bennett
Dean
NEW HEAD OF THE DEPARTMENT OF MEDICINE

The Board of Trustees of Jefferson Medical College has announced the appointment of Dr. William A. Sodeman as Magee Professor of Medicine and Head of the Department of Medicine, to succeed Dr. John English Deitrick, who is returning to Cornell University, with which he was previously associated for a number of years, as Dean of that University's School of Medicine.

Dr. Sodeman comes to Jefferson from the University of Missouri School of Medicine where he has been Professor and Chairman of the Department of Medicine since 1953.

From 1946 to 1953, Dr. Sodeman was the William Henderson Professor of Tropical Diseases and Hygiene, and the Chairman of the Department of Tropical Medicine and Public Health at The Tulane University School of Medicine.

Going to Tulane as a Fellow in Medicine, Dr. Sodeman became an Instructor in the Department of Medicine and rose rapidly through the ranks to become Assistant Professor of Medicine in 1939. In 1941 the University persuaded Dr. Sodeman to accept the Chairmanship of the Department of Preventive Medicine to succeed Dr. W. Harvey Perkins, who had resigned to become Dean at Jefferson.

When, in 1947, the Departments of Tropical Medicine, Preventive Medicine and Public Health were reorganized, all three were placed under Dr. Sodeman's directorship. He continued in this post until 1953 when he accepted the appointment as Professor and Chairman of the Department of Medicine at the University of Missouri School of Medicine.

During his tenure as Chairman of the Department of Tropical Medicine and Public Health at Tulane, Dr. Sodeman took a year's leave under a Fulbright teaching fellowship to study tropical diseases at the School of Tropical Medicine in Calcutta, India.

Although Dr. Sodeman's official position at Tulane was as Chairman of the Department of Tropical Medicine, he served as a consultant in Internal Medicine to the various hospitals in New Orleans for many years, and was considered by his students and colleagues as one of the outstanding Internist of the area. He served as Senior Visiting Physician on the medical services of the Charity Hospital in New Orleans.

Dr. Sodeman's strongest interest has been and is in the field of Internal Medicine, primarily in cardiology. He has contributed more than 150 scientific articles and is the author of the medical best seller, the textbook "Pathologic Physiology: Mechanisms of Disease". Dr. Sodeman's experimental and investigative activities have led to contributions in electrocardiography, venous pressure measurements and many other clinical fields in Internal Medicine.

Dr. Sodeman, who was born in Charleroi, Pennsylvania, graduated from the University of Michigan in 1929, and from the Medical School of that University in 1931. While a freshman medical student, he married Mary Agnes Wagner and the Sodemans have two sons, William J. and Thomas Michael.

Dr. Sodeman is a diplomate of the American Board of Internal Medicine, American Board of Preventive Medicine and Public Health, a Fellow of the American College of Physicians and the American Public Health Association. He is a member of the Society for Experimental Biology and Medicine, the American Society for Clinical Investigation, the Central Society for Clinical Research, American Heart Association, Royal Society of Tropical Medicine and Hygiene, and other medical societies.

Dr. Sodeman will assume his duties at Jefferson Medical College on July 1, 1957.
**Promotions, New Appointments and Resignations**

**PROMOTIONS**

George H. Strong, M.D., from Assistant Professor to Associate Professor of Urology.

Albert M. Biele, M.D., from Associate (full time) to Assistant Professor of Clinical Psychiatry (half time).

Russell James Brennan, M.D., from Associate in Otology to Assistant Professor of Otolaryngology.

Abraham Myers, M.D., from Demonstrator to Associate in Clinical Orthopedic Surgery.

Constantine Roscoe, M.D., M.S. (Ped.) from Demonstrator to Associate in Clinical Pediatrics.

Gerald Edward Callery, M.D., from Assistant to Instructor in Orthopedic Surgery.

John Joseph Gartland, M.D., from Assistant to Instructor in Orthopedic Surgery.

Frank Anthony Mattei, M.D., from Assistant to Instructor in Orthopedic Surgery.

Simon Polan, M.D., from Clinical Assistant to Instructor in Neurology.

**NEW APPOINTMENTS**

William A. Sodeman, M.D., as Magee Professor of Medicine and Head of the Department.

Zygmunt Anthony Piotrowski, Ph.D., as Associate Professor of Clinical Psychology.

Paul Oakes Chatfield, M.D., as Assistant Professor of Neurology.

Gonzalo Enrique Aponte, M.D., as Instructor in Pathology.

Franz Goldstein, M.D., as Instructor in Medicine.

Turgut N. Hamdi, M.D., as Instructor in Ophthalmology.

Gerard Michael Shannon, M.D., as Instructor in Ophthalmology.

Harold L. Bitman, M.D., as Assistant in Psychiatry.

Robert J. Darham, M.D., as Assistant in Surgery.

**RESIGNATIONS**

John English Detrick, B.S., M.D., as Magee Professor of Medicine and Head of the Department.

A. Reynolds Crane, M.D., as Assistant Professor of Pathology.

Olive Morgan, Ph.D., as Senior Psychologist (effective 3/1/57).

---

**400 ATTEND SYMPOSIUM AT ANNUAL MEETING OF DENTAL SOCIETY**

The Symposium presented by Jefferson faculty members at the Greater Philadelphia Annual Meeting of the Philadelphia County Dental Society on March 27, 28 and 29, 1957 was attended by some four hundred persons.

The presentations by Doctors John E. Dietrick, Sherman A. Eger, Carroll R. Mullen and Theodore R. Fetter were well received, and Dr. Robert Bruce Nye was an effective Moderator.

"Pennsylvania Doctor"

The "Pennsylvania Doctor", a new book by Mrs. Beatrice Fox Griffith, was released by the Stackpole publishing house during the week of April 6th.

Mrs. Griffith is the daughter of Dr. L. Webster Fox, a Jefferson Graduate in the Class of 1878, and her grandfather was Dr. Thomas G. Fox, a Graduate in the Class of 1852.

Mrs. Griffith's book includes reproductions of the painting of the Gross Clinic and the portrait of Dr. George McClellan, and contains much historical data relating to the early days of Jefferson.

Through the generosity of Mrs. J. Howard Pew, copies of the book are available in the Alumni Office, and it is also on sale at Sessler's Book Shop, 1308 Walnut Street, Philadelphia, Pennsylvania. The price of the volume is $5.
DEDICATION OF MEMORIAL ORGAN

Inscription
Dedicated in Memory of
Richard Woods Montgomery
1933-1956
Who died in the service of his country
Presented to
The Jefferson Medical College
by his friends, his family,
and his parents
Doctor and Mrs.
Thaddeus L. Montgomery

Mr. Percival E. Foerderer, Chairman of the Board of Trustees, accepted the organ on behalf of the College.

Mr. Foerderer expressed the sincere gratitude of the Board of Trustees, the Faculty, Alumni and Students for the fine instrument.

He said, "To all of Jefferson this organ will stand as a symbol of a gallant spirit, and many troubled hearts will find solace, not only from its beautiful tones, but through a realization of what it stands for."

In speaking of the death of Richard Woods Montgomery, Mr. Foerderer said, "To express what is in our hearts this afternoon is not an easy task, for it is very hard to understand the reasons why a young and unfulfilled life should be so suddenly ended. We can but trust in the design of a great Power, and rejoice that in the comparatively few years of his life Richard Woods Montgomery was so much beloved that his family and friends have seen fit to create such a memorial in his name."

Following the presentation and acceptance, Dr. Frederick B. Wagner, Jr., Clinical Professor of Surgery at the College, played Boellman's "Priere a Notre Dame", and "Jesu, Joy of Man's Desiring", by Johann Sebastian Bach.

Mr. Leonard McClain, a professional organist and teacher, then played Bach's "Arioso"; "Fountain Revere" by Fletcher; Roger's "You'll Never Walk Alone"; and ended with the very touching and beautiful "The Lord's Prayer", by Malotte.

The services were concluded with the Benediction by Reverend Lyford.
Dr. David B. Allman, Class of 1914, of Atlantic City, President-Elect of the American Medical Association, spoke to a student assembly of Jefferson Medical College in McClellan Hall on Thursday evening, March 19, 1957. In the audience were faculty members, alumni, students from Jefferson and invited students from other medical schools. The program was sponsored by the Student Council of Jefferson, of which Raymond C. Tronzo is President.

Dr. George A. Bennett, Dean, introduced Dr. Allman, whose subject was entitled "This is My Code".

Dr. Allman said that his term as President-Elect of the American Medical Association has already been full of scores of delightful occasions, and
that next year his travels will take him into many states and several countries. "While all of these assignments have been, or will be, wonderful experiences," Dr. Allman said, "none will approach, or compare with the personal pleasure I have here tonight. I appreciate the opportunity to speak to you — the students, faculty and alumni of the greatest medical school in the land. I will cherish the memories of this evening forever."

In speaking to future doctors, Dr. Allman said that every medical student should base his medical career on the premise that helping people is the sole purpose of medicine, since it is an essential that no man or woman enter the profession solely to make a living. It is service, not profit that makes a good doctor.

"In this era of unprecedented medical and scientific advances," continued Dr. Allman, "it is difficult to realize that the doctor's heart is often as important as his intellect in the conduct of medical practice. My experience as a surgeon has proved that the two are inseparable in modern-day medicine. Certainly no physician today can practice without a large storehouse of knowledge and skills; neither can he practice good medicine without giving due consideration to the art of administering it.

"Therefore, my code starts with the simple, but basic, idea that medicine's purpose is to help people, and that I as a physician am in the profession to serve people with my science and art of medicine. This service must be rendered with devotion, sincerity, confidence and selflessness.

"Just as a physician must have faith in himself, so he must have faith in a Power greater than all the instruments of science at his command."

Dr. Allman placed professional competence high on the list of qualifications necessary in the doctor-patient relationship. He said that patients expect more from doctors than ever before, which is not unreasonable, since doctors can now do more for patients. He warned, however, that doctors must be aware of their limitations and must recognize the need for referral or consultation. He pointed out that competence also involves keeping abreast of medical developments — with every physician a life-time student of man and disease.

"Along with competence," said Dr. Allman, "the physician must bring his art of medicine to the patient. In my relations with patients I look at each one as a friend or a potential friend; not only as a patient."

Dr. Allman stressed the need for empathy, or appreciative perception or understanding, on the part of the doctor in his relations with his patients.

"I also believe," stated Dr. Allman, "that the patient must be fully informed of his health status. The 'tell-them-nothing' attitude is of a bygone era, and I say good riddance. Our responsibility is to instruct the patient about his illness, giving him as much information as he wants or can comprehend."

On the subject of fees, Dr. Allman said that a physician's code of ethics should be a deterrent against any over-
Dr. Allman then discussed the physician's role in relation to his fellow physicians, the community, and society as a whole. He said that in his opinion a physician who adopts and practices a good code of ethics will almost always be an upright citizen in the community.

He pointed out the advisability of joining medical societies on the local, state and national levels, since they serve the best interests of the doctors and the public.

"Medical societies," said Dr. Allman, "are dedicated to the improvement and protection of medical science, medical education, medical care and service, and all medical standards. They are the voice of organized medicine — ours to use, to serve and to direct."

Dr. Allman urged the physicians to participate in community affairs, not only in public health matters, but in every community activity. He said that by serving our community and its citizens we can serve medicine better too, for we will know how our patients live, work and play and what their problems and aspirations are.

"One final quality that is essential for all of us," said Dr. Allman concluding, "is an appreciation of the fundamental values upon which our American free institutions rest. To me this quality is vital if individual freedoms and the free private practice of medicine are to be preserved. Free choice of physician and free conduct in medical treatment are necessary to our patients and our profession, and every medical student and physician should value them highly and should defend and protect these freedoms from the onslaughts of any outside force."

Following Dr. Allman's talk he was presented with a Certificate of Alumni membership and a key of Alpha Omega Alpha by Mr. Paul C. Schroy, President of the honorary scholastic medical fraternity.

L. to R. — DR. FRED HARBERT, DR. ALLMAN, MR. TRONZO, DEAN BENNETT
JEFFERSON POSTGRADUATE SEMINAR CRUISE

The Jefferson Medical College will sponsor a Postgraduate Seminar Cruise to the Caribbean, November 9 to 22, on the M. S. STOCKHOLM of the Swedish American Line.

The itinerary will be as follows:
- Saturday, November 9 — Sail from Wilmington, North Carolina, 4:30 P. M.
- Sunday, November 10 — At Sea
- Monday, November 11 — Due Havana, 4:30 P. M.
- Tuesday, November 12 — At Havana, Sail 5:00 P. M.
- Wednesday, November 13 — At Sea
- Thursday, November 14 — Due Cap Haitien, Haiti, 6:00 A. M. Sail 5:00 P. M.
- Friday, November 15 — Due San Juan, Sail 5:30 P. M.
- Saturday, November 16 — At San Juan, Sail 5:00 P. M.
- Sunday, November 17 — Due Pointe-a-Pitre, Guadeloupe, 1:30 P. M. Sail 7:00 P. M.
- Monday, November 18 — Due St. John, Antigua, 7:00 A. M., Sail 1:00 P. M.
- Tuesday, November 19 — Due St. Thomas 6:00 A. M. — Sail 2:30 P. M.
- Wednesday, November 20 — At Sea
- Thursday, November 21 — At Sea
- Friday, November 22 — Due in Wilmington, 1:30 P. M.

This medical seminar constitutes 25 hours acceptable Category I Postgraduate Requirements, American Academy of General Practice. The medical program is being carefully planned and will be of great interest to all doctors.

The cost of attending this seminar is a deductible expense when computing income taxes. For information as to deductibility for income tax purposes of the expenses of professional postgraduate education, see Journal of Medical Association of July 28, 1956, page 1260.

The STOCKHOLM, built in 1951, is the largest passenger liner ever constructed at a Swedish yard and represents an important link in the development of The Viking Fleet. The striking exterior of the yacht-like vessel with her gracefully curved bow and stream-lined superstructure embodies the best modern ship construction technique for the comfort and enjoyment of her passengers.

The STOCKHOLM is 525 feet long and cruises at the comfortable speed of 19 knots with ample reserve to assure 'on time' arrivals. The ship is equipped with stabilizers to assure smooth, comfortable sailing.

It has seven decks, all staterooms outside, outdoor and indoor swimmings pools, broad sports deck, promenade deck, de luxe continental food served in the cosmopolitan atmosphere of a fine dining salon, trap shooting, gymnasium, Swedish massage, library, and at midnight Swedish smorgasbord in the Swedish manner.

Circulars of information will be mailed to Jefferson Alumni. All members of the medical profession (not only Jefferson graduates), their families and friends, regardless of location are cordially invited to join our Postgraduate Cruise.

LIBRARY NOTES

The library is proud to have the following recent books by members of the college faculty:

SATALOFF, JOSEPH, M.D., Industrial Deafness. N. Y., Blakiston, 1957.

Another book of interest is a biography of a well-known alumnus:

FLICK, CECILIA R., Dr. Lawrence F. Flick as I Knew Him. Phila., Dorrance, 1956.

DISTRICT III MEETING OF AMERICAN COLLEGE OF OBSTETRICIANS AND GYNECOLOGISTS

The District III Annual Interim Meeting of the American College of Obstetricians and Gynecologists was held on April 27, 1957 in the Traymore Hotel, Atlantic City, New Jersey.

The following papers were presented by members of the Department of Obstetrics and Gynecology:

Dr. Leopold Goldstein: "Gonorrhea in Teen-Agers and Mature Women".

Doctors Leib J. Golub, Warren R. Lang and Hyman Menduke: "Teen-Age Dysmenorrhrea".

Dr. George A. Hahn: "Role of Radiation Therapy in Endometrial Carcinoma".

Dr. Thaddeus L. Montgomery conducted a round table on "Pelvic Pain" and Dr. Mario A. Castallo conducted a round table on "Preparation for Childbirth".
Dr. John H. Gibbon, Jr., Samuel D. Gross Professor of Surgery and Head of the Department, was the recipient of the Shaffrey Award which was conferred upon him by the Medical Alumni of St. Joseph's College at a ceremony in Flannigan Auditorium on the campus of St. Joseph's College on Sunday, April 7, 1957.

Some 400 members of St. Joseph's Medical Alumni and their wives heard Dr. Gibbon speak on the topic "The Education for a Doctor".

"In my opinion," said Dr. Gibbon, "too little emphasis has been placed upon understanding science and its methods." He called for an understanding of what is or is not significant in measurement and of what does or does not constitute valid evidence in our pedagogy. "This," he stated, "should take precedence over the disorderly accumulation of so-called factual knowledge." In conclusion, Dr. Gibbon said, "We must point out that knowledge is dynamic not static; that thoughtful men have ever continued to push back the curtains of darkness and throw more light on the mystery of life."

Dr. Charles A. Furey, President of the Medical Alumni, made the presentation of the medal and citation, which honors Dr. Gibbon for his contribution to medicine and particularly to the field of thoracic surgery.

The Award is named in memory of the Rev. Clarence E. Shaffrey, S.J., former professor of biology and chairman of the pre-medical department at St. Joseph's. Dr. Charles Bailey, whose photograph appears on a recent issue of TIME MAGAZINE, is a former recipient of this Award. In the same issue of TIME the medical section is devoted to the technique of heart surgery as developed by Dr. Bailey and Dr. Gibbon and contains a photograph of Dr. Gibbon's heart-lung machine.
Dr. George Hays Gale, Class of 1906, of Newport, Ohio, was honored on Ralph Edwards' THIS IS YOUR LIFE show on Wednesday night, March 20, 1957.

Bill Leyden, star of IT COULD BE YOU, teamed with Mr. Edwards to execute one of the most elaborate lures to date in surprising Dr. Gale. Mr. Leyden informed the Doctor and his wife that they would be guests of IT COULD BE YOU in Hollywood. Mrs. Gale knew of the trick in advance and had the Doctor at the set with her. They came to Hollywood as Mr. Leyden's guest and during the week he showed them the sights of the city. Wednesday night he just "happened", by prior arrangement with Ralph Edwards, to drop by the THIS IS YOUR LIFE show at show time.

Ralph Edwards honored Dr. Gale, a general practitioner who, in 50 years of practice, has delivered some 2000 babies — almost three times the population of his home town. In the course of his work this country doctor has worn out six harness horses, two sleds, two buggies and twenty-six automobiles. In the great tradition of the country doctor, Dr. Gale practised medicine by candlelight, oil lamp, gas, and even with a flashlight held by his wife.

On hand to pay tribute to Dr. Gale were 21 relatives and friends, including Colonel Edgar Clyde Jones, of McConnelsville, Ohio, a classmate of Dr. Gale's at Jefferson Medical College.
DR. BENJAMIN P. WEISS

Dr. Benjamin P. Weiss, a practicing psychiatrist and neurologist in Philadelphia for many years, passed away at his home, 422 S. 49th St. on February 18, 1957. Dr. Weiss had been restricted to home in recent months prior to his demise due to illness. He was 72 years of age.

Dr. Weiss was born in Philadelphia in 1885. He attended Jefferson Medical College and was graduated in 1907 and licensed that same year. Internship at Philadelphia General Hospital was followed by active practice and teaching of neurologic diseases. He was first appointed as an instructor in nervous diseases in 1910 at Jefferson. There then followed promotions through the years, as clinical assistant, chief clinical assistant in 1934 and assistant neurologist in 1935. In 1952, he was appointed as Clinical Professor of Neurology at Jefferson. He contributed to medical literature extensively and was affiliated with Germantown Hospital as chief of psychiatry, as well as at Philadelphia General Hospital and Norristown State Hospital. He was Board certified in his specialty.

Dr. Weiss was a member of the Phi Delta Epsilon Medical Fraternity, Philadelphia Medical Club, Philadelphia County Medical Society, American Medical Association, College of Physicians, Philadelphia Psychiatric Society and American Board of Psychiatry and Neurology. He was a Mason and a member of the Hungarian Congregation and Beth El Congregation.

Dr. Weiss is survived by his brothers, Arthur and Samuel and a sister, Miss Fanny Weiss.

THEODORE B. KROUSE, M.D.
Joseph J. Wilson was born in Philadelphia on June 21, 1879, the son of John Harrison and Sarah (Prutzman) Wilson. In 1896 he was graduated from the Central High School and during that year he was employed by the Free Library of Philadelphia. The Library's training course had not yet been established so he received his training "on the job" in the cataloging, binding and shipping departments. For a number of years he was assigned to the Port Richmond and Widener Branches of the Free Library.

In 1906 Mr. Wilson married the former Sadie Roseman. The Wilson's had two sons, Herbert Joseph, now of Indianapolis, and Norman Miles now of Louisville, Ky. Mr. Wilson is well remembered for his devotion to his home and family.

In 1917 he resigned from his full-time position at the Widener Branch to become the Librarian at Jefferson Medical College and to continue as part-time head of the overdue Book Department of the Free Library. He continued with the Free Library in this capacity until 1940.

At Jefferson Mr. Wilson was instrumental in developing the library from a small collection of books to one of the finest of medical school libraries. In addition to his library work he managed the college bookstore and assisted the students in finding living accommodations. Unofficially he managed the athletic teams for several years, acted as advisor to the staffs of the Yearbook and portrait committees and in many other ways counselled and assisted succeeding classes of medical students.

Mr. Wilson was retired on July 1, 1949 and spent his retirement in visiting his family, enjoying his flower garden and continuing his annual Maine fishing trips. On March 21, 1957, while visiting his son Norman in Louisville, he was stricken and passed away suddenly.

He will long be remembered by the faculty and alumni of Jefferson for his warm and friendly counsel and for the encouragement he gave to many who sought his advise.

Robert T. Lentz, Librarian
William George Sawitz, M.D., Professor of Parasitology and Associate in Medicine at the Jefferson Medical College, died of coronary occlusion on the 19th of April 1957.

His was a career of distinction as a physician, as a scientist, and as a teacher. His career was particularly remarkable in that in middle life he came to a new world, mastered a new language and a new scientific discipline and achieved distinction in both of these masteries. He brought to this country a thoroughness in pedagogy, precision in observation, and great reverence for knowledge. He was a true scholar. His interests covered the fields of history, philology, music and theology. His was a life of dedication. He leaves a rich heritage of informed students who learned from him much more than the mere practice of an art. From this man of humility they learned a gentleness and a system of kindly philosophy.

Dr. Sawitz was born April 29, 1893 in Rostock, Germany. He obtained his medical training at Munich and at Rostock and received his doctorate in Medicine in 1920. In 1936 he came to the United States and settled in New Orleans where he was Assistant Professor of Parasitology at Tulane Medical School and Parasitologist to the Ochsner Clinic. In 1943 he came to Jefferson Medical College of Philadelphia and rose to the rank of Professor of Parasitology.

Dr. Sawitz was an outstanding authority on amebiasis and trichinosis. He made many contributions to the scientific literature on parasitology and tropical medicine and was the author of a widely used textbook on Medical Parasitology. He was a teacher of great distinction. He was a member of many professional and scientific organizations.

Dr. Sawitz had resided at 335 Vernon Road, Philadelphia. He is survived by his wife, Mrs. Antonie Sawitz.

Kenneth Goodner, Ph.D.
DEATHS REPORTED DURING THE PAST YEAR 1956-1957

“Alumni’s Aims”

Successive, fleeting years keep rolling in—
Grim combers from the past’s forgetful sea—
Relentlessly erasing memories
Of missing groups which with us used to be,
So let’s commemorate these fading names,
And have alumni’s strong, trustworthy hands
Refresh remembrances of every class
By tracing them anew upon time’s sands.

JEFFERSON GRADUATE IS
PRESIDENT-ELECT OF
AMERICAN COLLEGE OF ALLERGISTS

Dr. Merle W. Moore, of Portland, Oregon, a member of the Class of 1924, was named President-Elect of the American College of Allergists at its 13th Annual Congress in Chicago on March 17 to March 22, 1957. Dr. Orval R. Withers of Kansas City, Missouri is the new President.

Dr. Moore has been a member of the University of Oregon Medical School since 1926, and is now Associate Professor of Medicine and Head of the Division of Allergy at that institution.

He is a Fellow of the American College of Allergists, American Academy of Allergists, American College of Physicians, and the American College of Chest Physicians.
Jefferson Hospital has recently completed the construction of a new Department of Radiation Therapy at a cost in excess of $300,000.00. The new Department occupies 8,000 square feet and is on two floors with an interconnecting elevator.

The Department has been equipped with modern therapy machines. The cobalt teletherapy apparatus contains 1,850 curies of radioactive cobalt and is equipped for rotational therapy. Its radiation is equivalent to that of a three million volt X-Ray machine. There are two 250kv X-Ray therapy machines, one of which is a rotational machine. Superficial X-Ray machines, one of a 100kv and one of 50kv have also been installed.

Ancillary facilities include a conference room, a residents’ room, physics laboratories, administrative offices, five examining rooms, dressing cubicles and three waiting rooms.

The Department is under the direction of Dr. Simon Kramer and Dr. Joseph P. Concannon, Attending Radiation Therapists, Jefferson Hospital.

It is intended that in a later issue, a more comprehensive description of the new Department will be published in this Journal.
133rd ANNIVERSARY CLINICS FOR CLASS REUNION DAY AND ALUMNI DAY

CLASS REUNION DAY

WEDNESDAY, JUNE 12, 1957

45th Class Reunion
10:00 A.M. DR. LEON SOLIS-COHEN, ’12
"Opacification Studies of the Gall Bladder and the Ductal System"

40th Class Reunion
10:15 A.M. DR. ADOLPH A. WALKLING, ’17
"Hernia Problem"

35th Class Reunion
10:30 A.M. DR. J. BERNARD BERNSTONE, ’22
"The Physiologic Basis for Non-division of the Umbilical Cord"

30th Class Reunion
10:45 A.M. DR. FRANK TURCHIK, ’27
"Surgical Management of Nasal Obstructions"

25th Class Reunion
11:00 A.M. DR. JOHN ULLERY, ’32
"Treatment of Stress Incontinence in the Female"

20th Class Reunion
11:15 A.M. DR. WILLIAM T. DOUGLASS, ’37
"Cancer 1937-1957, It’s Incidence and Curability"

15th Class Reunion
11:30 A.M. DR. CYRIL STAPINSKI, ’42
"Diverticula of the Female Urethra"

10th Class Reunion
11:45 A.M. DR. DAVID J. LAFIA, ’47
"The Surgical Treatment of Nervous Disorders"

5th Class Reunion
12:00 Noon DR. JAMES E. CLARK, ’52
"Clinical Significance of Aldosterone"

1:00 P.M. CLASS REUNION LUNCHEONS
7:00 P.M. CLASS REUNION DINNERS

ALUMNI DAY CLINICS

THURSDAY, JUNE 13, 1957

10:00 A.M. Clinico-Pathologic Conference
Presented by Members of the Graduating Class

11:00 A.M. DR. HANS G. KEITEL
"Research in General Practice"

11:15 A.M. DR. RUSSELL L. NICHOLS
"Protection of the Patient in Diagnostic Radiology"

11:30 A.M. DR. ROBERT A. MATTHEWS
"New Frontiers in Mental Health"

11:45 A.M. DR. GEORGE J. WILLAUER
"Problems in Diagnosis and Treatment of Intestinal Obstruction"

12:00 noon DR. LEANDRO M. TOCANTINS
"Transplantation of Marrow in Aplastic and Hypoplastic States"

12:15 P.M. DR. THADDEUS L. MONTGOMERY
"Problems in Hypofibrinogenemia"

DEAN’S LUNCHEON — McClellan Hall, Second Floor of the College — Immediately following the Clinic.

7:00 P.M. ANNUAL ALUMNI BANQUET — The Bellevue-Stratford Hotel, Broad and Walnut Streets

COMMENCEMENT DAY

FRIDAY, JUNE 14, 1957

11:00 A.M. Commencement Exercises of the Class of 1957 at the Forrest Theatre, Walnut Street.

CLINIC COMMITTEE

JOHN N. LINDQUIST, Chairman
PETER A. THEODOS
JOHN E. HEALEY, JR.
LEANDRO M. TOCANTINS
PAUL FRIED
DANIEL W. LEWIS, Alternate
JOSEPH MEDOFF
ELLSWORTH BROWNELLER
At a ceremony attended by the members of the Senior, Junior and Sophomore classes, Faculty members, Staff and guests, the portrait of Dr. David R. Morgan, Professor of Pathology and Curator of the Museum, was presented to the College by the Class of 1957.

Mr. Bronson McNierney, President of the Class, presided and, after welcoming the guests, he said, "The Class of 1957 is proud to have elected to honor a member of our Faculty and in so doing, contributing to Jefferson’s fine art collection. Just as 33 classes have done before us, dating back to 1924, we have chosen to immortalize one of our favorite professors — Dr. David R. Morgan".

Mr. McNierney then introduced Dr. Henry B. Decker, Professor of Dermatology and Head of the Department, who told something of Dr. Morgan’s life.

"The Class of 1957 is to be congratulated on its choice of David Reynolds Morgan as the subject for the Portrait", Dr. Decker said. "In this the Class expresses the individuality of its members and selects one of the most outstanding teachers of the Jefferson family.

"David Morgan has become a legend at Jefferson. He was born in the beautiful valley of the North Branch of the Susquehanna and listened, as a boy, to the stories of the Pennamite Wars, the Wyoming Massacre, and Sullivan’s Campaign.

"He was graduated from Jefferson
in 1916. The war to end wars was in progress. For 'Fear that Marathon again be fought and he should not be there', he went to France and served with the French Army Medical Corps. For this service he received the Croix-de-Guerre and after the war the French Ambassador to the United States paid an official visit and made him an Officer of the Legion of Honor.

"When the United States entered the war in 1917, he applied at the Army Headquarters in Paris for a commission in the Army Medical Corps. When he was told that he would have to return to the United States to obtain it, he enlisted as a private in the 18th Infantry. As such he functioned as a Medical Officer, and was given a battlefield commission as an 'Infantry Officer'. His commission as a Medical Officer did not come through until the end of the war. He was awarded the Distinguished Service Cross, and he also received the Purple Heart.

"After the war, he returned, served his internship, entered the Graduate School of The University of Pennsylvania and qualified in Surgery. Here Dr. Josiah Sweet stimulated his interest in Pathology, which has continued to the present time.

"The Second World War interrupted his career at Jefferson. He served as a Training Officer at Camp Pickett, and at the end of the war resumed his teaching at Jefferson.

"As students you have met him. You have found him always courteous, intensely interested, and a teacher who suffers with the student who does not know the answer. That you have appreciated him is evidenced by this portrait.

"When some ghostly Adjutant calls the roll of distinguished Jefferson alumni who have served their country in war as in peace, one will hear the names of Anson Jones, Jonathan Letterman, Hunter Maguire, Merritt Ire-
land, James Magee, George Lull and David Reynolds Morgan.

John T. Magee, Chairman of the Portrait Committee, then unveiled the portrait, and Mr. McNierney presented it to Admiral James L. Kauffman, President, who accepted it on behalf of The Jefferson Medical College.

After expressing his gratitude and appreciation for the portrait, Admiral Kauffman said, "I was very pleased to learn that Dr. Morgan was a member of the 18th Infantry, for I knew many of these men when I was Executive Officer on a transport which took them to France. We got along well, and I heard of them frequently during the war."

Mr. Magee then gave a short sketch of the artist, John Christen Johansen. He said that Mr. Johansen had been born in Copenhagen, and educated at the Art Institute in Chicago and at the Academie Julien in Paris. His paintings hang in the Pennsylvania Academy of Fine Arts in Philadelphia; in the National Gallery of Art and the Corcoran Gallery in Washington; in the Metropolitan Museum and the National Academy of Design in New York; the Art Institute, the Union League Club and the University of Chicago in Chicago, and in a number of other American cities, as well as in the National Gallery in Santiago, Chile. His work is known at Jefferson through his portraits of Dr. Keyes and of Dr. Scheffey.

Mr. McNierney then called upon Dr. Morgan who, he said, had shown great courage in sitting through the presentation without flinching. After tumultuous applause, Dr. Morgan said, "I want to give you an expression of my sincere thanks for the great honor you have bestowed on me. I had never even dared to dream that such a thing could happen to a poor little old fellow like me! Gentlemen, I thank you from the bottom of my heart."

Chapter Notes

ATLANTIC COUNTY CHAPTER

The re-organization meeting of the Atlantic County Chapter of the Alumni Association was held at the Hitching post on the Black Horse Pike on March 22, 1957, with seventeen alumni from that area attending.

A motion was adopted to re-activate the Chapter and the following officers were elected: President, Dr. Lawrence Wilson; Vice President, Dr. Donald C. Davidson; and Secretary-Treasurer, Dr. Karl Kanter.

A notice of the Chapter's reorganization, its new officers, and membership requirements is being sent to all Jefferson Alumni in the area, and there is a possibility that a luncheon will be held during the annual meeting of The New Jersey Medical Society.

At right — Dr. Lawrence Wilson, newly elected President of Atlantic County Chapter

OHIO CHAPTER

Dr. George A. Bennett, Dean of Jefferson Medical College and Dr. John E. Livingood, President of the Alumni Association, will be guest speakers at the 7th Annual Jefferson Alumni Ohio dinner meeting on Tuesday evening, May 14, 1957 at the University Club in Columbus, Ohio. A complete report of the meeting will be published in the August issue of the Bulletin.

FLORIDA CHAPTER

The Florida Chapter is tentatively planning to hold a luncheon in the Regency Room of the Hollywood Beach Hotel on Monday, May 6, 1957, during the meeting of the Florida State Medical Society. Dr. Samuel S. Conly, Jr., Assistant to the Dean, will be the guest speaker.

NORTHEASTERN PENNSYLVANIA CHAPTER

Dr. Frederick B. Wagner, Jr., Clinical Professor of Surgery, and Dr. C. Wilmer Wirts, Associate Professor of Medicine will be guest speakers and faculty representatives at the annual dinner meeting of the Northeastern Pennsylvania Chapter at the Fox Hill Country Club, West Pittston, Pennsylvania on Wednesday, May 22, 1957.

NORTH CAROLINA CHAPTER

The North Carolina Chapter will hold a luncheon meeting at the Battery Park Hotel in Asheville on Tuesday, May 7, at 1:00 P.M. This meeting is in conjunction with the meeting of the State Medical Society. Dr. Robert Bruce Nye, Assistant Dean, will represent the College and the Alumni Association. A complete report of the meeting will be published in the August Issue of the Bulletin.
NORTHWESTERN PENNSYLVANIA CHAPTER

A scientific-business and dinner meeting has been planned by this Chapter for Wednesday, June 26, 1957, at which Dr. George A. Bennett, Dean of the College, will be the guest speaker. New Chapter officers will be elected at this meeting.

The main project of the Northwestern Chapter is to interest the widows of Jefferson men in the area in establishing memorials or partial scholarships as tokens of the esteem which their husbands had for Jefferson.

SOUTHWESTERN PENNSYLVANIA CHAPTER

On May 23, 1957, this Chapter will hold its spring meeting at the Greensburg Country Club in Greensburg, Pennsylvania. There will be golf in the afternoon, followed by a dinner. Reservations may be made with Dr. Arthur J. McSteen, Bank and Trust Building, Greensburg, Pennsylvania.

NORTHERN NEW JERSEY CHAPTER

The Northern New Jersey Chapter of the Jefferson Alumni Association had its Annual Spring Meeting at the Essex Club in Newark, New Jersey.

After an hour of pleasant conversation, renewal of old acquaintanceships, cocktails and hors d’oeuvres, the members sat down to a very enjoyable dinner. Dr. Anthony F. DePalma, Professor of Orthopedics and Head of the Department at The Jefferson Medical College, was guest speaker, and gave an informal talk, reviewing events and news of interest at the College.

Following Dr. DePalma’s talk, election of officers was held and the following were nominated and unanimously elected: Dr. Anthony Sellitto, President; Dr. Oscar Deutel, Vice President; Dr. Frederick C. DeTroia, Secretary-Treasurer. It was decided to change the meetings from two a year to only one each year, the date for the annual meeting to be decided by a committee selected by the President.

WASHINGTON, D. C. CHAPTER

On May 23, 1957 this Chapter will hold a meeting at 7:00 P.M. at the Army-Navy Club. Cocktails and dinner will be served. Dr. Carroll R. Mullen, Professor of Ophthalmology and Head of the Department, will be guest speaker and faculty representative at this meeting.

SOUTHERN CALIFORNIA CHAPTER

The Southern California Chapter held a most successful meeting on April 29th in the Venetian Room of the Ambassador Hotel in Los Angeles.

Dinner was preceded by a social hour, during which cocktails were served and an opportunity provided for old friends to chat together.

Doctor George A. Bennett, Dean of the College, was the guest speaker and gave an informal and informative talk about progress and developments at Jefferson.

Dr. Bennett

with the family of Dr. Lloyd F. Smith, Class of ’37 at their home in Monrovia

Chapter members, wives and guests at dinner in the Venetian Room.

Dr. J. Earl Thomas, former Professor of Physiology at Jefferson, who is now associated with the School of Medicine, College of Medical Evangelists.
ENDOWMENT COMMITTEE
THE ALUMNI ASSOCIATION OF THE JEFFERSON MEDICAL COLLEGE
Dr. George J. Willauer, Chairman

SUMMARY OF ALUMNI CONTRIBUTIONS

Total contributions from members of the Alumni Association and earnings of Alumni Funds from 1922 to January 31, 1957 for use by the Trustees of Jefferson Medical College have totaled $1,452,020.38.

The following amounts have been turned over to the Board of Trustees by the Alumni Association:

For the purpose of completing the DaCosta Research Room on the 6th Floor of the College, 1930 ........................................ $100,000.00
For the purpose of completing the Department of Pharmacology on the 7th Floor of the College Building, 1930 ........................................ 125,000.00
For the purpose of payment of salaries of full-time laboratory teachers and research workers (preference being given to graduates of Jefferson) provided by income from the Endowment Fund ........................................ 54,310.87

Turned over to the Administration from Annual Giving — Funds contributed in the first eight years (to July 1956), exclusive of receipts under the note plan .......................... 667,074.34
Hospitalization of Alumni members through Alumni Endowment Fund .......................... 3,544.50
These expenditures totaled ........................................................................................................ 949,929.71

Balance .................................................................................................................................. $ 502,090.67

This balance has been set-up in three divisions of the Alumni Fund, as per resolution adopted at the Annual Meeting of the Alumni Association held January 25, 1951.

1. Building Fund to receive 50% of the Alumni Endowment Fund, to receive 50% of the future payments under the Note Plan; to be available to the Board of Trustees for building needs. Present Balance .................. $185,260.52

2. Teaching Fund, to receive the total assets of the "Permanent Endowment Fund", to receive 25% of the Alumni Endowment Fund; to receive 25% of future payments under the Note Plan; the income of this fund is to be available to the Board of Trustees for applying to the payment of salaries of full-time laboratory teachers and research workers, preference being given to graduates of Jefferson. Present Balance ........................ 189,750.17

3. Discretionary Fund, to receive the remaining 25% of the Alumni Endowment Fund, to receive 25% of future payments under the Note Plan; to be allotted annually to the Board of Trustees for use at their discretion in either the Building Fund or Teaching Fund. Present Balance .................. 94,518.06

Included in the above figures is $202,711.66, the sum contributed through the Note Plan, collected in the past eight years by Annual Giving Drives.

In addition the following Endowment Funds have also been created by the Alumni Association:

- The Rosenberger Alumni Memorial Nursing Fund (an Accumulative Fund) Present Balance .................. 5,969.66
- The Alumni Endowed Room Fund, 1910-1941 Present Balance .................. 12,327.09
- The Alumni Free Nursing Fund, February 1941 to 1954 Present Balance .................. 14,265.17

The foregoing figures show a total of $1,452,020.38 as the Alumni Association's support of The Jefferson Medical College.
THE TUMOR CLINIC

History

The Tumor Clinic was organized in 1928 in the Department of Surgery by Drs. John H. Gibbon, Edward J. Klopp and William H. Kraemer. The faculty appreciated the possibilities of a tumor clinic, since tumor diagnosis and treatment required cooperation of numerous departments and specialists, so that the movement rapidly received whole-hearted support throughout the institution. It was one of the earliest organized tumor clinics in the country and the first of its kind in Philadelphia.

The original staff consisted of:

- John H. Gibbon, Professor of Surgery
- William H. Kraemer, Director
- Edward J. Klopp, Surgeon and Chief of Clinic
- Willis F. Manges, Radiologist
- Baxter L. Crawford, Pathologist
- Louis H. Clerf, Broncho-esophagologist
- Thomas A. Shallow, Surgeon
- William S. Newcomet, Radium Therapist
- Henry K. Mohler, Internist
- William J. Thudium, Gynecologist
- Bruce Fleming, Surgeon
- Hamilton Bradshaw, Consulting Chemist

Following Dr. Gibbon's retirement as Professor of Surgery, the clinic has been successively under the supervision of Professors Edward J. Klopp, George E. Muller, Thomas A. Shallow and the present Head of the Department of Surgery, John H. Gibbon, Jr. Many of Jefferson's illustrious faculty have participated in its activities.

The late Mr. Pierre S. duPont held the view that chemistry some day would play an important role in treatment of cancer and, through that interest, was prompted to finance the work at Jefferson Hospital. This was not unusual for Mr. duPont since he had been a substantial contributor to Jefferson for many years. He was soon joined in this sponsorship by his brother, the late Lammot duPont, and later by the Longwood Foundation, Lammot duPont Copleland, J. W. McCoy and Pierre S. duPont, III.
sors have generously supported the Tumor Clinic since 1928 and, since 1941, through the Elizabeth Storck Kraemer Memorial Foundation, Inc.

The Tumor Clinic occupies spacious quarters on the fifth floor of the Curtis Clinic Building, which have been a meeting-ground for faculty, residents, interns and medical students for exchange of information and opinions regarding malignant neoplasms. It originally was entirely a clinical unit, but, along with the evolution of all clinical departments, has expanded its interests to clinical, educational and research activities.

Clinical Functions

The primary purpose of the Tumor Clinic is modern, high-quality management of patients with neoplastic diseases. The staff, directed by Dr. Henry J. Knowles, works in close cooperation with, and depends upon the members and facilities of other clinical and laboratory units in Jefferson Medical Center. The clinical functions are probably best described under three headings:

Registration of Tumor Cases

An approved Tumor Clinic is a center for registration of tumor cases. Patients are referred by staff physicians, ward services, out-patient clinics and by outside physicians. Registration entails a record of each patient’s history and physical findings, results of diagnostic studies, treatment and follow-up observations. These records are permanently filed in the clinic and are available to any member of the hospital staff. For years, physicians have obtained information concerning individual patients or series of patients with similar lesions from these files, thereby facilitating patient management and publication of papers. Total registration at this time is 13,707.

A secretarial staff, consisting of Miss Florence Volkert, Miss Carole Lible and Miss Rosina Feleppa, is constantly engaged in compiling these records. Miss Volkert has occupied the secretarial position for eighteen years and is familiar to many of Jefferson’s alumni.

Follow-up Clinics

Follow-up clinics are held on Tuesday and Thursday of each week and are attended by designated members of the surgical staff, by surgical residents and by sections of medical students.

Every patient, following registration, is interviewed and examined at regular intervals for the remainder of his life, and, at each visit, a progress note is added to his permanent record. In this way, extensive material has been collected for analysis of the behavior and the results of treatment of various types of neoplastic disease.

Additionally, the amputees, colostomy cases, gastrectomy patients, etc., are regularly advised in the management of their specific physical or nutritional problems. All patients are examined and studied for evidence of recurrent or metastatic disease and prompt treatment instituted, when indicated. The medical experience gained by the participants in these clinics cannot be duplicated in any situation of internship, residency or private practice. During the past year, 3,139 such interviews and examinations were performed.

Below: Secretarial Staff ROSINA FELEPPA, FLORENCE VOLKERT, and CAROLE LIBLE
The Jefferson Tumor Clinic has an enviable record for percentage of follow-up of registered cases, being better than ninety percent. This record results from the use of a calendar appointment file, postal card reminders to each patient of his up-coming appointment, telephone calls and the Social Service Department. If a patient cannot attend follow-up clinic, information concerning his progress is obtained by writing to his local attending physician. When a patient is lost to follow-up, the services of the Retail Credit Company are used. This company has offices in all the larger cities of this country and abroad, and is remarkably successful in regaining contact with the patient and his attending physician.

**Tumor Clinic Conference**

The Tumor Conference Group meets each Friday at 1:00 P.M. in the Tumor Clinic quarters. This group is composed of physicians representing various hospital departments, residents, interns and medical students. Attendance is regularly enthusiastic. The conference considers patients who present unusual lesions or diagnostic or therapeutic problems, and provides a group opinion as to their management. Discussions are lively and informal, provide considerable exchange of information, and give the utmost in consultative service to the patient. More rapid turn-over of hospital beds is a direct result of this conference activity.
EDUCATIONAL FUNCTIONS

Under the direction of Professor John H. Gibbon, Jr., the teaching program in the clinic has been reorganized to provide medical students thorough instruction and experience in tumor diagnosis and management. Students are assigned to attend the semi-weekly follow-up clinics, where they are instructed by members of the attending and resident surgical staff, during the course of examining patients. An informal atmosphere prevails and student observations and questions are solicited.

Equipment for producing permanent color photographic records of human tumors has recently been purchased. This has already proven extremely valuable in teaching.

The weekly Conference Group has unequaled teaching value for the students who attend to hear open discussions and sometimes conflicting opinions of the staff participants. Student participation in these discussions is encouraged. Attendance is voluntary and is primarily by members of the third and fourth year classes.

During the conference, selected patients are frequently presented, surgical specimens are presented, histo-pathologic slides are projected on a screen and described by one of the attending pathologists, and x-ray films are interpreted for the benefit of the audience. Here, again, conflicting opinions occasionally occur and the ensuing discussions are of incomparable teaching value. Principles of tumor diagnosis and management are thereby thoroughly indoctrinated in the students, and are of value no matter what their future medical careers may be.

RESEARCH ACTIVITIES

Through the Elizabeth Storck Kraemer Memorial Foundation, Inc., the Tumor Clinic is closely affiliated with two additional units; the Chemical Unit at the duPont Experimental Station in Wilmington, Delaware; and the Biologic Unit at Jefferson.

The Chemical Unit, supervised by Harry Eatough, Ph.D., selects chemicals for possible tumor inhibitory activity on the basis of their structural pattern and prepares them in pure form and in specific concentrations. The chemicals are then made available for experimental use.

The Biologic Unit located on the fifth floor of the College Building and closely allied with the Department of Pathology, is directed by Dr. Peter A. Herbut, Professor and Head of the Department of Pathology. Here, the chemicals are studied in laboratory animals for tumor inhibitory activity. During the past year, 263 such chemicals were screened, requiring use of 6,032 animals.

Results of the experiments are evaluated at a monthly meeting of the Foundation staff. Chemicals showing preliminary promise are then subjected to further laboratory investigation. Following pharmacologic clearance, the chemical is then tested in the Tumor Clinic for the treatment of malignancy in humans. Over 1100 patients have received chemotherapy in the past 30 years. Although palliative results have been obtained, there is as yet no evidence that a dependable cure for cancer has been obtained. It is still of interest to continue testing of chemical com-
pounds to determine if a material of tumor inhibitory properties can be obtained.

During 1956 another approach to cancer research originated in the Biological Unit. For over two years a human colon cancer has been successfully transplanted through generations of animals. This has been accomplished by preliminary total body irradiation of the animals to reduce their strong resistance to human tumor transplants. Human resistance to infections is reduced by massive irradiation and it is postulated that this is due to suppression of the properdin system, which is normally present in humans and animals. Present work, therefore, is largely concentrated upon investigation of the possible role of the properdin system in animal resistance to transplantable human cancer and its implied relationship to development of cancer in man.
ALUMNI ANNUAL GIVING FUND NEARS FINISH
John H. Gibbon, Jr., M.D., Chairman

Many of our alumni, and most especially those of the reunion classes, are now looking ahead to Alumni Week in June, and that time has associations for all of us. As we approach the end of another college year in Jefferson's long history, there appears to be good opportunity for exceeding our goal of $110,000 and comparing well with prior years.

The efforts of the Class Agents and Associates, serving with devoted loyalty and inspired industry, are always heartening to me as your chairman, and to all associated with Jefferson. In their correspondence and work in each class they pass on news of the college and classmates, center our attention on the objectives of Annual Giving, and maintain class unity in every way. They cannot be thanked too much, but our appreciation is best expressed by responding with support to their appeals.

Again this year, Class Agents have stressed the continuing and constant need to provide adequate salaries for the faculty members in the basic years in medicine. The splendid alumni response to their requests has strengthened your college.

The Annual Giving Fund has been an important factor in providing an addition to teachers' salaries and in supporting the program which has enlarged the pre-clinical teaching staff to meet the high standards for the large student body. Alumni annual support to the college meets only a part of these increased costs but this part is greatly needed by the college. Alumni can be proud of the teaching staff and the young graduates with excellent training who are produced each year.

Spirit and loyalty are traditional with Jefferson men. Throughout college and the years after, there is a special attribute that is apparent when a Jefferson alumnus speaks of his alma mater. This feeling for Jefferson is noted and respected by others. Our alumni all over the world have come forward to help in support of their medical school. This pattern of giving makes it more possible to secure funds from other sources.

The members of the Annual Giving committee and the Class Agents are all hopeful as this Ninth Fund grows toward its goal. On May 1, 2,831, or 45.3% of the alumni have given $91,572.07. We are thankful for the givers who repeat their support year after year, and for those whose gifts increase in amount in the progressing years.

There are a rather large number of alumni who have contributed in prior years but have not yet responded to the requests for this fund from the class agents. We trust that many will reply to their class agents with encouragement and their gifts, to obtain the budget needs of the college.

We may look forward to Jefferson's continued growth in attainments and prestige in medical education. By giving your help you become a vital partner and share in the present and future accomplishments of your college and its graduates.

If you have not yet joined in this Ninth Annual Fund, we hope you will now make contact with your Class Agent. Your interest and concern for the college will be warmly appreciated by all.

Total Alumni Annual Giving Fund: $6,525,280

Graduates Without Recorded Address: 6,345

a. In memory of Robert M. McClennen, son-in-law and grandson.
b. In memory of Hubert W. Dudley, Grant Gifford and Bur W. MacFarland by widows.
c. From the estate of Dr. Cameron Shultz.
d. In memory of P. Alvin Pout by widow.
e. In memory of Harry W. Murray by widow.
f. In memory of Cyril E. Lewis by widow.
g. Includes Memorial of the class of 1906 to John B. Lownes.
* Balance of Class Reunion Fund.
** In memory of William C. Becker by widow.
*** Balance of Class Reunion Fund.
**** Balance of Class Reunion Fund.
***** In memory of Frank C. Knowles by Edward F. Corson.
Class Reunions

50th Reunion — 1907
Clarence D. Smith, M.D., Chairman
810 Pine Street
Philadelphia, Pennsylvania

A luncheon will be held at the Benjamin Franklin Hotel on Wednesday, June 12, at 1:30 P.M. That afternoon Mrs. Smith will entertain the wives at a luncheon at the Art Alliance, 18th and Locust Streets, at 1 P.M.

Thursday, June 13, members of the Class of 1907 will attend the Clinic, the Dean’s Luncheon and the Alumni Dinner. Wives and guests may attend the meeting in the Balcony of the Bellevue-Stratford Hotel.

45th Reunion — 1912
Robert M. Lukens, M.D., Chairman
1308 W. Hunting Park Avenue
Philadelphia 40, Pennsylvania

On Thursday, June 13th, a luncheon will be held at the University Club. That evening the Class will attend the Alumni Dinner at the Bellevue-Stratford Hotel at 7 P.M.

A large percentage of the class plan to be present, and we urge those who have not yet responded to do so immediately.

40th Reunion — 1917
Adolph A. Walkling, M.D., Co-Chairman
136 S. 16th Street
Philadelphia, Pennsylvania
Balwin L. Keyes, M.D., Co-Chairman
2031 Locust Street
Philadelphia, Pennsylvania

The Class of 1917 will have a luncheon at the Union League on Thursday, June 13th, at 1 P.M. There will be cocktails in the Bellevue-Stratford Hotel at 5:30 P.M. preceding the Alumni Dinner at 7 P.M.

35th Reunion — 1922
J. Bernard Bernstine, M.D., Chairman
255 S. 17th Street
Philadelphia 3, Pennsylvania

A luncheon will be held on Wednesday, June 12. That afternoon the members will adjourn to the Bala Country Club for golf and other activities. Wednesday evening there will be cocktails followed by a dinner.

Thursday, June 13, the class will meet at their headquarters, the Bellevue-Stratford Hotel, and sightseeing and other activities are on the program for that day. In the evening the entire class will attend the Alumni Dinner at the Bellevue-Stratford Hotel, 7 P.M.

30th Reunion — 1927
James E. Bowman, M.D., Chairman
4001 Comly Street
Philadelphia 24, Pennsylvania

A picnic for the members of the class and wives will be held on Wednesday, June 12, at Jack Gibbon’s farm.

On Thursday, June 13, a luncheon will be held at the Union League at 1:15 P.M. There will be a cocktail party for members and wives at the Mask and Wig Club between 5:30 and 7 P.M. The Alumni Dinner will be at 7 P.M. at the Bellevue-Stratford Hotel.

25th Reunion — 1932
Lewis C. Manges, Jr., M.D., Chairman
2001 Delancey Place
Philadelphia, Pennsylvania

A schedule of entertainment for the Class of 1932 is as follows:

(1) DINNER DANCE (black tie optional) at the Warwick Hotel on Wednesday, June 12th ($12.50 per person).
(2) LUNCHEON AND GOLF on Thursday afternoon, June 13th.
(3) ALUMNI BANQUET at the Bellevue-Stratford on Thursday evening, June 13th.

20th Reunion — 1937
John J. O’Keefe, M.D., Chairman
255 S. 17th Street
Philadelphia 3, Pennsylvania

The Class of 1937 schedules the following activities:

Wednesday, June 12:
1. Class Reunion Clinics — 10 A.M. — Amphitheatre
2. Luncheon — Sheraton Hotel — 1 P.M.
3. Dinner Dance — Dress — Barclay Hotel — 6 P.M.

Thursday, June 13:
1. Faculty Clinics — 10 A.M. — Amphitheatre
2. Cocktail Party sponsored by the Philadelphia Contingent—Bellevue-Stratford Hotel — 6 P.M.
3. Alumni Dinner — Bellevue-Stratford Hotel — 7 P.M.
4. Dinner Party for wives at Lou Merves’ home.

There will be free time to be spent enjoyably, shopping, golfing, ball games, etc.

15th Reunion — 1942
C. Brinley Bland, M.D., Chairman
3024 Coulter Street
Philadelphia, Pennsylvania

The program for the Class of 1942 has been arranged as follows:
Faculty Notes

DR. GEORGE A. BENNETT, Dean, was one of six Philadelphians appointed to an Advisory Commission to the Commonwealth Mental Health Research Foundation.

A $7128.00 grant has been made to DRS. ABRAHAM CANTAROW, Professor of Biochemistry and Head of the Department and KARL E. PASCHKIS, Associate Professor of Medicine and Physiology, who are trying to determine which part of the cancer cell carries the malignancy. The grant supplies them with two laboratory technicians.

DR. MARIO A. CASTALLO, Clinical Professor of Obstetrics and Gynecology, participated in the round table discussion on "Toxemia of Pregnancy" at the meeting of the American College of Surgeons, on February 6, 1957, in New Orleans, Louisiana.

He also conducted a post-graduate seminar on "Prolonged Labor" at the University of Miami School of Medicine in Miami, Florida, on February 20, 1957, together with DR. JAMES FERGUSON, Professor and Director of the Department of Obstetrics and Gynecology.

DR. DAVID M. DAVIS, Professor of Urology, Emeritus, addressed the Puerto Rico Urological Society in San Juan, Puerto Rico, on February 28th and March 1st and 2nd on "Ureteral Splinting," "The Relation of Lower Urinary Tract Obstructions to Infections of the Urinary Tract" and "Complete Replacement of Both Ureters by an Ileal Loop." of which DR. THOMAS H. NEALON, Jr., Instructor in Surgery, is co-author.

On May 29th he will attend the Annual Meeting of the Western Section of the American Urological Association at Seattle, Washington, to discuss a paper by DR. CARL J. PINARD, Jr. on "The Relation Between Urinary Tract Infection and Lower Urinary Tract Obstruction."

DR. ANTHONY F. DEPALMA, James Edwards Professor of Orthopedic Surgery and Head of the Department, was guest speaker at a meeting of the Lackawanna County (Pennsylvania) Medical Society on Tuesday, February 26, 1957. His subject dealt with the treatment of Shoulder Fractures.

DR. GARFIELD G. DUNCAN, Professor of Clinical Medicine, gave three lectures, two of which dealt with the subject of diabetes and the third with "Essential Hypertension" at the Scientific Assembly of the Alumni Association, School of Medicine, College of Medical Evangelists, on March 12th, 13th and 14th, at the Biltmore Hotel in Los Angeles, California.

DR. CHARLES A. FUREY, Associate in Physical Medicine, was elected President of the Medical Alumni of St. Joseph's College, Philadelphia, and DR. WILLIAM J. TOURISH, Associate in Surgery, Vice-President.

DR. JOHN H. GIBBON, JR., Samuel D. Gross Professor of Surgery and Head of the Department, attended the meeting of the Society of Clinical Surgery, held in Kansas City, Kansas, March 28th to 30th, inclusive.

On April 11, 1957 he was guest speaker at the John A. Andrew Clinical Society, Tuskegee, Alabama. His subject was "Prospects for the Control of Lung Cancer."

On May 8, 9 and 10, inclusive, Dr. Gibbon attended the American Surgical Association Meeting, held in Chicago, Illinois.
Dr. George A. Hahn, Assistant Professor of Obstetrics and Gynecology, has been the guest speaker at the following meetings recently:

February 14, 1957: Open meeting, Church of the Messiah, arranged by the Philadelphia County Medical Society. Title: "What You Should Know About Cancer."

In addition Dr. Hahn has participated in the following Symposia as the presiding officer and/or member of a panel:

March 21, 1957: Annual New Jersey State Cancer Symposium, New Jersey State Medical Society Building in Trenton, New Jersey: Title: "Treatment of Gynecologic Malignancy."

April 9, 1957: Presiding Officer and member of a panel from the Committee for the Study of Pelvic Cancer; also participated in Jefferson Hospital program, Tri-City Meeting of the Obstetrical Society.

April 11, 1957: Annual Cancer Symposium of the Bowman-Gray Medical School and County Medical Societies, Robert E. Lee Hotel, Winston-Salem, North Carolina. At this meeting he was also banquet speaker, his title being "What is Cancer?".

Dr. W. Paul Havens, Jr., Professor of Clinical Microbiology and Associate Professor of Medicine, has been re-appointed as a member of the Expert Advisory Panel on Virus Diseases of the World Health Organization for a further period of five years.

In the Fall of 1956 he was the guest of the University of Chile, Santiago, Chile, where he participated in the Second National Congress of Internal Medicine, giving a series of papers on liver disease. Dr. Havens was made an Honorary Member of the Faculty of the University of Chile.

He was also, during the Fall of 1956, a guest of the Henry Ford Hospital, Detroit, Michigan, and participated in the International Symposium, Hepatitis Frontiers, giving a paper on the epidemiology of serum hepatitis.

Dr. Felix E. Karpinski, Jr., Clinical Professor of Pediatrics, opened the afternoon session of the Nurses' Cancer Institute, held at the Hotel Sterling in Wilkes-Barre, Pennsylvania. He gave a very interesting talk illustrated by slides on cancer in children, demonstrating how vigilance on the part of parents in reporting immediately to physicians any abnormal swellings can be the means of halting the growth of cancer and sometimes save the child's life.

Dr. Perry S. MacNeal, Assistant Professor of Clinical Medicine, took part in a panel discussion on "Newer Concepts of Diabetes" during the 4th Regional Meeting of the American College of Physicians, held at the Delaware Academy of Medicine, Wilmington, Delaware.

Dr. Roy W. Mohler, Clinical Professor of Obstetrics and Gynecology, attended the National Conference of Blue Cross-Blue Shield in San Francisco, California, from March 24th to March 28th. Dr. Mohler is on the Board of Directors of Pennsylvania Blue Shield.

Dr. Abraham E. Rakoff, Clinical Professor of Obstetric and Gynecologic Endocrinology, was guest speaker at the Health Forum, which was sponsored by the Woman's Auxiliary to the Gloucester County (New Jersey), Medical Society, held at the Woodbury Country Club, March 25, 1957. His subject was "Menopause."

Dr. Herman L. Rudolph, Assistant Professor of Physical Medicine, spent the week of February 25th at the New York University-Bellevue Medical Center attending the Postgraduate Course on Upper Extremity Prostheses.

Dr. John Y. Templeton, III, Associate Professor of Surgery, was guest speaker at the kickoff meeting of the Camden County (New Jersey) Heart Association's 1957 campaign. He spoke on the progress of heart surgery and presented a film on that subject.

Dr. C. Wilmer Wirts, Associate Professor of Medicine, spoke on "Regional Enteritis" at the Regional Meeting of the American College of Gastroenterology in Grand Rapids, Michigan, March 17th.

---

DON'T FORGET . . . the Jefferson Alumni Dinner during the American Medical Association Convention in New York. The dinner will be at Leone's Restaurant, 239 West 48th Street, New York, at 7 P.M. on Wednesday, June 5, 1957. Tickets, which are $8.00, will be available at the Jefferson booth at the Coliseum, or may be ordered in advance from the Alumni Office at the College.
1912

IVOR D. FENTON, M.D., 520 E. Centre Street, Mahanoy City, Pennsylvania, is one of five physicians included among the 435 House members who took their seats in the 85th Congress, which convened January 3, 1957. Dr. Fenton interned at Ashland State Hospital, Ashland, Pennsylvania, and shortly afterwards opened offices in his home town of Mahanoy City. He practiced from 1914 until his election to Congress in 1938. He is a past president of the Schuylkill County Medical Society.

CLAUDE E. SNYDER, M.D., 1201 - 6th Avenue, Altoona, Pennsylvania, writes: "Enclosed find check for the Alumni Fund. I am still doing a considerable amount of work, in fact more than I like to do. After 33 years as chief of the Department of Obstetrics and Gynecology at Mercy Hospital, I was made an emeritus and given a very beautiful plaque and a testimonial dinner. The service was fairly heavy, the Obstetric Department averaged 1,400 deliveries a year. However Gynecology was not too busy. I am also happy to report that our Obstetric death rate has been very low. We have not had more than two deaths of mothers in a period of about ten years. I have two daughters and two grandsons. One son-in-law is with Alcoa in Edge-water, New Jersey, and the other one Professor of Metallurgy at Carnegie University at Pittsburgh. My hobby is photography and fishing."

1914

ROLLAND R. GASSEr, M.D., Veteran's Administration Hospital, West Roxbury, Massachusetts, completed 40 years of service with the Federal Government, as of February 1, 1957, and was presented with a 40 year service pin by Dr. Francis B. Carroll, area Medical Director, Veteran's Administration. After graduating from Jefferson, Dr. Gasser served two years internship at Jefferson Hospital. He then engaged in the practice of medicine in Pocatello, Iowa. In 1917 he was called into the service with the United States Navy Medical Corps. He attended the United States Naval Medical School in Washington. During World War I he served at sea on convoy duty in the North Atlantic and with the 13th Regiment, United States Marines, A.E.F.

Following World War I, Dr. Gasser served through the various grades and duties at sea, anchor and on foreign soil. During World War II he served as executive officer and commanding officer, Naval Hospitals, continental United States and commanding officer, United States Fleet Hospital No. 1007 in the South Pacific.

Dr. Gasser was awarded the Bronze Star medal for his outstanding work in directing the activities of the 107th Fleet hospital in the South Pacific area, from March 31, 1944, to April 7, 1945. He retired after 30 years' Naval service, in 1946. In 1946 he entered the service of the Veterans' Administration and organized the Cushing Veterans' Administration Hospital, Framingham, as its first and only manager. In 1953, the Cushing Hospital was closed by the Veterans Administration and the reconstructed West Roxbury Veterans Administration Hospital was reopened under his management. Dr. Gasser and his wife, Anna, reside in Framingham. They have two children.

1916

RALPH S. STAUFFER, M.D., 170 W. Washington Street, Hagerstown, Maryland, has been appointed Medical Director for the Potomac Edison Company. Dr. Stauffer has practiced medicine in Hagerstown since 1922, specializing in Internal Medicine. Prior to establishing a private practice he served in the Medical Corps of the Army of Occupation in 1918-19, attaining the rank of Captain. He then served his internship at Bellevue Hospital in New York City. Dr. Stauffer is a Fellow of the American College of Physicians and is certified by the American Board of Internal Medicine. Both his son and daughter are studying for careers in medicine.

1917

HORACE B. ANDERSON, M.D., 218 Franklin St., Johnstown, Pennsylvania, writes: "Am enclosing a small contribution to the Alumni Fund. I sincerely hope that we will succeed in getting 100% of contributors. My son is now in Heidelberg, where he was sent after taking his basic training in the Army. He seems to like the assignment, which is with a medical unit."

1924

O. SPURGEON ENGLISH, M.D., 3401 N. Broad Street, Philadelphia, Pennsylvania, who is Professor and Head of the Department of Psychiatry at Temple University Medical School, was guest speaker at the Third session of the 1956-57 Delaware Health Forum.

At a previous appearance on the Forum in 1954 Dr. English discussed community problems arising from mental health. This time he covered the topic more generally, telling the story of the many aspects of mental illnesses and why a greater amount of attention is being given to them through the years.

Since 1953 he has been head of the Psychiatry Department at Temple, while he is also associated with Temple's department of Theology. He also serves as Director of the Philadelphia Psychoanalytic Institute, and is an active member of the Group for the Advancement of Psychiatry, the American Psychiatric Association and the American Psychoanalytic Association.

He is the co-author of the following books: "Emotional Problems of Living", with Dr. Gerald H. J. Pearson; "Psychosomatic Medicine", with Dr. Edward Weiss; "Fathers are Parents Too", with Mrs. Constance J. Foster, and "Introduction to Psychiatry", with Dr. Stuart M. Finch.

1926

NEAL R. MOORE, M.D., 704 N. Jackson Street, Bay City, Michigan, writes: "I wish we could have another beautiful get together like we did last year. I am finally convinced that I am not going to die a millionaire so I am looking for any reasonable occasion to do a bit of celebrating before I check out. If you see Clair thank him again for the good show he put on."

I. LEWIS Sandler, M.D., Columbia Medical Building Annex, 915 - 19th Street, N.W., Washington 6, D. C., writes: "So pleased to learn we are in first place. Trust our classmates will continue to cooperate and keep this position. I have recently been promoted to Clinical
1928

ELMER J. ELIAS, M.D., 800 Riverside Avenue, Trenton, New Jersey, Class Agent for 1928, was recently elected to membership in the Royal Society of Health of London, England.

J O O NO, M.D., 75 Zaimokucho Azabu, Minatoby, Tokyo, Japan, writes:
"I am planning to visit the United States next month to attend the International Congress of Oto-laryngology in Washington, D.C., the International Congress of Broncho-esophagology in Philadelphia, at which time I am hoping to be able to stop in at the College."

EN SHUI TAI, M.D., 240 Prince Edward Road, Kowloon, Hong Kong, China, writes:
"I am looking forward to the visit of Dr. and Mrs. Lewis Scheffey and their daughter, who are planning to arrive here on the early morning of April 22nd and remain until April 28th. I and my family will try our best to make their trip interesting as well as a real happy one."

1929

Dr. MARIO A. CASTALLO, Class Agent of 1929, whose class is now in eighth place in the standings in amount.

1930

DAVID A. BOYD, JR., M.D., a member of the Section of Psychiatry of the Mayo Clinic, Rochester, Minnesota, and Professor of Psychiatry in the Mayo Foundation, Graduate School, University of Minnesota, is Secretary-treasurer of the American Board of Psychiatry and Neurology, Inc.

1932

CONRAD E. ALBRECHT, M.D., State Office Bldg., Columbus 16, Ohio, acting director of Ohio's Department of Mental Hygiene and Correction, has been named as chief surgeon of the 37th Infantry Division, Ohio National Guard.

He came to Ohio in February 1956 to join the state division of mental hygiene and correction, and became acting director when Dr. John Porterfield went to Washington as assistant to the surgeon general of the United States Public Health Service.

1933

JAMES A. FLAHERTY, M.D., 1105 N. Franklin St., Wilmington, Del., Psychiatrist, for the past five years Medical Director of the Governor Bacon Health Center, Delaware City, Delaware, assumed the duties of Director of the Chester County (Pennsylvania) Mental Health Clinic, on March 1st.

Dr. Flaherty did graduate work in Neurology and Psychiatry in various hospitals in Pennsylvania, and he was associated in practice with Dr. Edward Strecker and Dr. Francis J. Bracelent. Both these famous psychiatrists helped the Board of Directors' Medical Advisor in the selection of Dr. Flaherty for the post.

1940

JOHN M. WILLIS, JR., M.D., Colonel, MC, 3113 North Trinidad Street, Arlington 13, Virginia, writes:
"The Alumni magazine is about my only contact with Jeff at the present. I have seen none of my class for several years. I am presently on an administrative assignment here in the Pentagon, but hope to get back to duty in a hospital sooner or later."

1944-J

JOSEPH T. O'HANLAN, M.D., Medical Center, Waynesboro, Virginia, has been nominated to the Governor's Committee on Employment of the Physically Handicapped to receive the Citation for Meritorious Service. The nomination for this honor originated in one of the committees of the State Medical Society.

Receipt of the Citation for Meritorious Service entitles a physician to be eligible for certification by the Governor's Committee to the President's Committee on Employment of the Physically Handicapped for the coveted Physician's Award. The Physician's Award is conferred each year on one physician who has made outstanding contributions toward advancing the employment of the physically handicapped.

Dr. O'Hanlan was nominated for the Cita-
tion for his outstanding work at the Woodrow Wilson Rehabilitation Center, Fishersville, where he is consultant in surgery, an post he has held for the past six years. In 1952 Dr. O’Hanlan was elected a Fellow in the American College of Surgeons. Dr. O’Hanlan is married to the former Miss Elizabeth Booker, and has four children.

U. Grant Palmer, M.D., co-owner of Betts Hospital, Easton, Pennsylvania, has resumed his medical practice after a two year tour of duty in the Army Medical Corps. Dr. Palmer was chief of professional service at the 33rd Field Hospital at Fontainebleau, France, during nearly all of his military service. He held the rank of major. Dr. Palmer and his family will reside in an apartment in the hospital building at 1440 Washington Street. His offices also are located at the hospital.

1944-S

Robert C. Salasin, M.D., 16 W. Rosedale Avenue, Northfield, New Jersey, was appointed Associate Chief of Surgical Staff of the Atlantic County Hospital for Tuberculosis Diseases, Clyde M. Fish Memorial, Northfield. He is also on the staff of the Mercy Hospital, Sea Isle City, New Jersey. Dr. Salasin, who was recently discharged from military service, holds a Fellowship in the American College of Surgeons. His offices are located at 511 Pacific Avenue, Atlantic City.

1945

Stephen F. Balshi, M.D., 506 Orchard Lane, Bethlehem, Pennsylvania, has returned to Jefferson as a Resident in Otorlaryngology. Dr. Balshi has been extremely active in medicine since leaving Jefferson. He has five children—three boys and a girl.

J. Elder Bryan, Jr., M.D., 10802 Rives Downey, California, is practicing Urology in Downey (about 10 miles east of Los Angeles). He extends an invitation to anyone attending conventions in the West to drop in and see him.

William C. Gaventa, M.D., Eku Baptist Hospital, Eku via Sapele, Nigeria, West Africa, is still happily and actively engaged in practice in Nigeria. He expects to return to the States in 1959 to 1960.

Lieutenant Commander William T. Lineberry is still stationed at the Naval Hospital, Portsmouth, Virginia, on the surgical service, and expects to stay there several years. Lieutenant and Mrs. Lineberry expect a baby around the first of June.

Jose L. Garcia-Oller, M.D., 3326 Nashville Avenue, New Orleans 20, Louisiana, was discharged from the Navy in November, 1956. He is back in private practice, and is also Chief Neurosurgeon on the independent service in Charity Hospital, New Orleans.

Jesse Schulman, M.D., 58 Madison Avenue, Lakewood, New Jersey, is doing well in surgery at Lakewood. He has been elevated to “Attending” in surgery on the hospital staff.

Sau Ki Wong, M.D., 5110 Press Drive, New Orleans 22, Louisiana, is a Resident in Ophthalmology at Charity Hospital in New Orleans and will complete formal training in June. Dr. and Mrs. Wong have four children: Davis aged five, Dickie four, Liese three and the latest arrival on October 12, 1956, Naomi.

1947

Charles J. DeWan, M.D., 16 Carroll Road, North Grafton, Massachusetts, writes: "We have a bouncing nine month old son, Charles Leo DeWan."

Am now at St. Vincent Hospital in Worcester, Massachusetts, as Associate Pathologist, having left a similar position at Peter Bent Brigham in Boston the 1st of the year. I continue to teach at Harvard but only once a week now.”

Richard A. Hastings, M.D., 125 E. Pennsylvania Avenue, Ottumwa, Iowa, writes:

"I started practicing Radiology in Ottumwa in July 1951, and continued my practice here until August 1954, at which time I entered the United States Navy. I was sent to Pensacola, Florida, as Radiologist at the United States Naval Hospital and continued in that capacity for two years, being discharged from the Navy August 16, 1956.

At that time I returned to Ottumwa and resumed my practice in Radiology here. I am associated with S. F. Singer, M.D., an older practitioner, and in June 1955, W. W. Ireland, M.D., became associated with us in the practice of radiology.

We have an office in downtown Ottumwa and do the Radiology in the Ottumwa Hospital; Sunnyslope Tuberculosis Sanitarium; Jefferson County Hospital, Fairfield, Iowa; Keokuk County Hospital, Sigourney, Iowa; and St. Joseph Mercy Hospital, Centerville, Iowa.

We have four children, two boys and two girls — the boys ages are 9 and 10 and the girls ages are 3 and 6. We would certainly be happy to see anybody from Jefferson if they happen to pass through this area.”

Pritchard T. C. Lam, M.D., 450 N. 13th Street, San Jose 12, California, writes:

"Enclosed is my check for the Alumni Giving Fund Drive.

Just started into private practice on my own, and hope in the near future to be able to restrict it to surgery. Was discharged from the USNR MC after my two years hitch on December 21, 1956.”

Vincent R. Ressler, M.D., 414 Douglass Street, Reading, Pennsylvania, has been appointed Psychiatrist to the Berks County Guidance Institute, effective March 1, 1957. Dr. Ressler did advanced work in psychiatry and neurology at the Veterans Hospital in Coatesville, and received further training at the University of Pennsylvania Hospital, Temple University, Children’s Hospital, Jefferson Hospital and the Veterans Hospital, all in Philadelphia. He served in the United States Air Force from 1951 to 1953, including a tour in North Africa. After receiving his discharge, he accepted a position on the staff of the Veterans Administration in Philadelphia. He was certified in psychiatry by the American Board of Psychiatry and Neurology in 1955.
1948

WILLIAM F. HUGHES, M.D., Lt. Cdr. MC USN, St. Albans, New York, writes: "Unfortunately, the United States Navy has priority over my duty station so that I was unable to attend the annual business meeting. Enclosed is a change of address notice which indicates that my next duty station is St. Albans. Thus during the next two years, for the first time since graduation, I will be able to attend these functions."

R. ALLEN SCHOFIELD, M.D., 56 Cedar St., Pottstown, Pa., has been named the new Pathologist at Pottstown (Pennsylvania) Memorial Hospital, effective March 1st. A veteran in the field of pathology, he was certified in pathological anatomy and clinical pathology in 1955 by the American Board of Pathology. He will work on a full time basis at the hospital, but will continue to teach a half day each week at Hahnemann Hospital in Philadelphia. He was appointed as an assistant professor at the hospital January, 1956, and since that time has been an instructor and has conducted research work.

1949

ROY DECK, JR., M.D., 205 Conestoga Drive, Lancaster, Pennsylvania, finished his Radiology Residency, passed his Boards and is now associated with the X-Ray Department of St. Joseph's Hospital in Lancaster. Dr. Deck has two sons, Roy, III, and Ross. PETER EICHMAN, M.D., 1300 University Avenue, Madison 6, Wisconsin, is an Assistant Professor of Medicine at the University of Wisconsin.

HECTOR F. RODRIGUEZ, M.D., Mayor 13, Ponce, Puerto Rico, is now Chief of Medicine at the Ponce District Hospital, after serving in the Army and finishing a medical residency. Dr. Rodriguez is married and has three daughters.

SHELDON RUDANSKY, M.D., 520 Franklin Avenue, Garden City, New York, was recently made a Diplomate of the American Board of Urology, Inc.

GERARD M. SHANNON, 1434 E. Hunting Park Avenue, Philadelphia, Pennsylvania, continues as an ophthalmology resident at Wills Eye Hospital. He published a paper entitled "Effect of Diathermy on Choroidal Circulation" in the "Transactions of American Ophthalmologic Society".

HENRY KEEN SHOEMAKER, M.D., has opened an office for the practice of Neurological Surgery at 211 Livingston Avenue, New Brunswick, New Jersey.

ERWIN SMARR, M.D., 270 Trent Road, Penn Wynne, Pennsylvania, passed the American Board of Psychiatry and Neurology in April. He is Chief of In-Patient Service at the Eastern Pennsylvania Psychiatric Institute, a new Philadelphia Institution, and continues in part time practice in Bryn Mawr and as an Instructor in Neurology at Jefferson.

JOSEPH M. VALLOTTI, M.D., 721 Fulton Street, Chester, Pennsylvania, is doing General Practice in Chester and is also affiliated with the Scott Paper Company and the Bladt-Anchor Chain Company.

JOHN L. WEAVER, M.D., 1701 Grand Pueblo, Colorado, has joined the Corwin Clinic in Pueblo as a general surgeon.

JACK WEINSTEIN, M.D., announced the opening of an office at 269 S. 19th Street, Philadelphia, for the practice of Psychiatry.

RICHARD WHITTINGTON, M.D., 48 Hamilton Street, Beria, Ohio, is still atCrele as Chief of Hematology, a wonderful job with plenty of opportunities for clinical research. He presented a paper in Atlantic City last spring entitled "Pyridoxine Deficiency Anemia". Dr. Whittington is also enjoying an association with Western Reserve and their new and interesting system of medical education.

1950

JAMES R. HODGE, M.D., writes: "In March of this year I passed my Board examinations in New Orleans, and I am now certified in Psychiatry by the American Board of Psychiatry and Neurology. I am now in private practice of psychiatry at 326 S. Main Street, Akron 8, Ohio."

1951

CHARLES F. HAUSER, M.D., is a candidate for mayor of Fort Edward, New York. Dr. Hauser served two enlistments in the United States armed forces. He was in the United States Navy from 1943 to 1945 and in the United States Army from 1951 to 1953. He is a member of the Medical Society of the State of New York and the Glens Falls Academy of Medicine. Dr. Hauser, his wife and two children reside at 261 Broadway, Fort Edward, New York.
months on Okinawa. I had the pleasure of meeting one of my classmates, Joseph Blackburn, on Okinawa. He is stationed at the Naha Air Base on Okinawa. I also heard, via the grapevine, that another classmate, Eugene Rightmyer, only recently arrived on Okinawa. I was not able to see him due to my transfer to Japan. Jefferson seems well represented in the Naval Medical Corps. I am now located at the base of Mt. Fuji.

Enclosed is my contribution to the Annual Giving Fund."

Gerald F. Clair, M.D., son of Dr. Philip S. Clair, '26, who is presently interning at the Albert Einstein Medical Center, York & Tabor Roads, Philadelphia, Pennsylvania, will begin a three years residency in Obstetrics and Gynecology, beginning July 1, 1957.

Anthony F. Merlino, M.D., 52 Plenty Street, Providence, Rhode Island, writes: "I was very much interested to see that a recent Rhode Island Hospital Bulletin published the names of 19 Jefferson Alumni who are presently serving as house officers or are on the attending staff and that this fact was made mention of in the latest Jefferson Alumni Bulletin.

St. Joseph's Hospital, also in Providence, a smaller hospital than the Rhode Island Hospital, presently has 15 Jefferson Alumni on its Staff, of whom it is equally proud, despite the fact that it does not publish a regular Bulletin. A list of these men with their specialty noted is given below:

Francis L. Burns, M.D., '30, ENT
William P. Shields, M.D., '34, Pediatrics
Edward Strecker, M.D., '24, Pediatrics
John Strecker, M.D., '30, Genito-Urology
Frederick R. Riley, M.D., '31, Allergy
Joseph A. Hindle, M.D., '40,
  Internal Medicine
Ferdinand Forgie, M.D., '41,
  Genito-Urology
George H. Taft, M.D., '41, Pediatrics
Edward A. Casey, M.D., '45,
  Internal Medicine (Diseases of Chest)
Francis L. McNelis, M.D., '45, ENT
Vito L. Coppa, M.D., '46,
  Obstetrics-Gynecology
Raymond H. MacAndrew, M.D., '47,
  Genito-Urology
Thomas F. Head, M.D., '49,
  Obstetrics-Gynecology
Anthony F. Merlino, Jr., M.D., '56,
  Internes

My wife and I both enjoyed the Black and Blue Ball last month and it was especially nice seeing once again many of the members of Jefferson's newest Alumni. I am now looking forward to the completion of my internship in July, at which time I will go on active duty with the United States Air Force."

---

A.M.A. CONVENTION

June 3-7, 1957
New York City, N. Y.

Dinner of The Alumni Association

The Jefferson Medical College

Wednesday, June 5, 1957

The Coliseum

Dr. Daniel C. Baker, '33
Chairman

---

1930

GEORGE RANDOLPH NICHOLLS was born February 15, 1957. Mrs. Nicholls is the former Miss Sylvia Yamalaki of Norfolk, Virginia. The baby's father, Dr. Richard B. Nicholls, is Director of Obstetrics and Gynecology at the Norfolk General Hospital where the baby was born.

1944-J

DR. AND MRS. BENJAMIN ELY COLE, JR., 10 Second Street, Pittsfield, Massachusetts, announce the birth of a daughter, Juliette Anthony, March 20, 1957.

1956

DR. AND MRS. GERARD F. CLAIR announce the birth of a daughter, Lynor, born December 8, 1956.

DR. AND MRS. PHILIP S. GREEN are the proud parents of a baby girl, Lisa Susan, born April 6, 1957. Dr. Green is presently interning at Newark Beth Israel Hospital, Newark, New Jersey. He advises us that he expects to remain in Newark for the next three years where he will be taking an Obstetric-Gynecology Residency at Marland Medical Center's new 700 bed hospital.

---

ENGAGEMENTS AND WEDDINGS

1927

DR. AND MRS. SAMUEL M. DODEK of 2930 Woodland Drive, N.W., Washington, D. C., have announced the engagement of their daughter, Marie Anne, to Dr. Albert Martin Lerner of St. Louis, Missouri. Dr. Lerner is a graduate of Washington University, School of Medicine, and is at the present time on the Staff of the National Institutes of Health in Bethesda, Maryland. A summer wedding is planned.

1949

DR. AND MRS. FRANK F. JANI, 335 Grove Street, Clifton, New Jersey, announced the engagement of their daughter, Mary, to Dr. Stanley J. Gusciora, son of Mrs. Michael Gusciora, 301 Lexington Avenue, Passaic, New Jersey, and the late Mr. Gusciora. A fall wedding is planned.
JEFFERSON GRADUATES IN FOREIGN COUNTRIES

Dr. Pyn Noyes Muangman

Among Jefferson’s distinguished Alumni residing and working in foreign countries is Dr. Pyn Noyes Muangman, a graduate in the Class of 1926, who is presently Professor and Head of the Department of Radiology, and Dean of the Faculty of Medicine and Siriraj Hospital at the University of Medical Sciences in Bangkok, Thailand. Dr. Muangman has been in the latter position since 1945.

The University of Medical Sciences was founded in 1889 and has a total enrollment of some six hundred students. There is no tuition fee, and the course is of four years duration, with the Degree of Bachelor of Medicine being conferred upon graduation. Classes are conducted in the Thai and English languages.

Bangkok itself is the chief city and port of Thailand, being situated on the East Bank of the Menan Chao Phya River. At one time canals were its chief thoroughfares and still carry considerable traffic.

The Royal Palace, in a bend of the river, is colorful and typically Thai, but imposing government office buildings are in Western Style. A strong municipal government administers Bangkok and police, public health and education are well provided for.

About 70 per cent of Thailand’s foreign trade passes through the port of Bangkok, and the Menan Chao Phya Valley is one of the world’s great rice exporting areas. Sawmills prepare teakwood for export, and there are match, soap and other factories.

The Don Muang Airport is one of the largest and best equipped in Southeast Asia and large airlines on frequent schedules connect Bangkok with Europe, Singapore, Indo-China and Japan.

The government of Thailand has been taking an increasingly active interest in education, and Dr. Muangman served as Chairman of the First Thai National Conference on Medical Education which was held in 1956 under the auspices of the International Cooperation Administration, The China Medical Board of New York, Incorporated, and the Government of Thailand. The First Indian National Conference on Medical Education was held in New Delhi, India in 1955 and Dr. Muangman attended.

Since 1943 Dr. Muangman has traveled extensively. In that year he was the Chief Delegate to the Medical Mission to China: in 1950 he was a Delegate to the International Cancer Congress in Paris, and in the same year was a Delegate to the International Congress of Radiology in London and toured the Medical Schools and Radiological Clinics in Great Britain, Holland, Denmark, Sweden, Belgium and Switzerland. In 1953 Dr. Muangman was a Delegate to the First World Conference on Medical Education in London and in the same year toured the Medical Schools of the United States as a guest of the Government.

Dr. Muangman’s wife, Chamnong Viravaidya Muangman, is a registered nurse, having graduated from the Children’s Hospital in Boston, Massachusetts, and the Teacher’s College of Columbia University. She is now the Director of Nursing Education at the University of Medical Sciences in Bangkok.

The Muangmans have four children. The oldest boy, Debhanom Muangman, is now a junior at Grinnell College in Iowa and hopes to enter Jefferson upon completion of his college training. The only daughter, Bachneeban Muangman, has just grad-
uated from high school, and may go to Switzerland in the Fall of 1957 to study languages and literature. The youngest of their children are twin boys, Bongse-Pyn and Bandhu-Pyn Muangman, who are now juniors in high school. They may at a future date go to Germany to study medicine.

In addition to his many duties as a Dean and Professor of the University, and the demands on his time and energy as a Delegate to various Medical and Educational Conferences, Dr. Muangman is a member of the General Medical Council and of the Medical Research Council of Thailand: a member of the National University Council of Thailand, Chairman of the Subcommittee on the Medical and Pharmaceutical uses of Radioactive Isotopes, Atomic Energy Committee of Thailand.

With all his varied interests, Dr. Muangman finds time to devote to his coconut plantation and to his hobby of orchid raising.

**CARLOS FINLAY BOOKLET READY**

The proceedings of the Carlos Finlay celebration have been published in a booklet under the title, "Yellow Fever. A Symposium in Commemoration of Carlos Juan Finlay.” A number of copies have been reserved for alumni who may be interested in this matter and may be obtained, without charge, upon request to the Alumni Office.

**TRI-CITY MEETING OF OBSTETRICAL SOCIETIES HELD AT JEFFERSON**

The Tri-City Meeting of the Obstetrical Societies of Philadelphia, New York and Boston was held at the Jefferson Medical College on Tuesday, April 9, 1957. DOCTORS THADDEUS L. MONTGOMERY, JOHN B. MONTGOMERY, ROY W. MOHLER, MARIO A. CASTALLO, GEORGE A. HAHN and AMOS WAINER discussed "Gynecologic Operations.”

The Didactic Program included the following:

(a) DRs. DAVID M. FARRELL and BERNArd J. MILLER: Chemotherapy in Advanced Carcinoma

(b) DR. ABRAHAM E. RAKOFF: Clinical Experiences with New Progestational Hormones

(c) DR. WARREN R. LANG: Specific Microbiologic Diagnoses in Vaginal Infections

(d) DR. C. BRINLEY BLAND: Experiences in the Cardiac Obstetric Clinic

From 11:30 until Noon there were tours through the new Obstetric and Gynecologic Laboratories, there Demonstrations of Problems of Carcinoma in Situ were presented by

DR. JACOB HOFFMAN — Histologic
DR. FELIX M. DE NARVAEZ — Cytologic

and through the new Radiotherapy Department, headed by DOCTORS SIMON KRAMER and JOSEPH CONCANNON.

**STAFF MEMBERS PARTICIPATE IN INSTITUTE**

Four members of the staff of The Jefferson Medical College participated in the 27th Annual Health Institute of the Woman’s Auxiliary to the Philadelphia County Medical Society on Thursday, April 4, 1957, in Philadelphia.

The theme for the Institute was “Keep Up With Medicine,” and PAUL J. POINSARD, M.D., Associate Professor of Psychiatry, spoke on "The Use and Abuse of Tranquilizing Drugs in Mental Illness."

In the afternoon session GARFIELD G. DUNCAN, M.D., Professor of Clinical Medicine, C. WILMER WIRTS, M.D., Associate Professor of Medicine of the Division of Gastroenterology, and BALDWIN L. KEYES, M.D., Professor and Head of the Department of Psychiatry, participated in a panel discussion on "Obesity," with Dr. Duncan serving as Moderator.

**COLLEGE OFFICE SUPERVISOR ATTENDS DENVER MEETING**

As she has done for several years, Miss Marjorie E. Windt, Supervisor of the College Office, represented Jefferson Medical College at the 43rd Annual Meeting of the American Association of Collegiate Registrars and Admissions Officers on April 23, 24, 25 and 26, 1957. The meeting was held this year in Denver, Colorado. Miss Windt was selected to act as Recorder for the final afternoon session of the Conference.
**ALUMNI PLACEMENT BUREAU**

**POSITIONS AVAILABLE**

Wanted: A well-trained Obstetrician-Gynecologist who is either board eligible or board certified is needed at a clinic in Madisonville, Kentucky. Its membership comprises a total of thirteen doctors, eleven of whom are partners at present. The clinic is situated in a town of 15,000 people.

Wanted: Opening at Memorial Hospital in Roxborough, Philadelphia, Pennsylvania, for a chief in the department of Obstetrics and Gynecology. Must be board certified. Excellent opportunity

Wanted: Vacancy in the Department of Obstetrics and Gynecology at the State University of Iowa. A doctor with some experience beyond his residency, who is inclined toward an academic career in medicine and who has some aptitude for research, may obtain a position of an Assistant Professor.

With no experience beyond residency, he could obtain a position at the level of an associate. Ample opportunities and facilities available.

Wanted: Permanent position available for a well-trained Gynecologist-Obstetrician to practice in Staten Island, New York City, in association with another Board man in this specialty and with a large staff of qualified specialists and family physicians. The remuneration and future possibilities are very attractive.

Wanted: The Southern Nevada Medical Group of Las Vegas, Nevada, is interested in a good Board Eligible or Certified Obstetrician and Gynecologist. This would be a group practice with a good starting monthly salary, later becoming a junior and then senior partner in the organization.

---

**PLEASE NOTE CORRECTION**

In the March Bulletin, page 53, under Openings for Residents, the date given for the Department of Obstetrics and Gynecology should have read July 1, 1958 and not July 1, 1957.

---

**MEDICAL SOCIETY MEETING**

Doctors Warren R. Lang and Abraham E. Rakoff together with Dr. Joseph G. Stella presented an exhibit at the meeting of the Medical Society of New Jersey, held in Atlantic City, New Jersey, April 27th to May 1st, 1957, on "Diagnosis and Treatment of Various Forms of Vaginitis."

**DR. DE MEDEIROS TO RETURN TO BRAZIL**

Dr. Algy de Medeiros, of Rio De Janeiro, Brazil, has completed his work here as a Research-Fellow in the Jefferson Medical College Vascular Clinic, and will soon be leaving Philadelphia.

Dr. Medeiros extends his thanks to the staff of the College for the consideration he has received during his tenure at Jefferson, and will be most happy to see any of his American friends should they find it possible to visit Brazil.

**RECENT OUT-OF-TOWN VISITORS TO THE ALUMNI OFFICE**

Dr. Harry Weiss, 1907, Pittsburgh, Pennsylvania
Dr. Marshall C. Rumbaugh, 1908, Kingston, Pennsylvania
Dr. Ulrich P. Horger, 1916, Taylor, Pennsylvania
Dr. George J. Boines, 1929, Wilmington, Delaware
Dr. Morton J. Crow, 1933, Warren, Ohio
Dr. Jacob G. Hyman, 1934, Wilkes-Barre, Pennsylvania
Dr. William P. Kenworthy, Jr., 1934, Atglen, Pennsylvania
Dr. Donald B. Lewis, 1950, Forty Fort, Pennsylvania
